

Panasonic

Choosing the perfect TV is this simple.

androidtv

Great picture. Great sound.
Great connectivity.

A Better Life, A Better World

#UltimateChoice

AN ULTIMATE TV WITH ULTIMATE

TECHNOLOGY

Bring home not just a TV, but a great TV experience. An experience that's backed by great innovation and technology. Packed with amazing features, the new line of Panasonic Android TVs is truly a class apart. With picture quality that's used by Hollywood's film makers, every TV is designed to give you an enhanced experience.

This undoubtedly makes Panasonic TV the Ultimate Choice.

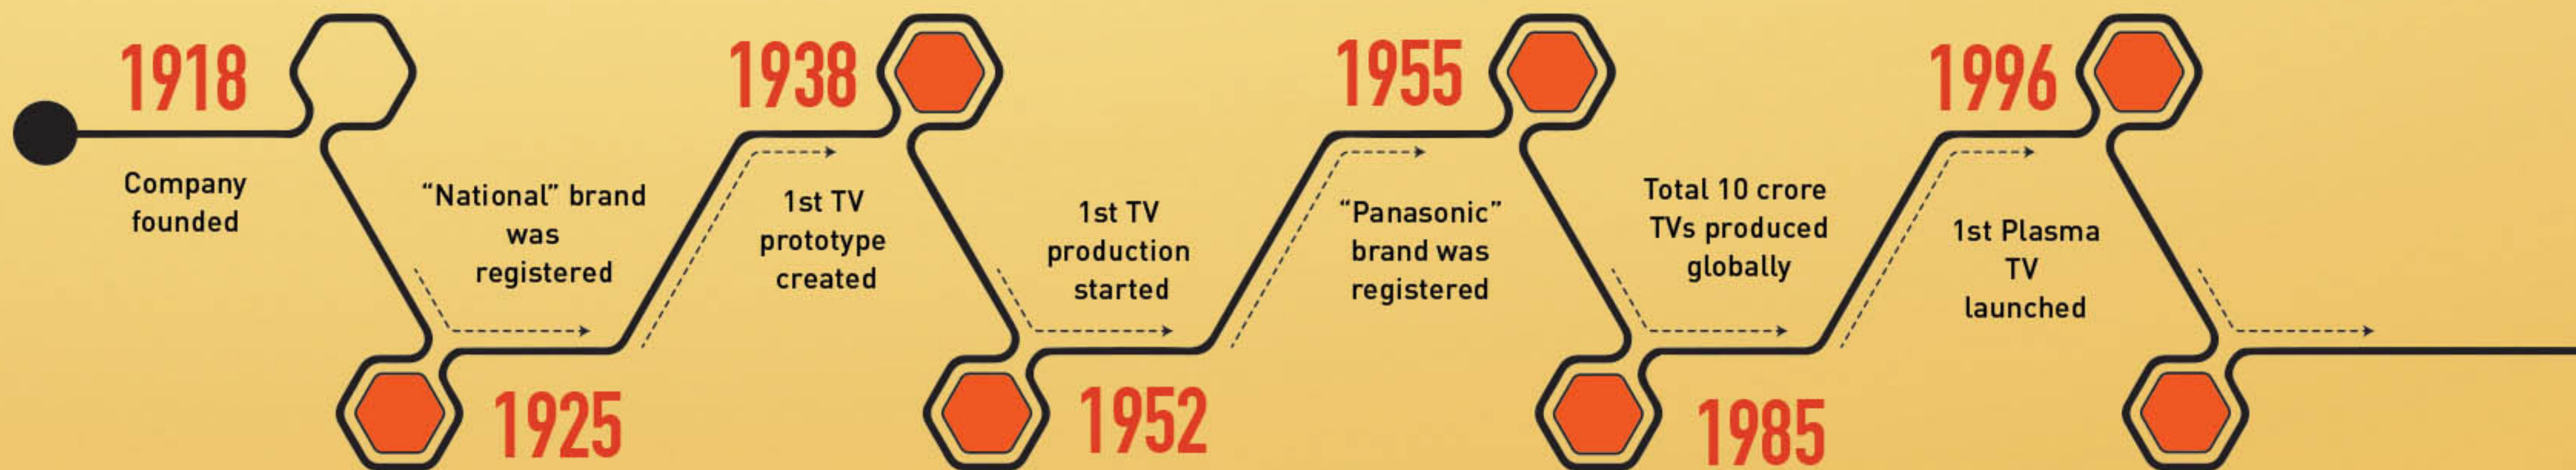

HIGHLIGHTS

ULTIMATE LEGACY ULTIMATE VISUALS ULTIMATE SMART ULTIMATE SOUND ULTIMATE DESIGN

ULTIMATE LEGACY

HISTORY OF PANASONIC

It's not just a name, it's a belief.

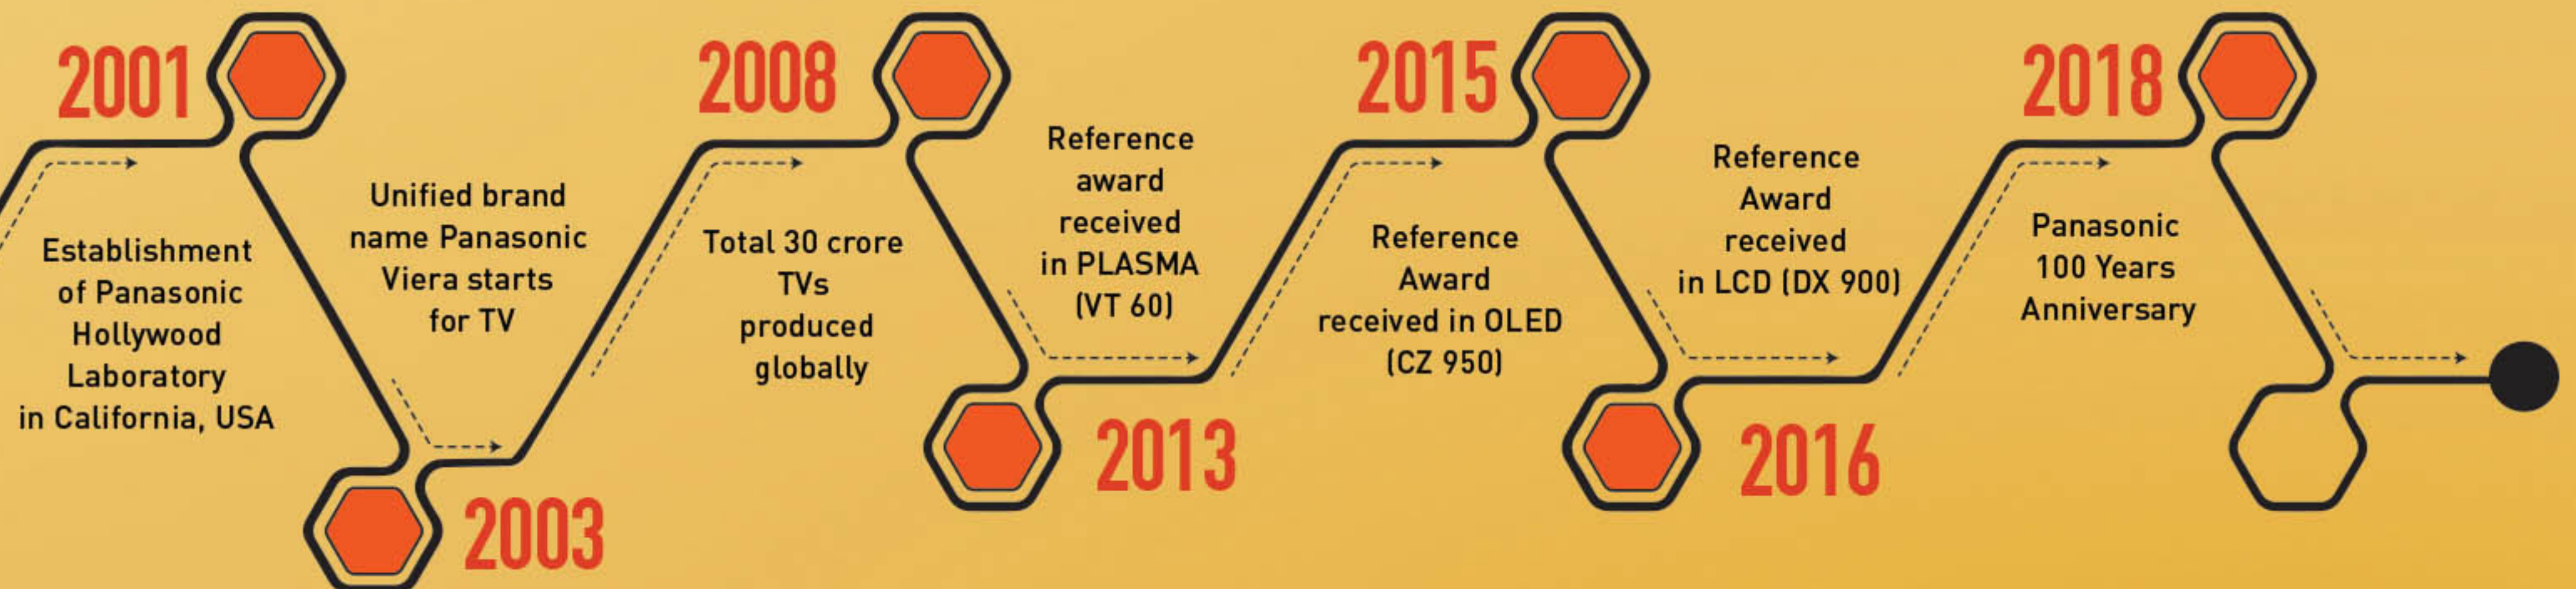

Japanese technology is undoubtedly the best in the world. Since its foundation in 1918, Panasonic, formerly known as 'National', has been loved and trusted by customers for the last 100 years, and its history continues to count.

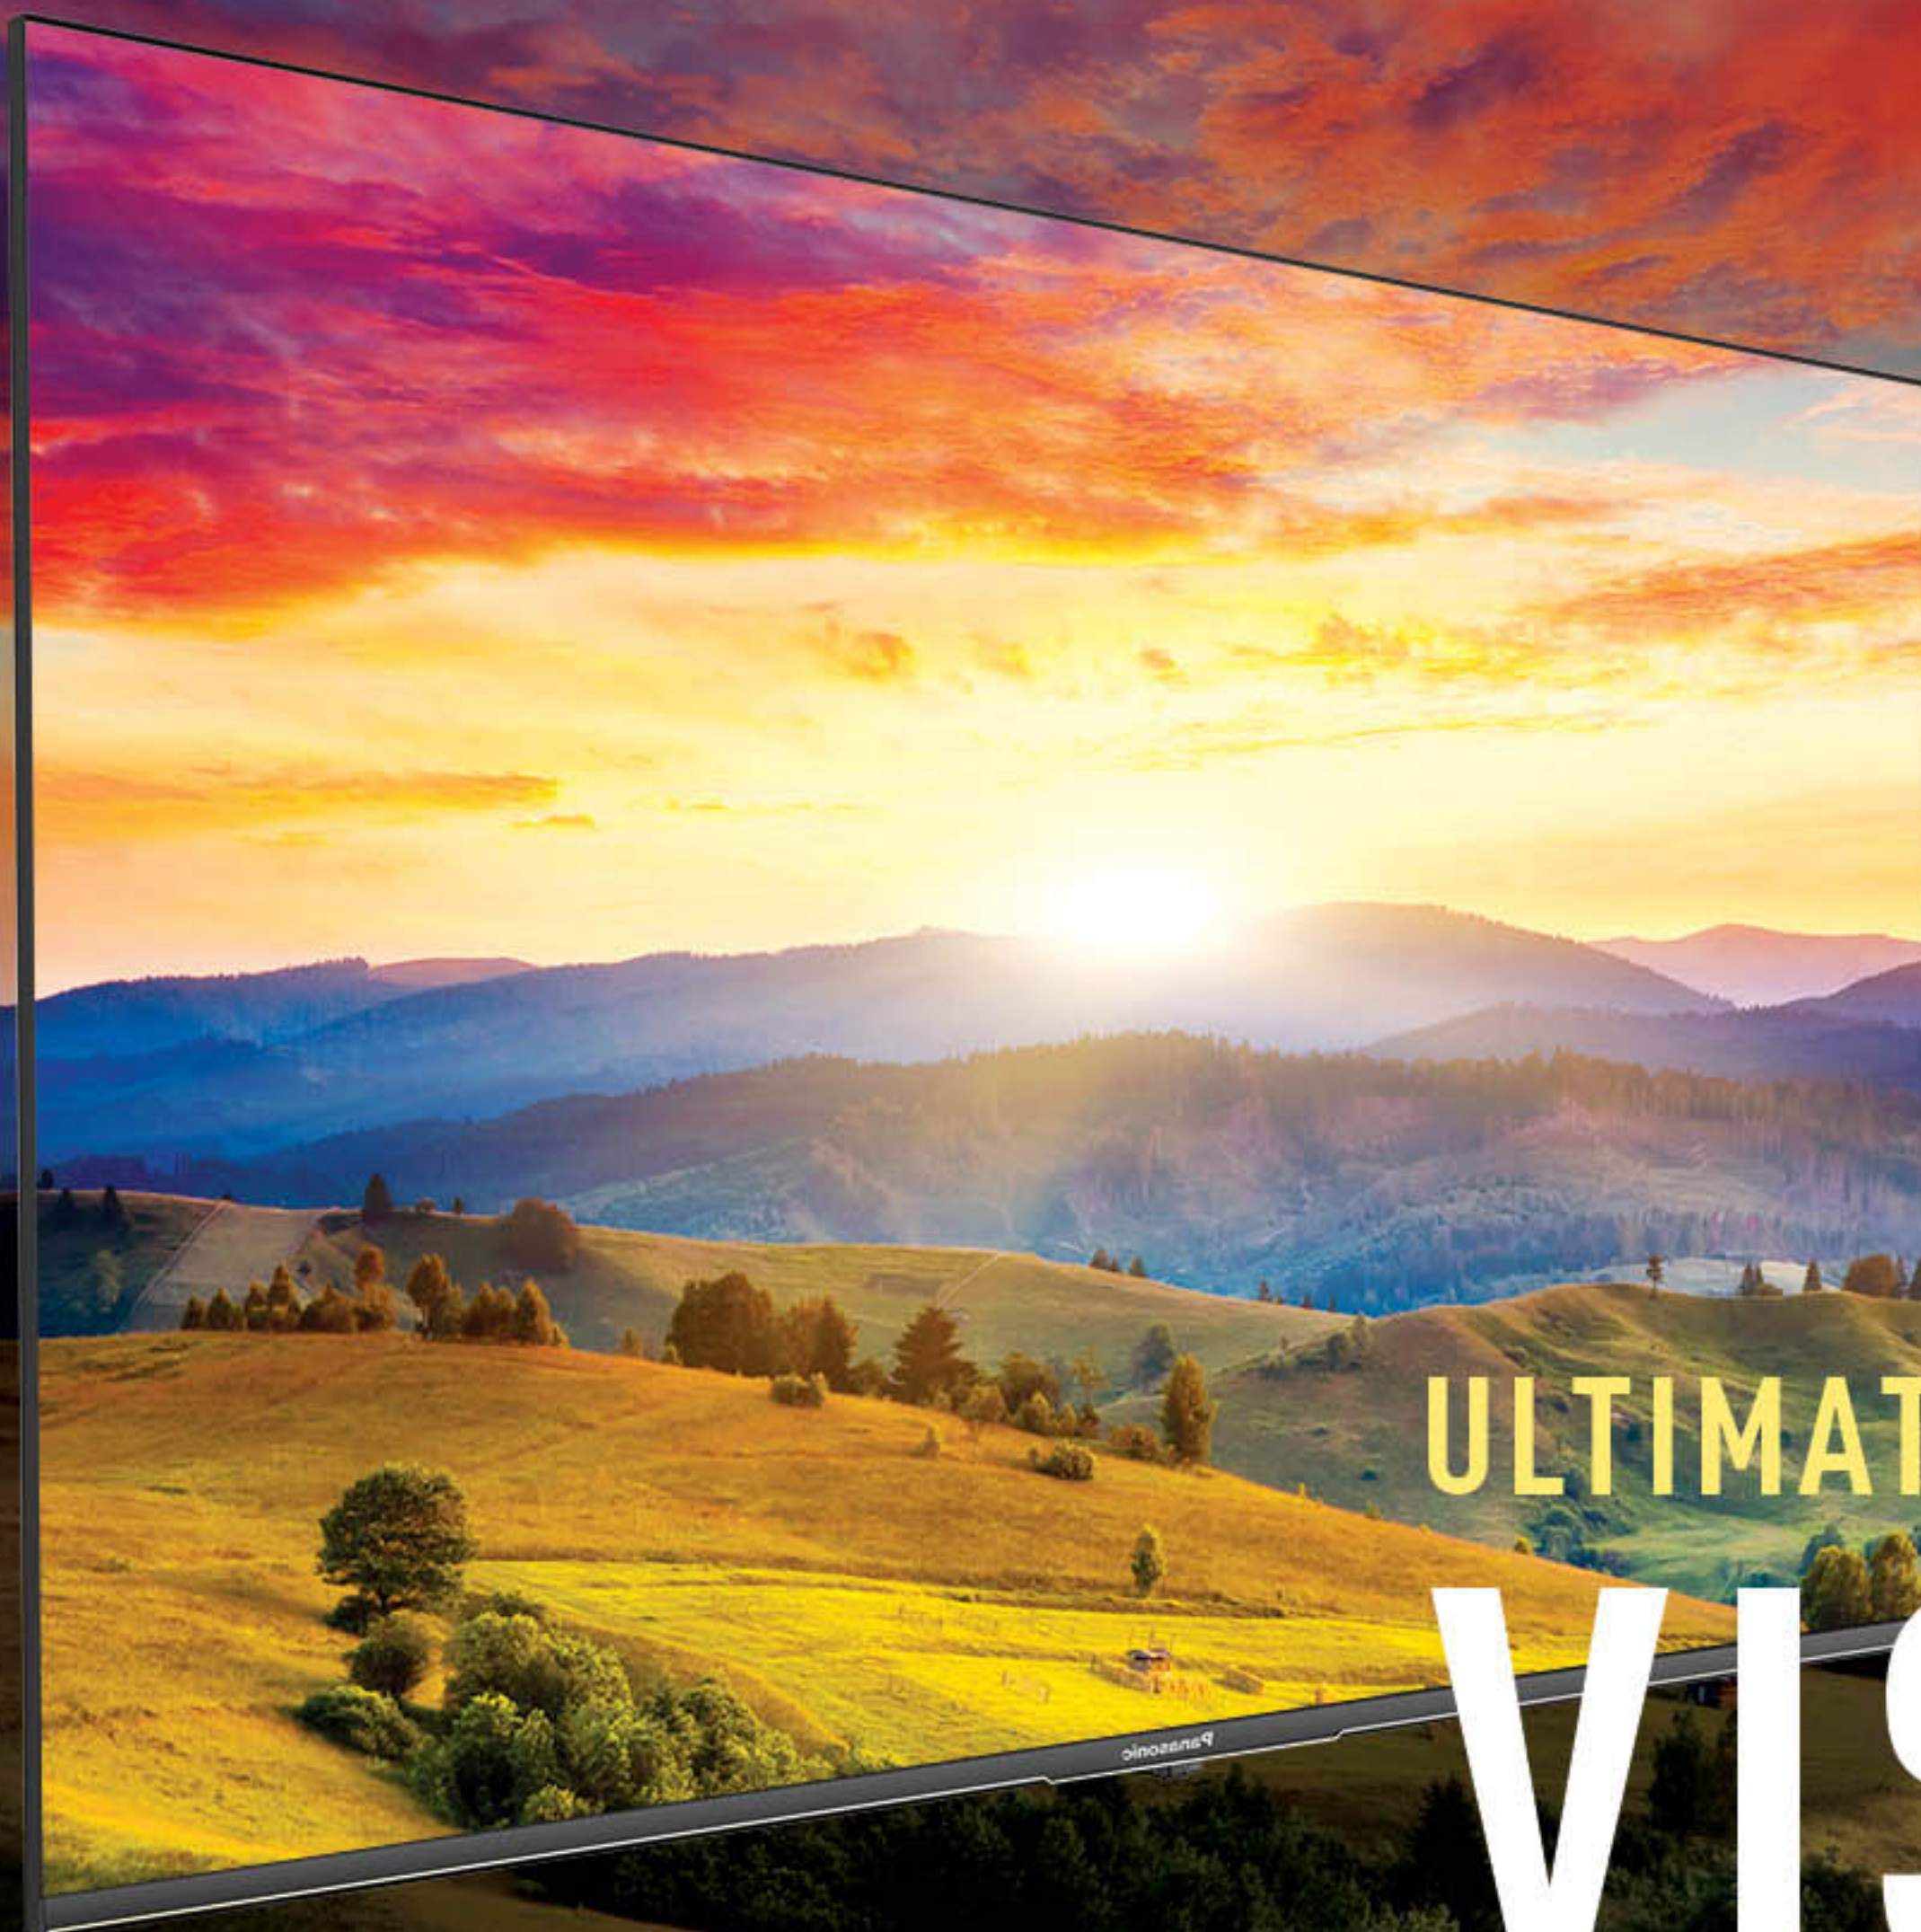

Panasonic TV is now hitting its 69th anniversary with 30 Crore+ happy customers in over 150 countries and regions. From durability to performance, innovation to convenience, Panasonic has been providing its customers with an outstanding experience that's beyond technology.

ULTIMATE

VISUALS

Visuals that will transport you to a new universe.

HCX PROCESSOR

Working together with Hollywood colourists, Panasonic's passion for films combined with advanced technology has produced the Hollywood Cinema Experience (HCX) Processor.

This powerful chip produces unrivalled cinematic quality and brings Hollywood to life in your homes.

Creating high-quality pictures in collaboration with Hollywood pro-colourists.

Companies

TOP COLOURIST STEFAN SONNENFELD

PANASONIC HOLLYWOOD LABORATORY

A bridge to cinema professionals: creating cutting-edge display technologies.

In 2001, the Panasonic Hollywood Lab was established within the Universal Studio Lot in Hollywood. It was around 2006 when studios in Hollywood started picking up our Plasmas for consumer-reference and client monitors.

PANASONIC OLEDs ARE ON THE JOB IN HOLLYWOOD STUDIOS

It's not just Panasonic that believes its latest televisions are uniquely designed to show pictures in the way they were created to be seen. Some of the film and TV industry's biggest names now use Panasonic televisions as an essential part of their work processes. Our TVs are 'the Choice of Hollywood', meaning, that you can own THE VERY TVs which are also being used to create the movies and TV shows you love.

Colour

Contrast

Clarity

BREATHTAKING COLOUR

Dynamic colours & tones add life to every image.

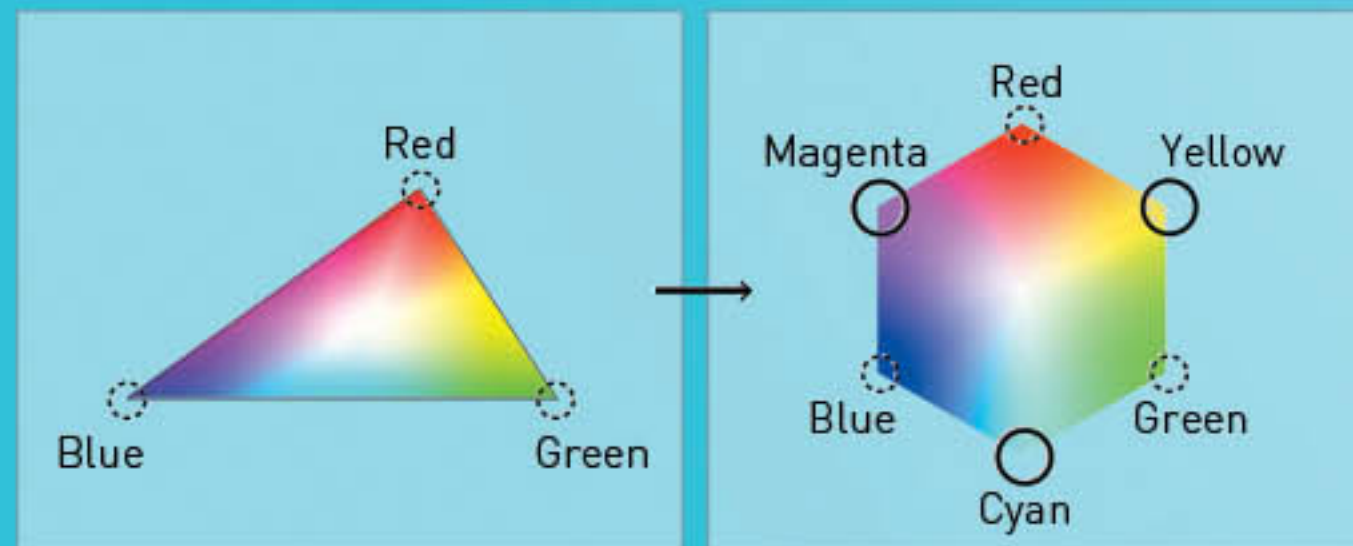

HEXA CHROMA DRIVE

Stunning picture with accurate colour reproduction.

Experience stunning picture quality like never before. Thanks to the accurate colour reproduction our TV has achieved remarkably high picture quality. This amazing quality offers you a memorable viewing experience and delivers outstanding clarity.

Conventional

Hexa Chroma Drive

Delivers outstanding colour clarity

HEXA DRIVE

Perfectly rendered shades for the perfect picture quality.

Millions of colours are accurately reproduced. Difficult dark shades are also faithfully rendered.

Accurate colour reproduction

VIVID DIGITAL PRO

Natural skin tones and colours with bright, sharp images.

A form of image rendering designed especially for digital signals that corrects colour, brightness and sharpness. It achieves natural skin tones and colours, enhances brightness and sharpens images with an original noise reduction method. This unique technology allows you to experience truly superb images.

Colour

Contrast

Clarity

ADVANCED CONTRAST

Brighter picture for a greater experience.

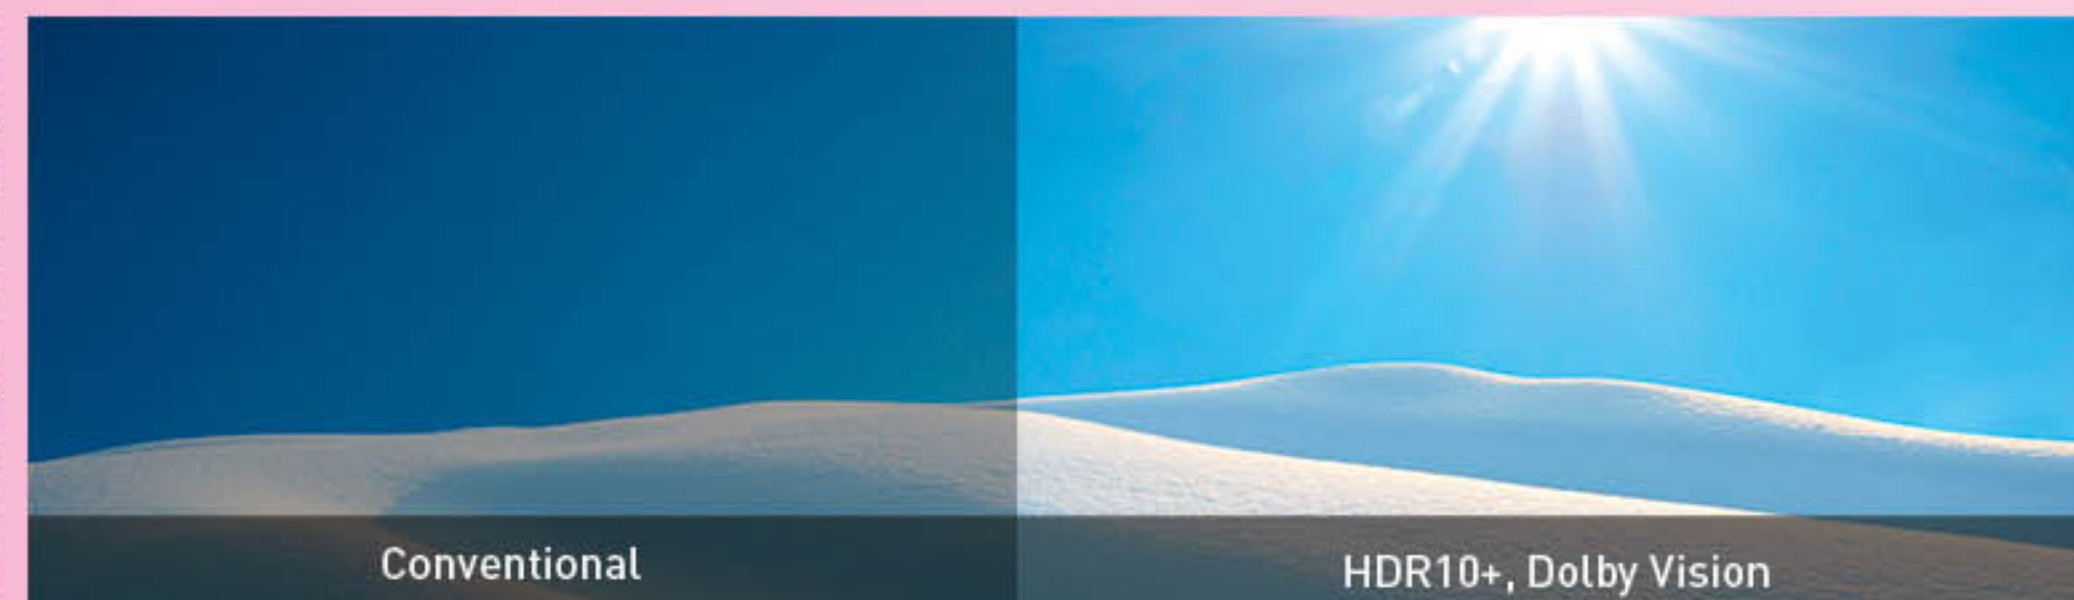

COMPATIBLE WITH MULTIPLE HDR FORMATS

Our new TVs support playback of both next-generation 'Dynamic Metadata' HDR Standards: HDR10+ and Dolby Vision. They also support conventional HDR10 and Hybrid Log-Gamma too, so users can enjoy a variety of HDR content. HDR10+ provides unprecedented picture quality on all displays with brightness, colour and contrast automatically. In previous iterations, static tone mapping applied a fixed enhancement across an entire piece of content. With HDR10+ dynamic tone mapping every scene is individually enhanced to bring to life vibrant visuals and achieve unprecedented picture quality.

Middle

Bright

4K DIMMING

High contrast images created with backlight control and signal processing.

Backlight control and signal processing combine to control the brightness in thousands of areas for outstanding contrast expression. They also render fine hues and produce images with exceptional depth.

ACCUVIEW DISPLAY WITH WIDE VIEWING ANGLE

Get the complete picture, from any part of the room.

Get the complete, perfect and real picture with AccuView Display. It provides the widest viewing angle, so you can get crystal clear clarity from any corner of the room.

SUPER BRIGHT PANEL PLUS

The 178 degree wide viewing angle provides crisper and more dynamic pictures.

The Super Bright Panel Plus Provides high light transmittance and a 178 degree wide viewing angle. This technology helps to achieve a high level of picture quality.

Colour

Contrast

Clarity

UNMATCHED CLARITY

Makes every movement crisper, clearer, sharper.

4K UPSCALING

Full-HD content is upscaled to 4K-equivalent resolution.*

Panasonic's original high-performance image processing engine immaculately renders highly intricate and detailed 4K images.

Edge Detailer

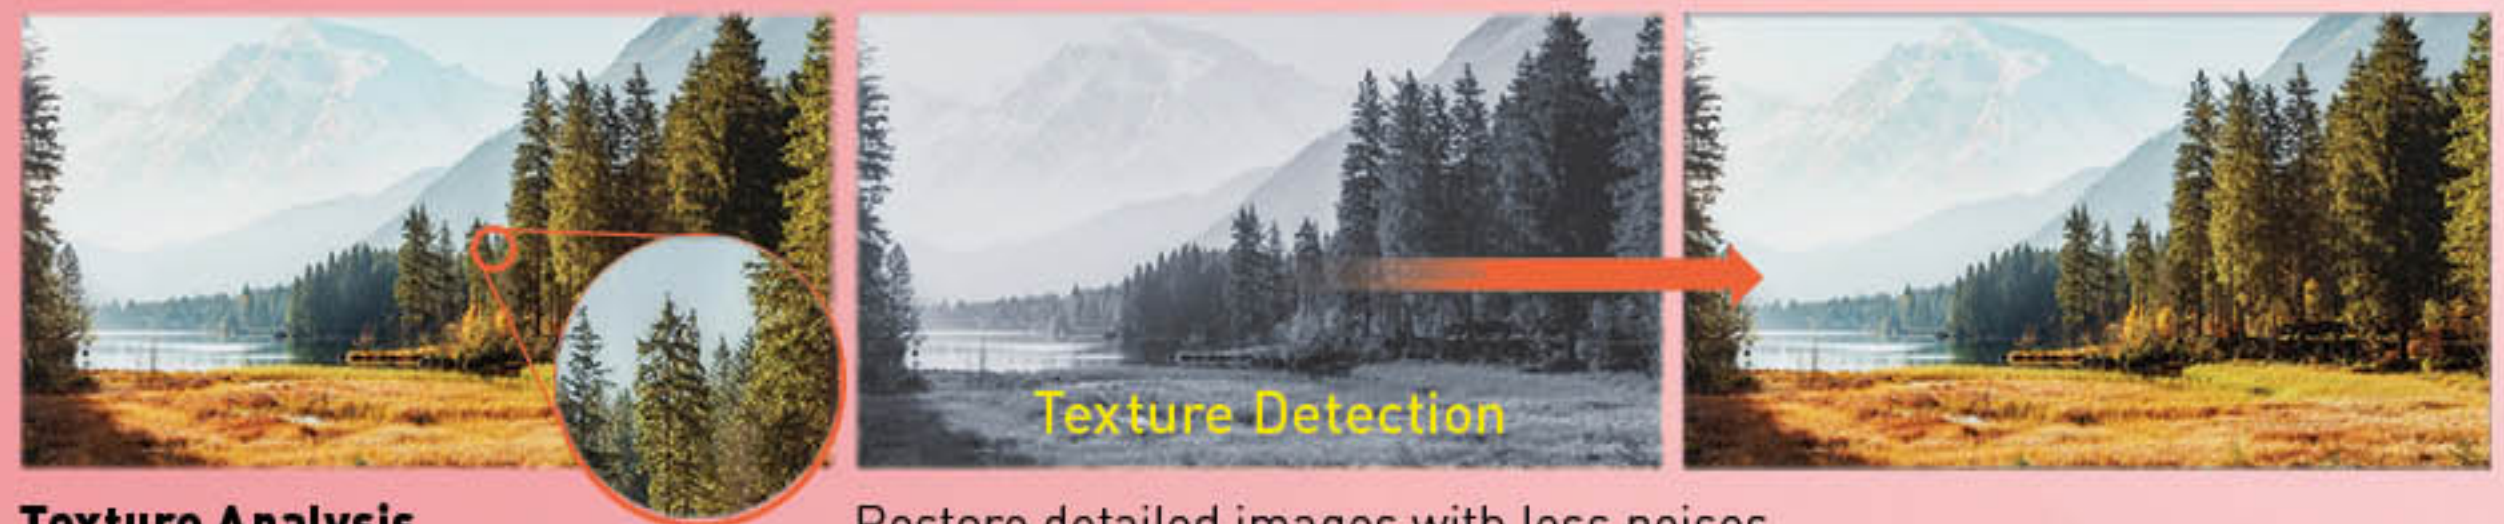

Realize Fine, Clear Edge Line like 4K Picture Quality.

The fine, beautiful edges inherent to 4K

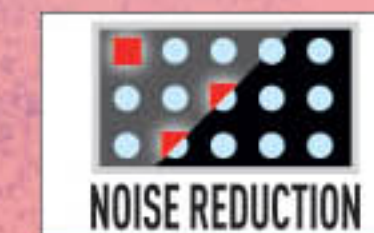

*The upscaled resolution depends on the original content.

Super Clear Resolution

Texture Analysis

Restore detailed images with less noises

NOISE REDUCTION

Clear, detailed image picture quality.

Reduces picture noise to make images look crisper and clearer.

ULTIMATE ANDROID TV

Your TV can do a lot for you.

BUILT-IN GOOGLE ASSISTANT

Your TV can do a lot for you.
All you have to do is just ask.

The Panasonic Android TV comes with the built-in Google Assistant with voice control. You can now control the TV with voice command. This also provides IoT connectivity.

INTERNET APPS

Use a wide variety of apps on your large TV screen.

Internet App-capable TVs can use the Internet to access a wide range of apps, video on demand services and games stored on the Cloud.

Google game

Google music.

Google Playstore

*App availability depends on Series.

BLUETOOTH REMOTE (SLIM DESIGN)

Stylish remote equipped with Bluetooth, microphone and OTT hot keys. Plus, super SLIM design adds the elegance.

*Availability depends on Series.

Mirror, mirror on the cast.

Everything you love on your device, now effortlessly on your Panasonic Android TV. Through the built-in Chromecast, you can easily cast pictures, videos, music and more, without worrying about draining your device's battery or internet consumption.

ULTIMATE SOUND

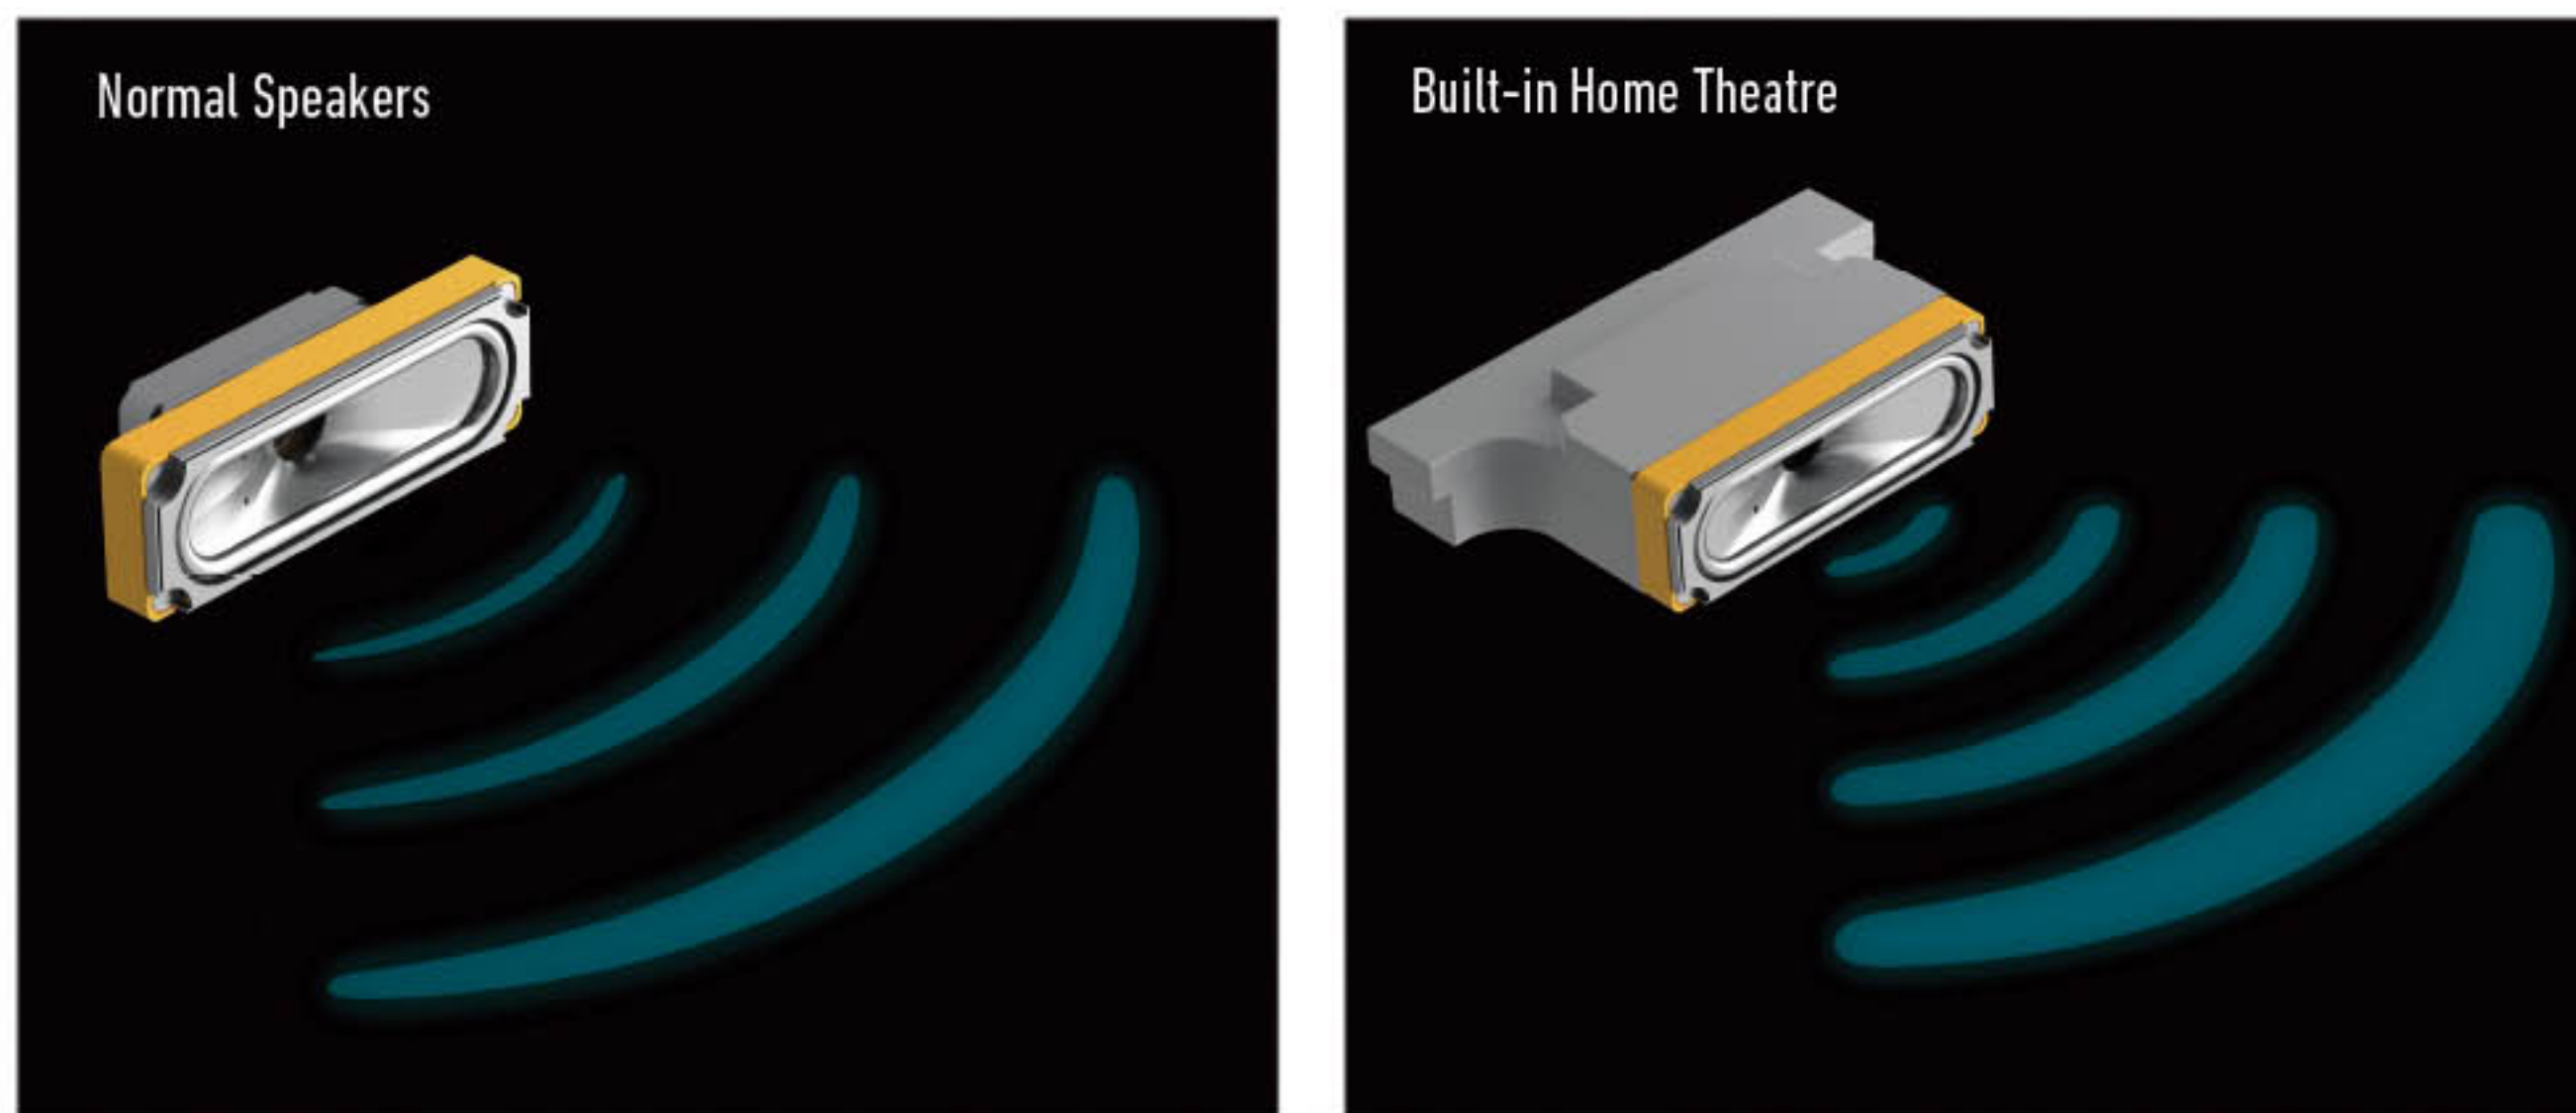

Sound that breathes life
into every visual.

BUILT-IN HOME THEATRE

Many flat panel TVs do not have a high enough level of sound because of the small space for speakers.

To release a high level of sound, we adopted special speaker units for Built-in Home Theatre. It improves the sound pressure and delivers robust bass. The box-type structure produces resonance and high sound pressure. This provides high-quality sound.

*Simulated images.

AUDIO BOOSTER +

Panasonic TVs come with a unique speaker which is much more powerful as compared to the conventional TV speaker. This speaker boosts sound to give you a better TV experience.

AUDIO LINK

The Panasonic Bluetooth Audio Link lets you easily connect to a wireless audio speaker via Bluetooth® to provide powerful sound. The higher sound volume adds to the cinematic experience of Panasonic TV's visuals. Music from a smartphone or tablet can also be played on the TV speakers via audio link.

Our TVs comply with major industry standards for audio performance.

V-AUDIO

V-Audio delivers surrounding sound effect and depth-sound-image that are generated by digital signal processing.

ULTIMATE DESIGN

It's nothing less than a masterpiece.

LESS IS PERFECTION

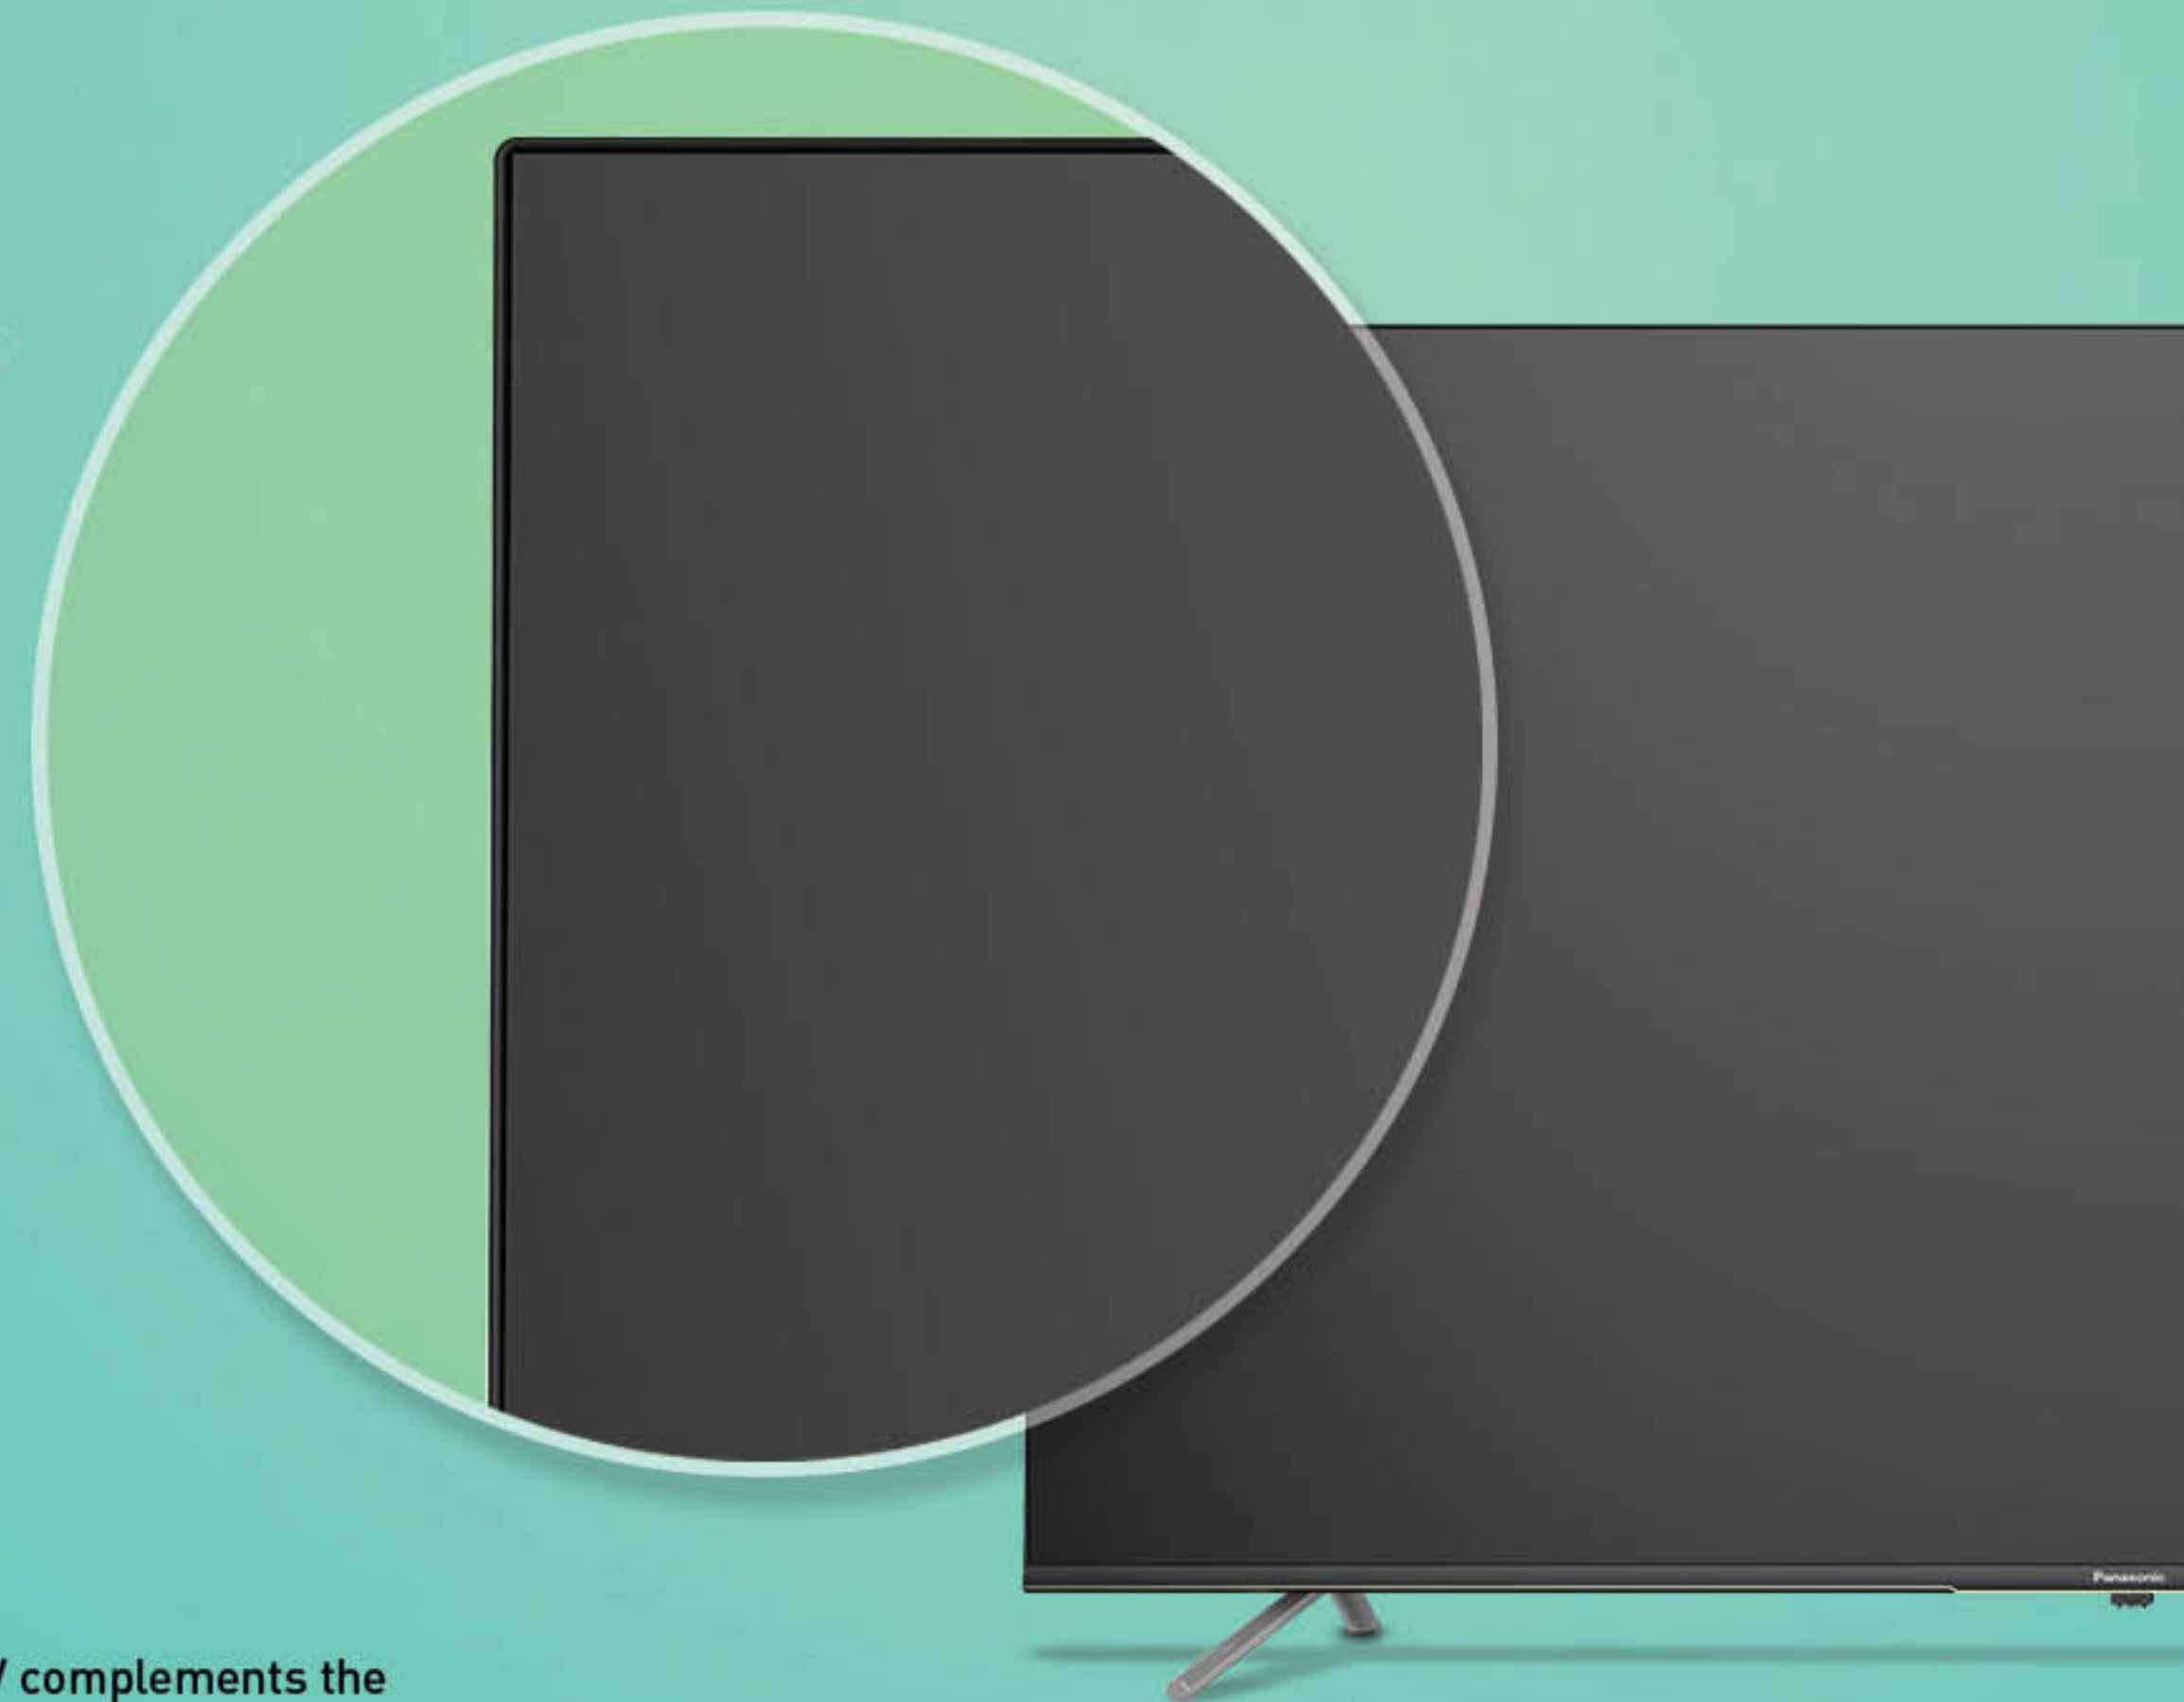

Minimalistic design for a wholesome experience.

BEZEL-LESS DESIGN

The bezel-less edge design lets you enjoy the complete picture without any distraction.

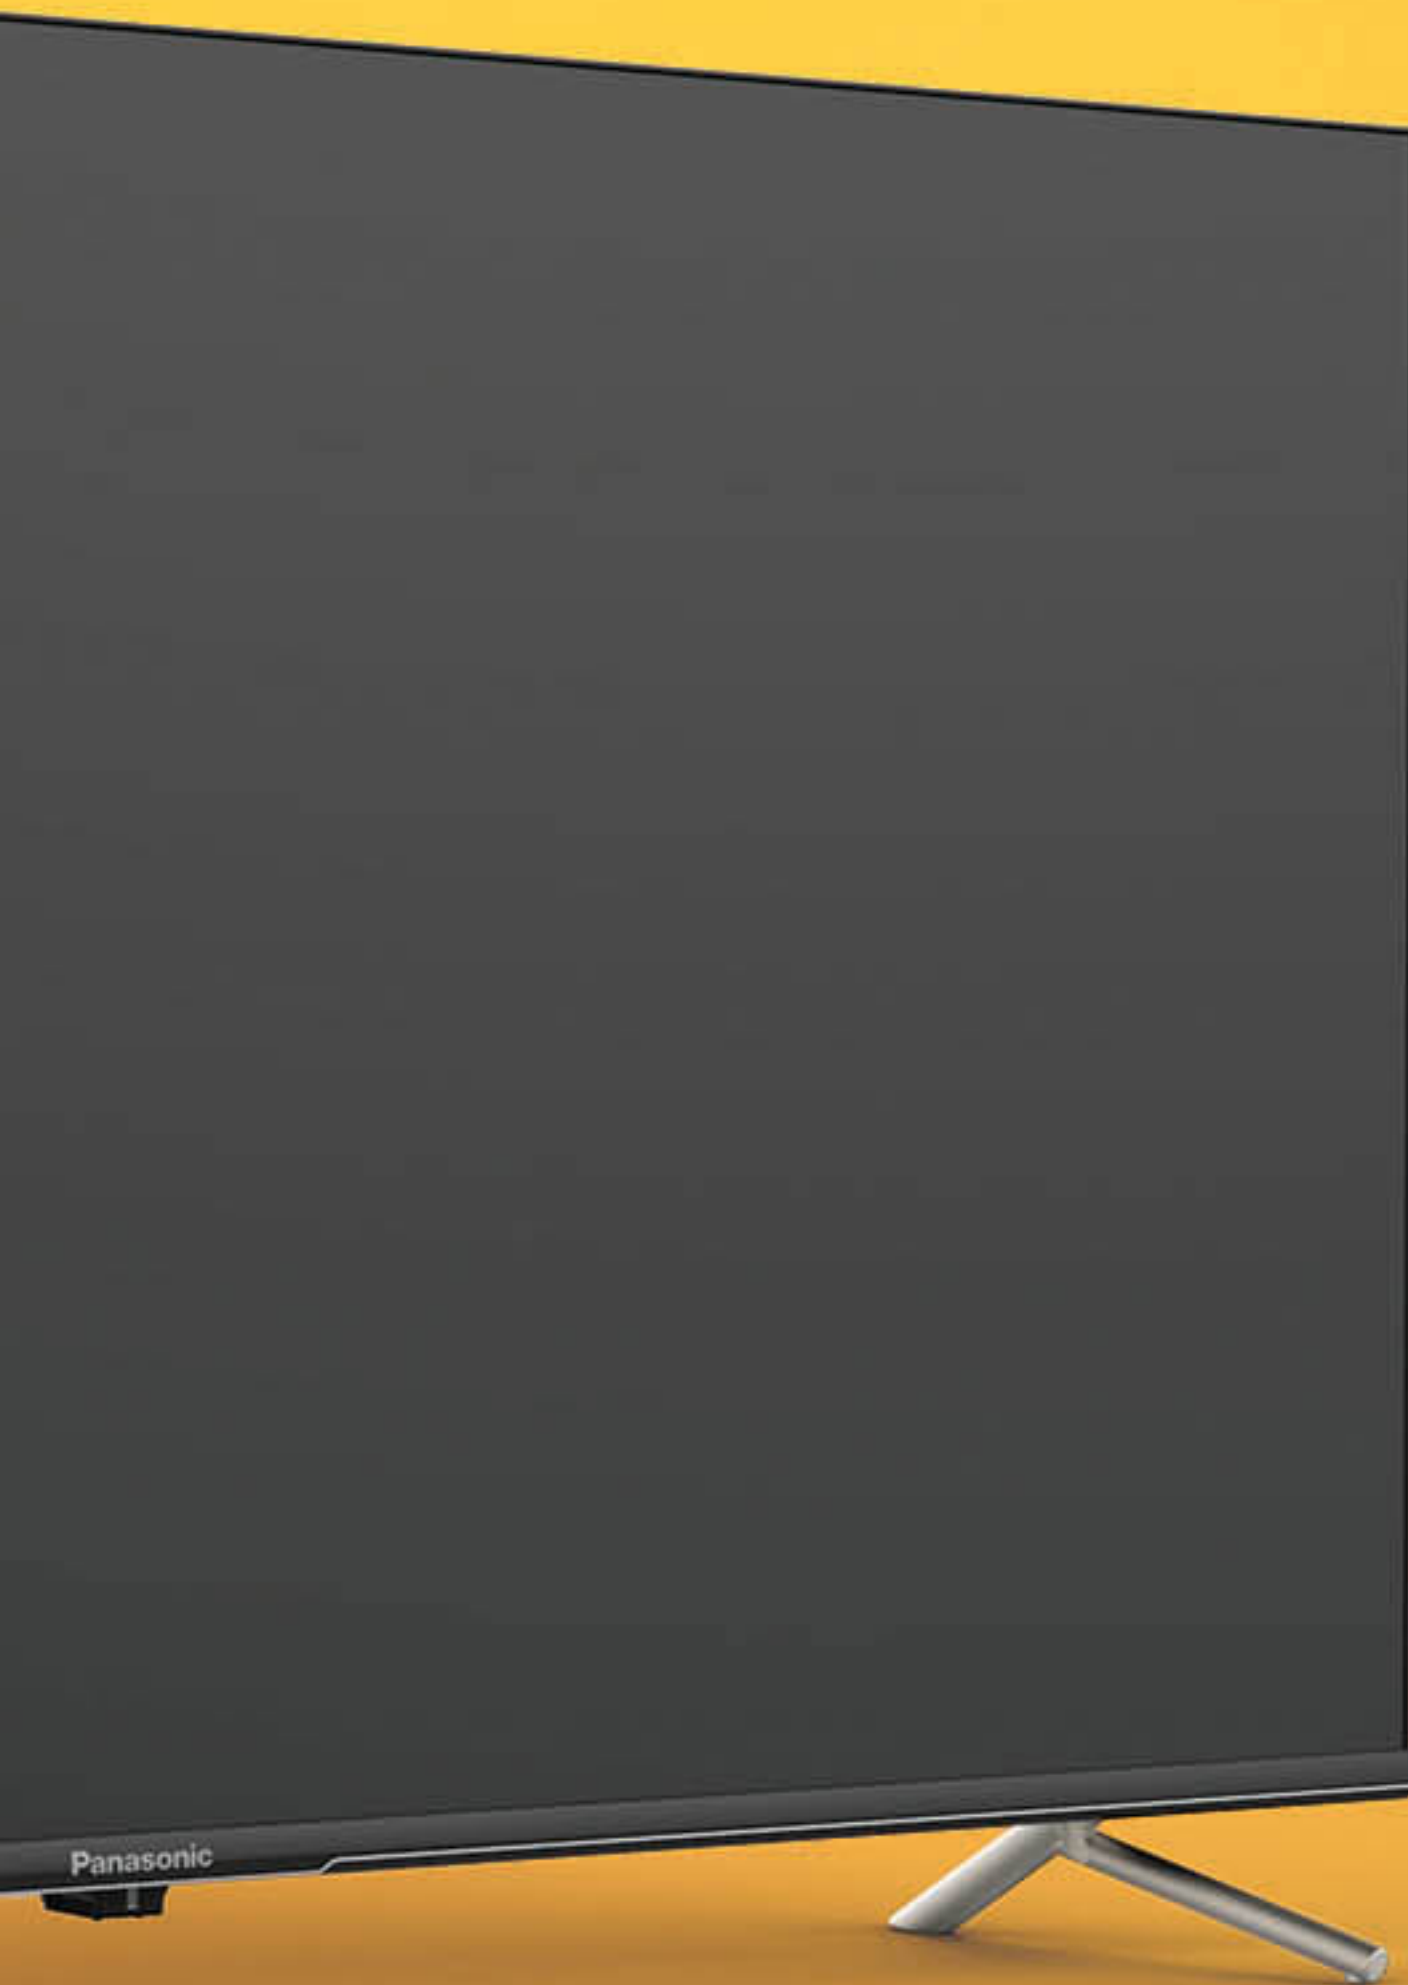

ELEGANT BLACK DESIGN

The glossy black body of the Panasonic TV complements the sleek design, giving it a premium and luxurious look.

URBAN AUDIO

UN
URBAN AUDIO

DYNAMIC SOUND FROM ALL-IN-ONE SPEAKER

Room-filling Expansive Sound

Wide directivity is obtained by positioning mid-range woofers and tweeters on three sides. Dynamic sound reaches every corner of the room. The UA90/UA7 has a total of 10 speaker units to attain sufficient sound pressure.

UA90 UA7 UA3

Overwhelming bass and resonance

Airquake Bass

Let the unique Bass Reflex System power your party. Innovative port technology pushes sound forward without losing the resonance of the woofer unit, to further amplify the bass.

UA90 UA7

Total noise-reduction for clear sound

Hexa-Cylinder Cabinet

Hexa-Cylinder Cabinet reduces standing wave and reflection, and makes for a more rigid cabinet, which in turn reduces the resonance.

UA90 UA7

Clear vocals with minimal interference

Separate Box Configuration

Mid and treble are separated from the bass, preventing interference and delivering clear vocals.

UA90 UA7

Powerful bass sound without distortion

Back-to-back Speaker Placement

Back-to-back Speaker Placement reduces cabinet vibration by canceling opposed reaction movements.

UA90 UA7

Back-to-back Speaker Placement
