

PANASONIC NEW ZEALAND ENVIRONMENTAL POLICY

Statement of Intent

Panasonic New Zealand as part of the Panasonic Corporation Group of companies has the mission to market **NATIONAL/PANASONIC/TECHNICS** products and to enhance customer trust in our brands in the market.

PANASONIC NEW ZEALAND'S COMMITMENT TO IMPROVE ENVIRONMENTAL PERFORMANCE

Panasonic New Zealand is committed to conduct its operations with minimal impact on the environment, to comply with applicable corporate, environmental legislative and regulatory requirements; and to every extent possible, strive to excel towards continual improvement in environmental performance.

In particular, Panasonic New Zealand undertakes to

- ◆ Service all products in such a way to reduce or where practicable, eliminate use of hazardous substances;
- ◆ Apply best practices to manage hazardous substances, disposal of wastes, all safety and health-related concerns, including the necessary emergency responsiveness;
- ◆ Control discharge of wastewater arising from service-related activities to minimize water pollution;
- ◆ Use natural resources efficiently, particularly electricity, paper and packaging materials, by recycling, reducing and re using.
- ◆ Educate and train employees for awareness of the relevant environmental issues;
- ◆ Set objectives and design programs aimed at continual improvement;
- ◆ Communicate this policy to all employees, key suppliers and contractors, and make it available to the public.

To help us achieve our aim, we will create an environmental management system that satisfies the requirements of ISO 14001:2015 and will seek assessment and formal registration to the Standard. All managers and employees are committed to this process, which shall also involve our suppliers and subcontractors.
