

**Swede-Atsu Companion™  
Massage Lounger**  
EP1273KL/TL

**“Advanced Massage  
Technology since 1969”**

- Contemporary Design with high-quality leather upholstery
- 8 Massage Modes & 4 Pre-programs plus  
3 Pre-programs with neck and lower back focus
- Float Massage Mechanism for smooth wrist movements
- 135 Square Inches of Massage Coverage
- Air Ottoman System

**WEDEATSU™**

**Panasonic ideas for life**

The Swede-Atsu Companion™ is a sophisticated contemporary leather massage chair that features both strong Shiatsu and smooth Swedish styles of massage, in addition to advanced calf air massage technology.

**Benefits of Panasonic Chair Massage**

- Relaxes muscles
- Stimulates acupoints for increased energy flow
- Temporarily increases circulation
- Reduces swelling of legs with air massage

**Air Ottoman System**

Featuring a dual-use air system ottoman, for a more complete, contoured lower body massage:

**Calves** - kneading and loosening of the shins and calf muscles

**Stretch System**

Lower back/hips/thighs stretch massage function alleviates stiffness.

**Float Mechanism**

Simulates the movements of a rotating wrist for an amazingly life-like massage. This outstanding feature lets the Panasonic Swede-Atsu Companion™ perform various massage actions.

**8 Basic Massage Modes**

**Swedish** – gentle pressure using 2 rollers to simulate the palms of hands

**Shiatsu** – strong deep-tissue pressure and stretching using 2 massage heads

**Knead** – firm kneading especially effective on neck and shoulders

**Hawaiian** – gentle rubbing motion across the back

**Percussion** – deep-pressure massage that stimulates acupoints

**Compression** – firmer rubbing motion across the back

**Tapping** – invigorating sensation of hands rapidly tapping on back muscles

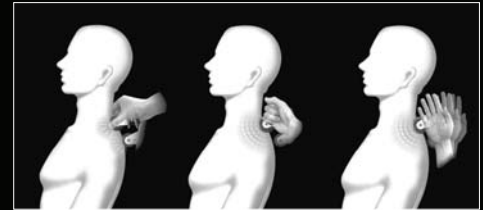

**Rolling** – muscles are gently stretched as massage heads move up and down along the back

**Remote**

Easy-to-use remote allows for complete personalized massage at the touch of a button.

**Realistic Massage Therapist Techniques**

Using 2 or 4 firm rubber massage heads, the Panasonic Swede-Atsu Companion™ accurately simulates stroking with the palm of hand, pressing with the heel of the hand, kneading with thumbs and pressure with thumbs.
