AC/Rechargeable Shaving Trimmer

ER-GD

Series

JAPANESE BLADE TECH

Precision cutting with a 45° edge

Durable stainless steel blades with an acute 45° edge enable precise cutting. Sharp cutting edges quickly cut even thick and hard hairs.

Japanese stainless steel

The blades are made of outstanding Japanese stainless steel that offers high rust resistance and hardness.

DESIGN

Fixed Blade
35mm

Making edges with sharp cutting

The straight part of the blade is 35mm long, making it easy to create clear-cut lines.

10mm

Detail design with attachment

It has a 10mm-wide Detail trimming attachment enabling detailed beard design in places such as under the mouth.

Detail attachment

SHAVE

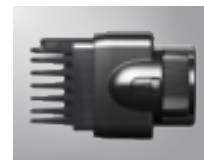

Thin fixed blade

Easy shaving for a clean finish

Newly developed gentle-to-skin blade lets you easily get rid of unwanted hairs. You can cleanly shave whiskers on your cheeks or under your jaw with a single unit.

TRIM

Comb attachment for even beard length

Using the attachment with the length adjustment function enables easy, clean trimming to a desired length.

Comb attachment
0.5-10mm (intervals of 0.5mm)

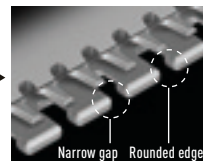

Gentle to skin

Skin Protective Blade

The edges of the fixed blade are wide and rounded so there's little stimulation on the skin. The gaps on the fixed blade are also narrow, so that skin cannot enter and become harmed.

Conventional blades

New blades

- I-shaped design for easy, precise shaving
- Cord/cordless operation
- Washable blade

Rechargeable Body Hair Trimmer

ER-GK60

JAPANESE BLADE TECH

Precision cutting with a 45° edge

Durable stainless steel blades with an acute 45° edge enable precise cutting. Sharp cutting edges quickly cut even thick and hard hairs.

Japanese stainless steel

The blades are made of outstanding Japanese stainless steel that offers high rust resistance and hardness.

New blade

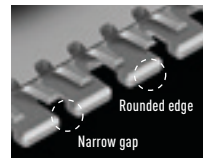

Attachment for groin

Comb attachment

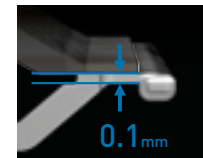

GENTLE SHAVING

Protective, wide-edged fixed blade

The edges of the fixed blade are wide and rounded to ensure a minimum skin irritation. The gaps on the fixed blade are also narrow, making it hard for skin to enter.

CLOSE CUT

Thin fixed blade

Cut to a length of 0.1mm

The 0.1mm blade provides a close shave. Unlike when using a safety razor, body hairs can be directly and easily removed without the need of shaving foam.

*Trimming length approx. 0.1mm
*Fixed blade thickness is 0.1mm

ATTACHMENTS

Attachment for groin

The tips of the attachment are rounded to be gentle to skin. And there's a space of approx. 2mm between the attachment and the skin to enable a safe cutting without harming the soft skin in sensitive areas.

I-SHAPED DESIGN

I-Shaped design based on ergonomic design

Newly developed I-shaped design offering easy, precise shaving with a fingertip touch.

Easy length adjustment with two comb attachments

Chest and leg hair can be trimmed to a desired length. Two length adjustment attachments (3mm, 6mm) are provided.

*0.1mm/2mm/3mm/6mm

- V-shaped head
- Washable
- Wet/dry, it can be used in a shower.
- Cordless operation
- Charging stand
