### Safety Precautions

#### Warning

**Handling the mains plug and lead**
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
  - An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earthing connection.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively, or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
  - Do not use a damaged mains plug or socket outlet.

**If you find any abnormality, remove the mains plug immediately!**

**Power source / Installation**
- This TV is designed for:
  - AC 220 - 240 V, 50 / 60 Hz
  - Indoor use

**Do not remove covers and NEVER modify the TV yourself**
- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

**Do not expose to rain or excessive moisture**
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

**Do not allow children to handle SD Card**
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.

**Do not expose to direct sunlight and other sources of heat**
- Avoid exposing the TV to direct sunlight and other sources of heat.

---

### AC 220 - 240 V, 50 / 60 Hz

**Do not insert foreign objects into the TV**
- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

**Do not place the TV on sloped or unstable surfaces**
- The TV may fall off or tip over.

**Use only the dedicated pedestals / mounting equipment**
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 6) / wall-hanging brackets (p. 9).

---

**To prevent the spread of fire, keep candles or other open flames away from this product at all times**
Important Installation Notices

Install the TV on a stable surface
If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
• Using cabinets or stands recommended by the manufacturer of the television.
• Only using furniture that can safely support the television.
• Ensuring the television is not overhanging the edge of the supporting furniture.
• Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
• Not standing the television on cloth or other materials placed between the television and supporting furniture.
• Educating children about the dangers of climbing on furniture to reach the television or its controls.

When cleaning the TV, remove the mains plug
• Cleaning an energised TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug
• This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position
• Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat

Do not block the rear air vents
• Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not apply strong force or impact to the display panel
• This may cause damage resulting in injury.

Do not expose your ears to excessive volume from the headphones
• Irreversible damage can be caused.

The TV is heavy. Handle the TV by 2 or more people. Support as shown to avoid injury by the TV tipping or falling.

Notes

Do not display a still picture for a long time
This causes the image to remain on the plasma screen ("image retention"). This is not considered a malfunction and is not covered by the warranty.

Typical still images
• Programme number and other logos
• Image displayed in 4:3 mode

• Video game
• Computer image

To prevent image retention, contrast is lowered automatically after a few minutes if no signals are sent or no operations are performed. (p. 94)

Auto power standby function
• The TV will automatically go into Standby mode in the following conditions:
  • no signal is received and no operation is performed for 30 minutes in Analogue TV mode
  • [Off Timer] is active in the Timer Menu (p. 20)
  • no operation is performed for the period selected in [Auto Standby] (p. 37)

• This function does not affect the recording of Timer Programming and One Touch Recording.

Keep the TV away from these types of equipment
• Electronic equipment
  In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.
• Equipment with an infrared sensor
  This TV also emits infrared rays. This may affect operation of other equipment.
Accessories / Options

- Audio adaptor (2)
  - K2KYYYY00138 (p. 85, 86)
- COMPONENT adaptor
  - K2KYYYY00137 (p. 85)
- Optical digital audio adaptor
  - K7CXGYC00002 (p. 85)
- Composite adaptor (2)
  - K2KYYYY00136 (p. 85, 86)
- PC adaptor
  - K1HY20YY0007 (p. 86)

- This product contains possibly dangerous parts (such as plastic bags), which can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Inserting and removing remote’s batteries

1. Pull Open
2. Note the correct polarity (+ or -)

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.
Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.
### Attaching the pedestal

**Warning**

*Do not disassemble or modify the pedestal.*

• Otherwise the TV may fall over and become damaged, and personal injury may result.

**Caution**

*Do not use any pedestal other than that provided with this TV.*

• Otherwise the TV or the display may fall over and become damaged, and personal injury may result.

*Do not use the pedestal if it becomes warped or physically damaged.*

• If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

*During set-up, make sure that all screws are securely tightened.*

• If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

*Ensure that the TV does not fall over.*

• If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

**Two or more people are required to install and remove the TV.**

• If two or more people are not present, the TV may be dropped, and personal injury may result.

*When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure. (p. 8)*

• Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.

---

**Assembling the pedestal**

Use the assembly screws (A) to fasten the pole (D) to the base (E) securely.

• Make sure that the screws are securely tightened.

• Forcing the assembly screws the wrong way will strip the threads.

Attach the cover (F) with assembly screw (C).

---

**Components**

- **A** Assembly screw (4) (silver)
  - M5 × 20 (mm)
- **B** Assembly screw (4) (black)
  - M5 × 25 (mm)
- **C** Assembly screw (1) (black)
  - M4 × 8 (mm)
- **D** Pole (1)
  - TBL5ZA3051
- **E** Base (1)
  - TBL5ZX0071 (TH-P42GT30A)
  - TBL5ZX0047 (TH-P46GT30A/TH-P50GT30A)
- **F** Cover (1)
  - TBL5ZB3039
**Securing the TV**
Insert the pole into the TV, and then fasten securely with the assembly screws B.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

**Removing the pedestal from the TV**
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.
1 Remove the assembly screws B from the TV.
2 Pull out the pedestal from the TV.
3 Remove the assembly screw C from the cover.
4 Pull out the cover.
5 Remove the assembly screws A from the pole.

**Adjust the panel to your desired angle**
- 15° (TH-P42GT30A)
- 10° (TH-P46GT30A, TH-P50GT30A)

- Ensure that the pedestal does not hang over the edge of the base even if the TV swivels to the full rotation range.
- Do not place any objects or hands within the full rotation range.

**Preventing the TV from falling over**
This TV could fall over if it is pushed, pulled or knocked down. We therefore recommend the TV is secured to the furniture as illustrated.
- This measure is designed to reduce the risk of injury from a falling TV. However, it cannot guarantee protection in all cases.

**Fall-prevention parts**

**Securing to a furniture**
Fix pedestal and furniture together with band.
- This image is for illustrative purposes only.
Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended optional accessories. For additional details, please refer to the manual of the optional accessories.

3D Eyewear
(Battery type)
- TY-EW3D10W
- TY-EW3D2SW
- TY-EW3D2MW
- TY-EW3D2LW

Communication Camera
- TY-CC10W

Wall-hanging bracket
- TY-WK4P1RW

The angle of wall-hanging bracket can be adjusted in "zero tilting (vertical)" and "5, 10, 15 or 20-degree tilting" for this TV.

Caution
- Product information (Model No. and release date etc.) is subject to change without notice.
- For more product information (English only) http://panasonic.net/avc/viera/3d/asia.html

Warning
- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

- This camera can be used on VIERA Connect (p. 17).
- Please also read the manual of the camera.
- Depending on the area, this optional accessory may not be available. For details, consult your local Panasonic dealer.

- Product information (Model No. and release date etc.) is subject to change without notice.
- For more product information (English only) http://panasonic.net/avc/viera/3d/asia.html

Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

External equipment and cables:
- Aerial
- RF cable
- Satellite dish
- Set top box
- AC 220 - 240 V, 50 / 60 Hz

**Rear of the TV**

- Mains lead
- RF adaptor (supplied)
- Fully wired HDMI compliant cable

**Clamper**

- Attach the clamper: Insert the clamper in a hole
- Bundle the cables: Set the tip in the hooks
- To remove from the TV: Keep pushing both side snaps
- To loosen: Keep pushing the knob

**Note**

- Keep RF (antenna) cable away from the mains lead to avoid and minimise mains interference pickup.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable (75 Ω coaxial), and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- VIERA Link connection (p. 79)
- Other equipment connection (p. 85 - 86, 95)
- Read the manual of the external equipment, too.

Auto Tuning

Search and store TV channels automatically.
• These steps are not necessary if the setup has been completed by your local dealer.

1 Plug the TV into mains socket and switch On
  - You can now use the remote control to turn On the TV or switch the TV to Standby mode. (Power LED: On)

2 Select your area
  - Select State / Territory
    New South Wales / Australian Capital Territory
    Victoria
    Queensland
    South Australia
    Western Australia
    Northern Territory
    Tasmania

3 Start Auto Tuning
  - Select the TV Signal
    : tune
    : skip
  - Auto Tuning will start to search for TV channels and store them. The sorted channel order depends upon the TV signal, the broadcasting system and reception conditions.

4 Setup the network connection
  - Select the network type
    [Wired]: wired connection  ➔ (p. 15)
    [Wireless]: wireless connection  ➔ (p. 16)
  - To setup later on or skip this step ➔ Select [Set later] or EXIT

5 Select [Home]
  - Please select your viewing environment.
    Home  Shop
  - Auto Tuning is completed
**Viewing environment mode**

Home: Recommended mode for viewing at home. Select [Home] for optimal picture / power consumption. [Viewing Mode] is set as [Normal] (p. 33).

Shop: Demonstration mode to explain main features of this TV (for in-store display). [Viewing Mode] is set as [Dynamic] (p. 33).

To return to viewing environment selection mode if you selected [Shop]

- To change viewing environment mode later on, reset all settings by accessing Shipping Condition. ⇒ [Shipping Condition] (p. 50)

If you connect the Wireless LAN Adaptor later on, the confirmation screen will be displayed for the setup.

- To setup the Wireless LAN connection ⇒ (p. 74)
Setup the network connection

Set up the network connection to enable the network service functions such as VIERA Connect, etc. (p. 17, 78).
- To set up the wireless connection, the Wireless LAN Adaptor is required.
- Please note that this TV does not support wireless public access points.
- Ensure the network connections and network environment are completed before starting setup.

1 Connect the LAN cable or Wireless LAN Adaptor

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.

![Diagram of network connection]

- Connect to the USB 1, 2 or 3 port.
- If you do not have any broadband network services, please consult your retailer for assistance.
- For more information of the network connections (p. 70)

Caution

- To use the Wireless LAN Adaptor, an Access Point needs to be obtained.
- It is recommended to use the Wireless LAN Adaptor with the extension cable.
- To avoid radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor. Otherwise malfunction may occur.

2 Select [Wired] or [Wireless]

![Network Setup]

3 Start the settings

- [Wired]
  Select [Auto]
  
  ![Acquire IP Address]

  - To set manually, select [Manual] and set each item. For details ⇒ (p. 72 - 73)

  ![Connection Test]

  Automatically setup is done and the test of the network connection starts.

  : succeeded

  The test is successful and the TV is connected to the network.

  : failed

  Check the settings and connections, and then select [Retry]
[Wireless]
Select the connection type

Connection Type
Please select network connection type.

Search for access point
WPS(Push button)

[Search for access point]
Access points found automatically are listed.

1 Select your desired access point

To search access points again
For the information of the highlighted access point
To set manually (p. 74)

2 Access the encryption key input mode

If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

3 Enter the encryption key of the access point (Set characters one by one)

You can set characters by using numeric buttons.

4 Select [Yes]

To re-enter the encryption key, select [No].
If the connection has failed, check the encryption key, settings and positions of your access point. And then, follow the on screen instructions.

[WPS(Push button)]

Press the WPS button on the access point until the light flashes. And then, press the OK button to connect the Wireless LAN Adaptor and the access point.

Perform the connection test after the access point setting is finished

☑ succeeded
The test is successful and the TV is connected to the network.
☒ failed
Check the settings and connections, and then select [Retry].
To set manually, select [Manual] and set each item. For details (p. 74)

4 Complete the network connection

(Press twice)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic and has expanded VIERA CAST features greatly.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.
• This TV has no full browser function and all features of websites may not be available.

Turn power on

1. Press for about 1 second
2. Mains power On / Off switch should be On. (p. 11)

Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

Access VIERA Connect

While the banner is displayed

• The button design varies depending on the remote control.

Example: VIERA Connect home screen

• Depending on the usage conditions, it may take a while to read all the data.
• Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on screen instructions.

■ How to operate VIERA Connect (current as of January, 2011)

• To move the cursor / select the item
• To access
• To return to the previous screen

When the key words are displayed on colour bar

When options with numbers are displayed

Video communication requires an exclusive Communication Camera TY-CC10W. “Optional accessories” (p. 9)
For details, read the manual of the Communication Camera.
You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features. For more information “USB connection” (p. 93)

Note
• If you cannot access VIERA Connect, check the network connections and settings (p. 15 - 16).
• For more information of VIERA Connect (p. 78)
Watching TV

1 Turn power on

• Mains power On / Off switch should be On. (p. 11)

■ VIERA Connect banner appears
You can access to VIERA Connect and enjoy the various contents.
• To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
• To set this banner display off
⇒ [VIERA Connect Banner] (p. 39)

2 Select Digital TV or Analogue TV mode

The selected mode is displayed.

• It is also possible to select the mode pressing the TV button repeatedly on the side panel of the TV. (p. 11)

Information banner appears whenever you select a channel
• For details ⇒ (p. 19)

3 Select a channel

• To select the two or three-digit channel number, e.g. 112
  1 2 3 (in a short time)
• If one or two-digit channel number, e.g. 39
  3 9 (quickly changes the channel)

■ To select from the Channel List

All Digital Channels
- Cartoon Nwk
- BBC Radio Wales
- BBC Radio Cymru
- BBC ONE Wales

Display the selectable settings for the current programme

1 Check or change the current programme status instantly

2 Select

3 Change

[Audio Description] (Digital TV mode)
Set to [Auto] if the programme has Audio Description service, then you will hear an additional audio track to describe events on screen
* To adjust the volume for Audio Description ⇒ [Audio Description Menu] (p. 37)

[Audio Selection] (Digital TV mode)
Allows you to select between alternative languages for sound tracks (if available)

[Double Audio] (Digital TV mode)
Selects multiplex sound (if available)

[MPX] (Analogue TV mode)
Selects multiplex sound (if available) ⇒ [Sound Menu] (p. 36)

[Volume Correction]
Adjusts the volume of an individual channel or input mode ⇒ [Sound Menu] (p. 36)

[Safely remove USB]
Takes this operation to remove the connected USB device safely from the TV

Last view

Switch to previously viewed channel or input mode easily
* Press again to return to the present view.

(Note)
* Switching channel is not available while Direct TV Recording is in progress.
* Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.

Off Timer

Turn the TV off automatically after a fixed period of time [Off / 15 / 30 / 45 / 60 / 75 / 90 minutes]

1 Display the menu

2 Select [Timer]

3 Select [Off Timer] and set the time

* To cancel ⇒ Set to off or turn the TV off.
* To display the remaining time ⇒ “Display Information banner” (p. 19)
* When the remaining time is within 3 minutes, the remaining time will flash on screen.
Change aspect ratio

Enjoy viewing the image at its optimum size and aspect.

Press repeatedly until you reach the desired mode

**ASPECT**

1. Display Aspect Selection list
2. While the list is displayed, select the mode

**Note**
- Only [16:9] and [4:3 Full] are available in Digital TV mode.
- Only [16:9] and [4:3] are available in PC input mode.
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Aspect cannot be changed in 3D mode (aspect is fixed to [16:9] when [3D Mode Selection] is set to [2D → 3D]).
- Aspect mode can be memorised separately for each SD (Standard definition) and HD (High definition) signals except in Digital TV mode.

### [Region Select] - Adjust the standard time

Select the region where you live to adjust the standard time.
- The time contained in the broadcast signal is UTC (Universal Time coordinated) formally known as GMT (Greenwich Mean Time).

<table>
<thead>
<tr>
<th>Region</th>
<th>Standard time</th>
<th>Daylight Saving Time: Auto (During Summer Time)</th>

<tr>
<td><strong>REC</strong></td>
<td><strong>Record</strong>&lt;br&gt;Start recording</td>
</tr>
</tbody>
</table>

How to change the code for the type of the equipment

Each type of Panasonic equipment has its own remote control code. Please change the code for each equipment you want to operate.

If you operate the USB HDD / SD Card recording (p.55, 56) or in Video mode of Media Player (p.64, 66) or the connected equipment in VIERA Link (p. 82), select the code “73”.

Press and hold **POWER** during the following operations.

Enter the appropriate code (see table below) → Press **REC**

<table>
<thead>
<tr>
<th>Type of the equipment</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder / DVD Player</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre / Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
<tr>
<td>Using USB HDD / SD Card recording (p. 55, 56)</td>
<td>73</td>
</tr>
<tr>
<td>Using in Video mode of Media Player (p. 64, 66)</td>
<td></td>
</tr>
<tr>
<td>The equipment using in VIERA Link “VIERA Link Control” (p. 82)</td>
<td></td>
</tr>
</tbody>
</table>

( **Note**

* Confirm if the remote control works correctly after changing the code.
* The codes may be reset to default values if batteries are replaced.
* Some operations may not be possible on some equipment models.)
Viewing 3D images

You can enjoy viewing 3D images with contents or programmes corresponding to the 3D effect by wearing the 3D Eyewear. “Optional accessories” (p. 9)

• For wearing the 3D Eyewear please read the manual of the 3D Eyewear.

This TV supports [Frame Sequential]*1, [Side by Side]*2 and [Top and Bottom]*3 3D formats.

*1: The 3D format that the images for the left and right eyes are recorded with the high definition quality and alternately played back
*2, *3: Other available 3D formats

---

Warning

About Prevention of Accidental Ingestion

• Do not store any 3D Eyewear parts in places where small children can reach.
  There is a danger small children could swallow such parts by mistake.
  • If a child accidentally swallows such parts, seek immediate medical attention.

About Prohibition of Disassembly

• Do not disassemble or modify the 3D Eyewear.

---

Caution

About 3D Eyewear

• Do not drop, exert pressure on, or step on the 3D Eyewear.
  Doing so may damage the glass section, which may result in injury.
  • Always store the 3D Eyewear in the case provided when not in use.

• Be careful of the tips of the frame when putting on the 3D Eyewear.
  Accidentally inserting the tip of the frame into the eye may cause injury.

• Always keep the 3D Eyewear in a cool, dry place.
  Failure to do so may cause fire or electric shock.

• Be careful not to trap a finger in the hinge section of the 3D Eyewear.
  Doing so may result in injury.
  • Pay special attention when children are using this product.

About Viewing of 3D Images

• In the event that you experience dizziness, nausea, or other discomfort while viewing 3D images, discontinue use and rest your eyes.
  When you set the effect by using [3D Adjustment], take into account that the vision of 3D images varies among different individuals.

• Do not use the 3D Eyewear if you have a history of oversensitivity to light, heart problems, or have any other existing medical condition.
  Using the 3D Eyewear may cause the symptoms to worsen.

• Stop using the 3D Eyewear immediately if you feel tired, discomfort, or any other abnormality.
  Continuing to use the 3D Eyewear in such cases may cause you to feel unwell. Please take the necessary rest before continuing use.

• When watching 3D movies, take an appropriate length break after watching a movie.

• When watching 3D content on interactive devices such as 3D games or computers, take an appropriate length break after using for 30 - 60 minutes.
  Prolonged use may cause eyesight fatigue.

• When using the 3D Eyewear, be careful not to strike the television screen or other people by mistake.
  As the images are in 3D, the distance between the user and screen may be mistaken, causing the user to strike the screen which may result in injury.

• Use the 3D Eyewear when viewing 3D images.

• When using the 3D Eyewear, make sure your eyes are on an approximately horizontal level.

• If you suffer from myopia (short-sightedness), hyperopia (far-sightedness), astigmatism, or have eyesight differences between the left and right eyes, please use corrective glasses or other such methods to correct your eyesight before putting on the 3D Eyewear.

• Stop using the 3D Eyewear if you can clearly see double images when viewing 3D content.
  Prolonged use may cause eyesight fatigue.

• View the screen at a distance at least 3 times further than the effective height of the screen.
  Recommended distance:
  For a 42-inch television, 1.6 m or more.
  For a 46-inch television, 1.7 m or more.
  For a 50-inch television, 1.9 m or more.

Using the 3D Eyewear at a distance closer than the recommended distance may cause eyesight fatigue.
Using 3D Eyewear

- As a guide, 3D Eyewear should not be used by children younger than about 5 - 6 years old. As it is difficult to judge younger children’s reactions to fatigue or discomfort, it may be difficult to prevent them from suddenly feeling unwell.
  - When this product is being used by a child, the parent or guardian should check to ensure that the child’s eyes are not becoming tired.
- **When using the 3D Eyewear, do not place breakable objects near to the user.**
  The user may mistake the 3D objects they are viewing as real objects causing them to move, which may cause damage to surrounding objects that may lead to injury.
- **Do not move around while wearing the 3D Eyewear.**
  The surrounding area appears dark, which may result in falling or other accidents that may cause injury.
- **Only use the 3D Eyewear for the specified purpose.**
- **Do not use if the 3D Eyewear is cracked or broken.**
  Doing so may result in injury or eyesight fatigue.
- **If a malfunction or fault occurs in the 3D Eyewear, stop use immediately.**
  Continuing to use the 3D Eyewear may result in injury, eyesight fatigue, or may cause you to feel unwell.
- **Stop using the 3D Eyewear immediately if your skin feels unusual.**
  In rare cases, the paint or materials used in the 3D Eyewear may cause an allergic reaction.
- **Stop using the 3D Eyewear immediately if you experience any redness, pain, or itching on the nose or temples.**
  Prolonged use may cause such symptoms due to excess pressure, which may result in the user feeling unwell.

**Using Precautions**

**Infra-red receiver section**

- **Do not soil the infra-red receiver section or attach stickers etc. to it.**
  - Doing so may prevent the receiver from receiving signals from the television, which may prevent the 3D Eyewear from operating normally.
- **If the 3D Eyewear is affected by other infra-red data communication equipment, the 3D images may not be displayed correctly.**

**Cautions during viewing**

- **Do not use devices that emit strong electromagnetic waves (such as cellular phones or personal transceivers) near the 3D Eyewear. Doing so may cause the 3D Eyewear to malfunction.**
- **If the 3D Eyewear is used in a room in which fluorescent lights (50 Hz) are used, the light within the room may appear to be flickering. In this case, either darken or switch off the fluorescent lights when using the 3D Eyewear.**
- **Wear the 3D Eyewear correctly. 3D images will not be correctly visible if the 3D Eyewear is worn upside down or back-to-front.**
- **Other kinds of displays (such as computer screens, digital clocks, or calculators etc.) may be difficult to see while wearing the 3D Eyewear. Do not wear the 3D Eyewear when watching anything other than 3D images.**
Charging the 3D Eyewear (optional - rechargeable type)

To charge when the TV is in the Standby mode

1. Display the menu
   - “How to Use the Menu Functions” (p. 32)
2. Select [Setup]
3. Select [Other Settings]
4. Select [USB Charge in Standby] and set [On]
5. Turn off the television power, and set the 3D Eyewear power switch to “OFF”
6. Connect as shown
   - The indicator lamp lights red, and charging starts.
   - When the indicator lamp turns off, charging is complete.
     (Approximately 2 hours required)
7. Remove the charging cable

To charge when the TV is on
1. Turn off the television power, and set the 3D Eyewear power switch to “OFF”
2. Connect as shown above, and turn on the television power
   - The indicator lamp lights red, and charging starts.
   - When the indicator lamp turns off, charging is complete. (Approximately 2 hours required)
3. Turn off the television power, and remove the charging cable
Available range for the 3D Eyewear

If the 3D Eyewear is placed outside the available area for about 5 minutes, the 3D Eyewear will be turned off automatically.

Available area to use the 3D Eyewear

View from the top

View from the side

Approx. 3.2 m
Approx. 3.2 m
Approx. 3.2 m

( Note )

• The range may be shortened depending on the obstacles between the infrared sensors on the TV and the 3D Eyewear, the dirt of the infrared sensors or the surrounding environment.
• If you do not look toward the TV screen for a while when viewing 3D images, the 3D Eyewear may be turned off automatically even if in the available area.

To view the 3D images

You can watch 3D images in the following cases:

• When a 3D image supporting Blu-ray Disc is played on a 3D image supporting player/recorder connected using a HDMI cable to a 3D image supporting television.
• 3D image supported broadcast (programme)
• 3D Photo, 3D Movie taken by LUMIX/Camcorder.
• 2D → 3D (Converts 2D images into 3D) ⇒ “Change the view 3D ↔ 2D” (p. 29)

To view the contents or programmes
1 Set the power switch to “ON”.
   (The indicator lamp will light for approximately 2 seconds, then flash once approximately every 2 seconds.)
2 Put on the 3D Eyewear
3 Watch the 3D images
   When the HDMI receives information in which 3D mode is detected, 3D images are automatically displayed according to the signal.
   If the 3D images are not displayed correctly or the images cause discomfort, the images can be adjusted by [3D Mode Selection] or [3D Settings].
   * Change the view 3D ↔ 2D, 3D settings (p. 29, 30)

After Use
1 Set the 3D Eyewear power switch to “OFF”.
   (The 3D Eyewear indicator lamp turns off, and the power turns off.)
2 After using the 3D Eyewear, store it in the case provided.
Change the view 3D ↔ 2D

### Note
- In each Viewing Mode and input, **[Contrast]**, **[Brightness]**, **[Colour]**, **[Sharpness]**, **[Tint]**, **[Colour Balance]**, **[Vivid Colour]**, **[Eco Mode]**, **[P-NR]** and **[3D-COMB]** can be adjusted and stored to suit your particular viewing requirement.
- Set for each input signal.

**THX Certified movies** have the **[THX]** logo on a disc
**True Cinema** is displayed instead of **[THX]** in the mode of Media Player and Network service operations

- **[Game]**: Fast response signal specifically to provide suitable images for playing games
  - Not valid on TV mode
  - A continuous record of time spent using Game mode can be displayed in the top right of the screen. → [Playing Time Display] (p. 39)
- **[Photo]**: Set [Reversal Film Effect] to [On] to provide the suitable image quality for photos
  - For HDMI input, Media Player and Network service operations
  - **[Professional 1]** / **[Professional 2]**: Allows you to set the professional picture settings in [Advanced Settings], [Lock Settings] and [Copy Adjustment] (p. 35)
    - This mode is available only when [Advance(isfccc)] in the Setup Menu is set to [On]
    - Not valid on VIERA Connect
    - If the certified professional dealer sets these modes, **[Professional1]** and **[Professional2]** may be displayed as **[isf Day]** and **[isf Night]**

- **[Off]**: Display it in input source of colour gamut
- **[On]**: Display it in expand input source of colour gamut
- **[Auto]**: Auto-fit
  - When Viewing Mode is **[THX (True Cinema)]**, this menu item is not displayed

- **[Off]**: Display it in input source of colour gamut
- **[On]**: Display it in expand input source of colour gamut
- **[Auto]**: Auto-fit
  - When Viewing Mode is **[THX (True Cinema)]**, this menu item is not displayed

- **[Off]**: Display it in input source of colour gamut
- **[On]**: Display it in expand input source of colour gamut
- **[Auto]**: Auto-fit
  - When Viewing Mode is **[THX (True Cinema)]**, this menu item is not displayed

## How to Use the Menu Functions

### Sound

<table>
<thead>
<tr>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| **Mode**     | Selects basic sound mode  
• The selected mode affects all input signals.  
[**Music**]: Improves sound quality for watching music videos, etc.  
[**Speech**]: Improves sound quality for watching news, drama, etc.  
• In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.  
[**User**]: Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.  
• For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select the [Equaliser] and adjust the frequency.  
⇒ [Equaliser] (below) |
| Bass         | Increases or decreases level to enhance or minimise lower, deeper sound output                              |
| Treble       | Increases or decreases level to enhance or minimise sharper, higher sound output                             |
| **Equaliser**| Adjusts the frequency level to suit your favourite sound quality  
• This function is available when [Mode] is set to [User].  
• Select the frequency and change the frequency level by using the cursor button.  
• If you want to enhance the bass sound, raise the level of the lower frequency. If you want to enhance the treble sound, raise the level of the higher frequency.  
• To reset the levels of each frequency to the default settings, select the [Reset Equaliser Settings] by using the cursor button, and then press the OK button. |
| **Balance**  | Adjusts the volume level of right and left speakers                                                        |
| **Headphone Volume** | Adjusts the volume of the headphones                                                                      |
| **Surround** | Surround sound settings  
[**V-Audio**]: Provides a dynamic enhancer of width to simulate improved spatial effects  
[**V-Audio Surround**]: Provides a dynamic enhancer of width and depth to simulate improved spatial effects  
[**V-Audio ProSurround**]: Provides a three-dimensional sound space with digital reverb effects |
| **Auto Gain Control** | Adjusts the current volume level if it is extremely different from the previous viewed channel or input mode |
| **Volume Correction** | Adjusts the volume of individual channel or input mode                                                      |
| **Speaker Distance to Wall** | Adjusts the low frequency sound  
• If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended.  
• If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended. |
| **MPX**      | Selects multiplex sound mode (if available)  
[**Stereo**]: Use this normally  
[**Mono**]: When stereo signal cannot be received  
[**M1**] / [**M2**]: Available while mono signal is transmitted  
⇒ Analogue TV mode only |

---

*Bass*: Increases or decreases level to enhance or minimise lower, deeper sound output  
*Treble*: Increases or decreases level to enhance or minimise sharper, higher sound output  
*Equaliser*: Adjusts the frequency level to suit your favourite sound quality  
*Balance*: Adjusts the volume level of right and left speakers  
*Headphone Volume*: Adjusts the volume of the headphones  
*Surround*: Surround sound settings  
*Auto Gain Control*: Adjusts the current volume level if it is extremely different from the previous viewed channel or input mode  
*Volume Correction*: Adjusts the volume of individual channel or input mode  
*Speaker Distance to Wall*: Adjusts the low frequency sound  
*MPX*: Selects multiplex sound mode (if available)  
*Stereo*: Use this normally  
*Mono*: When stereo signal cannot be received  
*M1*/ *M2*: Available while mono signal is transmitted  
*Analogue TV mode only*
Digital Audio Preference

- Dolby D
- MPEG

Selects the initial setting for audio tracks. If the programme has both Dolby Digital and MPEG audio tracks, priority is given to what you select.

**[Dolby D]:** A method of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can also be multi-channel audio.

**[MPEG]:** An audio compression method that compresses audio to small size without any considerable loss of audio quality.

*Digital TV mode only

SPDIF Selection

- Auto
- PCM

SPDIF: A standard audio transfer file format. Selects the initial setting for digital audio output signal from the DIGITAL AUDIO OUT terminal.

**[Auto]:** Dolby Digital Plus, Dolby Digital and HE-AAC (48 kHz) multi-channel are output as Dolby Digital Bitstream. MPEG is output as PCM.

**[PCM]:** Digital output signal is fixed to PCM.

*For Digital TV mode, Video mode (p. 63) or Network video contents (p. 78)

HDMI1 / 2 / 3 / 4 Input

- Digital
- Analogue

Selects to fit the input signal (p. 88)

**[Digital]:** HDMI cable connection

**[Analogue]:** HDMI-DVI adaptor cable connection

*HDMI input mode only

Audio Description Menu

**Audio Description**

- Off
- Auto

Useful for visually-impaired viewers. Sets to [Auto] to activate the description sound track if available.

*The availability of audio description sound track is indicated by [AD] in the information banner (p. 19).

*Digital TV mode only

**Volume**

Adjusts the volume for Audio Description.

*Digital TV mode only

**Speakers**

- Off
- On

Sets to [On] to activate the description sound track from TV speakers.

*Digital TV mode only

**Headphones**

- Off
- On

Sets to [On] to activate the description sound track from headphones.

*Digital TV mode only

Reset Sound Defaults

Press the OK button to reset settings of the present [Mode], [Balance], [Headphone Volume] and [Surround] in the Sound Menu to the default.

Timers

**Item**

**Adjustments / Configurations (alternatives)**

**Timer Programming**

Sets a timer to remind watching or record forthcoming programmes (p. 45)

*Digital TV mode only

**Off Timer**

- Off
- 15 / 30 / 45 / 60 / 75 / 90 minutes

Sets the time until the TV automatically goes into Standby mode

**Auto Standby**

- Off
- 2 / 4 hours

Sets the time the TV automatically goes into Standby mode when no operation is performed for the selected times.

*Automatic input switching with the connected equipment affects this function and time-count will be reset.

*The notification message will appear 3 minutes before going into Standby mode.
## Setup

### Input Resolution
Switches to a wide view
- VGA (640 × 480 pixels), WVGA (852 × 480 pixels),
- XGA (1,024 × 768 pixels), WXGA (1,280 × 768 pixels, 1,366 × 768 pixels)
- Options change depending on signals

### Clock
Sets to the minimum level if noise occurs.

### H-pos
Adjusts horizontal position

### V-pos
Adjusts vertical position

### Clock Phase
Eliminates flicker and distortion
- Adjust after Clock adjustment
- Set to the minimum level if noise occurs

### Sync
- **H & V**: by the horizontal and vertical signals from your PC
- **SOG**: Sync on Green sync from your PC

### Reset PC Settings
Press the OK button to reset the PC Setup settings to the default.

### DVI Position Settings
- **H-pos**: Adjusts horizontal position settings of DVI
- **V-pos**: Adjusts vertical position settings of DVI

### Reset DVI Position Settings
Press the OK button to reset the DVI Position Settings to the default.

### Eco Navigation
Automatically sets the TV to the most suitable energy-saving mode
- If you press the OK button, the following items are set as below:
  - [Eco Mode], [VIERA Link], [Power off Link], [Standby Power Save],
  - [Power Save] ➔ [On]
  - [Intelligent Auto Standby] ➔ [On (No reminder)]
  - [Auto Standby] ➔ [2 hours]

### Recording Setup
Formats the connected USB HDD / insert SD card and sets the condition
(p. 52 - 54)

### Child Lock
Locks a channel / AV input to prevent access to it (p. 48)

| | Only available items can be selected. |
Tuning and Editing Channels

You can make Auto Tuning, listing your favourite channels, skipping unwanted channels, etc.

Preparations:
1 Select Digital TV or Analogue TV
2 Display the menu
3 Select [Setup]

- The selected mode is displayed on the screen (p. 19).

When you select Digital TV

1 Select [Digital TV Tuning Menu]

2 Select a function

When you select Analogue TV

1 Select [Analogue TV Tuning Menu]

2 Select a function

For Auto Tuning, using the buttons on the side panel of the TV (p. 11)

1 Press repeatedly until [Auto Tuning] appears
2 Access [Auto Tuning]
3 Start [Auto Tuning]

- To return to TV
Digital TV Tuning Menu

[Favourites Edit] - List favourite channels

Create your favourite channel lists (Favourites) from various broadcasters (up to 4: [Favourites]1 to 4). The Favourites lists are available from the Information banner (p. 19) and the TV Guide (p. 22).

1 Select a channel to list

[19x167]Tuning and Editing Channels

[42]
[Auto Tuning] - Set all Digital TV channels automatically

1 Start Auto Tuning

**Digital TV Auto Tuning**

- All digital TV tuning data will be erased

- All the previous tuning settings are erased.
- When the operation is completed, the channel at channel position [1] will be displayed.
- Search begins in the order from the lower channels to the higher channels.
- If tuning has not been done completely ⇒ [Manual Tuning] (see below)

**2 Settings are made automatically**

Automatically retune all Digital TV channels received in the area.

[Manual Tuning] - Set Digital TV channel manually

Normally use [Auto Tuning] or [Update Channel List] to update Digital TV channels on your channel list. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

[Update Channel List] - Update channels automatically

You can add new channels, delete duplicated channels, update channel name and position automatically to Channel List.

- Channel List is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
- Depending on the signal condition, the update may not work properly.

[New Channel Message] - Display a notification message

Selects whether to give a notification message when a new Digital TV channel is found. [Off] / [On]

- Selecting OK will perform [Update Channel List].
- Sometimes, mainly during summer months at night, the TV may pickup distant TV stations outside your broadcast due to favourable short term ionosphere conditions. In such circumstances when you press OK button, the TV does not add any new channels. This is normal.

[Signal Condition] - Check Digital TV signal

Selects a channel and checks the Digital TV signal condition.

- To change the channel

These bars show the maximum signal value of the selected channel.

A good Signal Strength is not an indication of suitable signal for Digital TV reception. Please use the Signal Quality indicator as follows:

[Signal Quality]:
- Green bar ⇒ Good
- Yellow bar ⇒ Poor
- Red bar ⇒ Bad (Check the aerial)
Tuning and Editing Channels

[Channel List] - Skip unwanted channels / Edit Channels (Change name, Move)

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

Select a channel and reveal / hide

You can hide unwanted channels. You can also edit each channel in the Channel List.

- To reveal all channels
- To retune each channel (Manual Tuning)

To edit channels

Select a channel to edit and:

• To move the channel position
• To rename the channel name

Note

• If a VCR is connected only with the RF cable, edit [VCR].

[Auto Tuning] - Set all Analogue TV channels automatically

1 Start Auto Tuning

All analogue TV tuning data will be erased

2 Settings are made automatically

Automatically retune all Analogue TV channels received in the area.

[Manual Tuning] - Set Analogue TV channel manually

Set Analogue TV channel manually after Auto Tuning.

1 Select a channel position

• If a VCR is connected only with the RF cable, select channel position [0].
Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you wish to remind watching or record to the USB HDD / SD Card. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode.

TV Guide may also be used to set timer programming event (p. 22).
- This function is not available in Analogue mode.
- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either On or in standby. For reminders to be displayed, the TV must be On.
- No other channel can be selected while the recording of Timer Programming is in progress.
- It may not be possible to record an encrypted programme (which is copy-protected).
- When recording programmes to the USB HDD, be sure to format the USB HDD and enable it for recording in [Recording Setup] (p. 52).
- When recording programmes to the SD Card, prepare the SD Card without any data.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.

- To remove the message and start the programming
- To cancel the programming

Preparations:
1 Select Digital TV mode
2 Display the menu
3 Select [Timer]

Select [Timer Programming]

- To return to TV
- To unlock the tuner and stop recording

Timer Programming Access
Off Timer Off
Auto Standby Off

EXIT
EXIT
EXIT
**Timer Programming** - Set timer programming event details

1 Start making the settings

2 Select the function ([USB HDD Rec.], [SD Card Rec.] or [Reminder])

- **[USB HDD Rec.] / [SD Card Rec.:**
  
  to record the programme to the USB HDD / SD Card
  
  When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

- **[Reminder]:**
  
  to remind you to watch the programme
  
  When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)

Set items in the order of 1 to 4.

- 1, 3 and 4 can also be entered with numeric buttons.

<table>
<thead>
<tr>

Store

■ To change a timer programming event
   Select the programme to be changed
   ① select  ⇒ Correct as necessary (p. 45)
   ② access

■ To cancel a timer programming event
   Select the programme to be deleted

■ To record with subtitles (if available)
   Select the programme to record with subtitles
   Y
   • Each time pressed:
     auto ↔ off

■ To cancel a timer programming event temporarily
   Select the programme to be cancelled
   B
   • Each time pressed:
     cancel ↔ stop cancelling

Note
• Check that the LED is orange. If not, timer programmes are not active or not stored.
• Timer Programming reminder messages will remain displayed until one of the following occurs:
  • You press the OK button to view the programme or the EXIT button to cancel the reminder.
  • The timer programming event that the reminder is set for ends.
• "!" identifies that any timer programming events have overlapped. [USB HDD Rec.] and [SD Card Rec.] are given priority over [Reminder]. As for the overlapped two or more [USB HDD Rec.] / [SD Card Rec.], the first timer programming event starts and finishes as programmed. The next timer programming event can then start.
• The recording of Timer Programming will automatically change to the programmed channel 10 seconds before the start time.
• To stop recording the timer programming event directly prior to the start time, it may be necessary to stop the recorder manually.
• The recording of Timer Programming will be performed even if the TV is in REW LIVE TV recording (p. 56) or Pause Live TV recording (p. 81). In this case, these recordings will be cancelled.
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

Preparations:
1 Display the menu
2 Select [Setup]

2 Follow the on screen instructions

Reset to Factory Shipping Condition Completed. Please switch off TV.

[Auto Tuning] will automatically start when Mains power On/Off switch is next turned on (p. 13).

To retune TV channels only, e.g. after moving house

⇒ [Auto Tuning] in “Tuning and Editing Channels” (p. 43, 44)
Updating the TV Software

From time to time, a new version of software may become available for download to enhance the performance or operations of the TV.

If there is an update available, a notification banner is displayed when the channel has the update information.

- To download
- If you choose not to download

You can update any new software automatically or update manually.

**Preparations:**
1. Display the menu
2. Select [Setup]

**Select [System Menu]**

1. Select [System Menu]
2. Access Other Settings

**Select [System Update]**

1. System Menu
2. Shipping Condition
3. System Update
4. Software Licence
5. System Information

To return to TV

**[System Update] - Update TV's software system**

- **To update automatically**
  Select [Auto Update Search in Standby] and set the timing

  - Every time you set, the TV automatically performs a search in standby and downloads an update, if any software updates are available.
  - The automatic updating is performed under the following conditions:
    - Standby (TV turned Off with the remote control)
    - Recording of Timer Programming, Direct TV Recording or One Touch Recording is not in progress.

  If System Update is performed, the software will be updated (it may change TV functions).
  If you do not wish to do so, set [Auto Update Search in Standby] to [Off].

- **To search for new software version**
  1. Select [System Update Search Now]
  2. Searches for an update (for several minutes) and displays a corresponding message if any

**Note**

- Download may take about 60 minutes.
- During software download and update, DO NOT switch Off the TV or press any buttons. The TV will automatically be activated after downloading is completed.
- During downloading, the TV will display a blank screen for 40 to 50 seconds. Do not interrupt the TV during this procedure.
- The message might be the notification beforehand. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is set to Off.
- Software updates may be distributed in several ways; Automatic Update via the TV antenna, the Internet via the TV’s LAN port or downloaded by you from the Internet using your PC, copying the software image to your SD card or USB stick then updating TV software using the TVs USB port or TV SD card slot. No other distribution method is available.
**USB HDD / SD Card Recording**

You can record the digital TV programmes to the connected USB HDD / SD Card and enjoy playing back in various ways.

- Analogue TV programme cannot be recorded to the USB HDD / SD Card.
- The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
- Not all the programmes can be recorded depending on the broadcaster and service provider.
- For more information of the SD Card and USB HDD (p. 90)
- If the remaining capacity of the USB HDD / SD Card is run out, the recording cannot be done.

**Caution**

- All data in the USB HDD / SD Card will be erased in the following cases:
  - When formatting the USB HDD / SD Card with the TV “Setting for USB HDD” (below) / “SD Card Format (if necessary)” (p. 54)
  - When formatting the USB HDD / SD Card to use on PC
  - When the TV is repaired due to a malfunction, you may have to format the USB HDD again with the TV to use it. (All data will be erased when formatting.)
  - In order to use the USB HDD with your PC after recording with this TV, format it again on your PC. (Special operations or tools may be necessary to format on your PC. For details, refer to the manual of the USB HDD.)
  - The data recorded to the USB HDD / SD Card with this TV can only be played back on this TV. You cannot play back its contents with another TV (including the TV of the same model number) or any PCs.

**Connecting and Setting for USB HDD**

You cannot change the settings for the USB while recording is in progress.

**Preparations:**

1. Connect the USB HDD to the USB 2 port.

![USB cable](image1)

2. Turn on the USB HDD.

3. Display the menu

![Display menu](image2)

4. Select [Setup]

![Select [Setup]](image3)

- **To remove the USB HDD safely from the TV**
- **To format**
- **To edit USB HDD name**
- **To set [Safely remove USB] in other conditions ➤ (p. 20)**
Preparing for SD Card

You cannot change the settings for the SD Card while recording is in progress. Prepare the SD Card without any data.

Insert the SD Card to SD Card Slot

- When the SD Card is inserted, switching to Media Player will be done automatically.

SD Card Format (if necessary)

While formatting, do not turn off main power switch or remove the SD Card.

1. Display the menu
2. Select [Setup]

Select [Recording Setup]

1. Select [Recording Setup]
2. Select [SD Card Formatting] and set

3. Confirmation of SD Card

4. Caution of SD Card recording and playing back

To return to TV

To return to the previous screen

Note

- If format was failed,
  - Ensure the SD Card is inserted to the SD Card slot
  - Ensure the SD Card is not write-protected
  - Ensure card type, that is compliant
Recording the TV programme to USB HDD / SD Card

You can record the current programme immediately by using [One Touch Recording]. You can also record the current programme constantly for the selected period by using [REW LIVE TV] so that you can go back or pause the current programme.

• Ensure the connection and setup for USB HDD are completed or SD Card is inserted before start recording (p. 52 - 54)
• Ensure not to connect or disconnect any USB devices or not to insert or remove SD Card during USB HDD / SD Card recording. Otherwise the recording may not work properly.

Preparations:
1 Display the menu 2 Select [Setup]

1 Select [Recording Setup]

Select [One Touch Recording] or [REW LIVE TV]

2 Select [One Touch Recording]

3 Set

[One Touch Recording] - What you see is What you record

Recording the current programme in the USB HDD / SD Card immediately.

To start One Touch Recording
• Set the remote control code to “73” (p. 24)

LED will turn to orange (flash) while One Touch Recording is in progress.

• No other channel can be selected while the recording is in progress.
• When more than 2 recording device are available, select recording device.

Please select recording device

LED
■ To stop recording on the way

[![Stop recording on the way]](image)

■ To playback or delete the recorded contents

☞ “Using Media Player” (p. 57)
• Even if One Touch Recording is in progress, you can playback all the contents. However, the recording may not work properly while playback.

[REW LIVE TV] - Record constantly

Recording the current programme constantly.

Select [Auto] to start REW LIVE TV

- Set the remote control code to “73” (p. 24)
- To pause ➔ To search backward

■ To operate the REW LIVE TV

- To pause ➔ To search backward

- After pausing or searching backward, the following buttons are available to operate.

■ To stop the REW LIVE TV

- If you stop the REW LIVE TV, the recorded content for the REW LIVE TV will be deleted.

REW LIVE TV will be stopped and the recorded content deleted automatically in the following conditions:
- selected other channels
- selected locked channel
- selected invalid channel
- no TV signal
- when the other recording starts
- when the TV is turned off or standby
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory and recorded contents on the exclusive recording devices (USB HDD / SD Card).

VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode: Still pictures recorded by digital cameras will be displayed.
Video mode: Moving pictures recorded by digital video cameras will be played back.
Recorded TV mode: Recorded TV Programmes with One Touch Recording will be Playback.
Music mode: Digital music data will be played back.

When these functions are used, the audio signal is output from audio output terminals.

• The file without record of the date is shown “***/***”.
• The picture may not appear correctly on this TV depending on the recording equipment used.
• Display may take some time when there are many files and folders.
• Partly degraded files might be displayed at a reduced resolution.
• Picture setting may not work depending on the conditions.
• The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

** USB Flash Memory

• Insert or remove straightly and completely.
• Before removing the USB Flash Memory, ensure to perform [Safely remove USB] (p. 20).
• Connect to the USB 1, 2 or 3 port.

** SD Card

To insert the SD Card

Gently insert the SD Card label surface facing front.

To remove the SD Card

Push the centre of the card

For more information of the SD Card, USB Flash Memory and supported file format ➔ (p. 90 - 92)
Using Media Player

Using Media Player

Insert the SD Card or USB Flash Memory

(p. 57)

To play back contents in USB HDD, check the connection and settings are completed.  
(p. 52, 53)

When the SD Card is inserted, switching to Media Player will be done automatically.

Switch to Media Player

Select the icon you want to access

Select the content

Change the device

You can change to the other device directly in the same mode if two or more devices are connected.

1 Display the menu

① select  
② set  
[File]: The selected music file will be registered as background music.  
[Folder]: All the music in the folder which contains the selected music file will be registered as background music.  
① select  
② access  
If no music has been registered or the registered music device is removed, no sound will be produced.  
[Auto]: Music data stored in the root folder of the current device will be played back randomly.  
If there is no available music data, no sound will be produced. |
Multi Shot 3D

This TV can create the 3D photo using a pair of photos in the SD Card and save it into the same SD Card.
- This TV can also create the 3D photo from photos in the USB Flash Memory, but cannot save it.
- This function is available with photos recorded by digital cameras.
- Depending on the photos you select, the created 3D photo may not be suitable or the 3D photo creation may not be possible.
- It is recommended to take a photo (for L) and then move your camera to the right about 5 cm and take another photo (for R).
- To view the created 3D photo with 3D effect, you need the 3D Eyewear ➞ “Optional accessories” (p. 9)

1 Display the option menu in the thumbnail view

2 Select [Multi Shot 3D]

3 Select two photos for L (left) and R (right)

- You can only select photos of the same recorded date and same pixels.
- You may not be able to view the created 3D photo properly if you select the photos for L and R oppositely.

4 Create the 3D photo

- If your selected photos are not suitable for the 3D photo, the error message will be displayed and will return to the photo selection screen.
- To save the 3D photo in the SD Card

After finishing saving the photo, the photo selection screen will be displayed (step 3). Select photos again to create another 3D photo or exit from [Multi Shot 3D] mode.

To enjoy the saved 3D photos

You can enjoy viewing the saved 3D photos.

(Thumbnail)

- Single view ➞ (p. 60)
- Slideshow ➞ (p. 60)
**Change the contents**

You can switch to the other mode of Media Player from the thumbnail view.

1. **While the thumbnail is displayed, display the contents selection**

2. **Select the contents**

   ![Thumbnail View](image)

Using Network Services

DLNA®

This TV is a DLNA Certified™ product.

DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos, videos and music stored in a DLNA Certified media server (for example, PC with windows 7 installed (with suitable CODEC pack plug-in), DIGA Recorder etc.) connected to your home network, and enjoy them on the TV.

Supported file format ⇒ (p. 90 - 92)

Media server

Ensure the connected equipment is a DLNA Certified media server.

To use a PC, install the server software on the PC for obtaining a media server.

Store photos, videos or music into the media server, and then you can watch them on the TV.

“T wonkyMedia server 6” and “Windows 7” are the server software that has been tested for the performance with this TV (current as of January, 2011).

For installing, read the manual of the server software.

• The DLNA control function of Windows 7 is not supported with this TV.
• When the server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.

• For details, read the manual of the DIGA Recorder.

DLNA Remote Control

This TV supports the DLNA control function.

• To use this function, set the [Network Link Settings] (p. 71)
• “Windows 7” is the OS that has been tested for compatibility of this TV (current as of January, 2011).

For the operations, refer to the help functions of Windows 7.

Network connection

⇒ “Example 1” or “Example 2” in “Network connections” (p. 70)

Network setup

⇒ (p. 71 - 74)

DLNA operations

⇒ (p. 75 - 78)

VIERA Connect™

VIERA Connect is a gateway to the internet services unique to Panasonic and expands VIERA CAST functions greatly.

VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as photos, videos, games, etc. from VIERA Connect home screen.

• This TV has no full browser function and all features of websites may not be available.

Network connection

⇒ “Example 1” or “Example 3” in “Network connections” (p. 70)

Network setup

⇒ (p. 71 - 74)

VIERA Connect operations

⇒ (p. 17, 78)
To use only DLNA features, you can operate the features without a Broadband network environment. To use VIERA Connect features, you need a Broadband network environment.

- If you do not have any Broadband network services, please consult your retailer for assistance.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company.
- Set up and connect any equipment required for the network environment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.
- Read the manual of the network equipment, too.

**Example 1**

- Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the Broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

**Example 2**

You can connect the TV and the equipment directly to use DLNA features.

- Ensure to use a LAN cross cable for this connection.

**Example 3**

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

- If you cannot use VIERA Connect features, use Example 1 connection.

**Note**

- Depending on the ISP or telecommunications company, the required equipment and the Internet connection procedure are different. Ensure that you use network equipment that is authorised by your ISP and telecommunications company.
- You cannot make settings for the network equipment on this TV. You may be required to make settings on your computer.
- Depending on the terms and conditions of the contracts with your ISP or telecommunications company, additional fees may be charged or multiple connections to the Internet may be impossible.
- Please contact your ISP or telecommunications company if you require further assistance regarding the network equipment.
Using Network Services

Ensure the connections are completed before starting Network Setup.

"Network connections" (p. 70)

Connection Test
- Check network cable connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection.

[Connection Test]: succeeded
The test is successful and the TV is connected to the network.

[Connection Test]: failed
Check the settings and connections, and then perform this function again.
Network settings for the Wireless LAN connection

This setting is for the network connection by using a Wireless LAN Adaptor.
• Confirm the encryption key, settings and positions of your access point before starting setup.
For details, read the manual of the access point.

1 Select [Network Type] and set to [Wireless]

2 Select [Access Point Settings]

3 Select the connection type and set

4 Select [Connection Test] and access to test

Update TV’s software

Accesses the specific web site to update TV’s software and search if any software updates are available.

Note

• MAC address is a unique address that identifies hardware in the network.
(for information only)
Using DLNA® features

Ensure the preparation of the media server, network connections and network settings are completed.

“Media server” (p. 69), “Network connections” (p. 70), “Network Setup” (p. 71 - 74)

1 Display icons of the feature

<td>Displays the information of VIERA Connect</td>
</tr>
</tbody>
</table>

Note

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
- You can update the software later manually [Software Update] in the Network Setup Menu (p. 74)
- VIERA Connect home screen is subject to change without notice.
- The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- Turn the TV off, and then on again when changing or reconnecting the network connection.
- Registration is required to access certain Internet contents. Refer registration steps shown on the screen when accessing Internet contents feature.
**VIERA Link Functions**

**VIERA Link “HDAVI Control™”**

Enjoy additional HDMI interoperability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 5” function.

Connections to equipment with HDMI cable such as a DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc., allow you to interface to them automatically.

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.
- Some functions are not available depending on the equipment’s version of HDAVI Control. Please confirm the connected equipment’s version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the external equipment. About applicable Panasonic equipment, consult your local Panasonic dealer.

*1: HDMI Connection only
*2: HDMI and Audio out connections
*3: available with equipment which has “HDAVI Control 2 or later” function
*4: available with equipment which has “HDAVI Control 3 or later” function
*5: available with equipment which has “HDAVI Control 4 or later” function
*6: available with DIGA Recorder which has HDD
*7: while playing a disc
*8: except for watching a disc
*9: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

**Connection**

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera:

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function:

- To use Player theatre / Blu-ray Disc theatre:

- To use Amplifier:

- To use Amplifier with VIERA Link function:

- To use DIGA Recorder with VIERA Link function:
Note

- For a DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- For a Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1, HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable, and also connect either the optical digital audio cable or RCA cable for audio output from the TV.
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.

A recommended Panasonic’s HDMI cable part number:
- RP-CDHS15 (1.5 m)
- RP-CDHS30 (3.0 m)
- RP-CDHS50 (5.0 m)

Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Set [VIERA Link] [On] in the Setup Menu
- Set up the TV
  After connection, turn the equipment on and then switch the TV on.
  Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 23), and make sure that an image is displayed correctly.

This setup should be done each time when the following conditions occur:
- for the first time
- when adding or reconnecting equipment
- when changing setup

Features available

Channel download

Channel settings can be downloaded to the recorder.

Easy playback

Automatic input switching - When connected equipment is operated, the input mode is switched automatically.

[Power on Link]

Set Power on Link [On] in the Setup Menu to use this function
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

[Power off Link]

Set Power off Link [On] in the Setup Menu to use this function
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby. This function will work even if the TV enters Standby mode automatically by auto power standby function.

[Standby Power Save] - Reduce unnecessary power consumption in standby

Set Standby Power Save [On] in the Setup Menu to use this function
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV On / Off state to reduce the consumption.

When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimised.

When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.

This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.

This function will work when [Power off Link] is set to [On].

[Intelligent Auto Standby] - Auto standby for unnecessary equipment

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function
When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, when Speaker Selection is changed to [TV] (except for watching a disc).

If you select [On (With reminder)], the on screen message will be displayed to be noticed before working this function.

This function may not work properly depending on the connected equipment. If required, set to [Off].
Features available (Using VIERA Link Menu)

Pause Live TV

You can pause the live TV programme and resume later. Live TV programmes will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect the DIGA Recorder which has HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 79 - 80)

Access and pause the live TV programme

1 Display [VIERA Link Menu]

2 Select [Pause Live TV] and pause

The TV picture will be paused.

- The live TV programme is recorded on HDD from where it was paused
- If the paused TV picture disappears after a few minutes,
  ➤ 🔃 (the paused picture will be restored)

To operate Pause Live TV

Operations may be different depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

To return to Live TV

(stop playback of Pause Live TV / cancel pause)

1 Display [VIERA Link Menu]

2 Select [Direct TV Rec] and start recording

Recording the current programme in DIGA Recorder immediately.

- If you connect a variety of recorders including other manufacturers’ recorders at the same time, please connect DIGA Recorder to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 79 - 80)

To stop recording

Select [Stop] in [Direct TV Rec] and stop recording
[VIERA Link Control] - Operate the connected equipment with VIERA remote control

You can control some functions of the connected equipment with this TV remote control by pointing at the TV's signal receiver.

* If you cannot operate, check the settings and the equipment
  ⇒ “Summary of features”, “Connection”, “Preparations” (p. 79 - 80)
* For details of the operations for the connected equipment, read the manual of the equipment.

Access and operate the menu of the equipment

1. Display [VIERA Link Menu]
2. Select [VIERA Link Control]

3. Select the equipment you want to access

   The type of the connected equipment is displayed. Select the type of the equipment and access.

4. Operate the connected equipment

   * To display the operation guide
   * Store / set / access
   * Move the cursor / select the menu
   * Return to the previous menu
   * Move the cursor / access / adjust
   * Exit the menu

   When the key words are displayed on colour bar

   • Some operations may not be available depending on the equipment. If so, use its own remote control.

   * You can also access directly by using VIERA TOOLS ⇒ (p. 31)
   * The displayed item may vary depending on the connected equipment.
   * [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
   * [Other] means Tuner set top box.

   The menu of the accessed equipment

   (Input mode will be changed automatically)

4. Operate the connected equipment

   • To display the operation guide
   • Store / set / access
   • Move the cursor / select the menu
   • Return to the previous menu
   • Move the cursor / access / adjust
   • Exit the menu

   When the key words are displayed on colour bar

   • Some operations may not be available depending on the equipment. If so, use its own remote control.

   [Recorder1-3 / Player1-3]

   The number is given from the TV's lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as [Recorder1], and the recorder connected to HDMI3 is displayed as [Recorder2].

   Type of the connected equipment is displayed.

   You can access the menu of the equipment, but you cannot operate it. Use its own remote control to operate the equipment.
[Speaker Selection] - Speaker control

You can control the theatre speaker with this TV remote control by pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment
  ➔ “Summary of features”, “Connection”, “Preparations” (p. 79 - 80)

Access and control the speaker volume

1 Display [VIERA Link Menu]

2 Select [Speaker Selection]

3 Set to [Home Cinema] or [TV]

   [Home Cinema]
   Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

   - Volume up / down

   - Mute
     - The sound of TV speakers is mute.
     - When the equipment is turned off, TV speakers will be active.

   [TV]
   TV speakers are active.

Multi-channel sound

- If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 79), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV’s HDMI2 terminal.

  To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 79).

Note

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when the Input mode is switched.
- Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ➔ [System Information] (p. 40)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 97).

Types of connectable equipment to each terminal

*1: Recommended Connection
*2: Only for DVD Recorder
*3: Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.
*4: Use USB 2 port for connecting the USB HDD.

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker’s peripheral devices.
To play back

**External Equipment**

- RF adaptor (supplied)
- Composite adaptor (supplied)
- Optical digital audio adaptor (supplied)
- Audio adaptor (supplied)
- COMPONENT adaptor (supplied)

Rear of the TV

To watch DVDs

- Fully wired HDMI compliant cable
- HDMI connection (p. 79, 88)

DVD Player

To listen with Home Theatre

- RCA cable
- Optical digital audio cable
- Amplifier with speaker system

*2: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

Recorder / Player

HDMI equipment

- Fully wired HDMI compliant cable

*1: Only for DVD Recorder

*2: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.
External Equipment

USB devices
- USB cable
- Camcorder etc.

Camcorder / HDMI equipment
- Fully wired HDMI compliant cable
- Camcorder etc.

Headphones
- Less than 10 cm
- Ferrite core - Small size (supplied)

Installing the Ferrite core
1. Pull back the tab
2. Wind the cable twice
3. Press the cable through and close

To adjust volume
- [Headphone Volume] in the Sound Menu (p. 36)

Camcorder / Game equipment
- Camcorder etc.

<td>I ←→ II</td>
<td>☑ ←→ ▼</td>
</tr>
</tbody>
</table>

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the Sound Selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.
HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. About connections, see “External Equipment” (p. 84 - 86).

Applicable HDMI features

- Input audio signal: 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
  => “Input signal that can be displayed” (p. 89)
  Match the output setting of the digital equipment.
- Input PC signal:  => “Input signal that can be displayed” (p. 89)
  Match the output setting of the PC.
- VIERA Link (HDAVI Control 5):  => [VIERA Link] (p. 79)
- Audio Return Channel*2 (HDMI2 terminal only)

DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3. When the DVI to HDMI adaptor cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2 / 3 / 4: use AV2 audio terminals).

If the picture position is not fit to the screen during the DVI connection, adjust the position on [DVI Position Settings] in the Setup Menu (p. 38). The settings are memorised for each HDMI terminals and input signals.

Note

- Audio settings can be made on the [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 37)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to [16:9].
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of “COMPONENT” or “VIDEO” to receive analogue signals.
- This TV incorporates HDMI™ technology.
*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to be able to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Note

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see p. 89.
- Max. display resolution

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
Devices for recording or playing back

SD Card for recording the digital TV programmes with this TV and playing back in media player
Card format: SDXC Card - exFAT
SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)

- For recording to SD Card, we recommend to use SDHC card (CLASS 10 or more) or SDXC card.
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
- Do not remove the card while the TV is accessing data (this can damage the card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

USB Flash Memory (for playing back in Media Player)
Format: FAT16, FAT32 or exFAT

USB HDD (for recording the digital TV programmes with this TV and playing back in Media Player)
The capacity of USB HDD that have been tested for the performance with this TV: From 160 GB to 3 TB
- Connect the USB HDD to the socket outlet to record and play back properly with this TV.
- Format the USB HDD with this TV in order to use it. (p. 53)
- Regarding the performance, not all USB HDDs are guaranteed. Check the USB HDDs that have been tested for the performance with this TV at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

Technical Information

DivX

DivX Certified® to play DivX® and DivX Plus™ HD (H.264/MKV) video up to 1080p HD including premium content.

ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, Inc. This is an official DivX Certified® device that plays DivX video. Visit www.divx.com for more information and software tools to convert your files into DivX video.

Subtitle text file of DivX
Subtitles format - MicroDVD, SubRip, TMPlayer
• The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
• If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: ".srt", ".sub", ".txt".
• To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
• Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note
• Depending on how you make SD Card or USB Flash Memory, files and folders may not be displayed in the order you numbered.
• Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
• When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in your device setup menu. Go to vod.divx.com for more information on how to complete your registration.

To show DivX VOD registration code
⇒ [DivX® VOD] in the Setup Menu (p. 40)
• If you want to generate the new registration code, you have to deregister the present registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the present registration code.

You will obtain the new registration code by pressing the OK button on the deregistration code screen.
• If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
• When playing this content, the number of remaining plays is reduced by one in the following conditions:
  • If you exit the current application.
  • If you play the other content.
  • If you go to the next or previous content.

USB connection

• It is recommended to connect the USB Flash Memory directly to the TV’s USB ports.
• Some USB devices or USB HUB may not be used with this TV.
• You cannot connect any devices by using USB card reader.
• You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.

(Note)
• Additional information for USB devices may be on the following web site. (English only)
http://panasonic.jp/support/global/cs/tv/

USB Keyboard

• A USB Keyboard which requires a driver is not supported.
• Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
• Some of the keys of USB keyboards correspond to the operation of the remote control.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in “AV mode”?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check the Picture Menu (p. 33 - 35) and volume.
- Check all required cables and connections are firmly in place.

An error message appears

- Follow the message’s instructions.
- If the problem persists, contact your local Panasonic dealer.

“VIERA Link” function does not work and an error message appears

- Confirm the connection. (p. 79)
- Turn the connected equipment on and then switch the TV on. (p. 80)

Contrast is reduced

- Contrast is lowered in the following conditions without any user operation for a few minutes:
  - no signal in Digital TV mode or AV mode
  - selected locked channel
  - selected invalid channel
  - selected radio channel
  - displayed menu
  - Thumbnail or still picture

Pixel Statement

- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture. Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/subpixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.

### Problem Actions

<table>
<thead>
<tr>
<th>Problem</th>
<th>Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | - Change the setting of [P-NR] in the Picture Menu (to remove noise). [p. 34]  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | - Is [Colour] or [Contrast] in the Picture Menu set to the minimum? [p. 33] |
| Blurry or distorted image (no sound or low volume) | - Reset channels [p. 43 - 44] |
| Unusual image is displayed | - Turn the TV Off with Mains power On / Off switch, then turn it On again. |
| [Shop] appears on screen at switch on | - [Shop] was selected in [Auto Tuning] (p. 13)  
Reset settings in [Shipping Condition] (p. 50), then select [Home] in [Auto Tuning] (p. 13) |
| No sound is produced | - Is “Sound Mute” active? [p. 12]  
- Is the volume set to the minimum? |
| Sound level is low or sound is distorted | - Sound signal reception may be deteriorated.  
- Set [MPX] in the Sound Menu to [Mono] [p. 36] |
<p>| Unusual sound from the TV | - When power is on, whirring sound of cooling fan or drive noise may be heard from inside the TV (not a sign of faulty operation). |</p>
<table>
<thead>
<tr>
<th>Problem</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>HDMI</strong></td>
<td></td>
</tr>
</tbody>
</table>
| Sound is unusual | • Set the sound setting of the connected equipment to “2ch L.PCM”.  
• Check the [HDMI 1 / 2 / 3 / 4 Input] setting in the Sound Menu.  
  \(\Rightarrow\) (p. 37)  
• If digital sound connection has a problem, select analogue sound connection.  
  \(\Rightarrow\) (p. 88) |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | • Check the HDMI cable is connected properly.  
  \(\Rightarrow\) (p. 79, 84 - 86)  
• Turn the TV and equipment Off, then turn them On again.  
• Check an input signal from the equipment.  
  \(\Rightarrow\) (p. 89)  
• Use equipment compliant with EIA/CEA-861/861D. |
| **Network** | | |
| Cannot connect to the network | • Check the LAN cable or Wireless LAN Adaptor is connected properly.  
  \(\Rightarrow\) (p. 70)  
• Check the connections and settings.  
  \(\Rightarrow\) (p. 70 - 74)  
• Check the network equipment and network environment.  
• If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | • Is the media server prepared?  
  \(\Rightarrow\) (p. 69)  
• Check applicable data format.  
  \(\Rightarrow\) (p. 90 - 92) |
| Cannot operate VIERA Connect | • Check the connections and settings.  
  \(\Rightarrow\) (p. 70 - 74)  
• The server or connected line might be busy now. |

Note: Digital TV reception is only as good as the antenna and the antenna cabling delivering the DTV signals to the television. Reliable digital TV reception requires high quality, robust DTV signals which can only be achieved when using a TV antenna and cabling designed for digital TV reception.  
*For your safety, the antenna and cabling should be inspected / installed by a licensed installer that should comply with Australian Standard AS1417.1 for Domestic installations or AS1367 for MATV installations.  

| **Digital TV** | | |
| Connecting devices such as DTV recorder / PVR / VCR etc that also require an antenna connection to the digital television | • To maintain optimum antenna signal quality, use an ‘F’ type TV signal splitter (as illustrated) when connecting two or more devices to the same antenna socket. |
| | • Hint: Some degradation of the DTV signal may occur if you are connecting the aerial through an external device (e.g. DVD Recorder or Set Top Box). In this case it is better to use a splitter and connect the aerial directly to both devices. |
| After digital TV tuning, (or re-tuning) some or all DTV channels are missing | • Check to ensure your area is covered by DTV transmissions.  
• Check that the aerial and antenna cable are designed for DTV reception.  
If you live within 5-10 km of DTV transmission towers, a combined VHF / UHF Digital TV aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance.  
• If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DTV reception. Please consult your body corporate. |
| Picture infrequently pixelates on some or all channels | • Electrical interference caused by local or distant lighting storms, heavy rain, high wind etc. may cause picture to break up and or audio to mute / distort momentarily.  
• Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a “noisy” ignition system.  
• Older style antenna cabling, loose fitting/corroded wall socket connections / terminals etc. |
<table>
<thead>
<tr>
<th>Problem</th>
<th>Actions</th>
</tr>
</thead>
</table>
| **Digital TV**  
Picture regularly pixelates on some channels, or 'No Signal' message | • Check [Signal Condition] via TV Setup menu. If [Signal Quality] or [Signal Strength] is red/orange or constantly changing, check aerial/cable/connections. If problem persists, consult your local TV antenna installer.  
• Too much signal; is [Signal Strength] always at full strength? If yes, try attenuating (reducing) the signal strength.  
• Check that the aerial and antenna cable are designed for DTV reception.  
• The received signal may be too weak to allow the TV to reliably lock to the selected channel to generate a viewable picture. If problem persists, consult your local TV aerial installer.  
• Interference from household appliances (known as impulse noise) such as light switches, fridges etc. may cause picture break up and/or audio distortion. Use high quality quad shielded coaxial cable (RG6Q) fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists, consult your local TV aerial installer.  
• Antenna installation may be using an aerial amplifier that is faulty or an older style aerial amplifier that was not designed for digital TV.  
• Older style antenna cabling, loose fitting/corroded wall socket connections/terminals etc. |
| **3D**  
Cannot see 3D images | • Has the 3D Eyewear been switched On?  
• Ensure that [3D Mode Selection] is set to [3D]. (p. 29)  
• Some 3D image signals may not be automatically recognized as 3D images. Set [3D Mode Selection (Manual)] to match the picture format. (p. 29)  
• Check that there are no obstacles between the infrared sensors on the TV and the 3D Eyewear. If the 3D Eyewear stops receiving the infrared signal for about 5 minutes, the 3D Eyewear will be turned off automatically.  
• Check the available area to use the 3D Eyewear. (p. 28)  
• Depending on the person, the 3D images may be difficult to see, or cannot be seen, especially in users that have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use. |
| **3D Eyewear is turned off automatically** | • Check that there are no obstacles between the infrared sensors on the TV and the 3D Eyewear or that the 3D Eyewear is placed inside the coverage area (p. 28). If the 3D Eyewear stops receiving the infrared signal for about 5 minutes, the 3D Eyewear will be turned off automatically. |
| **Other**  
The TV goes into Standby mode | • Auto power standby function is activated.  
• The TV enters Standby mode about 30 minutes after analogue broadcasting ends. |
| The remote control does not work or is intermittent | • Are the batteries installed correctly? (p. 6)  
• Has the TV been switched On?  
• Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV).  
• Situate the TV away from sunshine or other sources of bright light not to shine on the TV’s remote control signal receiver. |
| Parts of the TV become hot | • Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises will not pose any problems in terms of performance or quality. |

* Transfer rates are theoretical values; however, actual communication rate will vary according to communication environment or connected equipment.

### Maintenance

**First, remove the mains plug from the socket outlet.**

### Display panel, Cabinet, Pedestal

**For regular care:**
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

**For stubborn dirt:**
Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

**Caution**
- Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

### Mains plug
Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.
Panasonic Warranty

1. The product is warranted for 12 months from the date of purchase. Subject to the conditions of this warranty Panasonic or its Authorised Service Centre will perform necessary service on the product without charge for parts or labour, if in the opinion of Panasonic, the product is found to be faulty within the warranty period.

2. This warranty only applies to Panasonic products purchased in Australia and sold by Panasonic Australia or its Authorised Distributors or Dealers and only where the products are used and serviced within Australia or its territories. Warranty cover only applies to service carried out by a Panasonic Authorised Service Centre and only if valid proof of purchase is presented when warranty service is requested.

3. This warranty only applies if the product has been installed and used in accordance with the manufacturer’s recommendations (as noted in the operating instructions) under normal use and reasonable care (in the opinion of Panasonic). The warranty covers normal domestic use only and does not cover damage, malfunction or failure resulting from use of incorrect voltages, incorrect installation, accident, misuse, neglect, build-up of dirt or dust, abuse, maladjustment of customer controls, mains supply problems, thunderstorm activity, infestation by insects or vermin, tampering or repair by unauthorised persons (including unauthorised alterations), introduction of sand, humidity or liquids, commercial use such as hotel, office, restaurant, or other business or rental use of the product, exposure to abnormally corrosive conditions or any foreign object or matter having entered the product.

4. This warranty does not cover the following items unless the fault or defect existed at the time of purchase:
   (a) Cabinet Part(s)
   (b) Video or Audio Tapes
   (c) SD cards or USB devices
   (d) User replaceable Batteries
   (e) DVD, Blu-ray, or Recordable Discs
   (f) Video / Audio Heads from wear and tear in normal use
   (g) Information stored on Hard Disk Drive, USB stick or SD card
   (h) DTV reception issues caused by TV Aerial / Cabling / Wall socket(s)

5. Some products may be supplied with Ethernet connection hardware. The warranty is limited on such products and will not cover:
   (a) Internet and or DLNA connection / setup related problems
   (b) Access fees and or charges incurred for internet connection
   (c) The use of incompatible software or software not specifically stipulated in the product operations manual; and
   (d) Any indirect or consequential costs associated with the incorrect use or misuse of the hardware, its connection to the internet or any other device.

6. To claim warranty service, when required, you should:
   • Telephone Panasonic's Customer Care Centre on 132600 or visit our website referred to below and use the Service Centre Locator for the name/address of the nearest Authorised Service Centre.
   • Send or take the product to a Panasonic Authorised Service Centre together with your proof of purchase receipt as a proof of purchase date. Please note that freight and insurance to and / or from your nearest Authorised Service Centre must be arranged by you.
   • Note that home or pick-up/delivery service is available for the following products in the major metropolitan areas of Australia or the normal operating areas of the nearest Authorised Service Centres:
     - Plasma/LCD televisions / displays (screen size greater than 103 cm)

7. The warranties hereby conferred do not extend to, and exclude, any costs associated with the installation, de-installation or re-installation of a product, including costs related to the mounting, de-mounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

Panasonic Authorised Service Centres are located in major metropolitan areas and most regional centres of Australia, however, coverage will vary dependant on product. For advice on exact Authorised Service Centre locations for your product, please telephone our Customer Care Centre on 132600 or visit our website and use the Service Centre Locator.

In addition to your rights under this warranty, Panasonic products come with consumer guarantees that cannot be excluded under the Australian Consumer Law. If there is a major failure with the product, you can reject the product and elect to have a refund or to have the product replaced or if you wish you may elect to keep the goods and be compensated for the drop in value of the goods. You are also entitled to have the product repaired or replaced if the product fails to be of acceptable quality and the failure does not amount to a major failure.

If there is a major failure in regard to the product which cannot be remedied then you must notify us within a reasonable period by contacting Panasonic Customer Care Centre. If the failure in the product is not a major failure then Panasonic may choose to repair or replace the product and will do so in a reasonable period of time from receiving notice from you.

THIS WARRANTY CARD AND THE PURCHASE DOCKET (OR SIMILAR PROOF OF PURCHASE) SHOULD BE RETAINED BY THE CUSTOMER AT ALL TIMES

If you require assistance regarding warranty conditions or any other enquiries, please visit the Panasonic Australia website www.panasonic.com.au or contact by phone on 132 600
If phoning in, please ensure you have your operating instructions available.
