HDMI, the HDMI Logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

Macintosh is a trademark of Apple Inc.

Windows is a registered trademark of Microsoft Corporation in the United States and other countries.

VGA is a trademark of International Business Machines Corporation.

S-VGA is a registered trademark of the Video Electronics Standard Association.
Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we
disclaim any liability or damage arising from operation and/or
performance from usage of such other maker's peripheral
devices.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a
consumer to (i) encode video in compliance with the AVC Standard (“AVC Video”) and/or (ii) decode AVC Video that
was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video
provider licensed to provide AVC Video. No license is granted or shall be implied for any other use.
Additional information may be obtained from MPEG LA, LLC. See http://www.mpegla.com.

Do not display any still part of the image for a long period
In such cases the still part of the image remains dimly on the
plasma screen (“image retention”). This is not considered a
malfunction and is not covered by the warranty.

Typical still image parts:
• Channel number, channel logo and other logos
• Still or moving pictures viewed in 4:3 or 14:9 aspect ratio
• Video games
• Images from PC
To avoid image retention, the contrast is lowered automatically and the screen becomes dim after a few
minutes if no signals are sent or no operations are performed. (p. 80)
# Safety Precautions

## Warning

### Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.
  - An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earthing connection.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
  - Do not use a damaged mains plug or socket outlet.

### Power source / Installation
- AC 220-240 V 50 / 60 Hz
- This TV is designed for:
  - AC 220-240 V, 50 / 60 Hz
  - Indoor use

### Do not remove covers and NEVER modify the TV yourself
- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

### Do not expose to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat.

### Do not expose to rain or excessive moisture
- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

### Do not insert foreign objects into the TV
- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

### Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base
- The TV may fall off or tip over.

### Use only the dedicated pedestals / mounting equipment
- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 7) / wall-hanging brackets (p. 7).

### Do not allow children to handle SD Card
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Important Installation Notices

Install the TV on a stable surface
If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
● Using cabinets or stands recommended by the manufacturer of the television.
● Only using furniture that can safely support the television.
● Ensuring the television is not overhanging the edge of the supporting furniture.
● Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
● Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
● Educating children about the dangers of climbing on furniture to reach the television or its controls.

When cleaning the TV, remove the mains plug
● Cleaning an energised TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug
● This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Transport only in upright position
● Transporting the TV with its display panel facing upward or downward may cause damage to the internal circuitry.

Allow sufficient space around the TV for radiated heat

Minimum distance

![Diagram of space requirements](image)

- When using the pedestal, keep the space between the bottom of the TV and the surface where the TV is set.
- In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents
● Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not expose your ears to excessive volume from the headphones
● Irreversible damage can be caused.

Do not apply strong force or impact to the display panel
● This may cause damage resulting in injury.

The TV is heavy. Handle the TV with 2 or more people. Support as shown to avoid injury by the TV tipping or falling.
## Accessories / Options

### Standard accessories

Use the Ferrite cores to comply with the EMC standard.

Operating Instructions with Warranty statement => (p. 8)

- The shape of accessories may differ from the actual.
- Accessories may not be placed all together. Take care not to throw them away unintentionally.
- This product contains possibly dangerous parts (such as plastic bags), that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

### Optional accessories

Please contact your local Panasonic dealer to purchase the recommended optional accessories. For additional details, please read the manual of the optional accessories.

**Wireless Adaptor for VIERA**

- TY-WL20A

  **Caution**
  - To use the Wireless LAN Adaptor, an access point needs to be obtained.
  - Depending on the area, this optional accessory may not be available.
  - Additional information for Wireless LAN Adaptor and access point may be on the following website.
  
  http://panasonic.jp/support/global/cs/tv/
Wall-hanging bracket

- TY-WK4P1RW
- Tilting angle for this TV:
  - 0 (vertical) to 10 degrees **U50 series**
  - 0 (vertical) to 15 degrees **X50 series**

![Wall-hanging bracket diagram]

Rear of the TV

- Depth of screw: minimum 17 mm, maximum 35 mm
- Type of screw: M8
- Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

(View from the side)

Holes for wall-hanging bracket installation

**Warning**

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit's performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

**Installing / removing remote’s batteries**

1. Pull open
2. Close

**Caution**

- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries.
- Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Do not disassemble or modify the remote control.

**Attaching the pedestal**

**Warning**

- Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

**Caution**

- Do not use any pedestal other than the one provided with this TV.
- Otherwise the TV may fall over and become damaged, and personal injury may result.
- Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.

During set-up, make sure that all screws are securely tightened.
- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.
## Assembling the pedestal

Use the assembly screws A to fasten the poles C to the base D securely.
- Make sure that the screws A are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.
- “L” or “R” mark is stamped on the bottom of the pole.

## Securing the TV

Use the assembly screws B to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

---

### Preventing the TV from falling over

This TV could fall over if it is pushed, pulled or knocked down. We therefore recommend the TV is secured to the furniture as illustrated.

- This measure is designed to reduce the risk of injury from a falling TV. However, it cannot guarantee protection in all cases.

---

### Band

Fix pedestal and furniture together with band.

- This image is for illustrative purposes only.
Identifying Controls

Remote Control

1 Standby On / Off switch
   • Switches TV on or off standby.
2 [Media Player] (p. 46)
   • Switches to SD Card and USB device viewing / listening mode.
3 Sound Selection
   • Changes the sound track in Digital TV (if available).
   • Changes multiplex sound mode in Analogue TV (if available). (p. 73)
4 [Main Menu] (p. 30)
   • Press to access Picture, Sound and Setup Menus.
5 Information (p. 20)
   • Displays channel and programme information.
6 VIERA TOOLS (p. 29)
   • Displays some special feature icons and accesses easily.

7 [VIERA Link Menu] (p. 64)
   • Accesses VIERA Link Menu
8 OK
   • Confirms selections and choices.
   • Press after selecting channel positions to quickly change channel.
   • Displays the Channel List.
9 [Option Menu] (p. 21)
   • Easy optional setting for viewing, sound, etc.
10 Teletext
   • This button is not used for this model. (U50A series)
   • Switches to teletext mode.
      (U50Z series) / (X50Z series) (p. 26)
11 Subtitles (p. 20)
   • Displays subtitles.
12 Numeric buttons
   • Changes channel. (U50A series)
   • Changes channel and teletext pages.
      (U50Z series) / (X50Z series)
   • Sets characters.
   • When in Standby mode, switches TV on.
13 Sound Mute
   • Switches sound mute on or off.
14 Volume Up / Down
15 Input mode selection
   • TV - switches Digital TV / Analogue TV mode. (p. 19)
   • AV - switches to AV input mode from Input Selection list. (p. 28)
16 Aspect (p. 21)
   • Changes aspect ratio.
17 [Surround] (p. 33)
   • Switches surround sound setting.
18 Exit
   • Returns to the normal viewing screen.
19 TV Guide (U50A series) (p. 23)
   • Freeview Guide (U50Z series) / (X50Z series) (p. 25)
20 Cursor buttons
   • Makes selections and adjustments.
21 Return
   • Returns to the previous menu / page.
22 Coloured buttons
   • Used for the selection, navigation and operation of various functions.
23 Hold
   • Freeze / unfreeze picture. (p. 20)
   • Holds the current teletext page (teletext mode).
      (U50Z series) / (X50Z series) (p. 26)
24 Index (p. 26)
   • This button is not used for this model. (U50A series)
   • Returns to the teletext index page (teletext mode).
      (U50Z series) / (X50Z series)
25 Last view (p. 22)
   • Switches to previously viewed channel or input modes.
26 Channel Up / Down
1 Function select
  *[Music] or [Speech] mode in the Sound Menu

2 Channel Up / Down, Value change (when using the F button), Switching the TV on

3 Changes the input mode

4 Mains power On / Off switch
- Use to switch the mains power.
  If you turned the TV off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV on with Mains power On / Off switch.
- When pressing the control panel button (1 - 4), the control panel guide appears on the left side of the screen for 3 seconds to highlight the pressed button.

5 Remote control signal receiver
- Do not place any objects between the TV remote control signal receiver and remote control.

6 C.A.T.S. (Contrast Automatic Tracking System) sensor
- Senses brightness to adjust picture quality when [Eco Mode] in the Picture Menu is set to [On].
  ⇒ (p. 31)

7 Power LED
- Red: Standby
- Green: On
- The LED blinks when the TV receives a command from the remote control.
Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

■ Operation guide
Operation guide will help you to operate by using the remote control.

Example: [Sound Menu]

<table>
<thead>

<td>Off</td>
</tr>
<tr>
<td>Volume Correction</td>
<td>Off</td>
</tr>
</tbody>
</table>

■ How to use remote control

- MENU: Open the main menu
- Move the cursor / select the menu item (up and down only) / adjust levels (left and right only) / select from a range of options (left and right only)
- Access the menu / store settings after adjustments have been made or options have been set
- RETURN: Return to the previous menu
- EXIT: Exit the menu system and return to the normal viewing screen

Auto power standby function

The TV will automatically go into Standby mode in the following conditions:
- No signal is received and no operation is performed for 30 minutes in Analogue TV.
- [Off Timer] is active in the Setup Menu. (p. 21)
- No operation is performed for the period selected in [Auto Standby] (p. 36).
Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.
When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.

Terminals

1 USB (p. 15, 45, 54, 69, 71)
2 SD Card slot (p. 45)
3 Headphone jack (p. 69, 71)
4 HDMI1 - 2 (p. 14, 68, 70)
5 PC (p. 69, 71)
6 AUDIO OUT (p. 68, 70)

8 ETHERNET (p. 15, 54)
9 DIGITAL AUDIO OUT (p. 68, 70)
10 AV1 IN (p. 68, 70)
11 AV2 IN (p. 68 - 71)
Connections

Mains lead and aerial

**Mains lead**

- Push until both side tabs click
- Make sure that the mains lead is securely fixed
- To remove from the TV:
  - Press both tabs and pull on mains connector to release

**Ferrite core**

**Installing the Ferrite core**

1. Pull back the tabs (in two places)
2. Wind the cable
3. Close

- If it is difficult to wind your cable, set the cable through as shown.
- Take care of the Ferrite core not to move.

**Note**

- Keep RF (antenna) cable away from the mains lead to avoid and minimise mains interference pickup.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable (75 Ω coaxial), and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
AV devices

- **Player**
  - TV
  - HDMI cable
  - Player

- **DVD Recorder / VCR**
  - TV
  - RF cable
  - Aerial
  - DVD Recorder / VCR
  - RF cable

- **Set top box**
  - TV
  - HDMI cable
  - Satellite dish
  - Set top box

**Note**
- Check the type of terminals and cable plugs are correct when connecting.
- VIERA Link connection  
  - (p. 61, 62)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- When using a HDMI cable, use the fully wired one.
### Network

#### Wired connection

**LAN cable (Unshielded)**
- Use the Unshielded Twist Pair (UTP) LAN cable.

**Ferrite core - Large size (supplied)**
- Pull back the tabs (in two places)
- Wind the cable twice
- Close

**“Using Network Services (DLNA)”**
(p. 53)

#### Wireless connection

**Wireless LAN Adaptor**
- Connect to the USB port.

**Access point**
- “Using Network Services (DLNA)”
(p. 53)
Auto Tuning

Search and store TV channels automatically.

- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 12 - 15) and settings (if necessary) of the connected equipment before starting Auto Tuning. For details of settings for the connected equipment, read the manual of the equipment.

1. Plug the TV into mains socket and switch on
   (p. 10, 13)
   - Takes a few seconds to be displayed.
   - If the red LED shows on the TV, press the Standby On / Off switch on the remote control.

2. Select your area (J50A series)

<table>

5. Setup the wireless LAN connection

   Setup the network connection to use DLNA features. (p. 53)
   - To setup the wireless connection, the Wireless LAN Adaptor (optional accessory) is required. Please note that this TV does not support wireless public access points.
   - Ensure the network connections (p. 15) and network environment are completed before starting setup.

   - To setup later on or skip this step
     ⇒ Select [No]
Select the connection type

Please select network connection type.

Connection Type
- WPS(Push button)
- Search for access point

[WPS(Push button)]
1. Press the WPS button on the access point until the light flashes
2. Connect the Wireless LAN Adaptor and the access point

- Ensure that your access point supports WPS for this setup.
- WPS: Wi-Fi Protected Setup™
- If the connection has failed, check the settings and positions of your access point. And then, follow the on-screen instructions.

3. After the access point setting is finished, perform the connection test

- Check access point connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.

4. Go to the next step

[Search for access point]
Access points found automatically are listed.

1. Select your desired access point

- To search access points again

2. Access the encryption key input mode

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

3. Enter the encryption key of the access point

- You can set characters by using numeric buttons. (p. 78)
4. Select [Yes]

Access Point Settings
Encryption key is set to: X X X X X X X X
Select ‘Yes’ to confirm.
Select ‘No’ to change.

5. After the access point setting is finished, perform the connection test

Connection Test
- Check access point connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.

6. Go to the next step

(Press twice)

7. Select [Home]

Select [Home] viewing environment to use in your home environment.

Please select your viewing environment.

Home Shop

Select [Home] viewing environment to use in your home environment.

- [Shop] viewing environment (for shop display only)
  [Shop] viewing environment is the demonstration mode to explain main features of this TV.
  You can return to viewing environment selection screen at the stage of Shop confirmation screen and
  Automatic Demo Off / On selection screen.

1. Return to viewing environment selection screen

[AUDIO DESCRIPTION] (Digital TV) [US0A series]
Set to [Auto] if the programme has Audio Description service, then you will hear an additional audio track to describe events on screen
● To adjust the volume for Audio Description ➤ (p. 34)

[VIDEO SELECTION] (Digital TV) [US0Z series] / [X50Z series]
Selects the image (if available)

[AUDIO SELECTION] (Digital TV) [US0A series]
Selects between alternative language for sound tracks (if available)

[AUDIO SELECTION / AD] (Digital TV) [US0Z series] / [X50Z series]
Selects between alternative languages for sound tracks (if available)

[DUAL AUDIO] (Digital TV)
Selects stereo / monaural (if available)

[SUBTITLE LANGUAGE] (Digital TV) [US0Z series] / [X50Z series]
Selects the language in which subtitles should appear (if available)

[MPX] (Analogue TV)
Selects multiplex sound mode (if available) ➤ (p. 33)

[VOLUME CORRECTION]
Adjusts volume of individual channel or input mode

Off Timer

Turn the TV to Standby mode automatically after a fixed period

1 Display the menu

MENU

2 Select [Setup]

3 Select [Off Timer] and set the time in 15-minute increments

● To cancel, set to [Off] or turn the TV off.
● To confirm the remaining time ➤ “Display Information banner” (p. 20)
● When the remaining time is within 3 minutes, the remaining time will flash on the screen.

Aspect

Change the aspect ratio (image size)

ASPECT 
Enjoy viewing the image at its optimum size and aspect.
( Press repeatedly until you reach the desired mode.)

To change the aspect ratio manually (if available)

1 Display Aspect Selection list

2 While the list is displayed, select the mode

● You can also change the mode only using the ASPECT button.

Aspect Selection list
Watching TV

[16:9] Directly displays the image at 16:9 without distortion (anamorphic).

[14:9] Displays the image at the standard 14:9 without distortion.

[Just] Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

[4:3] Displays the image at the standard 4:3 without distortion.

[4:3 Full] Displays a 4:3 image enlarged horizontally to fit the screen.

[Zoom1] Displays a 16:9 letterbox or 4:3 image without distortion.

[Zoom2] Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

[Zoom3] Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note
- Only [16:9] and [4:3 Full] are available in Digital TV. (U50A series)
- Aspect is fixed to [16:9] in Digital TV. (U50Z series / X50Z series)
- Only [16:9] and [4:3] are available in PC input mode.
- Aspect is fixed to [16:9] when [Viewing Mode] is set to [Game] in the Picture Menu.
- Aspect cannot be changed in teletext service. (U50Z series / X50Z series)
- Aspect mode can be memorised separately for SD (Standard definition) and HD (High definition) signals except in Digital TV.

Last view
Switch to previously viewed channel or input mode easily
- Press again to return to the current view.

Note
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.

Standard Time / Summer Time (U50A series)

Region Select - Adjust the standard time
Select the region where you live to adjust the standard time.
- The time contained in the broadcast signal is UTC (Universal Time coordinated) formally known as GMT (Greenwich Mean Time).

Daylight Saving Time - Adjust for Summer Time
Select time offset from the standard time for Summer Time.
- Normally select [Auto].
- If there is a gap between displayed time and actual time, set this function.

<table>

- These items can be set from [Other Settings] in the Setup Menu. (p. 36) (Based on GMT)
Using TV Guide

TV Guide - Electronic Programme Guide (EPG) provides an on-screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

- Digital TV and Analogue TV channels are displayed on the same TV Guide screen. [D] means Digital TV channel and [A] means Analogue TV channel. There will be no programme listings for Analogue channels.
- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

**Select the mode**

1. Press the TV button.

**View TV Guide**

- Press again to change the layout ([Landscape] / [Portrait]).
- View [Landscape] to see several channels.
- View [Portrait] to see one channel by time.

**Example: [Landscape]**

Using the Freeview Guide (Digital TV)

Using the Freeview Guide enables you to select a programme easily, view programme information, etc. The Freeview Guide - Electronic Programme Guide (EPG) provides an on screen listing of the programmes currently broadcast and the future broadcasts over the next seven days (depending on the broadcasters).

**View the Freeview Guide**
Each time pressed, the screen will be switched between the Freeview Guide Listing and What’s on Now/Next.

*Example: Freeview Guide Listing*

- **Current day & date**
- **Programme currently viewed**
- **Current channel’s programme listing**
- **Parental rating & captioning information**
- **Description**

*Example: What’s on Now/Next*

- **Current time & date**
- **Channel listing**

---

**Note**

- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before the Freeview Guide is completely shown.
- The Freeview Guide screen and operations are subject to change without notice.
Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. "Store frequently viewed pages" (p. 27)

To change mode ⇒ [Teletext] (p. 35)

Switch to Teletext

- Displays the index page (content varies depending on the broadcasters).

Select the page

- To adjust contrast

Reveal hidden data

- Reveal hidden words e.g. quiz page answers

INDEX

- Return to the main index page

Call up a favourite page

- View a favourite page stored

Stop automatic updating

- (If you wish to hold the current page without updating)

Press again to resume.
FULL / TOP / BOTTOM

MENU ➔ G

View in multi window

Watch TV and Teletext in two windows at once

MENU ➔ Select Picture and text on or off

(Press twice)

Operations can be made only in teletext screen.

Store frequently viewed pages

Store frequently viewed pages in the colour bar (List mode only)

As page is displayed

(Corresponding coloured button)

press and hold

The number changes to white.

To change stored pages

Coloured button you want to change ➔ Enter new page number ➔ press and hold

View sub page

View sub page (Only when Teletext is more than one page)

Appears at top of the screen

The number of sub pages varies depending on the broadcasters.

It may take some time for searching, during which time you can watch TV.

To view specific sub page

Enter the 4-digit number

Example: P6

Watch TV while waiting for update

View the TV picture while searching for a teletext page

Teletext automatically updates itself when new information becomes available.

Changes to TV screen temporarily

Appears when updating is completed

(You cannot change the channel.)

The news page provides a function that indicates arrival of the latest news (“News Flash”).
Watching External Inputs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch through the input.

To connect the equipment  (p. 12 - 15, 68 - 72)

1 Turn the TV on

   - Turn the TV on

   - If input mode is not switched automatically
     - Perform 2 and 3
     - Check the setup of the equipment.

2 Display the input selection menu

   - Display the input selection menu

3 Select the input mode connected to the equipment

   - Select the input mode connected to the equipment

   - You can also select the input using the AV button on the remote control or the TV (except [SD Card/USB]).
     - Press the button repeatedly until the desired input is selected.
     - [SD Card/USB]: Switches to Media Player.  “Using Media Player” (p. 45)
     - You can label or skip each input mode (except [SD Card/USB]).
     - “Input Labels” (p. 35)
     - Skipped inputs will not be displayed when the AV button is pressed.

4 View

   - View

   - Displays the selected mode

Note

- If the external equipment has an aspect adjustment function, set it to [16:9].
- For details, read the manual of the equipment or ask your local dealer.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1. Display icons of the feature

2. Select a feature

■ To return to TV

Follow the operations of each feature

[VIERA Link] ➞ (p. 65 - 67)

[Music]* ➞ (p. 52)

[Photo]* ➞ (p. 47)

[Media Server]* ➞ (p. 57)

[Video]* ➞ (p. 50)

*When two or more available devices are connected, a selection screen will be displayed. Please select the correct description and access.

Note

● If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.
Various menus allow you to make settings for the picture, sound, and other functions.

1. **Display the menu**
   - Displays the functions that can be set (varies according to the input signal).

2. **Select the menu**
   - Example: [Picture Menu]

3. **Select the item**
   - Example: [Picture Menu]

   - **Choose from among alternatives**
     Number and positions of alternatives

   - **Adjust using the slide bar**

   - **Go to the next screen**
     Displays the next screen

   - **Enter characters by free input menu**
     You can enter names or numbers freely for some items.

   - You can set characters by using numeric buttons.
     ⇒ “Characters table for numeric buttons” (p. 78)

   - **To reset the settings**
     - Picture or sound settings only
       ⇒ [Reset Picture Defaults] in the Picture Menu (p. 32) or [Reset Sound Defaults] in the Sound Menu (p. 34)
     - To initialise all settings ⇒ [Shipping Condition] (p. 42)

* The settings in [Tuning Menu] are applicable only for the selected TV mode. The menu name varies depending on the TV mode. ([Digital TV Tuning Menu] / [Analogue TV Tuning Menu])

* A different menu will be displayed in the mode of PC input or Media Player (p. 44, 46 - 52).

* Only available items can be selected.
Tuning and Editing Channels

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

1. **Select the mode**
   - (p. 19)

2. **Display the menu and select [Setup]**
   - **MENU**
   - **Digital TV Tuning Menu** or **Analogue TV Tuning Menu**

3. **Select [Digital TV Tuning Menu] or [Analogue TV Tuning Menu]**

4. **Select one of the following functions**

   - **Digital TV Tuning Menu**
     - Favourites Edit
     - Channel List
     - Auto Tuning
     - Manual Tuning
     - Update Channel List
     - New Channel Message
     - Signal Condition

**List favourite Digital TV channels [Favourites Edit] (Digital TV)**

Create your favourite channel lists from various broadcasters (up to 4: [Favourites] 1 to 4).

The Digital TV Favourites lists are available from “Category” in the Information banner (p. 20) and the TV Guide screen (p. 23).

1. **Select a channel to list**
   - (Encrypted channel)
     - To display other Favourites

2. **Add it to the Favourites list**
   - A channel is added

   - To add all channels to the list
To edit Favourites list
While the cursor is in the Favourites field to edit

- To move the channel
  - Select the new position
  - Store

- To delete the channel

- To delete all channels

- To delete all channels

- To name the Favourites

- To use numeric buttons
  ⇒ (p. 78)

Note
- Channel numbers are defined by the broadcaster and cannot be changed.
- Hidden channels (see below) can be selected but not viewed.

Skip unwanted channels, Edit Channels [Channel List]

You can hide (skip) unwanted channels. The hidden channels cannot be displayed except in this function.

Select a channel and reveal / hide

Example: Digital TV

Digital TV Channel List
- 70 ABC Channel
- 72 Cartoon Nwk
- 105 ABC
- 19 ABC Radio Wales
- 720 ABC THREE
- 1 ABC ONE Wales
- 7 ABC THREE

- To reveal all channels

To edit channels

- To swap / move the channel position (if available)
  - Select the new position
  - Store

- To retune each channel ([Manual Tuning] (p. 39))

- To rename the channel (Analogue TV)

  - Set characters (maximum 5 characters)

  - To use numeric buttons
  ⇒ (p. 78)

Note
- If a VCR is connected only with the RF cable in Analogue TV, edit [VCR].
Set all channels automatically [Auto Tuning]

Automatically retune all channels received in the area.

1 Start Auto Tuning
Example: Digital TV

- All the previous tuning settings are erased.
- When the operation is completed, the channel at the lowest position will be displayed.
- Search begins in the order from the lower channels to the higher channels.
- If tuning has not been done completely ⇒ [Manual Tuning] (see below)

Digital TV Auto Tuning

All digital TV tuning data will be erased

Digital TV Auto Tuning

Search

RF Ch  Channel Name  Type  Quality

32  TV Fin land Digital TV 0
32  TV Fin land Digital TV 0

Digital TV Auto Tuning

This will take about 3 minutes.

2 Settings are made automatically
Example: Digital TV

Digital TV Auto Tuning

All digital TV tuning data will be erased.

Set Digital TV channel manually [Manual Tuning]

Normally use [Auto Tuning] or [Update Channel List] to retune Digital TV channels.

- If tuning has not been done completely or for adjusting the direction of the aerial or dish, use this function.
- All channels found will be added to the Channel List.

Digital TV Manual Tuning

Manual Channel  Channel Name  Type  New

Digital TV Manual Tuning

Digital TV: 0

Set Analogue TV channel manually [Manual Tuning]

Set Analogue TV channel manually after Auto Tuning.

- If a VCR is connected only with the RF cable, select channel position [0].

Analogue TV Manual Tuning

Manual Channel  Channel Name  Type  New

Analogue TV Manual Tuning

Manual Tuning 0

1 Select the channel position
2 Select the channel
3 Search and store

Tuning and Editing Channels
**Update Digital TV channel automatically [Update Channel List] (Digital TV)**

You can add new channels, delete removed channels, update channel name and position automatically to the channel list.

- The channel list is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
- Depending on the signal condition, the update may not work properly.

**Display a notification message [New Channel Message] (Digital TV) (U50A series)**

Selects whether to give a notification message when a new Digital TV channel is found.

- Selecting OK will perform [Update Channel List].
- Sometimes, mainly during summer months at night, the TV may pickup distant TV stations outside your broadcast due to favourable short term ionosphere conditions. In such circumstances when you press OK button, the TV does not add any new channels. This is normal.

**Check Digital TV signal [Signal Condition] (Digital TV)**

Selects a channel and checks the Digital TV signal condition.

- A good Signal Strength is not an indication of suitable signal for Digital TV reception.
- Use the Signal Quality indicator as follows.
  - Green bar: Good
  - Yellow bar: Poor
  - Red bar: Bad (Check the aerial)

**Auto Tuning using the buttons on the TV**

For Auto Tuning, using the buttons on the TV (p. 10)

1. Press the F button repeatedly until [Auto Tuning] appears
2. Access [Auto Tuning]  
3. Start [Auto Tuning]  

- To change the channel
- To return to TV
- Control panel OSD appears when pressing the control panel button.
Child Lock

You can lock specific channels / AV input terminals and control who watches them.
When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

1 Display the menu and select [Setup]

Select [Child Lock]

Control channel audience [Child Lock]

1 Enter the PIN number (4 digits)

2 Select [Child Lock List]

3 Select the channel / input to be locked

To change the PIN number

To set Parental Rating

To watch the Digital TV programme that has the rating information over the selected age, enter the PIN number to watch (depending on the broadcaster).
Select [Parental Rating] and set an age for the restriction of programmes.

Note

- Setting [Shipping Condition] (p. 42) erases the PIN number and all settings.
- If you have forgotten your changed PIN, input “6969” as the PIN number.
Shipping Condition

Resets the TV to its original condition, i.e. no channels tuned in.
All settings are reset (channels, picture, sound settings, etc.).
● To retune TV channels only, e.g. after moving house
  ➤ [Auto Tuning] in “Tuning and Editing Channels” (p. 39, 40)

1 Display the menu and select [Setup]

   MENU

   ① select

   ② access

2 Select [System Menu]

   ① select

   ② access

3 Select [Shipping Condition]

   ① select

   ② access

Restore Settings [Shipping Condition]

1 Check the message and initialise

   Shipping Condition

   All tuning data will be erased
   Are you sure ?   (Confirm)
   Are you sure ?

2 Follow the on-screen instructions

   Reset to Factory Shipping Condition
   Completed,
   TV will automatically restart.
   Do not turn off

   [Auto Tuning] will automatically start.
   (p. 16)
Updating the TV Software

A new version of software may be released for download to enhance the performance or operations of the TV. If there is an update available, a notification message is displayed when the channel has the update information.

To download

(Press the EXIT button not to download)

You can update new software automatically or update manually.

1 Display the menu and select [Setup]

2 Select [System Menu]

3 Select [System Update]

Update TV’s software system [System Update]

To update automatically
Select [Auto Update Search in Standby]

If System Update is performed, the software will be updated (it may change TV functions). If you do not want to do so, set [Auto Update Search in Standby] to [Off].

To update immediately
1 Select [System Update Search Now]

2 Searches for an update (for several minutes) and displays a corresponding message if any

Note

Download may take for about 60 minutes.
During software download and update, DO NOT switch off the TV.
The notification message might be a reminder. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is off.
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.

● To connect PC (p. 69, 71)

1 Select the external input and select [PC]

![Input Selection]

- AV
- AV1
- AV2
- PC
- HDMI1
- HDMI2
- TV
- SD Card/USB

- To connect PC

1. Select the external input
2. Access [PC]

- Corresponding signals (p. 79)
- If [H-freq.] or [V-freq.] is shown in red, the signals may not be supported.

PC menu setting

● To make settings ⇒ “How to Use Menu Functions” (p. 30)

* Other items ⇒ (p. 31 - 36)

Note

For HDMI-compatible PC, possible to connect to HDMI terminals (HDMI1 / HDMI2) by using HDMI cable (p. 77).
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory. VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode:
Still pictures recorded by digital cameras will be displayed.

Video mode:
Moving pictures recorded by digital video cameras and digital video data will be played back.

Music mode:
Digital music data will be played back.

During the operation, audio signal is output from AUDIO OUT, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 62) and set to use theatre speakers (p. 67).

[Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".

The picture may not appear correctly on this TV depending on the recording equipment used.

Display may take some time when there are many files and folders.

Partly degraded files might be displayed at a reduced resolution.

Picture setting may not work depending on the conditions.

The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

USB Flash Memory
- Ensure alignment is straight and complete when inserting or removing.
- Connect the USB Flash Memory to the USB port.
- Check the type of terminals and devices are correct when connecting.

SD Card
1. Gently insert the SD Card with the label surface facing front.
2. Push until a click is heard. To remove, push it again.

For the information of the devices ➔ “Devices for playing back” (p. 76)
For the supported file format ➔ “Supported file format in Media Player and media servers” (p. 74, 75)
Starting Media Player

1 Insert the SD Card or USB Flash Memory to the TV
   → (p. 45)
   ● When the SD Card is inserted, switching to Media Player will be done automatically.

2 Start Media Player
   SD CARD
   ● You can also start by pressing following button.
   AV → “Watching External Inputs” (p. 28)

3 Select the device to access
   Drive Select
   - (p. 45)
   ● If only one device connected, this step will be skipped.

4 Select the content
   Contents Select
   - (p. 47)
   - (p. 50)
   - (p. 52)

5 Enjoy Media Player
   Example: Thumbnail - [All photos]

   Note
   ● You can also access each mode directly by using VIERA TOOLS. → (p. 29)
   ● Select the appropriate device and content for playing back each file.

Change the device

You can change to the other device directly in the same mode if two devices are connected.

1 While the thumbnail is displayed, display the device selection

2 Select the device to access
Change the contents

You can switch to the other mode of Media Player from the thumbnail view.
• The mode can be switched in the current device.

1 While the thumbnail is displayed, display the contents selection

2 Select the contents

Photo mode

Photo mode will read all “.jpg” extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.
Example: Thumbnail - [All photos]

[Single view] - Photos are displayed one at a time.
Select the file from the thumbnail of photos to be viewed

[Slideshow] - Slideshow completes when all photos are viewed within the current thumbnail.

1 Select the file from the thumbnail of photos for the first view

2 Start Slideshow

To change the size of photos on a thumbnail screen

To display / hide the operation guide

To return to thumbnail

To display / hide the operation guide

To pause (return to Single view)

To return to thumbnail

To change the background music ⇒ “Photo Settings” (p. 48)
To sort by folder, recorded date or recorded month

1 Display the view selection in the thumbnail view

2 Select the sort type

[Folder view]:
Displays the thumbnail grouped by folder.
● The files which are not into a folder will be collected to the folder named “/”.  
[Sort by Date] / [Sort by Month]:
Displays the thumbnail grouped by the same date or month.
● The group of the photos without a recorded date is shown as [Unknown].

● To return to the thumbnail of all photos

Photo Settings

Setup the settings for Photo mode.

1 Display the option menu

2 Select [Slideshow Settings]

3 Select the items and set

Note
● Picture quality may become lower depending on the slideshow settings.
● Picture setting may not work depending on the slideshow settings.

<table>
<thead>

Operation guide
Using Network Services (DLNA)

DLNA®
This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
It allows you to share photos, videos and music stored in the DLNA Certified media server (for example, PC with Windows 7 installed, etc.) connected to your home network, and enjoy the contents on the TV screen.
- For the supported file format (p. 74, 75)
- AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 45).

■ Media server
Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server
Prepare the PC with Windows 7 or ensure the server software is installed on the PC.
“Windows 7” and “TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)” are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.
- Windows 7
  The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  “TwonkyMedia server” is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting “TwonkyMedia server”, visit the website of TwonkyMedia.
  Additional fees may be charged to obtain server software.

Note
- The DLNA control function of Windows 7 is not supported with this TV.
- For more information about the server software, please consult each software company.
- When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

Network connections ⇒ “Example 1”, “Example 2” (p. 54)
Network setup ⇒ (p. 54 - 56)
DLNA operations ⇒ (p. 57 - 60)
Using Network Services (DLNA)

To use only DLNA features, you can operate the features without broadband network environment.

- Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

### Example 1

**Wired connection**

- LAN cable (Unshielded)
- Hub or Router
- DLNA Certified media server (for example, PC, etc.)

**Wireless connection**

- Wireless LAN Adaptor
  - “Optional accessories” (p. 6)
  - Connect to the USB port.
- Access point
- DLNA Certified media server (for example, PC, etc.)

- Ensure to use a LAN straight cable for this connection.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

### Example 2

You can connect the TV and the equipment directly to use DLNA features.

- LAN cable (Unshielded)
- DLNA Certified media server (for example, PC, etc.)

- Ensure to use a LAN cross cable for this connection.

**Note**

- You cannot make settings for the network equipment on this TV. You may be required to make settings on your computer.

### Network Setup

- Ensure the connections are completed before starting Network Setup.
  - “Network connections” (see above)

1. **Display the menu and select [Setup]**
   - MENU
   - ![Main Menu](image)
   - ![Setup Menu](image)
   - ![Select Network Setup](image)

2. **Select [Network Setup]**
   - ![Select Network Setup](image)
   - ![Access Network Setup](image)
Wired connection settings

This setting is for the network connection by using the LAN cable.

1 Select [Network Type] and set to [Wired]

2 Select [IP/DNS Settings] and set the items

- [Acquire IP Address] / [Acquire DNS Address]

Sets [IP Address], [Subnet Mask], [Gateway], and [DNS Address].
Select [Acquire IP Address] / [Acquire DNS Address] and set to [Auto] (recommended).

3 Select [Connection Test] and access to test

Wireless connection settings

This setting is for the wireless network connection.
- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1 Select [Network Type] and set to [Wireless]

2 Select [Access Point Settings]
3 Select the connection type and set

<table>
<thead>
<tr>

</table>

■ [WPS(Push button)] ➞ “Auto Tuning” (p. 17)

■ [WPS(PIN)]
Enter the PIN code to the access point, and then select [Connect]

<table>
<thead>
<tr>
<th>WPS(PIN)</th>
<th>Please register the following PIN codes on the wireless access point.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PIN code : 12345678</td>
<td>Select ‘Connect’ after entering and saving the settings on the access point.</td>
</tr>
</tbody>
</table>

■ [Search for access point] ➞ “Auto Tuning” (p. 17)

■ [Manual]
You can setup SSID, authentication type, encryption type, and encryption key manually. Follow the on-screen instructions and set manually.

4 Select [Connection Test] and access to test

<table>
<thead>
<tr>
<th>Network Setup</th>
<th>Connection Test</th>
<th>Access</th>
</tr>
</thead>
</table>

Connection Test
1. Check access point connection.
2. Check acquired IP address.
3. Check for devices using same IP address.
4. Check gateway connection.

Perform automatic testing of the network connection for the TV. (It takes a while to test.)

☑ : succeeded
The test is successful and the TV is connected to the network.

☒ : failed
Check the settings and connections. And then try again.

Update TV’s software [U50Z series] / [X50Z series]
Accesses the specific website to update TV’s software and search if any software updates are available.

Select [Software Update]

<table>
<thead>
<tr>
<th>Network Setup</th>
<th>Connection Test</th>

</tbody>
</table>

Follow the on-screen instructions.

Note

[MAC Address]
- MAC address is a unique address that identifies hardware in the network. (for information only)
Using DLNA® features

Ensure the preparation of the media server, network connections and network settings are completed.  
(p. 53 - 56)

1 Display [VIERA TOOLS] and select [Media Server]

2 Select one of the media servers to access

Example: Media server list

Available media servers
Total listed number

3 Select the file

Example: File list

Note

- Non-playable files are also listed but cannot be selected.
- Turn the TV off, and then on again when changing or reconnecting the network connection.

For photo file

[Single view] - Photos are displayed one at a time.

Example:

- To display / hide the operation guide
- To operate Single view
- To the previous photo
- Slideshow
- To the next photo
- Stop
- (return to list)
- To return to list
- To rotate 90°
Using Network Services (DLNA)

[Slideshow] - Slideshow completes when all photos are viewed within the list.

1. Select the photo file from the list for the first view
2. Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to list

For video file

Playback - Playback will start.

Example: Playback

Operation guide
Information banner

- To display / hide the operation guide and information banner
- To the previous content
- To the next content
- To change aspect
- To start the playback
- [Manual skip] - Skip to a fixed period forward manually for MPEG-2 (TS format) only
- To the previous track
- To the next track
- To operate the playback
- To return to list

For music file

Playback - Playback will start.

Example: Playback

Operation guide

- To display / hide the operation guide
- To operate the playback
- To the previous track
- To the next track
- To return to list
## Option menu for each content

Setup the settings for Photo, Video and Music file operations.

1. Display the option menu

2. Select [Slideshow Settings], [Video Setup] or [Music Setup]

3. Select the items and set

Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

* To confirm or change the current sound status ⇒ (p. 51)

1 Display the menu and Select [Sound]

2 Select [SPDIF Selection] and set

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| Sound| SPDIF Selection| SPDIF: A standard audio transfer file format  
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]  
[Auto]: Dolby Digital is output as Dolby Digital Bitstream. MPEG is output as PCM.  
[PCM]: Digital output signal is fixed to PCM.  |
Link Functions (VIERA Link)

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting.

(p. 63 - 67)
- This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please read the manual of the equipment to confirm the version.
- VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of features

#### Connection

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI terminal via an HDMI cable.
- Use the optical digital audio cable, or RCA cable for audio output from the TV.

- **1**: Available with the equipment which has “HDAVI Control 2 or later” function.
- **2**: Available with the equipment which has “HDAVI Control 3 or later” function.
- **3**: Available with the equipment which has “HDAVI Control 4 or later” function.
- **4**: Available with a DIGA Recorder which has HDD.
- **5**: While playing a disc.
- **6**: Except for watching a disc.
- **7**: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

#### VIERA Link Control of compatible equipment

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV.
  For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>
<thead>
<tr>

</tbody>
</table>
"Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function."

This TV supports “HDAVI Control 5” function. These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment's version of HDAVI Control. Confirm the connected equipment's version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.
- About applicable Panasonic equipment, consult your local Panasonic dealer.

**Preparations**

- Connect the equipment supporting VIERA Link.
- VIERA Link connection ⇒ (p. 61, 62)
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  - Recommended Panasonic’s HDMI cable part number:
    - RP-CDHS15 (1.5 m)
    - RP-CDHS30 (3.0 m)
    - RP-CDHS50 (5.0 m)
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Set [VIERA Link] to [On] in the Setup Menu. ⇒ [VIERA Link] (p. 36)
- Set up the TV.

  After connection, turn the equipment on and then switch the TV on.
  Select the input mode from HDMI1 or HDMI2 (p. 28), and make sure that an image is displayed correctly.
  This setup should be done each time when the following conditions occur:
  - for the first time
  - when adding or reconnecting equipment
  - when changing setup

**Features available**

**Channel download**

Channel settings can be downloaded to the recorder.

**Easy playback**

Automatic input switching - When the connected equipment is operated, input mode is switched automatically.

**Power on link**

Set Power on Link [On] in the Setup Menu to use this function ⇒ [Power on Link] (p. 36)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

**Power off link**

Set Power off Link [On] in the Setup Menu to use this function ⇒ [Power off Link] (p. 36)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
- This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function [Standby Power Save] (p. 36)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation
with the TV On / Off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power
consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased
to make startup time fast.
- This function is effective if the connected equipment can change the power consumption in Standby mode and is set
to higher consumption.
- This function works when [Power off Link] is set to [On].

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function
[Intelligent Auto Standby] (p. 36)
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce
the power consumption. For example, when the input mode is switched from HDMI or when Speaker Selection is
changed to [TV] (except for watching a disc).
- If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to
standby.
- This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Records the current programme in the DIGA Recorder immediately.
- If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA
Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders,
connect the DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment.
  “Summary of features” (p. 61, 62), “Preparations” (p. 63)

1 Display [VIERA Link Menu]
- You can also access directly by using VIERA TOOLS [How to Use VIERA TOOLS” (p. 29)

2 Select [Direct TV Rec] and start recording

Select [Stop] in [Direct TV Rec]
Pause Live TV programme [Pause Live TV]

You can pause the current TV programme and resume later. The current TV programme will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time, connect the DIGA Recorder which has an HDD to the TV’s lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment.

⇒ “Summary of features” (p. 61, 62), “Preparations” (p. 63)

Display [VIERA Link Menu]

- You can also access directly by using VIERA TOOLS ⇒ “How to Use VIERA TOOLS” (p. 29)

Select [Pause Live TV] and pause

The TV picture will be paused.

<table>
<thead>
<tr>
<th>VIERA Link Menu</th>
<th>Start</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause Live TV</td>
<td></td>
</tr>
<tr>
<td>Direct TV Rec.</td>
<td></td>
</tr>
<tr>
<td>VIERA Link Control</td>
<td>Recorder</td>
</tr>
<tr>
<td>Speaker Selection</td>
<td>Home Cinema</td>
</tr>
</tbody>
</table>

- The current TV programme is recorded on HDD from where it was paused.
- If the paused TV picture disappears after a few minutes, press OPTION button to restore the pause picture.
- Follow the operation guide to operate [Pause Live TV] function.

■ To operate [Pause Live TV]
- Search backward
- Pause
- Playback
- Search forward
- Stop

- Operations may vary depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

- If you stop playback, the recorded programme will be deleted from HDD.

■ To return to current TV (Stop playback of [Pause Live TV] / cancel pause)

Select [Yes]

Stop Pause Live TV?

Yes  No

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

Control the menu of the connected equipment by VIERA remote control [VIERA Link Control]

You can control some functions of the connected equipment with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.

⇒ “Summary of features” (p. 61, 62), “Preparations” (p. 63)
- For details of the operations for the connected equipment, read the manual of the equipment.

Display [VIERA Link Menu]

- You can also access directly by using VIERA TOOLS ⇒ “How to Use VIERA TOOLS” (p. 29)
Select [VIERA Link Control]

VIERA Link Menu
- Pause Live TV
- Direct TV Rec
- VIERA Link Control
- Speaker Selection

Select the equipment to access
Select the type of the connected equipment and access.

VIERA Link Menu
- Pause Live TV
- Direct TV Rec
- VIERA Link Control
- Speaker Selection

- The displayed item may vary depending on the connected equipment.
- [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- [Other] means Tuner set top box.

The menu of the accessed equipment will be displayed.
(Input mode will be changed automatically)

Operate the menu of the equipment
Follow the operation guide

To display the operation guide

OPTION

If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.

Available VIERA remote control buttons depend on the connected equipment.

Note
- Some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

If multiple recorders or players are connected

The number is given from the TV’s lower number of HDMI terminal connected to the same type equipment. For example, two recorders to HDMI1 and HDMI2, the recorder connected to HDMI1 is displayed as [Recorder1], and the recorder connected to HDMI2 is displayed as [Recorder2].

[Recorder1-3 / Player1-3]

If you access non-VIERA Link equipment

The type of the connected equipment is displayed.
Although you can access the connected equipment, you cannot operate it.
Use its own remote control to operate the equipment.
**Speaker control [Speaker Selection]**

You can control the theatre speaker with this TV remote control pointing at the TV's signal receiver.
- If you cannot operate, check the settings and the equipment.
- “Summary of features” (p. 61, 62), “Preparations” (p. 63)

1. **Display [VIERA Link Menu]**
   - You can also access directly by using VIERA TOOLS “How to Use VIERA TOOLS” (p. 29)

2. **Select [Speaker Selection]**
   - ![Select Icon]

3. **Set to [Home Cinema] or [TV]**
   - ![Set Icon]

   **[Home Cinema]:**
   - The sound is from theatre speakers. Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode.
   - ● Volume up / down
   - ● Mute
   - ● The sound of TV speakers is mute.
   - ● When the equipment is turned off, TV speakers will be active.

   **[TV]:**
   - TV speakers are active.

**Multi-channel sound**

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 62), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you only need to connect it with HDMI cable to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 62).

---

**Note**
- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- “HDAVI Control 5” is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control “System Information” (p. 36)
External Equipment

**U50 series**

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the basic connection (p. 12 - 15), the table (p. 72), and the specifications (p. 84, 85).

* Check the type of terminals and cable plugs are correct when connecting.

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the Sound Selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.

- The device may become unusable with this TV if the file or folder names are changed.

DivX

DivX Certified® to play DivX® video up to 1080p HD including premium content.
ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX videos.

Subtitle text file of DivX
Subtitles format - MicroDVD, SubRip, TMPlayer
- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority:
  "srt", "sub", "txt".
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note
- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

To show DivX VOD registration code

[DivX® VOD] (p. 36)
- If you want to generate the new registration code, you have to deregister the current registration code.
- After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the current registration code.
- You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV's code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  • If you exit the current application.
  • If you play the other content.
  • If you go to the next or previous content.
Devices for playing back

**SD Card**
Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

Card format:
- SDXC Card - exFAT
- SDHC Card / SD Card - FAT16 or FAT32

Compliant card type (maximum capacity):
- SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website.
  http://panasonic.jp/support/global/cs/tv/

**USB Flash Memory**
USB Flash Memory format: FAT16, FAT32 or exFAT

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction. Otherwise this can damage device or TV.
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.
HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard.
HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.
HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.
For more information about connections ➪ (p. 14, 68, 70)

■ Applicable HDMI features

● Input audio signal:
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
● Input video signal:
  ➪ “Input signal that can be displayed” (p. 79)
  Match the output setting of the digital equipment.
● Input PC signal:
  ➪ “Input signal that can be displayed” (p. 79)
  Match the output setting of the PC.

● VIERA Link (HDAVI Control 5)
  ➪ [VIERA Link] (p. 63)
● Content Type
● Audio Return Channel*2
  (HDMI2 terminal only)

■ DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3.
When the DVI to HDMI adaptor cable is used, connect the audio cable to AV2 IN audio terminals.
If the picture position is not fit to the screen during the DVI connection, adjust the position on [DVI Position Settings] in the Setup Menu (p. 44). The settings are memorised for each HDMI terminals and input signals.

Note

● Audio settings can be made on [HDMI1 / 2 Input] in the Sound Menu. (p. 34)
● If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
● These HDMI connectors are “type A”.
● These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
● Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
● This TV incorporates HDMI™ technology.
*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
● A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.
● Some PC models cannot be connected to this TV.
● When using PC, set the colour display quality of PC to the highest position.
● For details of the applicable PC signals ➪ “Input signal that can be displayed” (p. 79)
● Maximum display resolution

<table>

**USB connection**
- When using USB cables, use the supplied Ferrite core (Middle size) (p. 6) for each cable to comply with the EMC standard. As for installing the Ferrite core, refer to the installing of the Ferrite core for headphones. (p. 69, 71)
- It is recommended to connect the USB Flash Memory to the TV's USB ports directly.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- Additional information for USB devices may be on the following website.
  http://panasonic.jp/support/global/cs/tv/

**Characters table for numeric buttons**
You can enter characters by using numeric buttons for free input items.

<table>
<thead>
<tr>
<th>User Input</th>
<th>Numeric buttons</th>
<th>Characters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>1 2 3</td>
<td>. ! : # + - _ ( )</td>
</tr>
<tr>
<td>U V W X Y Z</td>
<td>0 1 2 3 4 5 6 7 8 9</td>

</tbody>
</table>

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not show fine detail with sufficient clarity.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

**White spots or shadow images (noise)**
- Check the position, direction, and connection of the aerial.

**Neither image nor sound is produced**
- Check the TV is turned on.
- Check the mains lead is plugged into the TV and the socket outlet.
- Check the TV is in AV mode.
- Check the correct input mode is selected.
- Check the Picture Menu (p. 31, 32) and volume.
- Check all required cables and connections are firmly in place.

**Black and white picture**
- Check that the output of the external equipment matches the input of the TV.

**[VIERA Link] function does not work and an error message appears**
- Confirm the connection. (p. 61, 62)
- Turn the connected equipment on and then switch the TV on. (p. 63)

**The screen becomes dim**
- This occurs when the contrast is lowered automatically to avoid image retention in the following conditions without any user operation for a few minutes:
  - No signal in Digital TV or AV mode
  - Selected locked channel
  - Selected invalid channel
  - Selected radio channel
  - Displayed menu
  - Thumbnail or still picture

**Pixel Statement**
- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels.
  - To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture.
  - Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/subpixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | - Set [P-NR] in the Picture Menu to remove noise. (p. 31)  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | - Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? (p. 31) |
| Blurry or distorted image (no sound or low volume) | - Reset channels. (p. 39, 40) |
| Unusual image is displayed | - Turn the TV off with Mains power On / Off switch, then turn it on again.  
- If the problem persists, initialise all settings. [Shipping Condition] (p. 42) |
| [Shop] appears on screen at switch on | - [Shop] was selected in [Auto Tuning] (p. 18)  
Reset settings in [Shipping Condition] (p. 42), then select [Home] in [Auto Tuning] (p. 18) |
| No sound is produced | - Is “Sound mute” active? (p. 9)  
- Is the volume set to the minimum? |
| Sound level is low or sound is distorted | - Sound signal reception may be deteriorated.  
- Set [MPX] (p. 33) in the Sound Menu to [Mono]. (Analogue TV) |
<p>| Unusual sound from the TV | - When power is on, drive noise may be heard from inside the TV (not a sign of faulty operation). |</p>
<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| **Sound is unusual** | ● Set the sound setting of the connected equipment to “2ch L.PCM”.  
● Check the [HDMI1 / 2 Input] setting in the Sound Menu.  
● If digital sound connection has a problem, select analogue sound connection.  (p. 34) |
| **Pictures from external equipment are unusual when the equipment is connected via HDMI** | ● Check the HDMI cable is connected properly.  
● Turn the TV and equipment off, then turn them on again.  
● Check an input signal from the equipment.  
● Use equipment compliant with EIA/CEA-861/861D. (p. 68, 70) |
| **Cannot connect to the network** | ● Check the LAN cable or Wireless LAN Adaptor is connected properly.  
● Check the LAN cable or Wireless LAN Adaptor is connected properly.  
● Check the network equipment and network environment.  
● The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually.  
● The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 36) and set the router to use it. (p. 54 - 56) |
| **Cannot select the file during DLNA operations** | ● Is media server of the connected equipment prepared?  
● Check applicable data format. (p. 53) |
| **Connecting devices such as DTV recorder / PVR / VCR etc that also require an antenna connection to the digital television** | ● To maintain optimum antenna signal quality, use an ‘F’ type TV signal splitter (as illustrated) when connecting two or more devices to the same antenna socket.  
| Digital TV | TV  
| | DTV Recorder / PVR / VCR  
| | “F” type Antenna Splitter  
| | Antenna Socketh Wall Plate  
| | RG6Q Fly Lead  
| | RG6Q Fly Lead  
| | RG6Q Fly Lead  
| | Out  
| | In  
| | Hint: Some degradation of the DTV signal may occur if you are connecting the aerial through an external device (e.g. DVD Recorder or Set Top Box). In this case it is better to use a splitter and connect the aerial directly to both devices. |
| **After digital TV tuning, (or re-tuning) some or all DTV channels are missing** | ● Check to ensure your area is covered by DTV transmissions.  
● Check that the aerial and antenna cable are designed for DTV reception. If you live within 5-10 km of DTV transmission towers, a combined VHF / UHF Digital TV aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance.  
● If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DTV reception. Please consult your body corporate. |
| **Picture infrequently pixelates on some or all channels** | ● Electrical interference caused by local or distant lighting storms, heavy rain, high wind etc. may cause picture to break up and or audio to mute / distort momentarily.  
● Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a “noisy” ignition system.  
● Older style antenna cabling, loose fitting/corroded wall socket connections / terminals etc. |
<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| **Picture regularly pixelates on some channels, or ‘No Signal’ message** | ● Check [Signal Condition] via TV Setup menu. If [Signal Quality] or [Signal Strength] is red/orange or constantly changing, check aerial/cable/connections. If problem persists, consult your local TV antenna installer.  
● Too much signal; is [Signal Strength] always at full strength? If yes, try attenuating (reducing) the signal strength.  
● Check that the aerial and antenna cable are designed for DTV reception.  
● The received signal may be too weak to allow the TV to reliably lock to the selected channel to generate a viewable picture. If problem persists, consult your local TV aerial installer.  
● Interference from household appliances (known as impulse noise) such as light switches, fridges etc. may cause picture break up and / or audio distortion. Use high quality quad shielded coaxial cable (RG6Q) fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists, consult your local TV aerial installer.  
● Antenna installation may be using an aerial amplifier that is faulty or an older style aerial amplifier that was not designed for digital TV.  
● Older style antenna cabling, loose fitting / corroded wall socket connections / terminals etc.  
● Turn the TV off with the Mains power On / Off switch, then turn it On again. |
| **Digital TV** | |
| **Note** | Digital TV reception is only as good as the antenna and the antenna cabling delivering the DTV signals to the television. Reliable digital TV reception requires high quality, robust DTV signals which can only be achieved when using a TV antenna and cabling designed for digital TV reception.  
● For your safety, the antenna and cabling should be inspected / installed by a licensed installer that should comply with Australian Standard AS1417.1 for Domestic installations or AS1367 for MATV installations. [U50A series] |
| **The TV does not switch on** | ● Check the mains lead is plugged into the TV and the socket outlet. |
| **The TV goes into Standby mode** | ● Auto power standby function is activated.  
(p. 11)  
● The TV enters Standby mode about 30 minutes after analogue broadcasting ends. |
| **The remote control does not work or is intermittent** | ● Are the batteries installed correctly?  
(p. 7)  
● Has the TV been switched on?  
● The batteries may be running low. Replace them.  
● Point the remote control directly at the TV’s remote control signal receiver (within about 7 m and a 30 degree angle of the signal receiver).  
● Situate the TV away from sunshine or other sources of bright light not to shine on the TV’s remote control signal receiver. |
| **Parts of the TV become hot** | ● Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality. |
| **Permanently lit spots on screen** | ● Due to production process involved in this technology this may result in some pixels which are permanently lit or unlit. This is not a malfunction. |
| **Overcurrent error message appears** | ● The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again.  
● Check foreign objects are not inside the USB port. |
| **An error message appears** | ● Follow the message’s instructions.  
● If the problem persists, contact your local Panasonic dealer or the authorised service centre. |
Maintenance

First, remove the mains plug from the socket outlet.

<table>

<tr>
<th>Display panel, Cabinet, Pedestal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regular care:</td>
</tr>
<tr>
<td>Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>For stubborn dirt:</td>
</tr>
<tr>
<td>First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.</td>
</tr>
</tbody>
</table>

**Caution**

- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Panasonic Warranty

1. The product is warranted for 12 months from the date of purchase. Subject to the conditions of this warranty Panasonic or its Authorised Service Centre will perform necessary service on the product without charge for parts or labour, if in the opinion of Panasonic, the product is found to be faulty within the warranty period.

2. This warranty only applies to Panasonic products purchased in Australia and sold by Panasonic Australia or its Authorised Distributors or Dealers and only where the products are used and serviced within Australia or its territories. Warranty cover only applies to service carried out by a Panasonic Authorised Service Centre and only if valid proof of purchase is presented when warranty service is requested.

3. This warranty only applies if the product has been installed and used in accordance with the manufacturer’s recommendations (as noted in the operating instructions) under normal use and reasonable care (in the opinion of Panasonic). The warranty covers normal domestic use only and does not cover damage, malfunction or failure resulting from use of incorrect voltages, incorrect installation, accident, misuse, neglect, build-up of dirt or dust, abuse, maladjustment of customer controls, mains supply problems, thunderstorm activity, infestation by insects or vermin, tampering or repair by unauthorised persons (including unauthorised alterations), introduction of sand, humidity or liquids, commercial use such as hotel, office, restaurant, or other business or rental use of the product, exposure to abnormally corrosive conditions or any foreign object or matter having entered the product.

4. This warranty does not cover the following items unless the fault or defect existed at the time of purchase:
   (a) Cabinet Part(s)
   (b) Video or Audio Tapes
   (c) SD cards or USB devices
   (d) User replaceable Batteries
   (e) DVD, Blu-ray, or Recordable Discs
   (f) Video / Audio Heads from wear and tear in normal use
   (g) Information stored on Hard Disk Drive, USB stick or SD card
   (h) DTV reception issues caused by TV Aerial / Cabling / Wall socket(s)
   etc

5. Some products may be supplied with Ethernet connection hardware. The warranty is limited on such products and will not cover:
   (a) Internet and or DLNA connection / setup related problems
   (b) Access fees and or charges incurred for internet connection
   (c) The use of incompatible software or software not specifically stipulated in the product operations manual; and
   (d) Any indirect or consequential costs associated with the incorrect use or misuse of the hardware, its connection to the internet or any other device.

6. To claim warranty service, when required, you should:
   • Telephone Panasonic's Customer Care Centre on 132600 or visit our website referred to below and use the Service Centre Locator for the name/address of the nearest Authorised Service Centre.
   • Send or take the product to a Panasonic Authorised Service Centre together with your proof of purchase receipt as a proof of purchase date. Please note that freight and insurance to and / or from your nearest Authorised Service Centre must be arranged by you.
   • Note that home or pick-up/delivery service is available for the following products in the major metropolitan areas of Australia or the normal operating areas of the nearest Authorised Service Centres:
     - Plasma/LCD televisions / displays (screen size greater than 103 cm)

7. The warranties hereby conferred do not extend to, and exclude, any costs associated with the installation, de-installation or re-installation of a product, including costs related to the mounting, de-mounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

Panasonic Authorised Service Centres are located in major metropolitan areas and most regional centres of Australia, however, coverage will vary dependant on product. For advice on exact Authorised Service Centre locations for your product, please telephone our Customer Care Centre on 132600 or visit our website and use the Service Centre Locator.

In addition to your rights under this warranty, Panasonic products come with consumer guarantees that cannot be excluded under the Australian Consumer Law. If there is a major failure with the product, you can reject the product and elect to have a refund or to have the product replaced or if you wish you may elect to keep the goods and be compensated for the drop in value of the goods. You are also entitled to have the product repaired or replaced if the product fails to be of acceptable quality and the failure does not amount to a major failure.

If there is a major failure in regard to the product which cannot be remedied then you must notify us within a reasonable period by contacting the Panasonic Customer Care Centre. If the failure in the product is not a major failure then Panasonic may choose to repair or replace the product and will do so in a reasonable period of time from receiving notice from you.

THIS WARRANTY CARD AND THE PURCHASE DOCKET (OR SIMILAR PROOF OF PURCHASE) SHOULD BE RETAINED BY THE CUSTOMER AT ALL TIMES

If you require assistance regarding warranty conditions or any other enquiries, please visit the Panasonic Australia website www.panasonic.com.au or contact by phone on 132 600
If phoning in, please ensure you have your operating instructions available.
WARRANTY - New Zealand only

WE WARRANT that the Panasonic Television that you have purchased is free from defects in material and workmanship under normal home use and service.

Accordingly, we undertake to repair, or at our option, replace without cost to the owner, either for material or labour, any part which within 12 months from the date of delivery is found to be defective, provided that the appliance has been used for domestic purposes only and in accordance with the instructions given in the Instruction Book and not been subjected to misuse, neglect or installed, dismantled, repaired or serviced by any other than an authorised Panasonic New Zealand Dealer or Panasonic New Zealand Authorised Service Centre.

NOTE
- Before reporting a fault, please ensure that you read the item “Troubleshooting” in the information section of your Panasonic Instruction Book.
- It is important to retain your proof of purchase as this will be required by the serviceman or retailer as proof of purchase date, should service be required.
- In the event of service being required, contact your Panasonic New Zealand retailer or Panasonic New Zealand Authorised Service Centre.

IMPORTANT
Any request for warranty service must be through an Authorised Panasonic New Zealand Service Centre who during the period of the warranty, undertakes to make any necessary adjustment and fit any replacement part supplied by the manufacturer, during normal working hours, or alternatively will arrange for such service to be provided by some other Panasonic New Zealand Authorised Service Centre.
