Take Your Meetings to the Next Level, with HD Visual Communications System from Panasonic.

Collaborate in real time, in stunning HD!

With Full HD video and Full Duplex audio over a standard Internet connection, this compact, easy-to-use, interoperable system is changing the face of business meetings.

< System Configuration Example >

Required products, options, etc., vary depending on the system configuration.

HD Visual Communications System

KX-VC600

KX-VC300
**KX-VC600/KX-VC300 Features**

### High Image Quality
Panasonic’s original high image quality technology achieves a dynamic level of realism that makes you feel like you’re all in the same room.

### High Sound Quality
Conversations are comfortable thanks to our Echo Canceller that prevents sound interruptions when people speak simultaneously.

### Stable Connection
Image disruptions and sound interruptions are prevented even on the Internet thanks to original A/V-QoS technology.

### Computer Connection/Sub-Camera Connection
Effective communication is possible while showing the other party a PC screen or sub-camera image.

### Other-Brand Device/MCU Interoperability
Interoperability with other-brand devices and MCUs is a standard feature. This allows smooth expansion into existing videoconference systems, and multi-point communications using an MCU.

Please consult with your local dealer for details on connecting other-brand devices and MCUs.
