Many Features for Many Applications

Versatile Function for Many Applications

You can choose the optimum mode for your application.

DC Manual Welding

- Easier for setting and welding time.
- Accuracy and consistency are increased.
- Low arc noise with soft arc.
- Excellent for various types of AC TIG welding.

AC TIG Welding

- Wear of electrode is significantly reduced.
- Arc is maintained.
- AC only mode.
- AC on / off function.
- Adjustable AC output.
- Deep penetration is achieved.

Contact arc welding

No welding is required for spot welding to join aluminum.
