Ag+ Crystal Material Keeps the Shower Surface Hygienic

Commonly touched areas, especially the shower head, one push On/Off switch, the filter body and the power control knob, are made with the Ag+ Crystal Material to keep the shower unit hygienic. It effectively eliminates bacteria and fungi, keeping your skin clean and healthy.

Its stylish and modern design fit well with your bathroom décor. The shower head features Panasonic's 3D spray technology that creates a powerful water flow for a refreshing shower experience.

Blissful Showers for Comfort & Wellbeing

Reasons to choose:

Safety & Hygiene

- Safe operation with 9 safety features
- Ag+ Crystal Material to keep shower unit hygienic

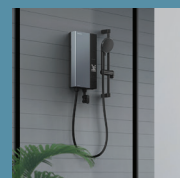

Comfort

- Relaxing, comfortable shower with U Mode
- 3 personalized shower memory settings with U Memory
- Spa-like shower experience with delicate water texture

Design

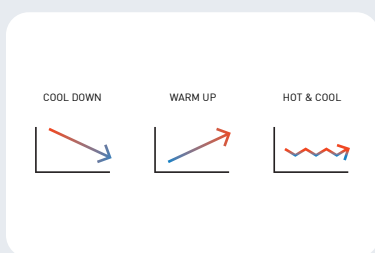

- Minimalist design with sleek surface
- Easy-to-see LCD display
- Safe and easy-to-press On/Off switch

Treat Yourself to A Comfortable Spa-Like Shower Experience

Experience a personalized shower experience with multiple modes and detailed settings.

Three Comfortable Temperatures

Select from 3 modes according to your purpose. You can freely set detailed temperatures and time to suit your needs.

U Mode

Three Personalized Settings

Once your favorite settings are recorded, you can recall them with a single touch of a button. Up to 3 settings can be registered.

U Memory

Three Gentle Water Textures

Select the shower spray texture from 3 types to suit your preference (Spot/Normal/Wide). Improved shower head now has more holes with smaller diameter for gentle touch on skin.

Three-way Shower Head

*Only in U Series - Digital

A Personalized Shower Experience with Multiple Settings

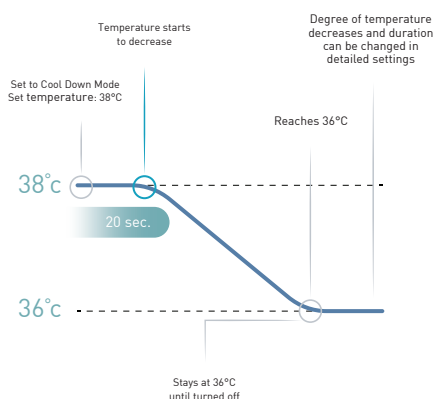

Feel the Smart Benefits of U Mode

Cool Down Mode

Let the coolness settle in slowly, and feel the freshness kick in.

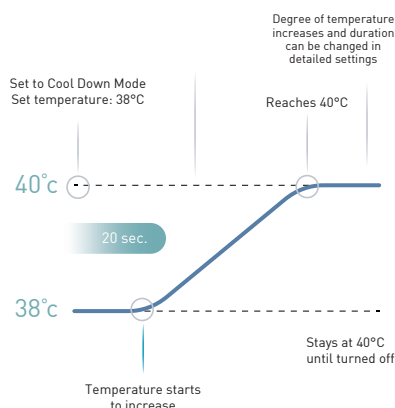

The water temperature gradually cools down to your set level, letting you enjoy a refreshing sensation as your body transitions from the warmth.

Warm Up Mode

Gradually warm up to match your body temperature.

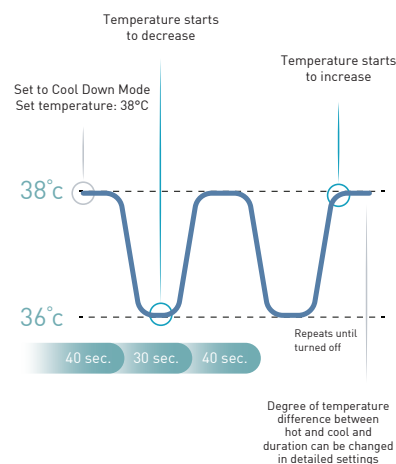

The water slowly warms to your set temperature, keeping your body comfortably warm after a soothing shower.

Repeats hot and cool

Switch between hot and cold for balanced, healthy comfort.

The water temperature alternates between cool and warm to stimulate blood flow, relieve tensions, and support the body's natural detox process.

Recommended Moments

Most suitable for providing a refreshing mood and is ideal for hot seasons or after every workout.

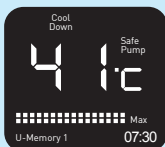

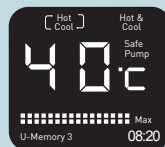

Most suitable for keeping your body warm and is perfect for cold weather or the rainy season.

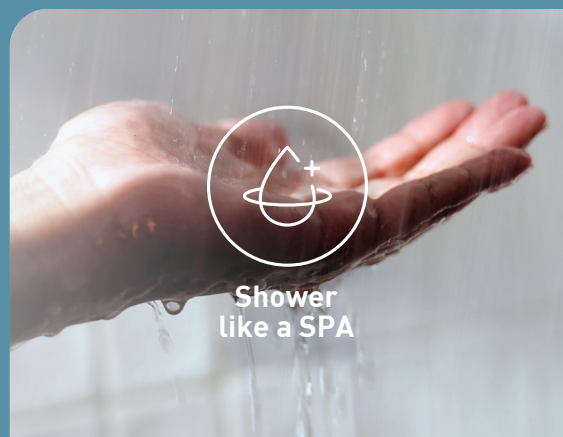

Most suitable for getting into a refreshed mood and relieving tension after a tiring day.

Showering Comfort For All

U Memory's Three Modes for Every Family Member

	Memory 1	Memory 2	Memory 3
Family Member	 <p>I want to freshen up after my daily exercise.</p> 	 <p>I don't like hot shower.</p> 	 <p>I want to relax before going to bed.</p> 
U Mode	Cool Down Mode	Warm Up Mode	Hot & Cool Mode
Temperature	41°C (gradually decreases to 3°C)	38°C (gradually increases to 2°C)	40°C (gradually decreases to 3°C)
Pump (On/Off)	ON (for stronger shower pressure)	OFF (for weaker shower pressure)	ON (for stronger shower pressure)
After Shower	Ending the shower with cooler water is ideal to cool down a heated and sweaty body for a more refreshed feeling.	Starting the shower with cooler water that gradually heats up makes adapting to hot shower easier, and the warm comfort lasts longer.	Alternating between cooler and warmer water gives good stimulation to the body and accelerates circulation.

Choose Your Preferred Pressure

Comfortable Water Texture with Three-Way Shower Head

Experience the improved shower head design that creates a shower effect that feels good on the skin. It comes with three (3) water textures: Normal, Wide, and Spot, for a spa-like shower at home.

You can easily switch between textures by moving the lever left and right with one hand.

Spot

Concentrated spray to relax tense areas

Normal

Default mix-spray that combines rich yet soft and strong yet revitalising water texture

Wide

Intense jets of fine micro-droplets to cleanse your body from lethargy

The Ag+ Crystal Material Keeps The Shower Plate clean and Hygienic

Ag+ Crystal Material

The surface of the Shower Plate are coated with the Ag+ Crystal Material to prevent the formation of bacteria, keeping your well-being in check in the humid bathroom environment.

Constantly humid bathroom increases the chance for bacteria to grow, especially on the shower head.
