DIFFERENT SPACES

Housing and Business environments have different sets of needs and these also change over time. The Panasonic group offers an array of products that are suitable for various uses - may it be a home, in an office, or in other areas. The rich product range ensures you that the Panasonic group has something to offer that will meet your needs, and at the same time ensure you of the quality, safety, and durability that Panasonic products are known for.

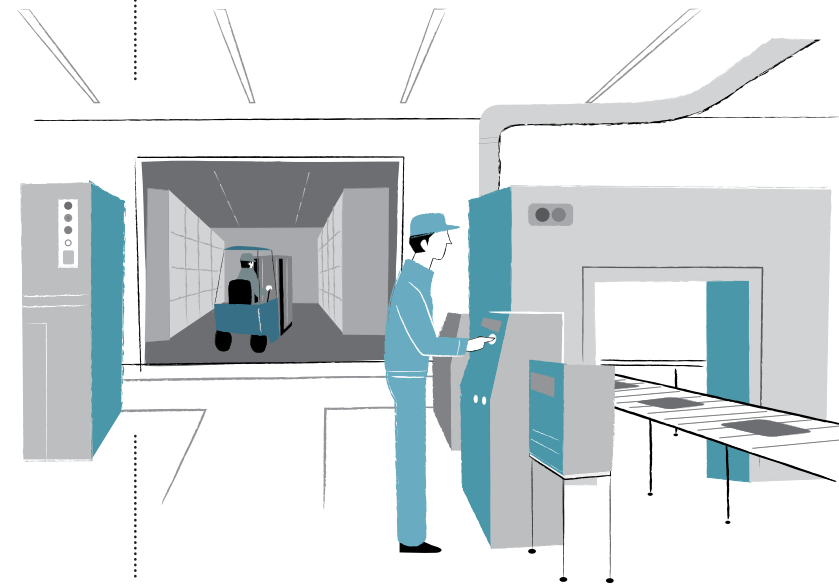

RESIDENTIAL

Panasonic wiring devices are designed to be aesthetically pleasing. Suitable for different styles of interior design in residential spaces.

COMMERCIAL

Panasonic wiring devices provide functionality and safety features required for offices factories, and other commercial spaces. The wiring devices are also tested to make sure that they are able to last a long time.

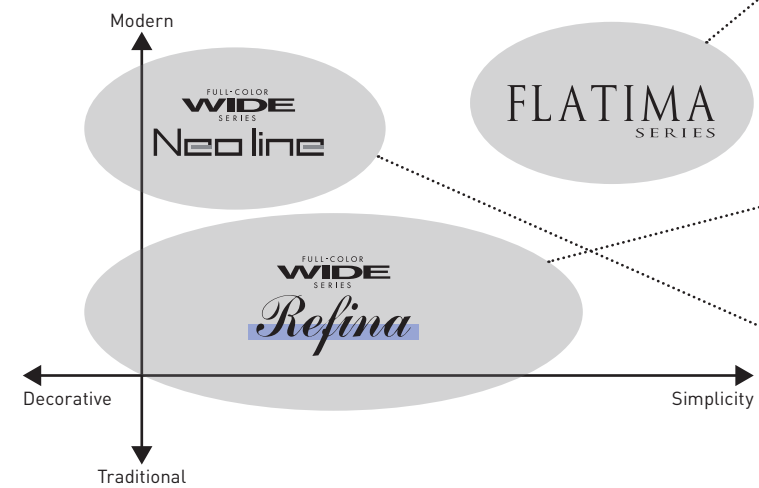

HOSPITALITY

Panasonic wiring devices are made with a standard of quality that will match the needs of any hotel and institution.

DIFFERENT TASTES

Panasonic has different styles that are suitable for different tastes in interior design. From modern to traditional, and from decorative to simple. Panasonic products have different styles to fit whatever your taste in interiors.

FLATIMA

"FLATIMA" series is inspired by european design and gives a sense of beauty that is hard to match

[A-TYPE]

REFINA

"REFINA" series has a wide array of colors that will complement any interior design schemes

[A-TYPE]

[BS-TYPE]

NEO LINE

"NEO LINE" series has a more rounded profile and comes in metallic colors to suit modern tastes

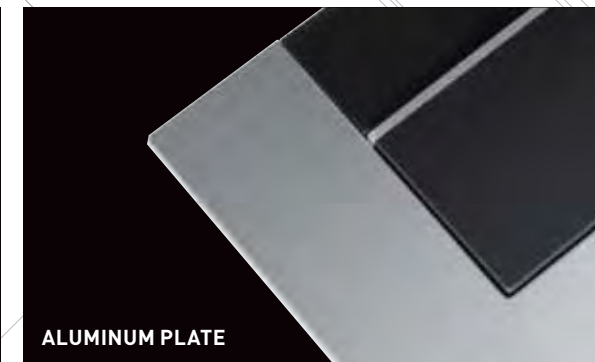

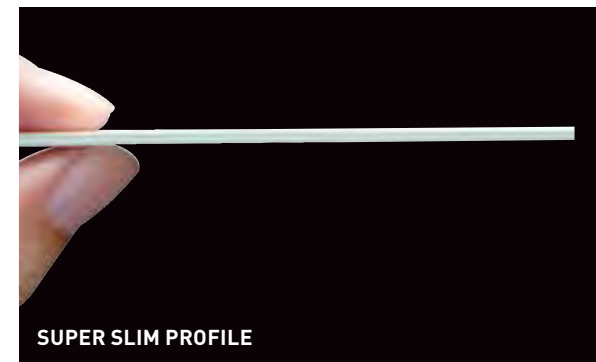

[A-TYPE]

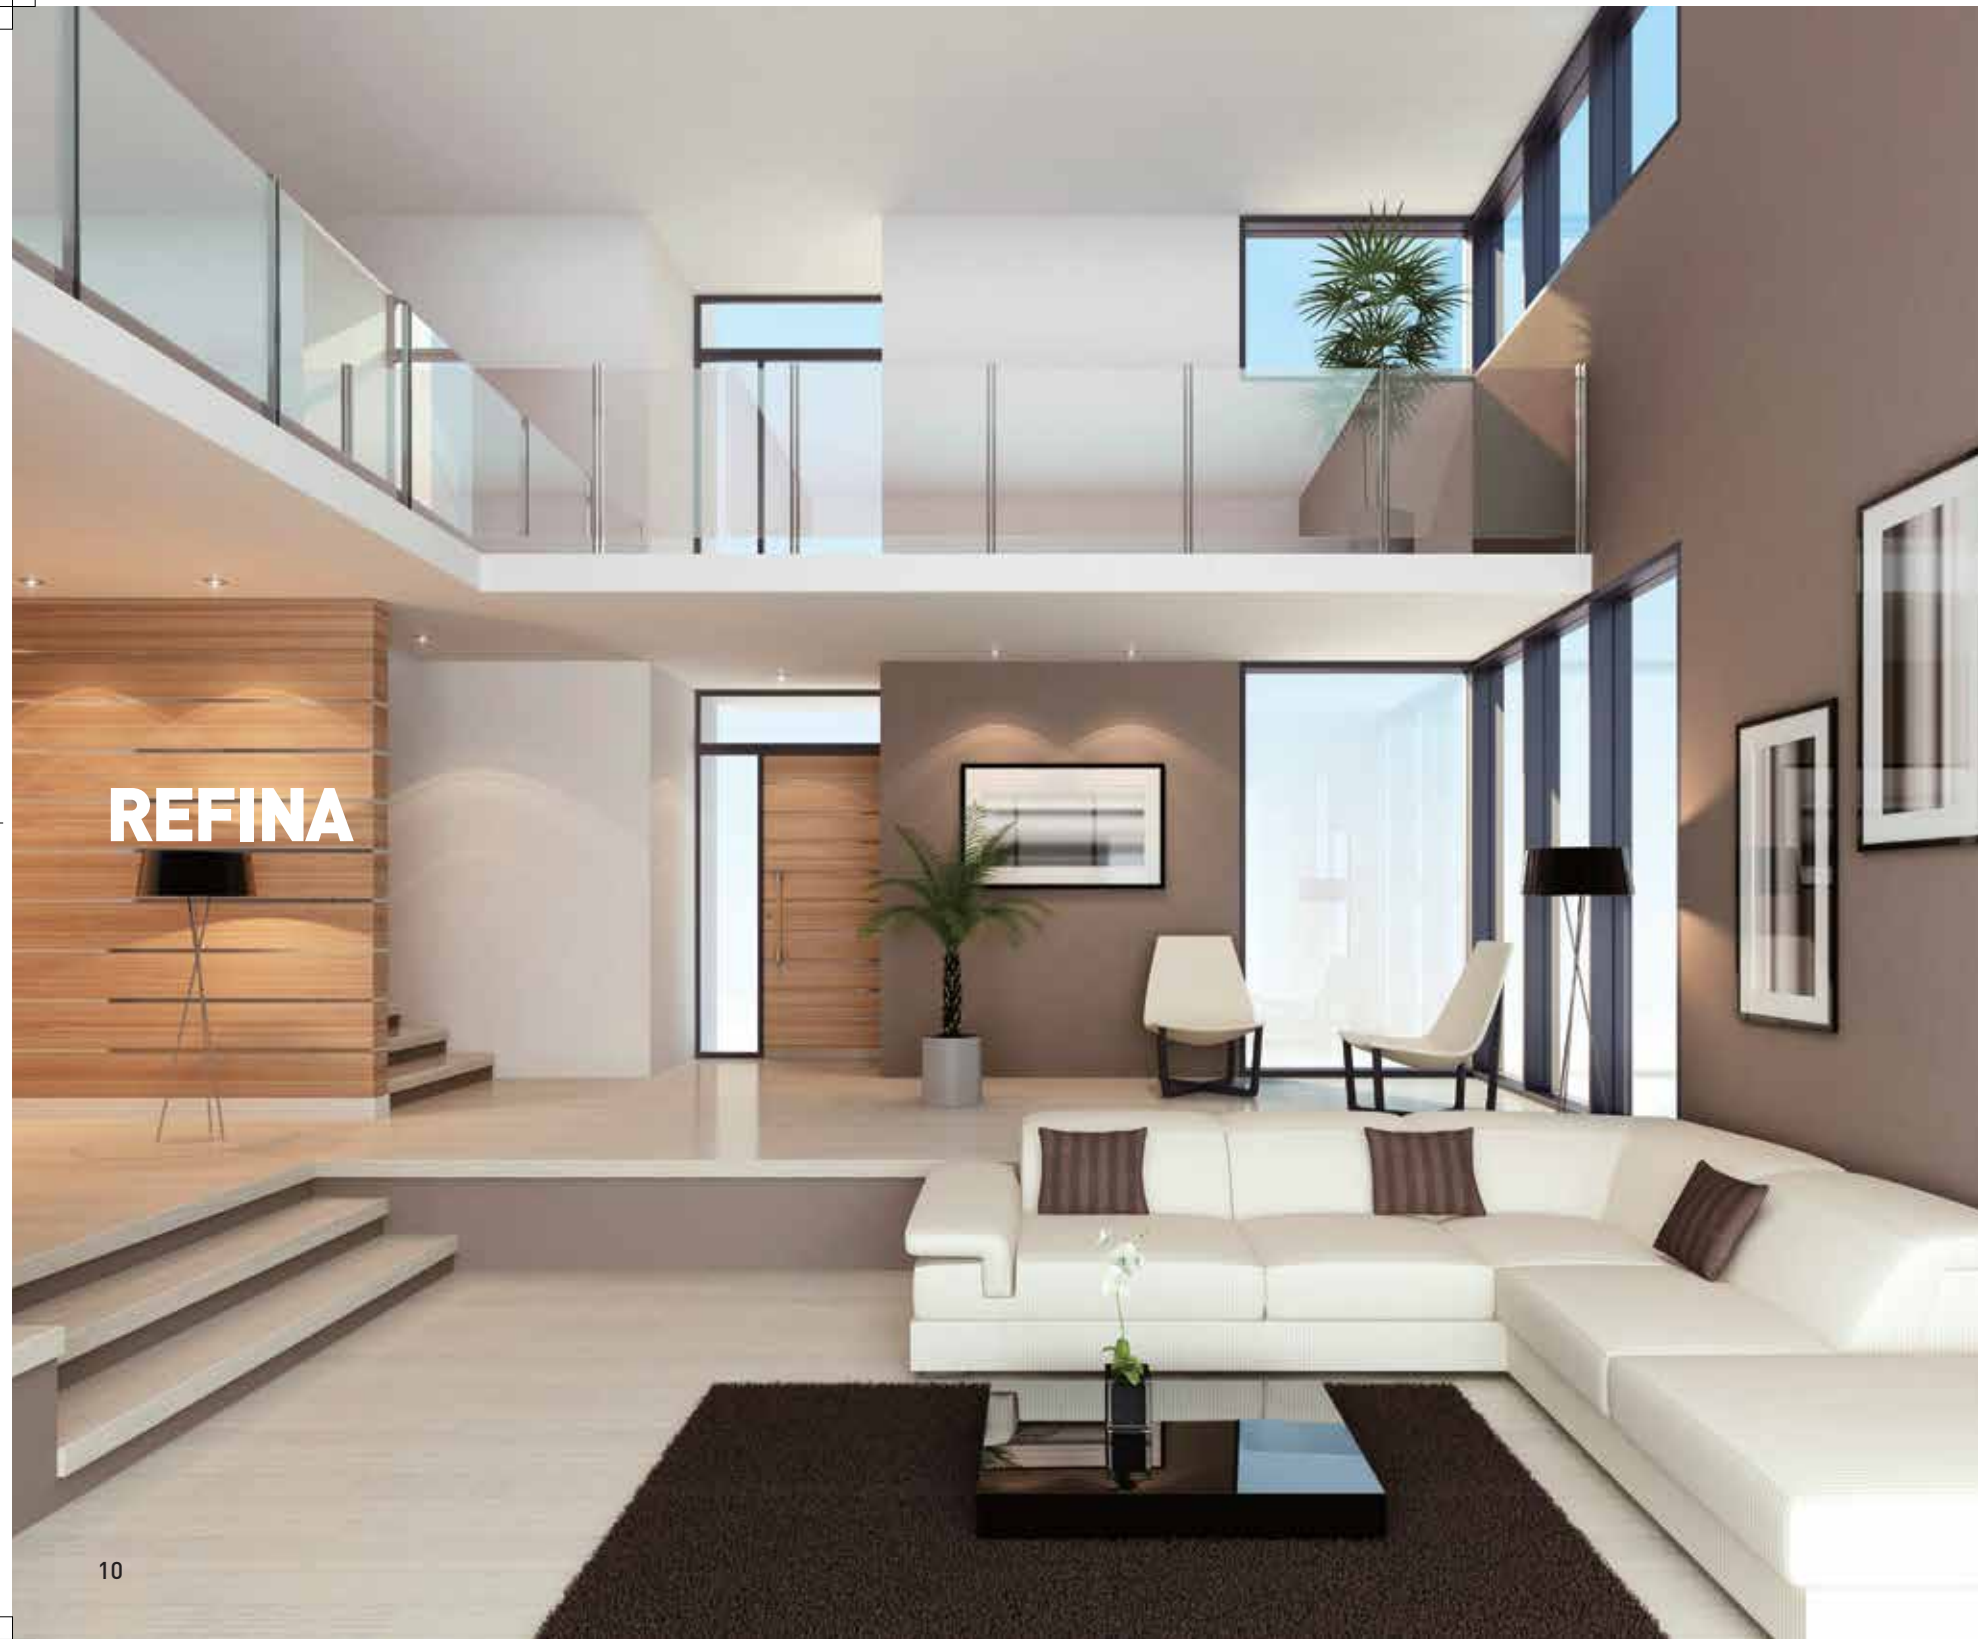

FLATIMA

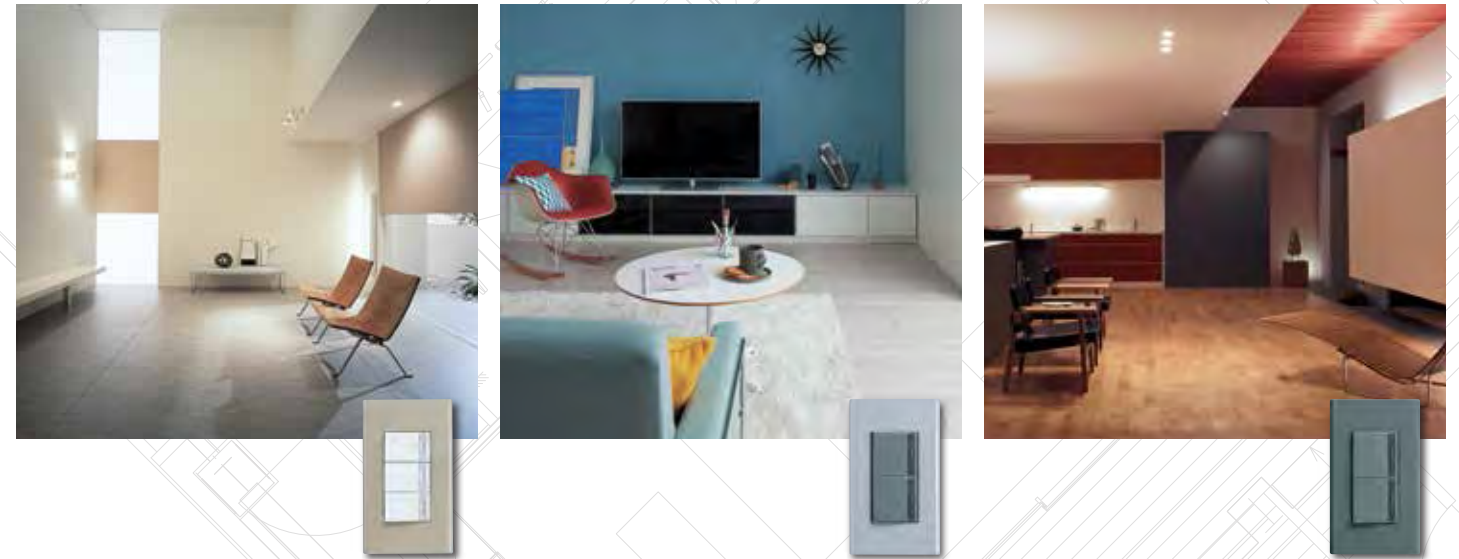

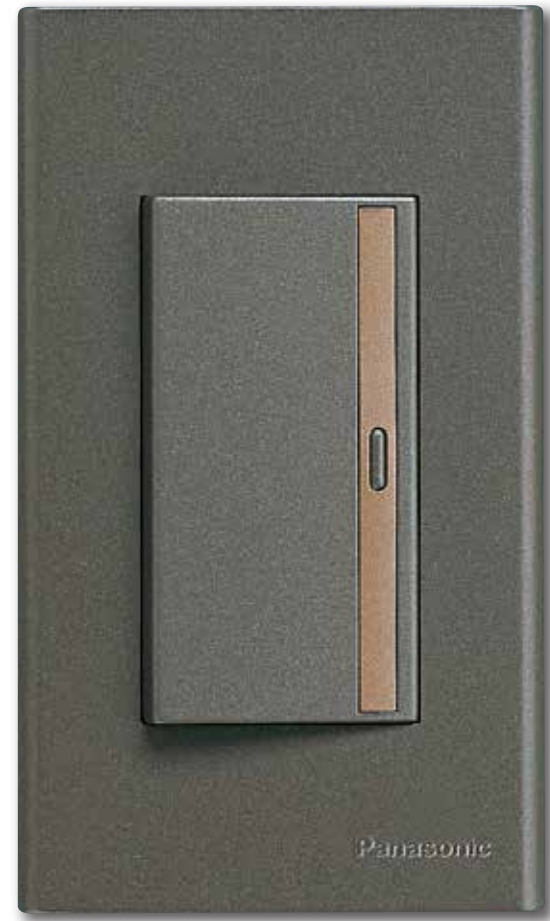

Slim and sleek profile inspired by European design. Represents the height of beauty and elegance.

REFINA

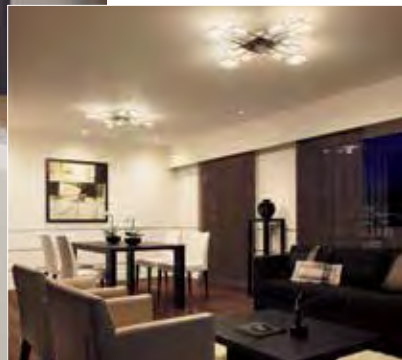

With modern style that comes in a pallet of colors to match any interior style

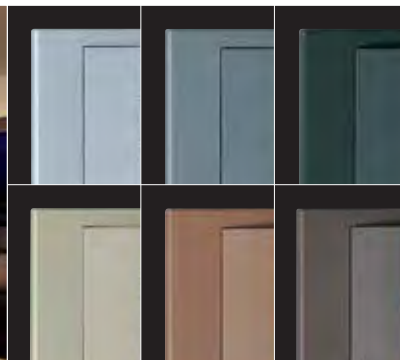

REFINA BS TYPE

A cool and compact version with a sleek, minimalistic design.

CREATES THE LIFESTYLE YOU DESIRE

COLOR

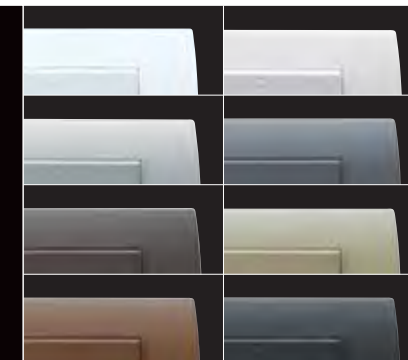

NEO LINE

A rounder and differently oriented design suitable for a look that is out of the ordinary.

ADD-ON PRODUCTS

EL-GUARD

Sockets with a built-in circuit breaker to prevent electric shock in damp and humid environments.

TWIST LOCK

Locking receptacles and plugs for when it is important to maintain a constant flow of electricity.

PUSHBUTTON & CHIME

Push button and chime with high quality sound output suitable for a number of applications.

PASSIVE INFRARED SENSOR

Infrared sensors useful for regulating electric consumption while minimizing effort.

AUTOMATIC TIME SWITCH

Time switch for automatic scheduling of power supply for efficient use of electricity without having to rely on constant supervision.

SMOKE ALARM

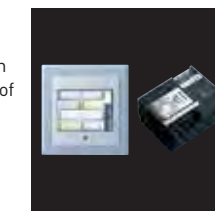

Stand alone smoke alarm with audible warnings for ensuring safety without the high installation costs.

SOLAR SYSTEM

High efficiency solar panels to utilize solar energy for a more green and cost saving source of power.

FULL-2WAY REMOTE LIGHTING CONTROL SYSTEM

Automatic lighting control system for managing building lighting from a remote location.
