Safety Precautions

Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
- Do not move the TV with the lead plugged into the socket outlet.
- Do not place a heavy object on the lead or place the lead near a high-temperature object.
- Do not twist the lead, bend it excessively, or stretch it.
- Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
- Do not use a damaged mains plug or socket outlet.

[Image of a TV with a mains plug connected]

Warning

AC 220-240 V
50 / 60 Hz

If you find any abnormality, remove the mains plug immediately!

Handling the mains plug and lead

Power source
- This TV is designed to operate on 220-240 V, 50 / 60 Hz AC.

Do not place foreign objects inside the TV
- Do not allow any objects to drop into the TV through the air vents (fire or electrical shock may result).

Do not remove covers
NEVER modify the TV yourself
(High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not place the TV on sloped or unstable surfaces
- The TV may fall off or tip over.

Keep liquids away from the TV
- To prevent damage which may result in fire or shock hazard, do not expose this appliance to dripping or splashing.
- Do not place containers with water (flower vase, cups, cosmetics, etc.) above the TV. (including on shelves above, etc.)

Use only the dedicated pedestals / mounting equipment
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals / mounts (p. 6).

Do not expose to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

Do not allow children to handle SD Card
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Important Installation Notices

Install TV on a stable surface
If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
• Using cabinets or stands recommended by the manufacturer of the television.
• Only using furniture that can safely support the television.
• Ensuring the television is not overhanging the edge of the supporting furniture.
• Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
• Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
• Educating children about the dangers of climbing on furniture to reach the television or its controls.

When cleaning the TV, remove the mains plug
Cleaning an energized TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug
This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position
Transporting the TV with its display panel facing upright or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat
Minimum distance

![Diagram showing minimum distance](image)

• When using the pedestal, keep the space between the bottom of the TV and the floor surface.
• In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents
Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not expose your ears to excessive volume from the headphones
Irreversible damage can be caused.

Auto power standby function
If no signal is received and no operation is performed in Analogue TV mode for 30 minutes, the TV will automatically go to standby mode.

Keep the TV away from these types of equipment
• Electronic equipment
  In particular, do not place video equipment near the TV (electromagnetic interference may distort images / sound).
• Equipment with an infrared sensor
  This TV also emits infrared rays (this may affect operation of other equipment).

Do not display a still picture for a long time
This causes the image to remain on the plasma screen (“image retention”). This is not considered a malfunction and is not covered by the warranty.

Typical still images
• Programme number and other logos
• Image displayed in “4:3” mode
• Video game
• Computer image

To prevent image retention, contrast is lowered automatically after a few minutes if no signals are sent or no operations are performed. (p. 47)
Accessories / Options

Standard accessories
- Remote Control
  - N2QAYB000228
- Batteries for the Remote Control (2)
  - R6 (AA)
- Clamper
  - p. 10
- Mains Lead
  - p. 8
- Operating Instructions with Warranty statement
- Cleaning cloth
- Pedestal
  - p. 7

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.
  Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Optional accessories
Wall-hanging bracket (vertical)
- TY-WK42PV3W
- TY-WK42PV4W

Wall-hanging bracket (angle)
- TY-WK42PR3W
- TY-WK42PR4W

Caution
- In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licenced contractor to secure the wall-hanging brackets.
- Carefully read the instructions accompanying the pedestal, and be absolutely sure to take steps to prevent the TV from tipping over.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.

Installing remote’s batteries

1. Pull open
2. Note the correct polarity (+ or -)

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.
  Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
Attaching the pedestal

**Warning**
Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

**Caution**
Do not use any other TV and displays.
- Otherwise the TV may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.
During set-up, make sure that all screws are securely tightened.
- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.

<table>
<thead>
<tr>
<th>A Assembly screw (4) (silver)</th>
<th>B Assembly screw (4) (black)</th>
<th>C Pole (2)</th>
<th>D Base</th>
</tr>
</thead>
<tbody>
<tr>
<td>M5 × 18 mm</td>
<td>M5 × 25 mm</td>
<td>L: TBLA3615&lt;br&gt;R: TBLA3614&lt;br&gt;THEL060N&lt;br&gt;XYN5+F18FN&lt;br&gt;XYN5+F18FN</td>
<td>TBLX0049-1&lt;br&gt;(TH-42PZ80A)&lt;br&gt;TBLX0051-1&lt;br&gt;(TH-50PZ80A)</td>
</tr>
</tbody>
</table>

**Assembling the pedestal**
Use the four assembly screws **A** to fasten the left and right poles to the base securely.
- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.
- "L" or "R" mark is stamped on the bottom of the pole.

**Securing the TV**
Use the assembly screws **B** to fasten securely.
- Make sure that the screws are securely tightened.
- Carry out the work on a horizontal and level surface.

---
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads. When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.

Example 1  Connecting aerial

TV only

Rear of the TV

Make sure that the mains lead is securely fixed.

To remove from the TV:

Press both tabs and pull on mains connector to release

AC 220-240 V 50 / 60 Hz

Notes

• Do not put the RF cable close to the mains lead to avoid noise.
• Do not place the RF cable under the TV.
• To obtain optimum quality picture and sound, an Aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
• If a communal Aerial system is used, you may require the correct connection cable and plug between the wall Aerial socket and the TV.
• Your local Television Service Centre or dealer may be able to assist you in obtaining the correct Aerial system for your particular area and the accessories required.
• Any matters regarding Aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
Example 2
Connecting DVD Recorder / VCR

TV, DVD Recorder or VCR
Rear of the TV

Aerial
Mains lead (supplied)
- Please refer to the diagram in example 1 for mains lead connection.

AC 220-240 V
50 / 60 Hz

RCA cable
DVD Recorder or VCR

Note
- VIERA Link connection ➔ p. 38
- If your recorder is not available for DVB ➔ p. 48
- Read the manual of the equipment too.
Basic Connection

Example 3
Connecting DVD Recorder / VCR and Set top box

TV, DVD Recorder / VCR and Set top box

Using the clamper

- Do not bundle the RF cable and mains lead together (could cause distorted image).
- Fix cables with clamper as necessary.
- When using the optional accessory, follow the option’s assembly manual to fix cables.

Attach the clamper

Bundle the cables

To remove from the TV:
1. Keep pushing both side snaps
2. Insert the clamper in a hole

To loosen:
1. Keep pushing the knob
2. Set the tip in the hooks
Identifying Controls

Remote Control

Standby On / Off switch
• Switches TV On or Off standby

Guide (p. 17)
• Displays TV Guide

OK
• Confirms selections and choices
• Press after selecting programme positions to quickly change programme (DVB) (p. 14)

Main Menu (p. 22)

VCR / DVD Panasonic equipment operations (p. 21)
Auto Tuning

Search and store TV programmes automatically. These steps are not necessary if the setup has been completed by your local dealer.

1. Plug the TV into mains socket and switch On
   (Takes a few seconds to be displayed)

   You can now use the remote control to turn On the TV or turn the TV to standby mode.
   (Power LED: On)

2. Select your state

   Select State / Territory
   Northern Territory
   Queensland
   South Australia
   Western Australia
   Tasmania

3. Start Auto Tuning

   Auto Tuning will start to search for TV programmes and store them in the numbered order as specified by the broadcasters.

4. Select the picture setting

   Please select your viewing environment.
   Home Shop

   “Home” is the recommended mode for viewing at home. Select “Home” for optimal picture / power consumption. “Shop” is for in-store display.

   If “Shop” is selected, the word “Shop” appears every time the TV is switched on. (p. 14)

   Home: “Viewing Mode” is set as “Normal”. (p. 24)
   Shop: “Viewing Mode” is set as “Dynamic”. (p. 24)

Auto Tuning is now complete and your TV is ready for viewing.

To edit programmes
   “Editing Programmes” (p. 28)
Many features available on this TV can be accessed via the On Screen Display menu.

**How to use remote control**

- **MENU**
  - Open the main menu
- **Select**
  - Move the cursor / select the menu
- **Change**
  - Move the cursor / adjust levels / select from a range of options
- **RETURN**
  - Access the menu / store settings after adjustments have been made or options have been set
- **EXIT**
  - Return to the previous menu
- **EXIT**
  - Exit the menu system and return to the normal viewing screen

**ON SCREEN HELP Instructions box**

On-screen operation guide will help you.

**Note**
- If tuning has failed ⇒ “Auto Tuning” (p. 31)
- To initialize all settings ⇒ “Shipping Condition” (p. 32)
- If you turned the TV Off during Standby mode last time, the TV will be in Standby mode when you turn the TV On with Mains power On / Off switch.
Watching TV

1. Turn power on
   - Mains power On / Off switch should be On. (p. 11)
   - If “Shop” is displayed on the top right of the screen, reset settings in “Shipping Condition” (p. 32), and select “Home” in “Auto Tuning” (p. 12).

2. Select DVB (Digital Video Broadcasting) or Analogue mode
   - Also possible to select the mode using the TV button on the front panel of the TV. (p. 11)
   - Information banner appears whenever you select a programme.
   - For details ➔ p. 15

3. Select a programme
   - To select the two or three-digit programme number, e.g. 39 ➔ 3 ➔ 9 (in a short time)
   - If one or two-digit programme number ➔ quickly changes the programme
   - To select from the Programme List

Note
- When the TV is switched to standby, there will be a clicking sound after a short delay. This is normal.

Select a programme using Information banner (p. 15)
Possible to confirm the programme name before selecting programmes.

- Display Information banner if it is not displayed
- Possible to set display timeout in “Banner Display Timeout” (p. 25).

Select a programme using TV Guide (p. 17)
Possible to confirm the TV Guide (EPG) before selecting programmes.

**Analogue: Programme status**

**Features available / Message meanings**
- **Sound mute On**
- **Rating**: Rating information (p. 44)
- **Bad signal**: Poor TV signal quality
- **Encrypted**: Scrambled programme

- **Subtitle service available**
- **Teletext service available**
- **Multiple audio available (DVB mode)**

**Check or change the current programme status instantly**

- **MPX** (Analogue mode)
  - Sound Menu (p. 24)

- **Audio selection** (DVB mode)
  - Sound Menu (p. 24)
  - Allows you to select between alternative language for sound tracks (if available)

**Volume Correction**
- Adjusts volume of individual programme or input mode

**Turn the TV off automatically after a fixed period**
- **Off Timer**

**Display the selectable settings for the current programme**

- **Select “Setup”**

**Off Timer**
- **Select “Off Timer” and set the time**

**Note**
- Also possible to change the settings in Menu list (p. 24 and p. 25).

**Explicit instructions**
- To confirm another tuned programme name
- To change the category (To select a Fav List if you have defined)
- Information on the next event (DVB mode)
- Extra information (press again to hide the banner)

- To watch the programme listed in the banner
- To download new software to TV
- "System Update Search Now" (p. 27)
- To hide
- To set display timeout: "Banner Display Timeout" (p. 25)

- To cancel: Set to “Off” or turn the TV off.
- To display the remaining time: Information banner (above)
- When the remaining time is within 3 minutes, the remaining time will flash on screen.
## Watching TV

### Other useful functions

**Change the aspect ratio**

Enjoy viewing the picture at its optimum size and aspect.

- **Display Aspect Selection list**
  - **ASPECT**

- **While the list is displayed, select the mode**
  - ① store
  - ② select

- **To change the mode using the ASPECT button only**
  - ASPECT (Press repeatedly until you reach the desired mode)

#### Change aspect ratio

- **16:9**
  - Directly displays the image at “16:9” without distortion (anamorphic).

- **14:9**
  - Displays the image at the standard “14:9” without distortion.

- **4:3**
  - Displays the image at the standard “4:3” without distortion.

- **4:3 Full**
  - Displays a “4:3” image full-screen. Stretching is only noticeable at the left and right edges.

- **4:3 Zoom1**
  - Displays a “16:9” letterbox (anamorphic) image full-screen without distortion.

- **4:3 Zoom2**
  - Displays a “16:9” letterbox (anamorphic) image full-screen without distortion.

- **4:3 Zoom3**
  - Displays a “2.35:1” letterbox (anamorphic) image full-screen without distortion. At “16:9”, displays the image at its maximum (with slight enlargement).

**Note**

- Only “16:9” and “4:3 Full” are available in DVB mode.
- Only “16:9” and “4:3” are available in PC mode.
- Not available in teletext mode.
- Aspect mode can be memorized separately for SD (Standard definition) and HD (High definition) signals. (except DVB mode)
Using TV Guide

Using TV Guide enables you to select programme easily, view event informations, etc. TV Guide—Electronic Programme Guide (EPG) provides an on-screen listing of the programmes currently broadcast and the future broadcasts over the next seven days (depending on the broadcasters).

- Analogue programmes will be listed after DVB programmes. “D” means DVB programme and “A” means Analogue programme.

View TV Guide

- Each time pressed, the layout will be changed.

Viewing Teletext

You can enjoy teletext broadcasting, including news, weather forecasts and subtitles, if this service is provided by the broadcasters.

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen
  - Available page up / down
  - To select among subject blocks
  - To select next subject within the subject block
    (After the last subject, it moves to the next subject block.)

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. (“Store frequently viewed pages”, p. 19)

To change mode ⇒ “Teletext” in Setup Menu (p. 25)

Switch to Teletext

Select the page (up to page 899)

■ To adjust contrast ⇒ (Press three times)

■ To return to TV ⇒ or 

Using teletext conveniently

</table>

### Setting your remote control to operate Panasonic VCR, DVD, etc.
1. Set the VCR / DVD switch to the appropriate position
2. Press and hold POWER during the following operations
   - Press and hold to search backward
   - Press and hold to search forward

<table>
<thead>
<tr>
<th>“VCR” position</th>
<th>Code</th>
<th>“DVD” position</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>VCR</td>
<td>10</td>
<td>DVD</td>

</tr>
</tbody>
</table>

### Note
- Confirm if the remote control works correctly after changing the code.
- The codes will be reset to default values if batteries are replaced.
- “DVD” means DVD player, DVD recorders and Recorder home theatre.
- Some operations may not be possible on some equipment models.
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1. Display the menu
   - MENU: Displays the functions that can be set (varies according to the input signal)

2. Select the menu
   - (example: Picture Menu)

3. Select the item
   - (example: Picture Menu)

4. Adjust or select
   - (example: Picture Menu)

Choose from among alternatives
   - Number and positions of alternatives

Adjust using the slide bar
   - Sharpness: Moved

Go to the next screen
   - Displays the next screen

Enter characters by free input menu
   - You can enter names or numbers freely for some items.

To return to TV at any time
   - EXIT

To return to the previous screen
   - RETURN

To change menu pages
   - CH up/down

To reset the settings
   - To reset the picture settings only "Reset Picture Defaults" in Picture Menu (p. 24)
   - To reset the sound settings only "Reset Sound Defaults" in Sound Menu (p. 24)
   - To initialize all settings "Shipping Condition" in Setup Menu (p. 32)

Set characters
   - Store
Depending on the received signals, available items are varied.

DVB Settings (DVB mode)

DVB Settings provide access to various advanced features.

1. If in Analogue mode
   Select DVB

2. Display the menu
   \[ MENU \]

3. Select “Setup”
   \[ Setup Main Menu \]
   - VIERA Link
   - Picture
   - Sound
   - Setup

4. Select “System Update”, “Region Select” or “Daylight Saving Time”
   \[ Setup Menu \]
   - DVB Favourites Edit
   - DVB Service List
   - Tuning Menu
   - Off Timer
   - Input Labels
   - Banner Display Timeout
   - VIERA Link Settings
   - Region Select
   - Daylight Saving Time
   - Refresh Rate
   - Software Licence
   - System Information

5. Set
   \[ EXIT \]

To return to TV

Exit
Download new software to TV.
For details → p. 44

If System Update is performed, the software will be updated (it may change TV functions). If you do not wish to do so, set “Auto Update Search in Standby” to Off.

Select “Auto Update Search in Standby” and then set “On” or “Off”

On: Automatically performs a search in standby and downloads an update, if any software updates are available

Note
When the TV is switched to standby, there will be a clicking sound after a short delay. Similar clicking sounds will also occur at 3:00 AM and 5:00 AM (p. 44) when “Auto update Search in Standby” is set to “On”. These sounds are normal.

To update immediately
Select “System Update Search Now”

Searches for an update (for several mins.) and displays a corresponding message if any

Download
Download may take for about 20 mins.

Note
During downloading, the TV will display a blank screen for 40 to 50 seconds. Do not interrupt the TV during this procedure.

Select the region where you live to adjust the standard time.
The time contained in the broadcast signal is UTC (Universal Time coordinated) formally known as GMT (Greenwich Mean Time).

Select time offset from the standard time for Summer Time.
Normally select “Auto”.
If there is a gap between displayed time and actual time, set this function.

<table>
<thead>
<tr>
<th>Region</th>

</table>
Editing Programmes

You can make your favourite programme lists and skip unwanted programmes, etc.

1. **Select DVB or Analogue**

   - “DVB Favourites Edit” and “DVB Service List” are available in DVB mode only.
   - “Analogue Service List” is available in Analogue mode only.

2. **Display the menu**

3. **Select “Setup”**

4. **Select “DVB Favourites Edit”, “DVB Service List” or “Analogue Service List”**

5. **Set**

To return to TV

EXIT
Create your favourite programme list from various broadcasters (up to 4: Fav List1 / Fav List2 / Fav List3 / Fav List4). The list is added to “Favourites” list in TV Guide (p. 17) and information banner (p. 15) and then easily accessed.

Select a programme and add it to the list

To display another List

To add all programmes to the list

A programme is added

To edit List

Select the field of List to edit and:

To name the List

Select the character

To move the programme

Select the new position

Confirm

To delete the programme

To delete all programmes

Note

Programme numbers (known as logical channel numbers) are defined by the broadcaster and cannot be changed.

Hidden services (see below) can be selected but not viewed.

You can hide unwanted services. The deleted services cannot be displayed except in this function. Use this function to skip unwanted programmes.

“DVB Service List” is listed all tuned DVB programmes in DVB mode.

“Analogue Service List” is listed all tuned Analogue programmes in Analogue mode.

Select a service and add / delete

You can change the programme name and programme position for Analogue programmes.

This function is available in Analogue mode.

If a VCR is connected only with the RF cable, edit “VCR”.

Select the programme to edit

Edit

To change the name displayed when selecting programmes

Select “Rename”

Set characters

(maximum: five characters)

To move the programme position

Select new position

Store
Tuning Programmes

You can retune all the TV programmes when moving house or search for new services which may have recently started broadcasting.

1. Select DVB or Analogue
   • “DVB Manual Tuning”, “Add New DVB Services”, “New Service Message” and “DVB Signal Display” are available in DVB mode only.
   • “Analogue Manual Tuning” is available in Analogue mode only.

2. Display the menu

3. Select “Setup”

4. Select “Tuning Menu”

5. Select a function

6. Set

For Auto Tuning, using the buttons on the front of the TV (p. 11)

1. Press repeatedly until “Auto Tuning” appears

2. Access “Auto Tuning”

3. Start “Auto Tuning”
Automatically retune all DVB or Analogue programmes received in the area.
- Only DVB programmes are retuned in DVB mode.
- Only Analogue programmes are retuned in Analogue mode.

Start Auto Tuning

Settings are made automatically

All the previous tuning settings are erased.
- When the operation is completed, the programme at programme position “1” will be displayed.
- If tuning has not been done completely ⇒ “DVB Manual Tuning”, “Analogue Manual Tuning”

Normally use “Auto Tuning” or “Add New DVB Services” to add DVB programmes to your service list. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

Add DVB programme automatically

Set Analogue programme manually after Auto Tuning.
- If a VCR is connected only with the RF cable, select programme position “0”.

Display a notification message

Selects whether to give a notification message when a new DVB service is found. (Off / On)

Check DVB signal

Selects a programme and checks the DVB signal condition.
- To change the programme

A good Signal Strength is not an indication of suitable signal for DVB reception. Please use the Signal Quality indicator as follows:

**Signal Quality:**
- Green bar ⇒ Good
- Yellow bar ⇒ Poor
- Red bar ⇒ Bad (Check the aerial)
Restore Settings

Restores the TV to its original condition, i.e. no programmes tuned in. All settings (programmes, picture, sound quality, etc.) are reset.

1. Display the menu

2. Select “Setup”

3. Select “Shipping Condition”

4. Set

Check the message and initialize

Shipping Condition
Analogue & DVB tuning data will be erased
Are you sure?
Are you sure?

Follow the on-screen instructions

- “Auto Tuning” will automatically start when Mains power On / Off switch is next turned On. (p. 12)

To retune TV programmes only, e.g. after moving house
- “Auto Tuning” (p. 31)
Input Labels

For easier identification and selection of the input mode, you can label each input terminals or skip terminal that is not connected to any equipment.

To select the input mode ⇒ p. 20

1. Display the menu

2. Select “Setup”

3. Select “Input Labels”

4. Select a input terminal and set

The labels you set will be displayed in “Input Selection” menu (p. 20) or banner. ● If “Skip” is selected, you cannot select the mode.

User input

You can name each input terminals freely.

Select “User input” and set characters

(maximum: ten characters)
## Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.

### To connect PC
- [p. 42](#)

### Select the external input

1. **Select “PC”**
   - **Input Selection**
     - AV1
     - AV2
     - AV3
     - AV4
     - PC
     - HDMI1
     - HDMI2
     - TV

### To return to TV
- [TV](#)

### PC menu setting (changed as desired)
- To make settings ⇒ “How to Use Menu Functions” (p. 22)

- Corresponding signals ⇒ [p. 46](#)
- If “H-freq.” or “V-freq.” is shown in red, the signals may not be supported.
- PC Audio input is via AV2 Audio connection. ([p. 43](#))

- Other items ⇒ [p. 24](#) and [p. 25](#)
HDMI Functions

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment (+1) with an HDMI or DVI output terminal, such as a set top box, a DVD player or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

About connections, see “External Equipment” (p. 42).

Note

- HDMI is the world’s first complete digital consumer AV interface complying with a non-compression standard.
- Audio settings can be made on the “HDMI1 Input” menu screen. (p. 24)
- Applicable audio signal sampling frequencies (2ch L.PCM): 48 kHz, 44.1 kHz, 32 kHz
- HDMI2 terminal is for digital audio signal only.
- Use with a PC is not guaranteed. Only HDMI video formats in page 46 HDMI table are applicable.
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- An equipment having no digital output terminal may be connected to the input terminal of either “COMPONENT”, “S-VIDEO”, or “VIDEO” to receive analogue signals.
- The HDMI input terminal can be used with only the following image signals: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p. Match the output setting of the digital equipment.
- For details of the applicable HDMI signals, see p. 46.

DVI connection

- If the external equipment has only a DVI output, connect to the HDMI1 terminal via a DVI to HDMI adapter cable (+2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal (HDMI1: use AV2 IN AUDIO terminals).

DVI Position Settings

If the picture position is not fit to the screen during the DVI connection, adjust the position on “DVI Position Settings” in Setup Menu. The settings are memorized for each HDMI terminals and input signals.

To make settings ⇒ “How to Use Menu Functions” 1 to 3 (p. 22)

SD Card

• For details on SD Cards ⇒ p. 45

To insert

Label surface
Push until a click is heard

To remove

Press the centre of the card

Slide show

Start Slide show (operate in step 3 or 4)

1. Select the photo for the first view
2. Start Slide show

Note

Slide show is done within the same group if started from the view of the group.

Slide show settings (operate in step 3 or 4)

1. Display the menu
2. Select “Viewing Setup”
3. Select the items and set

Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
Viewing Setup | Interval | Select slide show interval (5 / 10 / 15 / 30 / 60 / 90 / 120 seconds)
 | Repeat | Slide show repeat (Off / On)

Cautions in handling SD Card

• Do not remove the card while the TV is accessing data (this can damage card or TV).
• Do not touch the pins on the back of the card.
• Do not subject the card to a high pressure or impact.
• Insert the card in the correct direction (otherwise, card may be damaged).
• Electrical interference, static electricity, or erroneous operation may damage the data or card.
• Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

Viewing from SD Card (Photos)
**VIERA Link “HDAVI Control”**

*Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 3” function. Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI cable allow you to interface them automatically.

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment's version of HDAVI Control. Please confirm the connected equipment's version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.

Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function. About applicable Panasonic equipment, consult your local Panasonic dealer.

### Summary of VIERA Link functions

<table>
<thead>
<tr>
<th>Easy playback</th>
<th>Power on link</th>
<th>Power off link</th>
<th>Speaker control</th>
</tr>
</thead>
</table>
| Control the menu of the connected equipment by VIERA remote control | (Available with the equipment which has “HDAVI Control 2” or “HDAVI Control 3” function.) | (Available with the equipment which has “HDAVI Control 3” function.) | Set Power on Link “Set” in Setup Menu to use this function
  - “Power on Link” (p. 22 - 23, 25)
  - When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when TV is in Standby mode.) |

### Connections

**For Speaker control (Home Cinema)**

- **To use Amplifier**
  - Connect the equipment supporting VIERA Link to the TV's HDMI1 or HDMI2 terminals via fully wired HDMI cables.
  - HDMI cable
  - Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilized.
  - Recommended Panasonic’s HDMI cable part number:
    - RP-CDHG10 (1.0 m)
    - RP-CDHG30 (3.0 m)
    - RP-CDHG15 (1.5 m)
    - RP-CDHG50 (5.0 m)
    - RP-CDHG20 (2.0 m)
  - DIGA Recorder / HD Video Camera with VIERA Link function
  - Amplifier with VIERA Link function
  - AMP Amplifier
  - Optical digital audio cable or RCA cable

- **To use Player theatre**
  - DIGA Recorder with VIERA Link function
  - DIGA Recorder
  - Optical digital audio cable or RCA cable

### Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.
- Set VIERA Link On in Setup Menu ⇒ “VIERA Link” (p. 22 - 23, 25)
- Set up the TV ⇒ After connection, turn the equipment on and then switch the TV on. Select the input mode to HDMI1 or HDMI2 (p. 20), and make sure that an image is displayed correctly.
  - This setup should be done each time when the following conditions occur:
    - for the first time / • when adding or reconnecting equipment / • when changing setup

### Features available

<table>
<thead>
<tr>
<th>Easy playback</th>
<th>Automatic Input switching - When the connected equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is not returned.</th>
</tr>
</thead>
</table>
| Power on link | Set Power on Link “Set” in Setup Menu to use this function
  - “Power on Link” (p. 22 - 23, 25)
  - When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when TV is in Standby mode.) |
| Power off link | Set Power off Link “Set” in Setup Menu to use this function
  - “Power off Link” (p. 22 - 23, 25)
  - When TV is set to Standby mode, the connected equipment is also automatically set to Standby.
  - This function will work even if the TV enters standby mode automatically by Off Timer function or auto power standby function. |

The TV remains on even if the “VIERA Link” compatible equipment is turned off.
**Features available (Using VIERA Link Menu)**

You can pause the live TV programme and resume later.
- This function is available with DIGA Recorder which has HDD and “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ➔ “Preparations” (p. 38)
- Available conditions:
  - when watching TV programme
  - when watching the input from DIGA Recorder

**Access and pause the live TV programme**

1. Display “VIERA Link Menu”
2. Select “Pause Live TV” and pause

- Live TV programme is recorded on HDD from where it was paused.

**To resume (stop pause)**

- Select “Pause Live TV” and access
- About the operations after resuming, read the manual of the equipment.

**To return to Live TV**

- (cancel pause or resumed playback)
  - ➔ TV (change the input mode)
  - If you cancel pause or resumed playback, the recorded programme will be deleted from HDD.

**Recording the current programme in DIGA Recorder immediately.**

- This function is available with DIGA Recorder which has “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ➔ “Preparations” (p. 38)
- Available conditions:
  - when watching TV programme
  - The recording is performed by using the tuner of DIGA Recorder.
  - Changing programme, input mode or turning off the TV is available during the recording.

**Direct TV Rec**

1. Display “VIERA Link Menu”
2. Select “Direct TV Rec” and start recording

**To stop recording**

- Select “Stop” in “Direct TV Rec” and access

- If you cancel pause or resumed playback, the recorded programme will be deleted from HDD.
Features available (Using VIERA Link Menu)

You can control some functions of the connected equipment with this TV remote control (point the remote control at the TV’s signal receiver).
- This function is available with the equipment which has “HDAVI Control 2” or “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ➤ “Preparations” (p. 38)

Access and operate the menu of the equipment

1. Display “VIERA Link Menu”

2. Select “VIERA Link Control”

3. Select the equipment you want to access
   - “Home Cinema” means Player theatre, Recorder theatre and Amplifier.

4. Operate the menu of the equipment
   - Available VIERA remote control buttons (depending on the connected equipment):

   - Move the cursor / select the menu
   - Move the cursor / access / adjust
   - Store / set / access
   - Return to the previous menu
   - Exit the menu
   - Display the operation guide for the equipment / The same functions with the OPTION button of the equipment
   - Access when the key words are displayed on colour bar

If you access the invalid equipment

Others

“Others” is displayed. You cannot access it. Use its own remote control to operate the equipment.

About the operations for the equipment, read the manual of the equipment.
You can control the theatre speaker with this TV remote control (point the remote control at the TV’s signal receiver).

- This function is available with the Amplifier or Player theatre which has “HDAVI Control” function.
- If you cannot operate, check the settings and the equipment ⇒ “Preparations” (p. 38)

Access and control the speaker volume

1. Display “VIERA Link Menu”

2. Select “Speaker Selection”

3. Set to “Home Cinema” or “TV”

**Features available (Using VIERA Link Menu)**

- Amplifier or Player theatre will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.
  - Volume up / down ➤ +
  - Mute ➤ MUTE
  - The sound of TV speakers is mute.
  - When the equipment is turned off, TV speakers will be active.

**Home Cinema**

- TV speakers are active.

**Note**

- This function may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when the playback starts.
- Image or sound may not be available for the first few seconds when Input mode is switched.
- Volume function will be displayed when adjusting the volume of the equipment.
- Easy playback is also available by using the remote control for Amplifier or Player theatre. Read the manual of the equipment.
- About HDMI cable for connecting Panasonic HD Video Camera, read the manual of the equipment.
- If more than one equipment of the same type are connected to the TV by HDMI cables, for example two DIGA Recorders to HDMI1 and HDMI2, VIERA Link will only be available for the lower terminal number, in this case HDMI1.
- “HDAVI Control 3” is the newest standard (current as of December, 2007) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ⇒ “System Information” (p. 25)
External Equipment

These diagrams show our recommendations for how to connect the TV to your various equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 50).

Updating the software system (DVB mode)

Update system software to ensure that you have latest version software.
If there is an update available, a notification banner is displayed when the service has the update information.

- To download new software, press “OK” ➔ Downloading (approx. 20 mins.)
- If you choose not to download, press “EXIT”.

- To update automatically
  Set “Auto Update Search in Standby” to “On” (p. 27)
  If there is a new version software being broadcast, the TV will download this automatically.
  - The automatic updating sequence is carried out at 3:00 AM and 5:00 AM every morning under the following condition.
    Standby (TV turned Off with the remote control)

- To update manually
  Perform “System Update Search Now” (p. 27)
  If there is an update available, a notification banner is displayed.
  - To download new software, press “OK” ➔ Downloading (approx. 20 mins.)
    If you choose not to download, press “EXIT”.

Note
- During downloading, do not turn Off the TV or touch any buttons.
  (The TV is automatically activated after downloading is completed.)
- When the TV is switched to standby, there will be a clicking sound after a short delay. Similar clicking sounds will also occur at 3:00 AM and 5:00 AM when “Auto update Search in Standby” (p. 27) is set to “On”. These sounds are normal.
Data format for Card browsing

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Note
- A JPEG image modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF (Exchangeable Image File) 2.0, 2.1, and 2.2.
- Only "jpg" extension can be read by this TV.
- The folder and file names may be different depending on the digital camera used.
- Do not use two-byte characters or other special codes.
- The card may become unusable with this TV if the file or folder names are changed.

Stereo / Bilingual Sound Selection (Analogue mode)

When you receive the stereo / bilingual sound system, sound output modes can be selected by "MPX" in the Sound Menu (p. 24).

<table>
<thead>
<tr>
<th>Audio Signal</th>
<th>STEREO</th>
<th>MAIN I</th>
<th>SUB II</th>
<th>MONO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mode Indicator</td>
<td>☋</td>
<td>I</td>
<td>II</td>
<td>▼</td>
</tr>
</tbody>
</table>

Note
- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.
**Technical Information**

**PC connection**

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adapter is not necessary for the DOS/V-compliant D-sub 15-pin connector.

**Note**

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see below.
- Max. display resolution

</tbody>
</table>

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- Applicable input signal for PC is basically compatible to VESA standard timing.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in “AV mode”?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check Picture Menu (p. 24) and volume.

An error message appears

- Follow the message’s instructions.
- If the problem persists, contact the authorized Service Centre.

“VIERA Link” function does not work and an error message appears

- Confirm the connection.
- Turn the connected equipment on and then switch the TV on. (p. 38)

Contrast is reduced

- Contrast is lowered in the following conditions without any user operation for a few minutes:
  - no signal in DVB or AV mode
  - selected invalid programme
  - selected radio service
  - displayed menu
  - Thumbnail or still picture in SD Card mode

Pixel Statement

- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture.

- Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/sub-pixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.

• Check an input signal from the equipment. (p. 46)  
• Use an equipment compliant with EIA/CEA-861/861B. |
| **Aerial connection when using DTV and VCR / DVD Recorder**            | • To maintain optimum signal quality from TV aerial, use a TV aerial splitter (as illustrated) when connecting two or more equipments to the same aerial.    |
| **After DVB Auto Tuning only some or no DVB services are found**       | • Check to ensure your area is covered by DVB transmissions.  
• Check that the aerial and antenna cable are designed for DVB. For your safety, the aerial and cable should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1. Note: If you live within 5-10 Km of DVB transmission towers, a combined VHF / UHF aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance.  
• If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DVB-T reception. Please consult your body corporate. |
| **Picture regularly breaks up on some programmes, or “No Signal” message** | • Check “Signal Display”. (p. 31)  
If “Signal Quality” or “Signal Strength” are displayed in red or constantly changing, check aerial.  
If problem persists consult your local TV aerial installer.  
• Check that the aerial and antenna cable are designed for DVB. For your safety, the aerial and cable should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1.  
• Interference (known as impulse noise) from household appliances such as light switches, fridges etc may cause picture break up and / or audio distortion. Use high quality quad shielded coaxial cable fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists consult your local TV aerial installer.  
• When “No Signal” message is displayed check TV aerial connection.  
• The received signal may be too weak to allow the TV to reliably lock to the desired “No Signal” programme to generate a stable picture. Repeat the tuning procedure (p. 31). If problem persists consult your local TV aerial installer. |
| **Picture very infrequently breaks up on some or all programmes**       | • Electrical atmospheric interference caused by local or distant lighting storms or heavy rain with wind in “leafy” locations may cause pictures to break up and audio to mute or distort momentarily.  
• Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a “noisy” ignition system. |

TH-50PZ80A Declaration of Conformity No. 5725, 18 June 2008

**Maintenance**

First, remove the mains plug from the socket outlet.

**Display panel**

Regular care: Gently wipe the surface clean of dirt by using a soft cloth.
Major contamination: Wipe the surface clean using a soft cloth dampened with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then, using a soft dry cloth, evenly wipe the surface clean until it is dry.

**Caution**

- The surface of the display panel has been specially treated and may be easily damaged.
- Do not tap or scratch the surface with your fingernail or other hard object.
- Take care not to subject the surface to insect repellent, solvent, thinner, or other volatile substances (this may degrade surface quality).

**Cabinet, Pedestal**

Regular care: Wipe the surface clean using a soft dry cloth.
Major contamination: Dampen a soft cloth with clean water or water containing a small amount of neutral detergent. Then, wipe the cloth and wipe the surface clean with it. Finally, wipe the surface clean with a dry cloth.

**Caution**

- Take care not to subject the TV’s surfaces to detergent. (A liquid inside the TV could lead to product failure.)
- Take care not to subject surfaces to insect repellent, solvent, thinner, or other volatile substances (this may deteriorate the surface by peeling the paint).
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time.

**Mains plug**

Wipe the mains plug with a dry cloth at regular intervals. (Moisture and dust may lead to fire or electrical shock.)

WARRANTY - Australia only

1. The product is warranted for 12 months from the date of purchase. Subject to the conditions of this warranty Panasonic or its Authorised Service Centre will perform necessary service on the product without charge for parts or labour if, in the opinion of Panasonic, the product is found to be faulty within the warranty period.

2. This warranty only applies to Panasonic products purchased in Australia and sold by Panasonic Australia or its Authorised Distributors or Dealers and only where the products are used and serviced within Australia or its territories. Warranty cover only applies to service carried out by a Panasonic Authorised Service Centre and only if valid proof of purchase is presented when warranty service is requested.

3. This warranty only applies if the product has been installed and used in accordance with the manufacturer’s recommendations (as noted in the operating instructions) under normal use and reasonable care (in the opinion of Panasonic). The warranty covers normal domestic use only and does not cover damage, malfunction or failure resulting from use of incorrect voltages, incorrect installation, accident, misuse, neglect, build-up of dirt or dust, abuse, maladjustment of customer controls, mains supply problems, thunderstorm activity, infestation by insects or vermin, tampering or repair by unauthorised persons (including unauthorised alterations), exposure to abnormally corrosive conditions or any foreign object or matter having entered the product.

4. This warranty does not cover the following items unless the fault or defect existed at the time of purchase:
   (a) Video or Audio Tapes
   (b) Video or Audio Heads and Stylii resulting from wear and tear in normal use
   (c) Shaver Heads or Cutters
   (d) Cabinet Parts
   (e) User replaceable Batteries
   (f) Thermal Paper, Toner/Ink Cartridges, (bread bakery)
   (g) Microwave Oven cook plates.
   (h) Kneader mounting shaft unit
   Drums, Developer, Film (Ink/Ribbon), Film Cartridge, Printer Heads

5. If warranty service is required you should:
   - Telephone Panasonic’s Customer Care Centre on 132600 or visit our website and use the Service Centre Locator for the name/address of the nearest Authorised Service Centre.
   - Send or bring the product to a Panasonic Authorised Service Centre together with your proof of purchase receipt as a proof of purchase date. Please note that freight and insurance to and/or from your nearest Authorised Service Centre must be arranged by you.
   - Note that home or pick-up/delivery service is available for the following products in the major metropolitan areas of Australia or the normal operating areas of the nearest Authorised Service Centres:
     (a) Picture tube (CRT) based Television Receivers (screen sizes greater than 66cm); Rear Projection TV’s; Plasma/LCD televisions / displays (screen size greater than 103 cm)
     (b) Convection/Combination Microwave Ovens
     (c) Whiteboard (except portable type)

6. The warranties hereby conferred do not extend to, and exclude, any costs associated with the installation, de-installation or re-installation of a product, including costs related to the mounting, de-mounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

Panasonic Authorised Service Centres are located in major metropolitan areas and most regional centres of Australia, however, coverage will vary dependant on product. For advice on exact Authorised Service Centre locations for your product, please telephone our Customer Care Centre on 132600 or visit our website and use the Service Centre Locator.

Unless otherwise specified to the consumer the benefits conferred by this express warranty are additional to all other conditions, warranties, guarantees, rights and remedies expressed or implied by the Trade Practices Act 1974 and similar consumer protection provisions contained in legislation of the States and Territories and all other obligations and liabilities on the part of the manufacturer or supplier and nothing contained herein shall restrict or modify such rights, remedies, obligations or liabilities. 

November 2005
**Customer’s Record**

The model number and serial number of this product may be found on its rear panel. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
