Public Buildings

RANGE

VRF

Air Conditioning System: FSV ME1 Series: 42 systems
Cooling Capacity: 2,045 kW / 581 USRT
Indoor Units:
Wall Mounted: 7 units
Low-static ducted: 20 units
4-Way Cassette: 250 units
Control System:
Wired remote controller: 277 units

Words from the installer:
Modern high-end office buildings demand high-end comfort, and that includes air quality. For this project, we opted for a sophisticated Panasonic ECOi VRF system to comprehensively fulfil all of the installation requirements. We used a wide array of different indoor units that deliver significant energy savings and that can be controlled centrally. The government client was highly satisfied with the solution.
