Peace of mind allows you to focus on learning

Shenzhen Jingrui Education Institution is a national tutoring chain. As many students and teachers gather here for classes, it is important that the indoor air and hygiene quality are up to standard. With the epidemic in mind, in order to ensure that the air in classrooms and offices is kept clean and inhibits bacteria and viruses, the institution has been equipped with ziaino™ to ensure the health of students and teachers not compromised. Everyone who notices the faint smell of hypochlorous acid during such extraordinary circumstances feels very reassured about the learning environment.
