Specification Change Notice for LC-RC1217P (12V17Ah)

Battery specifications for Panasonic Sealed Lead Acid Battery model number LC-RC1217P (12V17Ah) have been changed and the new part number will be LC-RD1217P.

- Changes:
- (1) The M5 bolt and nut terminal position has been moved toward the front of the battery by 6 mm. (see reference drawing below)
 - (2) The center plastic section between the terminals has been widened slightly, thus reducing the space between each terminal and the center plastic by approximately 0.9mm. (see reference drawing below)
 - (3) The location of the polarity marks has been moved from in front of the terminals to the top of the center section.
 - (4) The new product also has an optional threaded post terminal option available with model number LC-RD1217AP.
