# RekoChain

A unified 'source-to-pay' solution to manage all your procurement needs

What is RekoChain?

A Smart Supplier Collaboration Portal, aided by Blockchain technology and Machine Learning algorithms, RekoChain brings buyers and suppliers of various businesses on a single platform to connect and collaborate.

Why choose RekoChain?

- Gain operational efficiency
- Make smarter buying decisions
- Improved collaboration
- Safer and compliant transactions

Smart Contracts

- Eliminates traditional contracting processes due to self-verification and execution of the terms
- Contractual agreements are automatically backed-up for future references

Blockchain Technology

- Provides unparalleled visibility and transparency , creating trustworthiness among parties
- Provides access to a secured network for all parties to conduct business

AI & Machine Learning

- Get access to insightful reports and intelligence for smarter decision making
- Brings predictive analytics for stocking and reducing logistics expenses

Supplier Collaboration Portal

- Brings Buyers, Suppliers, Financial Institutions & 3PL on a single platform to conduct business
- Manages all procurement related tasks, from sourcing to purchase to logistics & finance

Trade Finance

- Integrate with 3PL parties to manage fulfillment of the procurement process
- Digitalization of trade processes using Blockchain enables paperless bill discounting resulting in freeing up of working capital

APIs

- Readily available API's to cater to any and all backend support
- Allows you to make customizations to your business workflows, making it more efficient

intelizest
the algorithm to empower your business
