## ELIMINATE MANUAL SCANNING AND DATA ENTRY FOREVER.

The KV-SS1100 does away with desktop PCs, manual scanning and data entry. With the KV-SS1100, files are sorted, edited, auto-scanned and filed to various folders based on customizable presets — such as billing, human resources, accounts payable or claim adjustments. Ideal for healthcare, insurance, banking, mortgage companies and more, the KV-SS1100 gives you the freedom to choose the scanner that fits your workflow, automation and productivity needs.

## ONE PARTNER. ONE SOLUTION.

Panasonic is your one-stop shop for all your Document Management and Imaging needs before, during and after installation. Offering a seamless integrated solution, superior cost efficiency and increased ROI, we configure your Document Management and Imaging system to best fit your needs and budget while collaborating with the best third-party partners in the business. Plus, the Panasonic product warranty and service network ensure your system continuously performs to its highest capabilities for years to follow.
