Ai SmartWash
by **3D Water**

Protect Your Baby from Bacteria

Manual hot water washing is no longer necessary thanks to Blue Ag+. This innovation eliminates invisible bacteria on clothes, towels, and other fabrics through a simple wash at a normal water temperature to protect your child from coming into contact with these germs.

Rest Easy with Effortless and Assured

The Blue Ag+ technology from Panasonic combines UV light and Ag ions to eliminate 99.99%*1 of bacteria in addition to a powerful antibacterial effect. The extraordinary innovation provides a normal temperature wash to alleviate any concerns about damaging your baby clothes.

- Eliminates 99.99%*1 of Bacteria
- Provides Antibacterial Protection*2
- Uses 71%*3 Less Energy and Takes 7%*3
- Causes Less Damage and Less

NOTE: Blue Ag+ can be used for loads of up to 3 kg.

*1 Certified by Japan Food Research Laboratories. Test report number: 1908536001-0201 Eliminating Bacteria rate: Staphylococcus aureus up to 99.99%, Escherichia coli up to 99.99%.

*2 Up to 18-hour antibacterial protection (Certified by the Japan Kaken Test Center General Incorporated Foundation. Test report number: OS-19-0404ES-2) Bacteria tested: Staphylococcus aureus NBRC 12723)

*3 Comparing Blue Ag+ and the cotton course (Temperature setting: cold, load: 3 kg) versus the cotton course alone (Temperature setting: 60°C, load: 3 kg)

UV and Ag Ions Ensure Safe and Effective Hygiene Performance

UV-A light is safe for humans, while Ag (silver) ions have been proven to be useful for hygiene purposes; and Panasonic has made it easy to replace the device. Dr. Kourai shares his expertise on the effectiveness of Blue Ag+, its safety, and the convenience it offers mothers with daily laundry chores.

Blue Ag+ Alleviates Concerns about Hygiene

Blue Ag+ provides a completely new method to eliminate bacteria. This technology takes advantage of the powerful bacteria elimination effect of OH radicals generated when Ag ions dissolved in rinse water in the tub are irradiated with UV light.

Blue Ag+ Proven to Eliminate 99.99%*1 of Bacteria

Tests conducted by a third-party organization have proven the exceptional bacteria elimination performance of Blue Ag+.

*1 Certified by Japan Food Research Laboratories. Test report number: 1908536001-0201 Eliminating Bacteria rate: Staphylococcus aureus up to 99.99%, Escherichia coli up to 99.99%

Hiroki KOURAI, Dr. Authority on Bacteria Elimination

Hiroki Kourai is a doctor of engineering who started his career working at The University of Tokushima before serving as a member of the Antibacterial, Antifungal and Antiviral Standards Committee at the International Organization for Standardization, and as a member of a committee for the Ministry of Education, Culture, Sports, Science and Technology of Japan. He is currently an advisor to The Society for Antibacterial and Antifungal Agents, Japan.

StainMaster+

Easy Handle Stubborn Dirt and

StainMaster+ washes away a variety of stains, bacteria, and allergens to keep clothes clean through optimized wash programs selected with just the touch of the button.

Seal of approval is given to products that suppress or remove high levels of allergens.

Certification by Allergy UK

The effect has been certified by Allergy UK, a British medical charity dedicated to helping people with their allergies.

Allergen & Stain Removal for Your Baby

Dust mites that breed in bedding, towels, and other types of fabrics can trigger the unpleasant symptoms of allergies, especially in infants with sensitive skin. StainMaster+ 60/90°C* Allergy Course gives peace of mind to all mothers thanks to its ability to eliminate not only dust mites but also other allergens and bacteria.

*You can set water temperature with the Temp button.

*1 This product has been endorsed by Allergy UK with third-party testing results.

*2 *Escherichia coli* ATCC29922 & *Staphylococcus aureus* ATCC25923 up to 99.9% [Testing Laboratories] Institute of Biotechnology (Hanoi) [Report Issue Date] 23/Oct/2019 Operating condition: Allergy 60°C

ActiveFoam
SYSTEM

Ideal Results in Less Time via Fine Foam

The ActiveFoam System creates fine, high-density foam before the wash cycle starts. This foam quickly penetrates clothes to lift, separate, and remove dirt deep in fibers for extra clean results.

Lifts Stains Away with Fine Foam

Easy Daily Washing for You

Spend less time washing and more time enjoying quality time with your child. The Panasonic ActiveFoam system quickly yet thoroughly washes away dirt and grime with the power of a dense foam.
