Safety Precautions

Warning

Handling the mains plug and lead

- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
 - Do not move the TV with the lead plugged in the socket outlet.
 - Do not place a heavy object on the lead or place the lead near a high-temperature object.
 - Do not twist the lead, bend it excessively, or stretch it.
 - Do not pull on the lead. Hold onto the mains plug body when disconnecting lead.
 - Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

**AC 220 - 240 V
50 / 60 Hz**

Power source / Installation

This TV is designed for:

- AC 220 - 240 V, 50 / 60 Hz
- Indoor use

Do not insert foreign objects into the TV

- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not remove covers and NEVER modify the TV yourself

- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not place the TV on sloped or unstable surfaces

- The TV may fall off or tip over.

Do not expose to rain or excessive moisture

- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Use only the dedicated pedestals / mounting equipment

- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 6) / wall-hanging brackets (p. 7).

Do not expose to direct sunlight and other sources of heat

- Avoid exposing the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

Do not allow children to handle SD Card

- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.

■ Install TV on a stable surface

If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television.
- Only using furniture that can safely support the television.
- Ensuring the television is not overhanging the edge of the supporting furniture.
- Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
- Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television or its controls.

■ When cleaning the TV, remove the mains plug

- Cleaning an energized TV may cause electrical shock.

■ When the TV is not going to be used for a long period of time, remove the mains plug

- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

■ Transport only in upright position

- Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

■ Allow sufficient space around the TV for radiated heat

Minimum distance

- When using the pedestal, keep a space between the bottom of the TV and the surface where the TV is set.
- In case of using Wall-hanging bracket, follow the manual of it.

■ Do not block the rear air vents

- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

■ Do not apply strong force or impact to the display panel

- This may cause damage resulting in injury.

■ Do not expose your ears to excessive volume from the headphones

- Irreversible damage can be caused.

■ The TV is heavy. Handle the TV by 2 or more people.

Support as shown to avoid injury by the TV tipping or falling.

■ Auto power standby function

- The TV will automatically go to Standby mode in the following conditions:
 - no signal is received and no operation is performed for 30 minutes in Analogue TV mode
 - "Off Timer" is active (p. 14)
 - no operation is performed for the period selected in "Auto Standby" (p. 37)
- This function does not affect One Touch Recording.

■ Keep the TV away from these types of equipment

- Electronic equipment
In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.
- Equipment with an infrared sensor
This TV also emits infrared rays. This may affect operation of other equipment.

Do not display a still picture for a long time

This causes the image to remain on the plasma screen ("image retention"). This is not considered a malfunction and is not covered by the warranty.

Typical still images

- Programme number and other logos
- Image displayed in "4:3" mode
- Video game
- Computer image

To prevent image retention, contrast is lowered automatically after a few minutes if no signals are sent or no operations are performed. (p. 83)

Accessories / Options

Attaching the pedestal

Warning

Do not disassemble or modify the pedestal.

- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

Do not use the pedestal for any other TV or displays.

- Otherwise the TV or the display may fall over and become damaged, and personal injury may result.

Do not use the pedestal if it becomes warped or physically damaged.

- If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

During set-up, make sure that all screws are securely tightened.

- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Ensure that the TV does not fall over.

- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.

- If two or more people are not present, the TV may be dropped, and personal injury may result.

Assembling the pedestal

Use the assembly screws (A) to fasten the poles (C) to the base (D) securely.

- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

Securing the TV

Insert the pole into the TV, and then fasten securely with the assembly screws (B).

- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

- "L" or "R" mark is stamped on the bottom of the pole.

- Use the allen wrench (E) to tighten the screws.

Preventing the TV from falling over

This TV could fall over if it is pushed, pulled or knocked down.

We therefore recommend the TV is secured to the furniture as illustrated.

- This measure is designed to reduce the risk of injury from a falling TV. However, it cannot guarantee protection in all cases.

Fall-prevention parts

Securing to a furniture

Fix pedestal and furniture together with band.

● This image is for illustrative purposes only.

Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

- ☐ 3D Eyewear set
 - TY-EW3D10W

- If you need 3D Eyewear additionally, please purchase this optional accessory.

- ☐ Wireless

LAN Adaptor
● DY-WL10E-K

Caution

- To use the Wireless LAN Adaptor, your network needs to have a Wireless Access Point.
- It is recommended to use the Wireless LAN Adaptor with the extension cable.
- To avoid radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor. Otherwise malfunction may occur.
- This optional accessory may not be available in your market region.
- Additional information for Wireless LAN Adaptor and Wireless Access Point may be found at the following web site. (English only)
<http://panasonic.jp/support/global/cs/tv/>

- ☐ Communication Camera
 - TY-CC10W

Caution

- This camera can be used on VIERA CAST (p. 68).
- Please also read the manual of the camera.
- Depending on the area, this optional accessory may not be available. For details, consult your local Panasonic dealer.

- ☐ Wall-hanging bracket

minimum 15 mm
(TH-P54VT20A)
(TH-P58VT20A)
minimum 14 mm
(TH-P65VT20A)
maximum 30 mm

[View from the side]

- a: 684 mm (TH-P65VT20A)

Warning

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit's performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

Basic Connection

External equipment and cables shown are not supplied with this TV.

Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.

There are some restrictions on placement for viewing 3D images. For details ➔ p. 22 and p. 27

Connecting aerial

TV only

Note

- Do not put the RF cable close to the mains lead to avoid noise.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- VIERA Link connection ➔ p. 69
- Other equipment connection ➔ p. 74, 75 and p. 84
- Read the manual of the equipment, too.

Note

- Only "16:9" and "4:3 Full" are available in Digital TV mode.
- Only "16:9" and "4:3" are available in PC input mode.
- Aspect is fixed to "16:9" when "Viewing Mode" is set to "Game" in the Picture Menu.
- Not available in teletext service and 3D images.
- Aspect mode can be memorized separately for each SD (Standard definition) and HD (High definition) signals except in Digital TV mode.

Region Select Adjust the standard time

Select the region where you live to adjust the standard time.

- The time contained in the broadcast signal is UTC (Universal Time coordinated) formally known as GMT (Greenwich Mean Time).

Daylight Saving Time Adjust for Summer Time

Select time offset from the standard time for Summer Time.

- Normally select "Auto".
- If there is a gap between displayed time and actual time, set this function.

Region	Standard time	Daylight Saving Time: Auto (During Summer Time)
NSW / ACT	+10:00	+11:00
Victoria		
Queensland	+10:00	
South Australia	+9:30	+10:30
Western Australia	+8:00	
Northern Territory	+9:30	
Tasmania	+10:00	+11:00

(Based on GMT)

- These items can be set from "Other settings" in the Setup Menu. (p. 37)

Using TV Guide

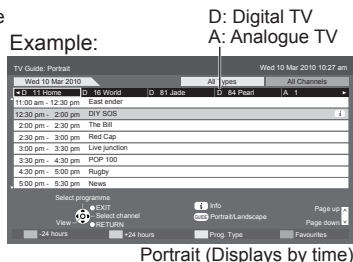

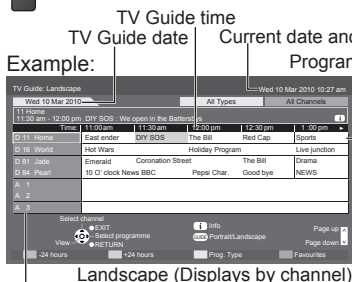

Using TV Guide enables you to select a programme easily, view programme information, etc. TV Guide—Electronic Programme Guide (EPG) provides an on screen listing of the current and future programmes over the next seven days depending on broadcasters.

Digital TV and Analogue TV channels are displayed on the same TV Guide screen. “D” means Digital TV channel and “A” means Analogue TV channel. There will be no programme listings for Analogue TV channels.

- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before the TV Guide is completely shown.

Viewing Teletext

Teletext services are the text information provided by the broadcasters.
The features may vary depending on the broadcasters.

What is FASTEXT mode?

In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (In case of TOP text broadcasting)

TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.

- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen

Available page up / down ➡

To select among subject blocks ➡

To select next subject within the subject block

(After the last subject, it moves to the next subject block.) ➡

What is List mode?

In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. ("Store frequently viewed pages" ➡ p. 19)

To change mode ➡ "Teletext" in the Setup Menu (p. 36)

1 Switch to Teletext

● Displays Index (content varies depending on the broadcasters)

Example (AV2)

- If the external equipment has an aspect adjustment function, set to "16:9".

Example (PC)

- You can also listen to PC sound with the audio cable connected. (To connect ➔ p. 74 and p. 75)
- You can setup some functions
 - ➔ PC Setup (p. 35) in the Setup Menu and Advanced Picture Settings (p. 42).
- For HDMI-compatible PC (p. 77 and p. 78), possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3 / HDMI4) by using HDMI cable.

To return to TV

Operating the equipment with the TV remote control

The equipment connected to the TV can be directly operated with the below buttons of this TV remote control.

	BD/DVD / TV switch* Switch to BD/DVD to operate Panasonic DVD Recorder, DVD Player, Player theatre, Blu-ray Disc theatre or VCR Switch to TV to operate USB HDD Recording, Media Player or VIERA Link equipment ➔ "USB HDD Recording" (p. 50) ➔ "Media Player" (p. 56) ➔ "VIERA Link Control" (p. 72)
	Standby Set to Standby mode / Turn on
	Play Playback videocassette / DVD
	Stop Stop the operation
	Rewind / Skip / Search VCR: Rewind, view the picture rapidly in reverse DVD / video content: Skip to the previous track or title (not available for the operation of USB HDD Recording) Press and hold to search backward
	Fast-forward / Skip / Search VCR: Fast-forward, view the picture rapidly forward DVD / video content: Skip to the next track or title (not available for the operation of USB HDD Recording) Press and hold to search forward
	Pause Pause / Resume DVD: Press and hold to play at slow speed
	Programme Up / Down Select programme
	Record Start recording

*Setting your remote control to operate Panasonic VCR, DVD, etc.

- ① Switch to BD/DVD ➔ 
 ② Press and hold  during the following operations

Enter the appropriate code
 See table below

 ➔ Press 

Type of equipment	Code
DVD Recorder / DVD Player	70 (default)
Player theatre / Blu-ray Disc theatre	71
VCR	72

Note

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.

Viewing 3D images

You can enjoy viewing 3D images with contents or programmes corresponding to the 3D effect by wearing the 3D Eyewear (supplied).

This TV supports "Frame Sequential*1", "Side by Side*2" and "Top and Bottom*3" 3D formats.

*1: The 3D format that the images for the left and right eyes are recorded with the high definition quality and alternately played back

*2, *3: Other available 3D formats

● How to use the 3D Eyewear ➔ p. 23 - 25

● How to view the 3D images ➔ p. 26

Warning

Small Parts

- 3D Eyewear contains small parts (battery and specialised band, etc.) and must be kept out of reach of small children to avoid accidental ingestion.

Disassembly

- Do not disassemble or modify the 3D Eyewear.

Lithium Battery

- Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Caution

To enjoy 3D images safely and comfortably, please read these instructions fully.

3D Eyewear

- Do not drop, exert pressure on, or step on the 3D Eyewear.
 - Always store the 3D Eyewear in the case provided when not in use.
 - Be careful of the tips of the frame when putting on the 3D Eyewear.
 - Be careful not to trap a finger in the hinge section of the 3D Eyewear.
 - Pay special attention when children are using the 3D Eyewear.
 - 3D Eyewear should not be used by children younger than 5 - 6 years old, as a guideline.
- All children must be fully supervised by parents or guardians who must ensure their safety and health throughout the using 3D Eyewear.

Viewing 3D Content

- Do not use the 3D Eyewear if you have a history of over-sensitivity to light, heart problems, or have any other existing medical conditions.
 - Please stop using the 3D Eyewear immediately, if you feel tired, are not feeling well or experience any other uncomfortable sensation.
 - Take an appropriate break after viewing a 3D movie.
 - Take a break of between 30 - 60 minutes after viewing 3D content on interactive devices such as 3D games or computers.
 - Be careful not to strike the TV screen or other people unintentionally. When using the 3D Eyewear the distance between the user and screen can be misjudged.
 - The 3D Eyewear must only be worn when viewing 3D content.
 - If you do not look toward the TV screen for a while when viewing 3D images, the 3D Eyewear may be turned off automatically.
 - If you suffer from any eyesight problems (short / far-sighted, astigmatism, eyesight differences in left and right), please ensure to correct your vision before using the 3D Eyewear.
 - Stop using the 3D Eyewear if you can clearly see double images when viewing 3D content.
 - Do not use the 3D Eyewear at a distance less than the recommended distance.
- The recommended viewing distance is 3 times of image height.
TH-P54VT20A: 2.0 m or more / TH-P58VT20A: 2.3 m or more / TH-P65VT20A: 2.4 m or more
When the top and bottom area of the screen is blackened, such as movies, view the screen at a distance 3 times further than the height of the actual image. (That makes the distance closer than above recommended figure.)

3D Eyewear Use

- Before using the 3D Eyewear, ensure no breakable objects surrounding the user to avoid any accidental damage or injury.
- Remove the 3D Eyewear before moving around to avoid falling or accidental injury.
- Always put the 3D Eyewear in the case (supplied) after use.
- Use the 3D Eyewear only for the intended purpose and nothing else.
- Do not use 3D Eyewear in the condition of high temperature.
- Do not use if the 3D Eyewear is physically damaged.
- Do not use any devices that emit the infrared signals near the 3D Eyewear, as this may cause the 3D Eyewear false operations.
- Do not use devices (such as mobile phones or personal transceivers) that emit strong electromagnetic waves near the 3D Eyewear as this may cause the 3D Eyewear to malfunction.
- Stop using the 3D Eyewear immediately if a malfunction or fault occurs.
- Stop using the 3D Eyewear immediately if you experience any redness, pain, or skin irritation around the nose or temples.
- In rare cases, the materials used in the 3D Eyewear may cause an allergic reaction.

Lithium Battery

- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

3D Eyewear

3D Eyewear set
● TY-EW3D10W

- 3D Eyewear can be worn over vision correction glasses.

Part names and functions

Battery cover

- When using for the first time, remove the insulating sheet.

- To replace the battery ➔ "Replacing the battery" (p. 24)

Infrared receiver

Receives infrared signals from the TV.

- 3D Eyewear is controlled by receiving infrared signals from the TV, which allows you to view 3D images.

Note

- Do not soil the infrared receiver section or attach stickers etc. to it.

Nose pad installation section

If required, attach the nose pad.

- To attach the nose pad ➔ "Attaching the nose pad" (p. 25)

Specialised band attaching parts

If required, attach the specialised band.

- To attach the band
➔ "Attaching the specialised band" (p. 25)

Lenses - Liquid Crystal Shutter

Controls the images for 3D viewing.

- The left and right liquid crystal shutters are alternately opened and closed in time with the images on the TV screen to achieve the 3D effect.

Note

- Do not apply pressure to or scratch the surface of the liquid crystal shutter.

Power button of the 3D Eyewear

(bottom side of the 3D Eyewear)

Switches the 3D Eyewear on or off.

- Press the button for about 1 second to turn the power on. The indicator lamp lights for about 2 seconds and then goes off.
- To turn the power off, press the button for about 1 second again. The indicator lamp flashes 3 times, then the 3D Eyewear turns off.

Note

- If the 3D Eyewear does not receive any signals from the TV for about 5 minutes, the 3D Eyewear will be turned off automatically.

Viewing 3D images

Replacing the battery

When the battery is running low, the indicator lamp flashes 5 times on turning the 3D Eyewear on. In this case, early battery replacement is recommended.

- Dispose of the old batteries as non-burnable rubbish, or in line with the waste disposal regulations in your local area.

- ① Loosen the screw and remove the battery cover using the supplied screwdriver

- ② Replace the battery

- Use the specified type of battery (coin-shaped lithium battery CR2032).
- Note the correct polarity (+ or -).

- ③ Replace and fasten the battery cover

- Make sure that the screw is tightened.

Attaching the nose pad

Use either nose pad A or B for your preference.

- If you put the 3D Eyewear on vision correction glasses, the nose pad is recommended to be removed.
- You can select the positions of the nose pad A from the 2 levels of height. Use upper 2 protrusions or lower 2 protrusions on the 3D Eyewear to attach the nose pad A.
- Use all 3 protrusions on the 3D Eyewear to attach the nose pad B.

Attaching the specialised band

If the 3D Eyewear slips out of place, use the supplied specialised band to hold it in place.

- Attach the band to the left and right tips of the frame, and adjust the length.

When the end of the specialised band is straightened, form a loop at the end of the band, and fix the twisted part.

- Treat the rubber part carefully not to break it.

Storing and cleaning the 3D Eyewear

- Use the supplied 3D Eyewear case to store the 3D Eyewear.
- Avoid storing the 3D Eyewear in hot or highly humid locations.
- Use a clean, soft and dry cloth to wipe the 3D Eyewear. Otherwise, dirt or dust may scratch the eyewear.
- Do not use benzene, thinner, or wax on the 3D Eyewear, as doing so may cause the paint to peel off.
- Do not submerge the 3D Eyewear in liquid such as water when cleaning.

Viewing 3D images

To view the 3D images

To view the contents of the Frame Sequential format (ex. 3D-compatible Blu-ray Disc, etc.) with 3D effect

Connect the 3D-compatible player via an HDMI cable (p. 9, 74 and p. 75) and playback the contents.

- Use fully wired HDMI compliant cable.
- For the settings of the player, read the manual of the player.
- If input mode is not switched automatically, select the input mode connected to the player (p. 20).
- If you use the non 3D-compatible player, the images will be displayed without 3D effect.

To view the contents or programmes of “Side by Side” or “Top and Bottom” with 3D effect

Select suitable picture format in “3D Picture Format” (p. 29) before viewing.

- You can view the contents with 3D effect even if you use the non 3D-compatible player.
- Please consult the suppliers of contents or programmes for availability of this service.
- You can also watch 3D programmes recorded to the registered USB HDD with 3D effect by Media Player (p. 48 and p. 57).

① Turn the 3D Eyewear on

- Press the power button on the 3D Eyewear for about 1 second. (p. 23)

② Put on the 3D Eyewear

- If the 3D Eyewear slips out of place, hold it in place using the specialised band, and adjust the length of the band. (p. 25)

③ Watch the 3D images

- Safety precautions will be displayed on the first 3D image detection. Select “Yes” or “No” to continue to view 3D images.

If you select “Yes”, this message will be displayed again in the same condition after Mains power On / Off switch is next turned On. Select “No” if you do not wish to display this message again.

Example:

Safety Precautions	
To enjoy 3D images safely and comfortably, please read the Operating Instructions fully.	
Please stop using the 3D Eyewear immediately, if you feel tired, are not feeling well or experience any other uncomfortable sensation.	
Always put the 3D Eyewear in the case provided after use.	
Would you like to display this message again later?	
Yes	No

To turn the 3D Eyewear off

After using the 3D Eyewear, press the power button on the 3D Eyewear for about 1 second to turn it off. (p. 23)

Note

- The 3D image or 3D effect is not available while VIERA CAST home screen (p. 68) is displayed. As for the contents of the Frame Sequential format, no images will be displayed in this condition.
- If the room is lit by fluorescent lights (50 Hz) and light appears to flicker when using the 3D Eyewear, switch off the fluorescent light.
- 3D content will not be correctly visible if the 3D Eyewear is worn upside down or back-to-front.
- Do not wear the 3D Eyewear when watching anything other than 3D images. Liquid crystal displays (such as computer screens, digital clocks or calculators, etc.) may be difficult to see while wearing the 3D Eyewear.
- Do not use the 3D Eyewear as sunglasses.
- 3D effects may be perceived differently depending on the person.

Available range for the 3D Eyewear

If the 3D Eyewear is placed outside the available area for about 5 minutes, the 3D Eyewear will be turned off automatically.

● : Available area to use the 3D Eyewear

Note

- The range may be shortened depending on the obstacles between the infrared sensors on the TV and the 3D Eyewear, the dirt of the infrared sensors or the surrounding environment.
- If you do not look toward the TV screen for a while when viewing 3D images, the 3D Eyewear may be turned off automatically even if in the available area.

Viewing 3D images

3D Settings

If the 3D images are not displayed correctly or seem unusual, please adjust and setup the 3D settings.

1 Display the menu

2 Select "Setup"

3 Select "3D Settings"

- You can also access 3D Settings menu directly by using VIERA TOOLS.

➔ "How to use VIERA TOOLS" (p. 30)

4 Select one of the following functions and set (see next page)

To return to TV

3D Picture Display (2D / 3D)

Sets the TV to 3D or 2D mode

- Select "2D" to view 3D picture in 2 dimensional without wearing the 3D Eyewear.

3D Picture Format (Auto / Side by Side / Top and Bottom / Original)

Selects 3D picture format to suit the format of the source signal

- When receiving the Frame Sequential format (ex. playback of the 3D-compatible Blu-ray Disc with the 3D-compatible player) via an HDMI cable, the 3D images will be displayed correctly regardless of the setting of "3D Picture Format". (when "3D Picture Display" is set to "3D")

Auto (default) : 3D images are automatically displayed according to the signal.

- This is available when the 3D-compatible player is connected via an HDMI cable.
- This mode may not work properly depending on the signal. In this case, select the appropriate picture format.

Side by Side / Top and Bottom : One of the formats of the 3D standard

- Select these formats as necessary.

Original : Displays the input signal as it is.

- Use to identify the format type of the input signal.

Table of images that can be seen for each 3D Picture Format and the input signal format

If the picture appears to be abnormal, refer to the table below to choose the correct 3D picture format setting.

3D Picture Format Input signal format	Auto	Side by Side	Top and Bottom	Original
Side by side	 *1	 Normal*2		
Top and bottom	 *1		 Normal*2	
Normal format (2D)	 Normal			 Normal

*1 When the input signal is not recognized correctly

*2 When "3D Picture Display" is set to "3D", the images will be displayed with 3D effect. When set to "2D", displayed without 3D effect.

- Depending on the player or broadcasts, the image may be different from the above illustrations.

3D Picture Sequence (Normal / Reverse)

Selects "Reverse" if you feel that the sense of depth is unusual.

Edge Smoother (Off / On)

Select "On" if you feel the contoured parts of an image are not smooth enough.
(for "Side by Side" or "Top and Bottom" format)

Safety Precautions

Displays the precautions for viewing 3D images.

Note

- These settings will not be memorized when changing the input mode or channel.
- When viewing the 3D-compatible 24p source movie, you can reduce juddering noises by setting "3D 24p Film Display" in "Other Settings" (p. 37).

How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1 Display icons of the feature

2 Select a feature

① select

② access

3 Follow the operation of each feature

- VIERA Link Control ➔ "VIERA Link Control" (p. 72)

Digital TV Tuning Menu

Favourites Edit List favourite channels

Create your favourite channel lists (Favourites) from various broadcasters (up to 4: Favourites1 to 4). The Favourites lists are available from the Information banner (p. 15) and the TV Guide (p. 17).

① Select a channel to list

② Add it to the Favourites list

- To display another Favourites

- To add all channels to the list

A channel is added

To edit List

Select the field of Favourites to edit and:

- To name the Favourites

(maximum: ten characters)

RETURN

Store

Set characters

- You can set characters by using numeric buttons (p. 31).

- To move the channel

Select the new position

Confirm

- To delete the channel

- To delete all channels

③ Store

RETURN

Note

- Channel numbers are defined by the broadcaster and cannot be changed.
- Hidden channels (see below) can be selected but not viewed.

Channel List Skip unwanted channels / Edit channels

Select a channel and reveal / hide

- ☒ reveal
- ☐ hide (skip)

- To reveal all channels

- To retune each channel (Manual Tuning)

(p. 40)

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

To edit channels

You can also edit each channel in Channel List.

or

Select a channel to edit and:

- To swap the channel position

Enter the new position number

Store

Channel position

Digital TV Tuning Menu

Auto Tuning Set all Digital TV channels automatically

Start Auto Tuning

Settings are made automatically

Automatically retune all Digital TV channels received in the area.

- All the previous tuning settings are erased.
- When the operation is completed, the channel at channel position "1" will be displayed.
- Search begins in the order from the lower channels to the higher channels.
- If tuning has not been done completely ➔ "Manual Tuning" (see below)

Manual Tuning Set Digital TV channel manually

Normally use "Auto Tuning" or "Update Channel List" to update Digital TV channels on your channel list. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

- ① select physical channel
- ② select offset
- ③ start tuning

- All channels found will be added to the Digital TV Channel List.

Update Channel List Update channels automatically

You can add new channels, delete duplicated channels, update channel name and position automatically to Channel List.

- Channel List is updated while keeping your settings in Favourites Edit, Channel List, Child Lock, etc.

New Channel Message Display a notification message

New channels found!
Press OK to update channel list.
Press EXIT to ignore.

Selects whether to give a message when new Digital TV channel is found. (**Off / On**)

- Selecting OK will perform "Update Channel List".

Signal Condition Check Digital TV signal

- To change the channel ➔

Selects a channel and checks the Digital TV signal condition.

A good Signal Strength is not an indication of suitable signal for Digital TV reception. Please use the Signal Quality indicator as follows:

Signal Quality:

- Green bar ➔ Good
- Yellow bar ➔ Poor
- Red bar ➔ Bad (Check the aerial)

Input Labels

For easier identification and selection of the input mode, you can label each input terminals or skip terminal that is not connected to any equipment.

- To select the input mode ➔ p. 20

1 Display the menu

2 Select "Setup"

3 Select "Display Settings"

4 Select "Input Labels"

5 Select an input terminal and set

To return to TV

The labels you set will be displayed in "Input Selection" menu (p. 20) or banner.

- If "Skip" is selected, you cannot select the mode.

User input

You can name each input terminals freely.

Select "User input"

(maximum: ten characters)

Set characters

- You can set characters by using numeric buttons (p. 31).

Store

Shipping Condition (Reset settings)

Resets the TV to its original condition, i.e. no channels tuned in.

All settings other than "USB HDD registration" are reset (channels, picture, sound settings, etc.).

1 Display the menu

2 Select "Setup"

3 Select "System Menu"

4 Select "Shipping Condition"

5 Set (see below)

To return to TV

Shipping Condition Reset settings

① Check the message and reset

OK (confirm)

OK (confirm)

OK (start Shipping Condition)

② Follow the on screen instructions

Reset to Factory Shipping Condition Completed.
Please switch off TV.

- "Auto Tuning" will automatically start when Mains power On / Off switch is next turned On (p. 12).

To retune TV channels only, e.g. after moving house

→ "Auto Tuning" in "Tuning and Editing Channels" (p. 40 and p. 41)

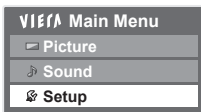

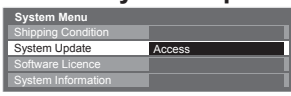

Updating the TV Software

From time to time, a new version of software may become available for download to enhance the performance or operations of the TV. If there is an update available, a notification banner is displayed when the channel has the update information.

- To download ➔  ● If you choose not to download ➔ 

You can update any new software automatically or manually.

- 1 Display the menu**

Updating the TV Software

Advanced

System Update Update TV's software system

To update automatically

Set "Auto Update Search in Standby" to "On"

- Automatically performs a search in standby and downloads an update, if any software updates are available.
- The automatic updating is performed at 3:00 AM and 5:00 AM every morning under the following conditions:
 - Standby (TV turned Off with the remote control)
 - One Touch Recording is not in progress.

To update immediately

Select "System Update Search Now"

Searches for an update (for several mins.) and displays a corresponding message if any

Download

If System Update is performed, the software will be updated (it may change TV functions). If you do not wish to do so, set "Auto Update Search in Standby" to "Off".

- Download may take about 60 mins.
- During software download and update, DO NOT switch Off the TV or press any buttons. The TV will automatically be activated after downloading is completed.
- A clicking sound will occur at 3:00 AM and 5:00 AM when "Auto Update Search in Standby" is set to "On". This sound is normal.
- During downloading, the TV will display a blank screen for 40 to 50 seconds. Do not interrupt the TV during this procedure.

USB HDD Recording

You can record the digital TV programmes to the connected USB HDD and enjoy playing back in various ways.

- Analogue TV programme cannot be recorded to the USB HDD.
- The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
- Not all the programmes can be recorded depending on the broadcaster and service provider.
- This TV supports USB HDD with capacity from 160 GB up to 2 TB.
- If the remaining capacity of the USB HDD is run out, the recording cannot be done.
- Regarding the performance, not all USB HDDs are guaranteed.

Check the recommended USB HDDs that have been tested for the performance with this TV at the following website. (English only)

<http://panasonic.jp/support/global/cs/tv/>

Caution

- Register the USB HDD with this TV in order to use it for recording. Please note that USB HDD will be formatted and all data (including the data from your PC, etc.) in it will be erased when you register it.
- In order to use the USB HDD with your PC after you use it with this TV for recording, format the drive on your PC. To format, refer to the manual of the PC. Please note that all data in the USB HDD will be erased when it is formatted.
- The data recorded to the USB HDD with this TV can only be played back on this TV. You cannot playback its contents with another TV (including the TV of the same model number) or any PCs.
- If your TV is repaired due to a malfunction, the registered USB HDD may not be available with your repaired TV. Register this USB HDD again to use it with your repaired TV. (All data in it will be erased.)

USB HDD connection

Connect the USB HDD to the USB 1 or 2 port.

- Be sure to connect the USB HDD to the socket outlet.
- Do not turn off or disconnect the USB HDD during operation. It may cause malfunction of the drive or damage the recorded data.
- To remove the USB HDD safely from the TV → p. 49 and p. 53

Setting for USB HDD

Register and setup the USB HDD with this TV in order to use it for recording. Connect the USB HDD before starting this settings. → "USB HDD connection" (above)

- Before the settings, be sure to turn on the USB HDD.
- You cannot change the settings for the USB HDD while recording is in progress.
- Please note that USB HDD will be formatted and all data in it will be erased when you register it.

To return to TV

To return to the previous screen

1 Display the menu

2 Select "Setup"

3 Select "USB HDD Setup"

4 Select "Device Setup" and set (see next page)

Device Setup Register and setup the USB HDD

All the USB devices recognized as a mass storage device will be listed. You can only register USB HDDs.

- Up to 8 USB HDDs can be registered with this TV. However you can only choose one USB HDD for recording at a time.
- Some USB HDD may not be registered.

Select the USB HDD for recording and start registration / setup

USB HDD Device Setup

- Once you unregister the USB HDD, it will not be possible to playback any of the recorded content on any TV.

Select the USB HDD

Unregister

- The confirmation screen will be displayed twice. Select "Yes" to unregister.

USB HDD Recording

Recording the TV programme to USB HDD

You can record the current programme immediately by using “One Touch Recording”. You can also record the current programme constantly for the selected period by using “REW LIVE TV” so that you can go back or pause the current programme.

- Ensure the connection, registration and setup are completed before start recording ➡ p. 48 and p. 49
- Ensure not to connect or disconnect any USB devices during USB HDD recording. Otherwise the recording may not work properly.

1 Display the menu

2 Select “Setup”

3 Select “USB HDD Setup”

4 Select “One Touch Recording” or “REW LIVE TV”

5 Set (see next page)

To return to TV

One Touch Recording One touch direct TV recording - What you see is What you record

Recording the current programme in the USB HDD immediately.
Select the maximum recording time (**30 / 60 / 90 / 120 / 180 minutes**)

To start One Touch Recording

Set the position to "TV" Start

- No other channel can be selected while the recording is in progress.

To stop recording on the way

To playback or delete the recorded contents

→ "Using Media Player" (p. 57)

- Even if One Touch Recording is in progress, you can playback all the contents. However, the recording may not work properly while playback.

REW LIVE TV Record constantly

Recording the current programme constantly.

Select "On" to start REW LIVE TV

- When you select "On", the recording will start automatically.

To operate the REW LIVE TV

Set the position to "TV"

- To pause → [Pause]
- To search backward → [Backward] (press and hold for about a second)
- After pausing or searching backward, the following buttons are available to operate.

To stop the REW LIVE TV

- If you stop the REW LIVE TV, the recorded content for the REW LIVE TV will be deleted.
- REW LIVE TV will be stopped and the recorded content deleted automatically in the following conditions:
(Even if REW LIVE TV stops for the following conditions, as long as the setting is "On", the new recording will start automatically in a condition that makes the recording available.)
 - selected other channels
 - selected locked channel
 - selected invalid channel
 - no TV signal
 - when the other recording starts
 - when the TV is turned off or standby

Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory, and recorded contents on the registered USB HDD.

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode : Still pictures recorded by digital cameras will be displayed.

Video mode : (For SD Card or USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.

(For registered USB HDD) TV programmes recorded in USB HDD registered to this TV will be played back.

Music mode : Digital music data will be played back.

When these functions are used, the audio signal is output from audio output terminals, but video signals are not output.

- "Date" shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "****/**/*****".

Data format for SD Card / USB Flash Memory browsing

- Photo : Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF standards
Data format - Baseline JPEG (Sub-sampling 4:4:4, 4:2:2 or 4:2:0)
Image resolution - 8 × 8 to 30,719 × 17,279 pixels
- Video : SD-Video Standard Ver. 1.2 [MPEG-2 (PS format)] and AVCHD Standard compatible files with an audio format that is either MPEG-1/Layer-2 format or Dolby Digital format
(A modified data with a PC may not be displayed correctly.)
DivX ➡ p. 80
- Music : Data format - MP3 and AAC (Copy-protected files cannot be played back.)
- SD Card format : SDXC Card - exFAT
SDHC Card / SD Card - FAT16 or FAT32
- Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adapter)
- If miniSD Card is used, insert / remove it together with the adapter.
- Check the latest information on the card type at the following website. (English only)
<http://panasonic.jp/support/global/cs/tv/>
- USB Flash Memory format : FAT16, FAT32 or exFAT
(A USB HDD formatted by PC is not supported in Media Player.)

*DCF (Design rule for camera file system): Unified standard established by Japan Electronics and Information Technology Industries Association (JEITA).

Note

- Format the device with the recording equipment.
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- This function cannot display Motion JPEG and still image not JPEG formatted (i.e. TIFF, BMP).
- A data modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF (Exchangeable Image File) 2.0, 2.1, and 2.2.
- Partly degraded files might be displayed at a reduced resolution.
- The folder and file names may be different depending on the digital camera or digital video camera used.
- Do not use two-byte characters or other special codes.
- The device may become unusable with this TV if the file or folder names are changed.

To insert or remove the SD Card / USB Flash Memory

- For the USB HDD Connection ➡ p. 48

USB Flash Memory

- Insert or remove straightly and completely.
- Before removing the USB Flash Memory, ensure to perform "Remove the USB devices safely" (p. 53)

SD Card

- To insert SD Card

Gently insert the SD Card label surface facing front.

Label surface

Push until a click is heard

- To remove SD Card

Push the centre of the card

Blue LED

- Blue LED lights while SD Card is inserted if "SD Card LED" is set to "On" in the Setup Menu (p. 37).

Starting Media Player

1 Insert the SD Card or USB Flash Memory

- For registered USB HDD, ensure the connection status is “Yes”.
➔ p. 49

When the SD Card is inserted, switching to Media Player (Photo mode) will be done automatically. ➔ p. 54

- It is assumed the SD Card contains photos. If not, press the blue button to activate the “Contents Select” screen and select the other mode.
➔ “Change the contents” (p. 55)

2 Switch to Media Player

SD CARD

3 Select the icon you want to access to

selected device name

- ① select
- ② access

- If two or more devices are not connected, this step will be skipped.
- For the registered USB HDD, all the USB HDD of which the connection status is “Yes” is available.
➔ “Register and setup the USB HDD” (p. 49)

4 Select the content

- Photo ➔ “Photo mode” (p. 54)
- Video ➔ “Video mode” (p. 56)
- Music ➔ “Music mode” (p. 59)

- ① select
- ② access

- For registered USB HDD, this step will be skipped and recorded contents list will be displayed. ➔ p. 57

To return to TV

Using Network Services

(DLNA / VIERA CAST)

DLNA®

This TV is a DLNA Certified™ product.

DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos and videos (including 3D images) stored in the DLNA Certified media server (for example, PC with windows 7 installed, DIGA Recorder etc.) connected to your home network, and enjoy watching them on the TV screen.

Applicable data format

Photo : JPEG (Sub-sampling 4:4:4, 4:2:2 or 4:2:0)

Image resolution - 8 × 8 to 30,719 × 17,279 pixels

- MOTION JPEG and Progressive JPEG are not supported.

Video : MPEG-2 (PS format and TS format)

- AVCHD and DivX files are not supported by DLNA, but can be played by Media Player (p. 56).

- Music files are not supported by DLNA functions of this TV, but MP3 and AAC files can be played back by Media Player (p. 59).

Media server

Ensure the connected equipment has a DLNA Certified media server.

To use the PC, install the server software on the PC for obtaining a media server.

Store photos or videos into the media server, and then you can watch them on the TV.

"TwonkyMedia server 5.1.x" and "Windows 7" are the server software that has been tested for the performance with this TV (current as of January, 2010).

For installing, read the manual of the server software.

- The DLNA control function of Windows 7 is not supported with this TV.
- When a server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.

- For details, read the manual of the DIGA Recorder.

Network connection

- ➡ Example 1 or Example 2 in "Network connections" (p. 61)

Network setup

- ➡ p. 62 - 64

DLNA operations

- ➡ p. 65 - 67

VIERA CAST™

VIERA CAST is a gateway to the internet services unique to Panasonic.

By connecting the TV to the internet environment, VIERA CAST allows you to enjoy internet content on the TV screen such as photos, movies, weather, etc. from VIERA CAST home screen.

You can access VIERA CAST home screen directly by pressing the VIERA CAST button on the remote control.

Network connection

- ➡ Example 1 or Example 3 in "Network connections" (p. 61)

Network setup

- ➡ p. 62 - 64

VIERA CAST operations

- ➡ p. 68

Network connections

To use only DLNA features, you can operate the features without Broadband network environment.
To use VIERA CAST features, you need a Broadband network environment.

- If you do not have any Broadband network services, please consult your retailer for assistance.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company.
- Set up and connect any equipment required for the network environment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively.
If the transfer speed is not enough, contents may not be played back properly.
- Read the manual of the network equipment, too.

Example 1

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the Broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

Example 3

You can connect the TV and the telecommunication equipment directly to use VIERA CAST features.

Note

- Depending on the ISP or telecommunications company, the required equipment and the internet connection procedure are different. Ensure that you use the network equipment that are authorized by your ISP and telecommunications company.
- You cannot make settings for the network equipment on this TV. You may be required to make settings on your computer.
- Depending on the terms and conditions of the contracts with your ISP or telecommunications company, additional fees may be charged or multiple connections to the internet may be impossible.
- Please contact your ISP or telecommunications company if you require further assistance regarding the network equipment.

Using Network Services

(DLNA / VIERA CAST)

Network Setup

- Ensure the connections are completed before starting Network Setup.
→ “Network connections” (p. 61)

1 Display the menu

2 Select “Setup”

3 Select “Network Setup”

4 Set (see below and next page)

To return to TV
→ EXIT

Edit the name of this TV

You can set your favourite name for this TV. This name will be used to display the name of this TV on the screen of the other DLNA compatible equipment.

Select “VIERA Name”

Edit the name
Set characters one by one

② access
① select

① select
② set

Store RETURN

- You can set characters by using numeric buttons. (p. 31)

Update TV's software

Accesses the specific web site to update TV's software and search if any software updates are available.

Select “Software Update”

② access
① select

- Follow the on screen instructions

Note

MAC Address

- MAC address is a unique address that identifies hardware in the network. (for information only)

Network Setup	
Network Type	Wired
Access Point Settings	---
IP/DNS Settings	---
Proxy Settings	---
Connection Test	---
VIERA Name	VIERA
Software Update	Access
MAC Address	ab-cd-ef-gh-ij-kl

Network settings for the LAN Cable connection

This setting is for the network connection by using the LAN cable.

① Select "Network Type" and set to "Wired"

If you make the network connection like "Example2" (p. 61), you do not have to set "Acquire DNS Address", "Proxy" and "Proxy Port".

② Select "IP/DNS Settings" and set the items

After settings, return to "Network Setup" screen → RETURN

Acquire IP Address

Acquire DNS Address

Sets IP Address, Subnet Mask, Gateway, Primary DNS and Secondary DNS.

For most users, the recommended method of connection to your network is by using Auto feature.

Select "Acquire IP Address" and then set to "Auto"

Select "Acquire DNS Address" and then set to "Auto"

- The available settings are displayed automatically.

③ Select "Proxy Settings" and set the items

After settings, return to "Network Setup" screen → RETURN

Manual settings

If you wish to set these functions manually, select "Manual".

Select "IP Address", "Subnet Mask", "Gateway", "Primary DNS" or "Secondary DNS"

Move the cursor and enter the number

Proxy

Sets Proxy address.

- This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

Select "Proxy"

Enter the address

Set characters one by one

Store RETURN

- You can set characters by using numeric buttons.

Proxy Port

Sets Proxy port number.

- This number is also specified by the provider with the Proxy address.

Select "Proxy Port"

Move the cursor and enter the number

④ Select "Connection Test" and access to test

☑ : succeeded

The test is successful and the TV is connected to the network.

☒ : failed

Check the settings and connections, and then perform this function again.

Performs automatic testing of the network connection for the TV. (It takes a while to test.)

Using Network Services

(DLNA / VIERA CAST)

Network settings for the Wireless LAN connection

This setting is for the network connection by using Wireless LAN Adaptor.

① Select "Network Type" and set to "Wireless"

Select the items and set

● For details → p. 58

Using Network Services

(DLNA / VIERA CAST)

VIERA CAST™

You can access a selection of internet services from VIERA CAST home screen. For example, YouTube, Picasa Web Albums (current as of March, 2010).

- VIERA CAST requires a broadband internet connection. Dial-up internet connections cannot be used.
- Ensure the network connections and network settings are completed.
 - ➔ "Network connections" (p. 61), "Network Setup" (p. 62 - 64)

Access VIERA CAST

- Depending on the usage conditions, it may take a while to read all the data.
- Messages might be displayed before VIERA CAST home screen. Please read the instructions carefully and follow the on screen instructions.
- You can also access VIERA CAST by using VIERA TOOLS (p. 30).
- 3D images are not displayed on centre of the home screen depending on the signal.

Example:

- Video communication requires an exclusive Communication Camera TY-CC10W (optional accessory ➔ p. 7). For details, read the manual of the Communication Camera.

To return to TV ➔

VIERA CAST home screen

How to operate VIERA CAST (current as of March, 2010)

- To go to the next level ➔ Select "MORE"
- To back to the previous level ➔ Select "BACK"
- To move the cursor / select the item ➔
- To access ➔
- To return to the previous screen ➔
- To return to VIERA CAST home screen ➔
- When the key words are displayed on colour bar ➔
- When options with numbers are displayed ➔

USB Keyboard

You can input characters on VIERA CAST screen by using the USB Keyboard connected to the USB port.

- You cannot use two or more keyboards simultaneously.
- The USB Keyboard which requires the driver is not supported.
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard.

Note

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA CAST. You can update the software later manually ➔ "Software Update" in the Network Setup Menu (p. 62)
- VIERA CAST™ home screen is subject to change without notice.
- The services through VIERA CAST™ are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- All features of websites or content of the service may not be available.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- Turn the TV off, and then on again when changing or reconnecting the network connection.

- Setup menu (Items in the "Setup" may change without notice.)

Customize HomeScreen	Changes the position of each services on VIERA CAST home screen
My Account	Confirms or removes the account information of the TV you entered on VIERA CAST
Lock	Sets to restrict access to some services
Beep	Sets beep sound On or Off when operating VIERA CAST
Notices	Displays the information of VIERA CAST

VIERA Link Functions

VIERA Link "HDAVI Control"™

Enjoy additional HDMI interoperability with Panasonic products which have "HDAVI Control" function. This TV supports "HDAVI Control 5" function.

Connections to the equipment with HDMI cable such as DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc., allow you to interface them automatically.

These features are limited to models incorporating "HDAVI Control" and "VIERA Link".

- Some functions are not available depending on the equipment's version of HDAVI Control. Please confirm the connected equipment's version of HDAVI Control.
- VIERA Link "HDAVI Control", based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the equipment. About applicable Panasonic equipment, consult your local Panasonic dealer.

Summary of features

*1: HDMI Connection only

*2: HDMI and Audio out connections

*3: available with the equipment which has "HDAVI Control 2 or later" function

*4: available with the equipment which has "HDAVI Control 3 or later" function

*5: available with the equipment which has "HDAVI Control 4 or later" function

*6: available with DIGA Recorder which has HDD

*7: while playing a disc

*8: except for watching a disc

Connection

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera

- To use Player theatre / Blu-ray Disc theatre:
- To use Amplifier:

*9: If the connected equipment has "HDAVI Control 5" function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV's HDMI2 terminal via an HDMI cable.

VIERA Link Functions

Note

- For DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- For Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable, and also connect either the optical digital audio cable or RCA cable for audio output from the TV.
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilized.
Recommended Panasonic's HDMI cable part number:
 • RP-CDHS15 (1.5 m) • RP-CDHS30 (3.0 m) • RP-CDHS50 (5.0 m)

Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.
- Set VIERA Link On in the Setup Menu ➔ "VIERA Link" (p. 36)
- Set up the TV ➔ **After connection, turn the equipment on and then switch the TV on. Set the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 20), and make sure that an image is displayed correctly.**
This setup should be done each time when the following conditions occur:
 • for the first time • when adding or reconnecting equipment • when changing setup

Features available

Channel download

Channel setting can be downloaded to the recorder.

Easy playback

Automatic input switching - When the connected equipment is operated, input mode is switched automatically.

Power on link

Set Power on Link "On" in the Setup Menu to use this function ➔ "Power on Link" (p. 36)

When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

Power off link

Set Power off Link "On" in the Setup Menu to use this function ➔ "Power off Link" (p. 36)

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

- This function will work even if the TV enters standby mode automatically by auto power standby function.

Standby Power Save Reduce unnecessary power consumption in standby

Set Standby Power Save "On" in the Setup Menu to use this function

➔ "Standby Power Save" (p. 36)

The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronization with the TV On / Off state to reduce the consumption.

When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimized.

When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.

- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
- This function will work when "Power off Link" is set to "On".

Intelligent Auto Standby Auto standby for unnecessary equipment

Set Intelligent Auto Standby "On (With reminder)" or "On (No reminder)" in the Setup Menu to use this function ➔ "Intelligent Auto Standby" (p. 36)

When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, when Speaker Selection is changed to "TV" (except for watching a disc).

- If you select "On (With reminder)", the on screen message will be displayed to be noticed before working this function.
- This function may not work properly depending on the connected equipment. If required, set to "Off".

Pause Live TV Pause Live TV programme

Access and pause the live TV programme

You can pause the live TV programme and resume later.

Live TV programme will be recorded on HDD of the connected DIGA Recorder.

- This function is available with DIGA Recorder which has HDD.
- If you connect several recorders including other manufacturers' recorders at the same time, please connect DIGA Recorder which has HDD to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment
 ➔ "Summary of features", "Connection", "Preparations" (p. 69 and p. 70)

① Display "VIERA Link Menu"

② Select "Pause Live TV" and pause

VIERA Link Menu	
Pause Live TV	Start
Direct TV Rec	Start
VIERA Link Control	Recorder
Speaker Selection	Home Cinema

TV picture will be paused.

- Live TV programme is recorded on HDD from where it was paused.
- If the paused TV picture disappears after a few minutes
 ➔ (the paused picture will be restored)

To operate Pause Live TV

- Operations may be different depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

To return to Live TV (stop playback of Pause Live TV / cancel pause)

Select "Yes"

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

Direct TV Rec Direct TV Recording - What you see is What you record

Recording the current programme in DIGA Recorder immediately.

- If you connect a variety of recorders including other manufacturers' recorders at the same time, please connect DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment
 ➔ "Summary of features", "Connection", "Preparations" (p. 69 and p. 70)

① Display "VIERA Link Menu"

② Select "Direct TV Rec" and start recording

VIERA Link Menu	
Pause Live TV	Start
Direct TV Rec	Start
VIERA Link Control	Recorder
Speaker Selection	Home Cinema

To stop recording

Select "Stop" in "Direct TV Rec" and stop recording

VIERA Link Menu	
Pause Live TV	Start
Direct TV Rec	Stop
VIERA Link Control	Recorder
Speaker Selection	Home Cinema

VIERA Link Functions

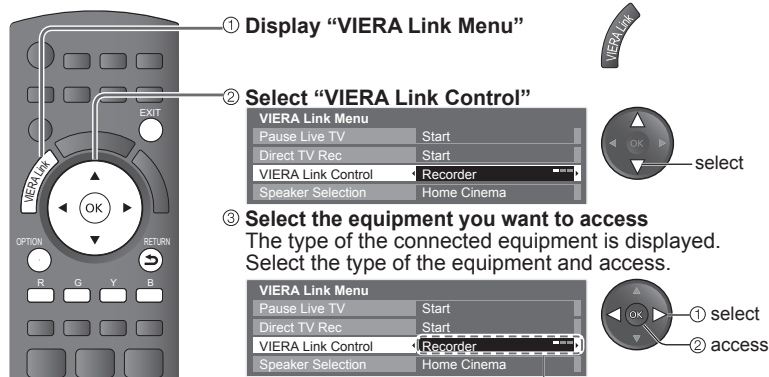

Features available (Using VIERA Link Menu)

VIERA Link Control Operate the connected equipment with VIERA remote control

Access and operate the menu of the equipment

You can control some functions of the connected equipment with this TV remote control by pointing at the TV's signal receiver.

- If you cannot operate, check the settings and the equipment
 - ➔ "Summary of features", "Connection", "Preparations" (p. 69 and p. 70)
- For details of the operation of the connected equipment, read the manual of the equipment.

- You can also access VIERA Link control by using VIERA TOOLS. ➔ p. 30
- The displayed item may vary depending on the connected equipment.
- "Home Cinema" means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- "Other" means Tuner set top box.

The menu of the accessed equipment
(Input mode will be changed automatically)

④ Operate the connected equipment

1. Switch to TV

2. Follow the operation guide

To display the operation guide ➔

Move the cursor / select the menu ➔

Move the cursor / access / adjust ➔

When the key words are displayed on colour bar ➔

Store / set / access ➔

Return to the previous menu ➔

Exit the menu ➔

Note

- Some operations may not be available depending on the equipment. If so, use its own remote control.

If multiple recorders or players are connected

The number is given from the TV's lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as "Recorder1", and the recorder connected to HDMI3 is displayed as "Recorder2".

If you access non-VIERA Link equipment

You can access the menu of the equipment. But you cannot operate it. Use its own remote control to operate the equipment.

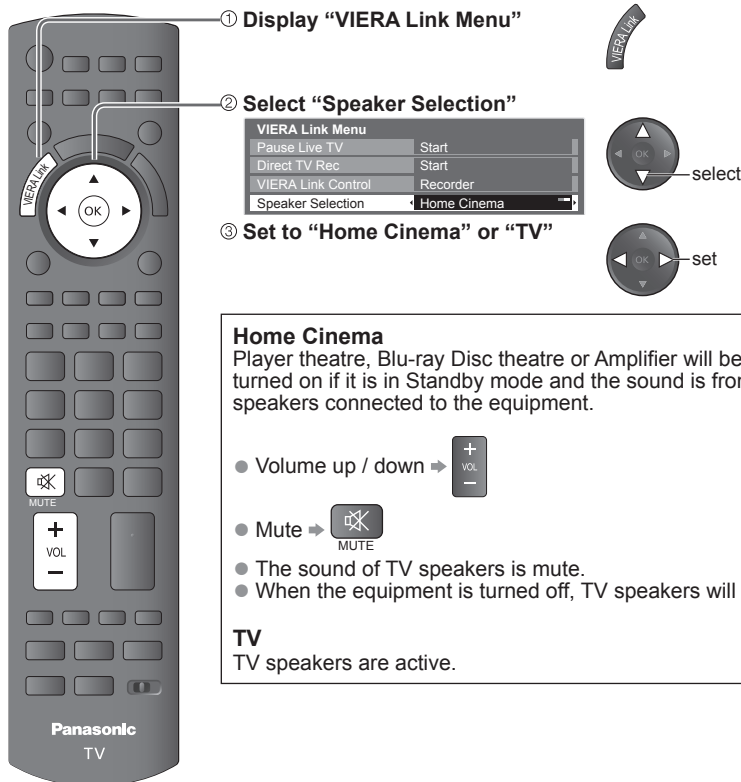

Features available (Using VIERA Link Menu)

Speaker Selection Speaker control

Access and control the speaker volume

You can control the theatre speaker with this TV remote control by pointing at the TV's signal receiver.

- If you cannot operate, check the settings and the equipment
 ➔ "Summary of features", "Connection", "Preparations" (p. 69 and p. 70)

① Display "VIERA Link Menu"

② Select "Speaker Selection"

VIERA Link Menu	
Pause Live TV	Start
Direct TV Rec	Start
VIERA Link Control	Recorder
Speaker Selection	Home Cinema

③ Set to "Home Cinema" or "TV"

Home Cinema
 Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

- Volume up / down ➔ 
- Mute ➔ 
- The sound of TV speakers is mute.
- When the equipment is turned off, TV speakers will be active.

TV
 TV speakers are active.

Note

- If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 69), and then select "Home Cinema". If your Amplifier has "HDAVI Control 5" function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV's HDMI2 terminal.
- To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 69).

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- "HDAVI Control 5" is the newest standard (current as of December, 2009) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV's version of HDAVI Control ➔ "System Information" (p. 36)

External Equipment

These diagrams show our recommendations for how to connect the TV to your various equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 87).

Types of connectable equipment to each terminal

Technical Information

Channel Allocation (Analogue TV mode)

CH Display / Receive Channel			
CH 0 - CH 5	S 2 - S 10	CH 5A	CH 6 - CH 9
CH 9A	CH 10 - CH 12	S 11 - S 44	CH 20 - CH 75

Rating (Digital TV mode)

Rating	Meaning	Rating	Meaning
No Block	Not classified	M	Mature
P	Pre school	MA 15+	Mature Adult 15+
C	Children	AV 15+	Adult strong Violence 15+
G	General	R	Restricted 18+
PG	Parental Guidance recommended		

Stereo / Bilingual Sound Selection (Analogue TV mode)

 When you receive the stereo / bilingual sound system, sound output modes can be selected by pressing the **Sound Selection** button.

Audio Signal	STEREO	MAIN I	SUB II	MONO
Mode Indicator		I	II	

NICAMUsed in New Zealand, Singapore, Hong Kong etc.

Type of broadcast	Regular broadcast (Standard Audio)	Regular + NICAM MONO I (MAIN I)	NICAM STEREO	NICAM DUAL MONO (MAIN I / SUB II)
Mode Indicator	No Indicator  	I  	  	  

A2 (German)Used in Australia, Malaysia etc.

Type of broadcast	Regular broadcast (Standard Audio)	BILINGUAL or DUAL MONO: MAIN I / SUB II	STEREO
Mode Indicator	No Indicator  	I  	  

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the Sound Selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.

HDMI connection

HDMI (high-definition multimedia interface) is the world's first complete digital consumer AV interface complying with a non-compression standard.

HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment (*1) with an HDMI or DVI output terminal, such as a DVD player, a set top box or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. About connections, see "External Equipment" (p. 74 and p. 75).

Applicable HDMI features

- Input audio signal : 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal : 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
 - ➔ "Input signal that can be displayed" (p. 78)
Match the output setting of the digital equipment.
- Input PC signal : ➔ "Input signal that can be displayed" (p. 78)
Match the output setting of the PC.
- VIERA Link (HDAVI Control 5) : ➔ "VIERA Link" (p. 69)
- 3D
- Content Type
- Audio Return Channel (*2) (HDMI2 terminal only)

DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable (*3).

When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2 / 3: use AV2 audio terminals / HDMI4: use AV4 audio terminals).

If the picture position is not fit to the screen during the DVI connection, adjust the position on "DVI Position Settings" in the Setup Menu (p. 35). The settings are memorized for each HDMI terminals and input signals.

Note

- Audio settings can be made on the "HDMI1 / 2 / 3 / 4 Input" in the Sound Menu. (p. 35)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to "16:9".
- These HDMI connectors are "type A".
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- An equipment having no digital output terminal may be connected to the input terminal of either "COMPONENT", "S-VIDEO", or "VIDEO" to receive analogue signals.
- This TV incorporates HDMI™ technology.

(*1): The HDMI logo is displayed on HDMI-compliant equipment.

(*2): Audio Return Channel (ARC) is a function to be able to send digital sound signals via an HDMI cable.

(*3): Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz. More than 1,024 signal lines could result in incorrect display of the image.
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Note

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see p. 78.
- Max. display resolution

Aspect	4:3	1,440 × 1,080 pixels
	16:9	1,920 × 1,080 pixels

- D-sub 15-pin connector signal

Macintosh21" (1,152 × 870)	68.68	75.06

PC (from HDMI terminal)

Applicable input signal for PC is basically compatible to HDMI standard timing.

Signal name	Horizontal frequency (kHz)	Vertical frequency (Hz)
640 × 480 @60 Hz	31.47	60.00
750 (720) / 60p	45.00	60.00
1,125 (1,080) / 60p	67.50	60.00

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.

SD Card

- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
- Do not remove the card while the TV is accessing data (this can damage card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to a high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)
- About SD Card format and maximum capacity ➔ p. 52

Technical Information

DivX

ABOUT DIVX VIDEO:

DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified device that plays DivX video. Visit www.divx.com for more information and software tools to convert your files into DivX video.

DivX video file

DivX Certified® to play DivX® video up to HD 1080p, including premium content.

Extension - ".divx" or ".avi"

Image resolution - Up to 1,920 × 1,080 pixels

Video

- Number of stream: Up to 1
- Codec: DIV3, DIV4, DIVX, DX50, DIV6
- FPS (Frame Per Second): Up to 60 fps

Audio

- Number of stream: Up to 8
- Format: MP3, MPEG, AC3
- Multi channel: AC3 is possible. MPEG multi is 2 ch conversion.

- GMC (Global Motion Compensation) is not supported.

Subtitle text file of DivX

Subtitles format - MicroDVD, SubRip, TMPlayer

- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: ".srt", ".sub", ".txt".
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note

- Depending on how you make SD Card or USB Flash Memory, files and folders may not be displayed in the order you numbered.
- Depending on the software you use to create DivX files, the files may not play.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:

This DivX Certified® device must be registered in order to play DivX Video-on-Demand (VOD) content. To generate the registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com with this code to complete the registration process and learn more about DivX VOD.

To show DivX VOD registration code

- ➔ "DivX® VOD" in the Setup Menu (p. 36)
- If you want to generate the new registration code, you have to deregister the present registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in "DivX® VOD" in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code. You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV's code, you will not be able to play this content. ("Your device is not authorized to play this DivX protected video." is displayed.)

Regarding DivX content that can only be played a set number of times

Some DivX VOD content can only be played a set number of times.

When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ("This DivX rental has expired." is displayed.)

- When playing this content, the number of remaining plays is reduced by one in the following conditions:
 - If you exit the current application.
 - If you play the other content.
 - If you go to the next or previous content.

Network

On screen messages

Message	Meaning / Action
An internal error occurred.	● Check the settings. (p. 62 - 64)
Cannot read file	● The file is broken or unreadable. Check applicable data format. (p. 60)
Communication with the server failed.	● This might be a problem of the media server. Read the manual of the server software.
Connection to the server failed.	● Check the connections and settings. (p. 61 - 64)
Server not found	● There are no available media server on your home network. Check the connections and settings. (p. 61 - 64)
The software update is not completed.	● Network download failed. Check the connections and settings. (p. 61 - 64)

USB connection

- It is recommended to connect the USB HDD or USB Flash Memory directly to the TV's USB ports.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.

The combination of USB devices that have been tested for each TV's USB port.

Combination of USB port 1 + port 2 (and vice versa):

- USB HDD + USB Flash Memory
- USB HDD + Wireless LAN Adaptor
- USB HDD + USB Keyboard
- USB Flash Memory + Wireless LAN Adaptor
- USB Flash Memory + USB Keyboard
- Wireless LAN Adaptor + USB Keyboard

Note

- Additional information for USB devices may be on the following web site. (English only)
<http://panasonic.jp/support/global/cs/tv/>

Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

For regular care:

Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:

Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution

- Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV's surfaces to water or detergent. A liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in "AV mode"?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check the Picture Menu (p. 33 and p. 34) and volume.
- Check all required cables and connections are firmly in place.

An error message appears

- Follow the messages instructions.
- If the problem persists, contact your local Panasonic dealer.

"VIERA Link" function does not work and an error message appears

- Confirm the connection. (p. 69)
- Turn the connected equipment on and then switch the TV on. (p. 70)

Contrast is reduced

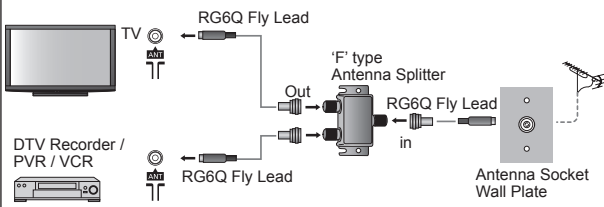

- Contrast is lowered in the following conditions without any user operation for a few minutes:
 - no signal in Digital TV mode or AV mode
 - selected locked channel
 - selected invalid channel
 - selected radio channel
 - displayed menu
 - Thumbnail or still picture

Pixel Statement

- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture. Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/subpixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.

	Problem	Actions
Screen	Chaotic image, noisy	<ul style="list-style-type: none"> ● Change the setting of "P-NR" in the Picture Menu (to remove noise). (p. 33) ● Check nearby electrical products (car, motorcycle, fluorescent lamp).
	No image can be displayed	<ul style="list-style-type: none"> ● Is "Colour" or "Contrast" in the Picture Menu set to the minimum? (p. 33)
	Blurry or distorted image (no sound or low volume)	<ul style="list-style-type: none"> ● Reset channels (p. 40 and p. 41).
	Unusual image is displayed	<ul style="list-style-type: none"> ● Turn off the TV with Mains power On / Off switch, then turn it on again.
	"Shop" appears on screen at switch on	<ul style="list-style-type: none"> ● "Shop" was selected in "Auto Tuning" (p. 12) Reset settings in "Shipping Condition" (p. 46), then select "Home" in "Auto Tuning" (p. 12)
Sound	No sound is produced	<ul style="list-style-type: none"> ● Is "Sound Mute" active? (p. 10) ● Is the volume set to the minimum?
	Sound level is low or sound is distorted	<ul style="list-style-type: none"> ● Sound signal reception may be deteriorated. ● Set "MPX" in the Sound Menu to "Mono" (p. 34).
	Unusual sound from the TV	<ul style="list-style-type: none"> ● When power is on, whirring sound of cooling fan or drive noise may be heard from inside the TV (not a sign of faulty operation).

FAQs

	Problem	Actions
HDMI	Sound is unusual	<ul style="list-style-type: none"> ● Set the sound setting of the connected equipment to "2ch L.PCM". ● Check the "HDMI1 / 2 / 3 / 4 Input" setting in the Sound Menu. (p. 35) ● If digital sound connection has a problem, select analogue sound connection. (p. 77)
	Pictures from external equipment are unusual when the equipment is connected via HDMI	<ul style="list-style-type: none"> ● Is the HDMI cable connected properly? (p. 69, 74 and p. 75) ● Turn Off the TV and equipment, then turn them On again. ● Check an input signal from the equipment. (p. 78) ● Use an equipment compliant with EIA/CEA-861/861B.
Network	Cannot connect to the network	<ul style="list-style-type: none"> ● Check the LAN cable or Wireless LAN Adaptor is connected properly. (p. 61) ● Check the connections and settings. (p. 61 - 64) ● Check the network equipment and network environment. ● If the problem persists, consult your Internet Service Provider or telecommunications company.
	Cannot select the file during DLNA operations	<ul style="list-style-type: none"> ● Is media server prepared? (p. 60) ● Check applicable data format. (p. 60)
	Cannot operate VIERA CAST	<ul style="list-style-type: none"> ● Check the connections and settings. (p. 61 - 64) ● The server or connected line might be busy now.
Digital TV	<p>Note: Digital TV reception is only as good as the antenna and the antenna cabling delivering the DTV signals to the television. Reliable digital TV reception requires high quality, robust DTV signals which can only be achieved when using a TV antenna and cabling designed for digital TV reception.</p> <ul style="list-style-type: none"> ● Further reading please visit: http://www.digitalready.gov.au/publications.aspx where you can download 'The Digital TV Antenna Systems for Homes Handbook' information pdf file. ● For your safety, the antenna and cabling should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1 for Domestic installations or AS1367 for MATV installations. 	
	Connecting devices such as DTV recorder / PVR / VCR etc that also require an antenna connection to the digital television	<ul style="list-style-type: none"> ● To maintain optimum antenna signal quality, use an 'F' type TV signal splitter (as illustrated) when connecting two or more devices to the same antenna socket.  <ul style="list-style-type: none"> ● Hint: Some degradation of the DTV signal may occur if you are connecting the aerial through an external device (e.g. DVD Recorder or Set Top Box). In this case it is better to use a splitter and connect the aerial directly to both devices.
	After digital TV tuning, (or re-tuning) some or all DTV channels are missing	<ul style="list-style-type: none"> ● Check to ensure your area is covered by DTV transmissions. ● Check that the aerial and antenna cable are designed for DTV reception. If you live within 5-10 Km of DTV transmission towers, a combined VHF / UHF Digital TV aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance. ● If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DTV reception. Please consult your body corporate.

		Problem	Actions
Digital TV		Picture regularly pixelates on some channels, or 'No Signal' message	<ul style="list-style-type: none"> ● Check "Signal Condition" via TV Setup menu. If "Signal Quality" is red/orange or constantly changing, check aerial/ cable/connections. If problem persists consult your local TV antenna installer. ● Too much signal; is "Signal Strength" always at full strength? If yes, try attenuating (reducing) the signal strength ● Check that the aerial and antenna cable are designed for DTV reception. ● The received signal may be too weak to allow the TV to reliably lock to the selected channel to generate a viewable picture. If problem persists consult your local TV aerial installer. ● Interference from household appliances (known as impulse noise) such as light switches, fridges etc may cause picture break up and / or audio distortion. Use high quality quad shielded coaxial cable (RG6Q) fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists consult your local TV aerial installer. ● Antenna installation may be using an aerial amplifier that is faulty or an older style aerial amplifier that was not designed for digital TV. ● Older style antenna cabling, loose fitting/corroded wall socket connections/terminals etc.
		Picture infrequently pixelates on some or all channels	<ul style="list-style-type: none"> ● Electrical interference caused by local or distant lighting storms, heavy rain, high wind etc may cause picture to break up and or audio to mute/distort momentarily. ● Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a "noisy" ignition system. ● Older style antenna cabling, loose fitting/corroded wall socket connections/terminals etc.
3D		Cannot see 3D images	<ul style="list-style-type: none"> ● Has the 3D Eyewear been switched On? ● Ensure that "3D Picture Display" in "3D Settings" is set to "3D". (p. 29) ● Some 3D image signals may not be automatically recognized as 3D images. Set "3D Picture Format" in "3D Settings" to match the picture format. (p. 29) ● Check that there are no obstacles between the infrared sensors on the TV and the 3D Eyewear. If the 3D Eyewear stops receiving the infrared signal for about 5 minutes, the 3D Eyewear will be turned off automatically. ● Check the available area to use the 3D Eyewear. (p. 27) ● Depending on the person, the 3D images may be difficult to see, or cannot be seen, especially in users that have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use.
		3D Eyewear is turned off automatically	<ul style="list-style-type: none"> ● Check that there are no obstacles between the infrared sensors on the TV and the 3D Eyewear or that the 3D Eyewear is placed inside the coverage area (p. 27). If the 3D Eyewear stops receiving the infrared signal for about 5 minutes, the 3D Eyewear will be turned off automatically.
		There is something wrong with the 3D images	<ul style="list-style-type: none"> ● Check the setting of "3D Picture Sequence" or "Edge Smoother". (p. 29)
		The indicator lamp does not light when pressing the power button on the 3D Eyewear	<ul style="list-style-type: none"> ● The battery may be running low or flat. Replace it.
Other		TV goes into Standby mode	<ul style="list-style-type: none"> ● Auto power standby function is activated. ● The TV enters Standby mode about 30 mins. after analogue broadcasting ends.
		The remote control does not work or is intermittent	<ul style="list-style-type: none"> ● Are the batteries installed correctly? (p. 3) ● Has the TV been switched On? ● Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV). ● Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver.
		Parts of the TV become hot	<ul style="list-style-type: none"> ● Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises will not pose any problems in terms of performance or quality.

Panasonic Warranty

1. The product is warranted for 12 months from the date of purchase. Subject to the conditions of this warranty Panasonic or its Authorised Service Centre will perform necessary service on the product without charge for parts or labour if, in the opinion of Panasonic, the product is found to be faulty within the warranty period.
2. This warranty only applies to Panasonic products purchased in Australia and sold by Panasonic Australia or its Authorised Distributors or Dealers and only where the products are used and serviced within Australia or its territories. Warranty cover only applies to service carried out by a Panasonic Authorised Service Centre and only if valid proof of purchase is presented when warranty service is requested.
3. This warranty only applies if the product has been installed and used in accordance with the manufacturer's recommendations (as noted in the operating instructions) under normal use and reasonable care (in the opinion of Panasonic). The warranty covers normal domestic use only and does not cover damage, malfunction or failure resulting from use of incorrect voltages, incorrect installation, accident, misuse, neglect, build-up of dirt or dust, abuse, maladjustment of customer controls, mains supply problems, thunderstorm activity, infestation by insects or vermin, tampering or repair by unauthorised persons (including unauthorised alterations), introduction of sand, humidity or liquids, commercial use such as hotel, office, restaurant, or other business or rental use of the product, exposure to abnormally corrosive conditions or any foreign object or matter having entered the product.
4. This warranty does not cover the following items unless the fault or defect existed at the time of purchase:
 - (a) Cabinet Part(s)
 - (b) Video or Audio Tapes
 - (c) SD cards or USB devices
 - (d) User replaceable Batteries
 - (e) DVD Video, Blu-ray, or Recordable Discs
 - (f) Video / Audio Heads from wear and tear in normal use
 - (g) Information stored on Hard Disk Drive, USB stick or SD card
 - (h) DTV reception issues caused by TV Aerial / Cabling / Wall socket(s) etc
5. Some products may be supplied with Ethernet connection hardware. The warranty is limited on such products and will not cover
 - (a) Internet and or DLNA connection / setup related problems
 - (b) Access fees and or charges incurred for internet connection
 - (c) The use of incompatible software or software not specifically stipulated in the product operations manual; and
 - (d) Any indirect or consequential costs associated with the incorrect use or misuse of the hardware, its connection to the internet or any other device.
6. If warranty service is required you should:
 - Telephone Panasonic's Customer Care Centre on 132600 or visit our website and use the Service Centre Locator for the name/address of the nearest Authorised Service Centre.
 - Send or bring the product to a Panasonic Authorised Service Centre together with your proof of purchase receipt as a proof of purchase date. Please note that freight and insurance to and / or from your nearest Authorised Service Centre must be arranged by you.
7. The warranties hereby conferred do not extend to, and exclude, any costs associated with the installation, de-installation or re-installation of a product, including costs related to the mounting, de-mounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freight, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

Panasonic Authorised Service Centres are located in major metropolitan areas and most regional centres of Australia, however, coverage will vary dependant on product. For advice on exact Authorised Service Centre locations for your product, please telephone our Customer Care Centre on 132600 or visit our website and use the Service Centre Locator.

Unless otherwise specified to the consumer the benefits conferred by this express warranty are additional to all other conditions, warranties, guarantees, rights and remedies expressed or implied by the Trade Practices Act 1974 and similar consumer protection provisions contained in legislation of the States and Territories and all other obligations and liabilities on the part of the manufacturer or supplier and nothing contained herein shall restrict or modify such rights, remedies, obligations or liabilities. **Feb 2010**

THIS WARRANTY CARD AND THE PURCHASE DOCKET (OR SIMILAR PROOF OF PURCHASE) SHOULD BE RETAINED BY THE CUSTOMER AT ALL TIMES

If you require assistance regarding warranty conditions or any other enquiries, please contact our Customer Care Centre via the Panasonic website www.panasonic.com.au or by phone on 132 600. If phoning in, please ensure you have your operating instructions available.
