Create a safe environment for children to attend kindergarten

As an international kindergarten, Pukou Central Kindergarten in Nanjing strives to create a learning-friendly environment and a place where the safety and health of students and teachers are assured. In the early stages of the COVID-19 epidemic, the kindergarten purchased six ziaino™ units and installed them on the campus to ensure that the children's learning and living environment is hygienic, and that the indoor air is continuously cleaned. ziaino™ provides comprehensive protection for students and teachers at all times. The slight smell of hypochlorous acid is reassuring to everyone.

*Comments are based on personal impressions.

No. of units installed: 6 units

City / Country: Nanjing, China
