### Spectacular cinematic picture performance

Master HDR OLED Panel - Our 4K TVs with Master HDR OLED panels are able to produce deeper silky blacks for a more cinematic feel. All thanks to decades spent crafting high quality televisions, input from a leading Hollywood colourist and our new HCX Pro AI Processor.

### Feel the drama unfold with cinematic sound

Dolby Atmos® - Our audio system accompanies the great picture to take you from sofa to the heart of the movie. Integrated speakers and audio processing work together with Dolby Atmos® technology to deliver immersive sound - elevating entertainment to new levels.

### The intelligent way to a great picture experience

Auto AI - Using AI, our premium TVs analyze the incoming signal and instantly adjust the picture characteristics. Auto AI knows the settings for sport, filmic scenes and more - so makes them for you. Just sit back and enjoy the performance.

Dolby Atmos / Surround Sound

Hexa Chroma Drive's functions include 6 colour reproduction, wide color space and accurate color drive, working together to make true-to-life color reproduction possible. It truly shines in its ability to reproduce color when transferring video signals back into a moving image. Now you're seeing truly rich colour, thanks to this advanced processing technology that uses 6-Colour Reproduction.

#### Sound Features

Surround Sound

Designed to enhance your viewing experience by optimizing the dark and bright areas to present realistic scenes. The technology also upscales the HD/FHD contents to high resolution to deliver detailed pictures.

#### Micro Dimming

Enhances the contrast of an image by optimizing the darker and brighter regions to create a more realistic image for each defined zone.

#### 4K Up Converter

Automatically upscales non-4K content. Experience your favorite movies and TV shows in the highest resolution.
