**Add New Air Conditioner Units to the Groups.**

How to register new air conditioner units to existing groups.

**Add New Air Conditioner Units (External Adaptor).**

**STEP 1**
Tap the “+” icon.

**STEP 2**
Choose “Air Conditioner”.

**STEP 3**
Choose “External Wireless Adaptor”.

**STEP 4**
Tap “Start”.

**STEP 5**
Tap “Next”. Make sure POWER LED is ON and then tap “Next”.

**STEP 6**
Reset the network adaptor with a pin.

- **“ON”** means the green light has stopped blinking and is constantly lit up.
- Tap “Next” if you are not the first user administrator.
Add New Air Conditioner Units (External Adaptor) continues...

**STEP 7**
Tap “Next”.

**STEP 8**
Choose “LED is OFF”.

**STEP 9**
Choose to connect using WPS or AP. **AP mode can only use with (Android 5.0 & iOS 11.0) and above.**

**STEP 10**
Press “SETUP” continuously until “STATUS LED” becomes orange and then release setup button immediately.

**STEP 11**
Tap “Next”.

**STEP 12**
The device will connect to the same wireless connection that your mobile phone is connected to, enter your wireless connection password and tap “OK”. Go to Step 13.

**STEP 13**
When “POWER LED” and “LINK LED” are ON, means the device has successfully connected to the wireless network, tap “Next”.

**STEP 14**
Key in Device ID and password then tap “Register”. Set air conditioner name then tap “Register”. “POWER LED”, “STATUS LED” and “LINK LED” will be ON once registration is completed.
