

SUBJECT: ECQ-E (W) [Class X2] and ECQ-U (N) [Class X2] Film Chip Capacitor Series

BULLETIN #: NRFND.PG42.11.03.04-3

Date: Nov. 03, 2004

Page 1 of 1

RECOMMENDED REPLACEMENT: ECQ-U(L) [Class X2/Y2]

OTHER DETAILS: The recommended series has an internal safety mechanism with a fuse function whereas the ECQ-E(W) and ECQ-U(N) do not.

	Series	V _{Ac}	Operating Temp
Recommended	ECQ-U(L)	275	~100 deg C
Original	ECQ-E(W)	250	~ 85 deg C
	ECQ-U(N)	250	~ 85 deg C

Additionally, the ECQ-U(L) series has a higher operating voltage and operating temperature.
