

# CAPACITORS

## Choose the Right Cap for the Right App!

**When:** May 25<sup>th</sup>, 12:00pm EST

**Where:** [http://www.ttiinc.com/object/tech\\_seminars.html](http://www.ttiinc.com/object/tech_seminars.html)

**What:** Panasonic will be participating in a technical web-based seminar hosted by TTI, in cooperation with EE-Times.

The web-cast, entitled: "Capacitors : Choose the Right Cap for the Right App!" will be one of many in the "Be-Smart – Choose the Right Parts" series scheduled for this summer.

The on-line seminar is designed to provide information on product specific applications, market trends and answers to questions from the engineering community.

It is anticipated that approximately 100,000 to 200,000 engineers will be participating in this seminar. The seminar is expected to be approximately 90 minutes in duration with a period of Q&A.

Our Bob Galli, Sr. Product Manager of Reference Designs, will be presenting on behalf of Panasonic Passive Components Group. Other suppliers, like AVX and Murata will also be participating.

Other guest speakers will include: Dennis Zogbi, Pres. of Paumanok Publications and Bob Hult, Bishop & Associates.
