Input Power Voltage	AC220-240\
Frequency	50/60H
Life time	15000h
IP	20
Material	PB <sup>-</sup>

#### ■ Dimentions & Weight

#### ■ Light Disturibution

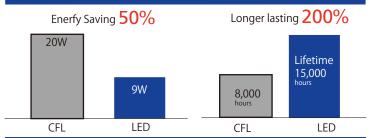

#### Equipped with motion / light sensor

- In the dark environment, it can light up automatically by sensing human activities.
- In the bright environment, it will not turn on automatically even if human activities are sensed.

Application: Suitable for corridors and toilets etc.

#### Extremly efficient with Longer lifetime

#### Instalation Friendly & Simple design

- Design of frame of Donwnlight can fit with the ceiling for installation, that makes finishing looks flat even in case ceiling is not flat.
- Simple and elegant design meet with any application.

### LED Simple Ceiling Light Sensor & IP44 Type \*

#### Equipped with motion / light sensor

Motion / Light Sensor

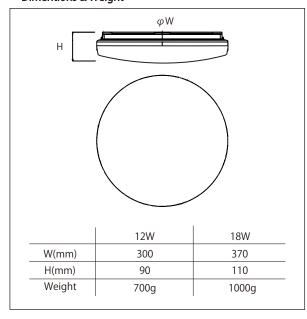

- In the dark environment, it can light up automatically by sensing human activities.
- In the bright environment, it will not turn on automaticallyeven if human activities are sensed.

Application: Suitable for corridors and toilets etc.

#### ■ Specifications

Input Power Voltage AC220-240V 50/60Hz Frequency 25000h Life time Cover: PMMC (White) Material

#### **Dimentions & Weight**

#### Higher waterproof level

Implemented IP44 by intergrated waterproof seal.

#### Longer lifetime

Incandescence lamp

More than 2 times longer lifetime than incandescence lamp. 25,000 hours(L70)

#### ■ Connecting Method

#### Enjoy the music with Bluetooth Function

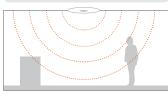

- Connect easily with Bluetooth to enjoy the music you like.
- Integrated with high quality speaker to give you a perfect musical experience.

#### Immersive musical experience

• Top-down sound effects, providing immersive musical experience.

#### Multiple lighting modes

#### - CCT Changeable

Change color temperature from 3000K to 6500K by pressing Warm/Cool buttons on remote control, creating different atmospheres.

#### -10 Steps Dimmable

Change the brightness by pressing Bright/Dim buttons on remote control, to suit any scene you need.

#### - RGB Color

Switch among various colors for the RGB light surrounding the speaker by pressing the RGB button, and adjust to any melody you like.

#### Night Light

Quick Night Light Mode is available for your relaxation.

### **UV** Germicidal lamp

#### For Your Health and Safety

Panasonic aims to promote your health and safety with Ultra Violet (UV) Germicidal Lamp that uses UV-C for effective sterilization. Panasonic long history and experience in manufacturing lamps led to the development of a special glass tubing that emits high quality, efficient, and effective UV light. For the safety of the users, Panasonic integrated safety functions such as sensors, timers, alarms, and child-lock mode. The product also features minimal buttons for simple and easy controls.

#### Simple and Easy control

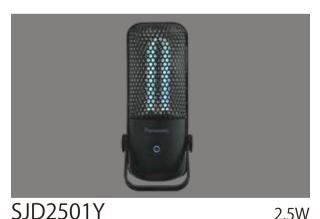

Control Panel has only 4 types of switches for end-user friendly

- On/Off
- Child Lock for safety
- Time Mode(30 minutes)
- Time Mode(60 minutes)

SJD3001 30W
