Schools

RANGE

ziaino™

Pursuit of a hygienic environment for infants and toddlers

The leading childcare brand Sanhuaitang opened a new nursery school in Wuhan this year. Most of the interior materials are imported from Japan, and the Panasonic Fresh Air System has been installed to ensure efficient indoor air circulation. They chose ziaino™ for further safeguards, as the hypochlorous acid emitted from ziaino™ is effective in improving the indoor environment. It creates a clean, cosy, and safe space for these 0 to 3-year-old children.
