Dear customer

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully.

Before connecting, operating or adjusting this product, please read the instructions completely. Please keep this manual for future reference.

Region number supported by this unit

Region numbers are allocated to DVD Recorders and DVD-Video according to where they are sold.

- The region number of this unit is "4".
- The unit will play DVD-Video marked with labels containing "4" or "ALL".

Example:

This DVD Recorder is for viewing and recording free to view channels only, not pay TV or encrypted channels.

Declaration of Conformity No. 5155, 16th November 2007

Notice for DVB functions

- Any function related to DVB (Digital Video Broadcasting) will work in areas where DVB-T (MPEG2) digital terrestrial broadcasting is received. Consult your local Panasonic dealer with coverage areas.
- This unit has the capability for DVB specifications. But future DVB services cannot be guaranteed.
- This unit does not support MHP (Multimedia Home Platform).
CAUTION!
THIS PRODUCT UTILIZES A LASER.
USE OF CONTROLS OR ADJUSTMENTS OR
PERFORMANCE OF PROCEDURES OTHER THAN THOSE
SPECIFIED HEREIN MAY RESULT IN HAZARDOUS
RADIATION EXPOSURE.
DO NOT OPEN COVERS AND DO NOT REPAIR YOURSELF.
REFER SERVICING TO QUALIFIED PERSONNEL.

WARNING:
TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR
PRODUCT DAMAGE,
• DO NOT EXPOSE THIS APPARATUS TO RAIN, MOISTURE,
DRIPPING OR SPLASHING AND THAT NO OBJECTS
FILLED WITH LIQUIDS, SUCH AS VASES, SHALL BE
PLACED ON THE APPARATUS.
• USE ONLY THE RECOMMENDED ACCESSORIES.
• DO NOT REMOVE THE COVER (OR BACK); THERE ARE
NO USER SERVICEABLE PARTS INSIDE. REFER
SERVICING TO QUALIFIED SERVICE PERSONNEL.

CAUTION!
• DO NOT INSTALL OR PLACE THIS UNIT IN A BOOKCASE,
BUILT-IN CABINET OR IN ANOTHER CONFINED SPACE.
ENSURE THE UNIT IS WELL VENTILATED. TO PREVENT
RISK OF ELECTRIC SHOCK OR FIRE HAZARD DUE TO
OVERHEATING, ENSURE THAT CURTAINS AND ANY
OTHER MATERIALS DO NOT OBSTRUCT THE
VENTILATION VENTS.
• DO NOT OBLIQUE THE UNIT’S VENTILATION OPENINGS
WITH NEWSPAPERS, TABLECLOTHS, CURTAINS, AND
SIMILAR ITEMS.
• DO NOT PLACE SOURCES OF NAKED FLAMES, SUCH AS
LIGHTED CANDLES, ON THE UNIT.
• DISPOSE OF BATTERIES IN AN ENVIRONMENTALLY
FRIENDLY MANNER.

CAUTION
Danger of explosion if battery is incorrectly replaced. Replace
only with the same or equivalent type recommended by the
manufacturer. Dispose of used batteries according to the
manufacturer’s instructions.

THIS UNIT IS INTENDED FOR USE IN MODERATE CLIMATES.

This product may receive radio interference caused by mobile
telephones during use. If such interference is apparent, please
increase separation between the product and the mobile
telephone.

The socket outlet shall be installed near the equipment and
easily accessible.
The mains plug of the power supply cord shall remain readily operable.
To completely disconnect this apparatus from the AC Mains,
disconnect the power supply cord plug from AC receptacle.

### About descriptions in these operating instructions
- Pages to be referred to are indicated as “➡.”
Included accessories

Please check and identify the supplied accessories.
(Product numbers correct as of April 2008. These may be subject to change.)

![Remote control accessories](N2QAYB000136)

1 Remote control 2 Batteries for remote control 1 AC mains lead
2 RF coaxial cable 1 Audio/video cable

The remote control information

- **Batteries**
  - Insert so the poles (+ and −) match those in the remote control.
  - Do not use rechargeable type batteries.

- **Use**
  - Remote control signal sensor

- Do not mix old and new batteries.
- Do not use different types at the same time.
- Do not heat or expose to flame.
- Do not leave the battery(ies) in an automobile exposed to direct sunlight for a long period of time with doors and windows closed.
- Do not take apart or short circuit.
- Do not attempt to recharge alkaline or manganese batteries.
- Do not use batteries if the covering has been peeled off.

Mishandling of batteries can cause electrolyte leakage which can damage items the fluid contacts and may cause a fire.

Remove if the remote control is not going to be used for a long period of time. Store in a cool, dark place.

Remote control operations (► 6)
Unit care

The precision parts in this unit are readily affected by the environment, especially temperature, humidity, and dust. Cigarette smoke also can cause malfunction or breakdown.

- Do not place the unit on amplifiers or equipment that may become hot. The heat can damage the unit.
- The unit should not be installed or operated near large magnets or electromagnetic devices. Such devices can damage prerecorded VHS recordings.
- Before moving the unit, ensure the disk tray and cassette compartment are empty. Failure to do so will risk severely damaging the disk and the unit.
- Do not place any heavy objects on top of the unit.
- The unit should not be mounted in a vertical position. It’s designed to operate in the horizontal position.

Cautions about condensation
Condensation can cause unreliable playback of VHS recordings. Condensation may form in the following cases:
- The unit is brought from cold surroundings into a well-heated room.
- The unit is suddenly brought from cool surroundings, such as an airconditioned room or car, to a place which is hot and humid.
- During rainy seasons.

In any of the above-mentioned conditions, do not operate the unit for at least 2 hours. The unit is not equipped with a moisture sensor.

- Maintenance
To clean this unit, wipe with a soft, dry cloth.
- Never use alcohol, paint thinner or benzine to clean this unit.
- Before using chemically treated cloth, carefully read the instructions that came with the cloth.

Cleaning the DVD lens
Dust and dirt may adhere to the unit’s lens over time, making it impossible to record or play discs.
- Use the DVD lens cleaner about once every year, depending on frequency of use and the operating environment. Carefully read the lens cleaner’s instructions before use.

Cleaning the video heads
Dirt on the video heads can cause poor recording and play.
- If the picture does not improve, use a head-cleaning cassette. If the problem persists seek advice from a qualified service personnel.

Select a position with good ventilation when installing the unit. Do not block the cooling fan on the rear of the unit.

DO NOT

DVD lens cleaner: RP-CL720E
- This lens cleaner may not be for sale depending on the region.
Remote control

Instructions for operations are generally described using the remote control.

1. Turn the unit on (10)
2. Select drive (DVD or VHS) (16, 18, 38)
3. Select channels and title numbers, etc./Enter numbers
4. To delete unnecessary recorded titles (22)
5. Basic operations for recording and play
6. Show digital channel information (15)/Programme information within TV Guide screen (31)/Show status messages (54)
7. Selection/OK, Frame-by-frame (32)
8. Show DIRECT NAVIGATOR (33, 42)
9. Show OPTION menu (41)
10. This menu is used when playing or editing titles, etc.
11. Colour buttons
   - for TV Guide operations (31)
   - for switching Video Playlists (50)
   - for tuning settings (59)
12. Show on-screen menu (53)
   Menu for disc playback and changing DVB multi audio etc.
13. Recording functions
   - [REC] Start recording (18)
   - [REC MODE] Change recording mode (18)
   - Transmit the remote control signal
14. Select analogue channel (15)
15. Input select (AV1, AV2 or DV) (27)
16. Show G-CODE screen (29)
17. Exit the menu screen
18. Show the TV Guide screen (19)
19. Show FUNCTION MENU window (39)
   By using the FUNCTION MENU window you may access the main functions (Playback, Recording, etc.) quickly and easily.
20. Return to previous screen
21. Create chapter (32)
22. Skip approx. 1 minute forward (32)
23. Show Timer Recording screen (29)
24. Skip the specified time (32)
   Jet rewind (34)
Main unit

1. Cassette eject button (➡ 14)
2. Disc tray open/close button (➡ 14, 16)
3. Start recording button (➡ 18)
4. Stop button (➡ 16, 17, 18, 32)
5. Play/x1.3 button (➡ 17, 32)
6. Standby/on switch (Í/I) (➡ 10)
7. AV2 input terminals (➡ 27)
8. DVD/VHS drive indicator (➡ 16, 18)
9. Channel Select button (➡ 15, 16)
10. DRIVE SELECT button (➡ 16, 18, 38)
11. DV IN terminal (for a digital video camcorder) (➡ 28)
12. One Touch Copying operation button
   - From VHS to DVD (➡ 20)
   - From DVD to VHS (➡ 21)

The unit's display

1. Timer recording indicator (Í) (➡ 19, 29)
   - On:
     When a timer recording programme is registered and a recordable disc or video cassette is inserted.
     - Flashes:
     When the unit cannot record a timer recording programme (e.g., there is no disc or video cassette, etc.).
2. Tape indicator
3. Operation status
4. Recording mode indicator (➡ 18, 24)
5. Main display
6. Copying indicator
7. Digital broadcast indicator
   - Lights when the unit is receiving digital broadcast or TV Guide data.
8. Disc indicator

Opening the front panel
Press down on the part with your finger.
**STEP 1 Connection**

**Make sure to use the pair of supplied RF coaxial cables**
Use the pair of supplied RF coaxial cables only when you make connections to the unit through its RF IN and RF OUT terminals. Stripping may appear and disrupt images on the TV if you use different cables for connection.

- Before connection, turn off all equipment and read the appropriate operating instructions.
- Confirm connections not listed below with your dealer.

**When the unit is not to be used for a long time**
To save power, unplug it from the household mains socket. This unit consumes a small amount of power, even when it is turned off (approx. 4.3 W (Power Save mode))
When “Power Save” is set to “On”, the “Quick Start” function does not work.

**DVD output and DVD/VHS output**
The unit has DVD/VHS COMMON OUT terminals and DVD priority out terminals.

---

**Connecting a television**

1. **To household mains socket**
   (AC 220 to 240 V, 50 Hz)
2. **To the aerial**
3. **Audio/Video cable** (included)
4. **AC mains lead** (included)
   Connect only after all other connections are complete.
5. **Cooling fan**

When a digital TV and another piece of equipment such as a VCR are connected to this unit:
If the broadcast signal is input into a TV through another piece of external equipment, then the signal will be attenuated and even digital broadcasts cannot be received. Split the broadcast signal from the antenna using a splitter so that the broadcast signal can be directly fed to the TV.
You can enjoy high-quality picture by changing the connection between this unit and your TV as follows.

### Connecting to a TV with an HDMI (High Definition Multimedia Interface) cable

When connected to an HDMI compatible unit, an uncompressed digital audio and video signal is transmitted. You can enjoy high quality digital video and audio with just one cable. When connecting to an HDMI-compatible HDTV (High Definition Television), the output can be switched to 1080p, 1080i or 720p HD video.

- This unit incorporates HDMI™ (V1.3 with Deep Colour) technology.
- Video sources converted to 1920x1080 resolution, while of high quality, will exhibit somewhat lower subjective image resolution than true, native 1080p full-HD sources. See dealer for details.
- Please use High Speed HDMI Cables that have the HDMI logo (as shown on the cover).
- When outputting 1080p signal, please use the HDMI cables 5.0 meters or less.

#### Regarding VIERRA Link “HDAVI Control™” function

When connecting with a Panasonic TV (VIERRA) or a receiver equipped with the “HDAVI Control” function, linked operations would be possible.

- 46. Linked operations with the TV (VIERRA Link “HDAVI Control™”)
- Non-HDMI-compliant cables cannot be utilised.
- It is recommended that you use Panasonic’s HDMI cable. Recommended part number:

RP-CDHG10 (1.0 m), RP-CDHG15 (1.5 m), RP-CDHG20 (2.0 m), RP-CDHG30 (3.0 m), RP-CDHG50 (5.0 m), etc.

---

#### Required setting

Set "Digital Audio Output" to “HDMI and Optical” (☞ 63). (The default setting is “HDMI and Optical”.)

#### Note

- If you are connecting to a TV that is only compatible with 2 channel audio output, audio with 3 channels or more will be down mixed (☞ 81) and output as 2 channels, even if connecting with an HDMI cable. (Some discs cannot be down mixed.)
- You cannot connect this unit to DVI devices that are incompatible with HDCP.
- For units compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection that are equipped with a digital DVI input terminal (PC monitors, etc.). Depending on the unit, images may not display properly or at all when connecting with a DVI/HDMI switching cable. (Audio cannot be output.)
- Usually you can watch video from HDMI input on TV. When you want to playback VHS while recording on DVD, switch to an appropriate AV input on TV.
STEP 2  Channel reception settings and TV aspect settings

1  Turn on the television and select the appropriate AV input to suit the connections to this unit.

2  Press [DVD/VHS] to turn the unit on.

   DVB Auto-Setup starts. The unit will search for the terrestrial digital channels.
   - Terrestrial digital channels are stored into logical channels numbers.
   - Analogue channels are preset at the time of shipping.
   - When the Download from TV screen appears (right)

   DVB Auto-Setup is complete when Region Selection setting screen appears.
   The time information for your region can be obtained.

   3 Press [▲, ▼] to select your region and press [OK].

      Quick Start setting screen appears.
      Quick Start (64)
      - the unit starts recording in about 1 second after you press [REC] while the unit is turned on.
      - the unit displays the TV Guide screen in less than 1 second after you press [GUIDE] while the unit is turned off.

   4 Press [▲, ▼] to select “On” or “Off” and press [OK].

      TV aspect setting screen appears.

   5 Press [▲, ▼] to select the TV aspect and press [OK].

      - 16:9:
         When connected to a 16:9 widescreen television
         - Pan & Scan:
            When connected to a 4:3 aspect television, side picture is trimmed for 16:9 picture (81).
         - Letterbox:
            When connected to a 4:3 aspect television, 16:9 picture is shown in the letterbox style (81).

   To stop partway
   Press [RETURN].

   ■ To confirm that stations have been tuned correctly (59)
   ■ To restart set up (58)

   ■ Download from the TV
   If this unit is connected to a Panasonic TV (VIERA) supporting HDAVI Control 3 via an HDMI cable, then the setting information on the TV is acquired by this unit when the unit is turned on for the first time. Please proceed to the following steps.

   After Download from TV is complete, Quick Start setting or screen appears.
   - If the clock setting screen is displayed, set the clock manually.
   - Press [▲, ▼] to select “On” or “Off” and press [OK].

   When television picture appears, set up is complete.

   To stop partway
   Press [RETURN].

   ■ Acquisition of the setting information is not supported by all Panasonic TVs (VIERA).
   ■ The acquisition may take some time depending on the VIERA setting information.

\(^{1}\) Possible, – Impossible

Finalisation needed for playback on other equipment \(\Rightarrow 56\).

RAM can be played back on Panasonic DVD recorders and DVD-RAM compatible DVD players.

\(\Rightarrow \text{RAM}, \text{DL, or RW can be played back only on equipment compatible with these discs.}

\(^{2}\) For further information \(\Rightarrow 23\), Important notes for recording

\(^{3}\) The audio selected in “Bilingual Audio Selection” \(\Rightarrow 61\) is recorded.

To use a new disc, formatting is necessary \(\Rightarrow 56\).

If the disc failed to play on other equipment, we recommend you create top menu \(\Rightarrow 57\).

Use of Panasonic discs is recommended.

For available recording times for different discs under different recording modes, see “Recording modes and approximate recording times” \(\Rightarrow 24\).

Formatting and/or recording/initializing constraints may prevent you from playing or recording certain discs.

Please see specifications \(\Rightarrow 80\) for compatible disc versions and recording speeds.
Disc information

- **Recording format**
  This unit records video in the following formats.

  **DVD Video Recording format: D+RW**
  This is a recording method which allows you to record and edit television broadcasts and so on.
  - You can delete unwanted parts of a title, create playlists, etc.
  - The broadcasts that allow "One time only recording" can be recorded to a CPRM compatible disc.

  **DVD-Video format: DVD-VR DL, DVD-RW VR, DVD-R DL**
  This recording method is the same as commercially available DVD-Video.
  - The broadcasts that allow "One time only recording" cannot be recorded even if using a CPRM compatible disc.
  - After finalising the disc, you can play the disc on DVD players and other equipment.

  **VR (+R/+RW Video Recording) format: +R DL, +RDL, +R/L, +RW**, +VR (+R/+RW Video Recording) format
  This is a method for recording moving pictures to +R/+RW discs. You can playback such discs recorded in this method in a similar way as contents recorded in the DVD-Video format.
  - The broadcasts that allow "One time only recording" cannot be recorded.
  - After finalising the disc or creating the top menu, you can play the disc on DVD players and other equipment.

- **Operation and sound quality of CDs that do not conform to CD-D A specifications (copy control CDs, etc.) cannot be guaranteed.**
  - The producer of the disc can control how discs are played. So you may not always be able to control play as described in these operating instructions. Read the disc's instructions carefully.
  - Operation and sound quality of CDs that do not conform to CD-DA specifications (copy control CDs, etc.) cannot be guaranteed.

- **DVD/RW (DVD Video Recording format)**
  - You can play programmes that allow One time only recording if they have been recorded onto a CPRM compatible disc.
  - By formatting (§ 56) the disc, you can record onto it in DVD-Video format.
  - It may be necessary to finalise the disc on the equipment used for recording.

- **Discs that cannot be played**
  - 2.6 and 4.7 GB D+RW, 12 cm
  - 8.5 and 4.7 GB D+R for Authoring
  - D+R, D+R DL, D+RW, +R, +R DL recorded on another unit and not finalised (§ 81).
  - Discs recorded with AV/CHD format.
  - DVD-Video with a region number other than "4" or "ALL"
  - DVD-Audio
  - Blu-ray, HD DVD
  - DVD-ROM, +R (8 cm), CD-ROM, CDV, CD-G, Photo CD, CVD, SVCD, SACD, MV-Disc, PD, etc.

- **Play-only discs**

---

**Structure of folders displayed by this unit**

You can play MP3 and still pictures (JPEG) on this unit by making folders as shown below. However depending on the method of writing data (writing software), play may not be in the order you numbered the folders.

**Structure of MP3 folders**

CD with 3-digit numbers in the order you want to play them.

**Structure of still picture folders**

CD Files inside a folder are displayed in the order they were updated or taken.
Inserting discs

1 Press [OPEN/CLOSE] on the main unit to open the tray.
   - You can insert a cartridge or non-cartridge disc.
2 Press [OPEN/CLOSE] on the main unit to close the tray.
   - If you insert a DVD-RAM with the write-protect tab set to "PROTECT" (55), play starts automatically.

Note
- A double-sided disc should be loaded with the side you want to record/play facing down.
- It is not possible to record continuously from one side of a double-sided disc to the other. You will need to eject the disc and turn it over.
- When using 8 cm DVD-RAM or 8 cm DVD-R, remove the disc from the cartridge.

Inserting a video cassette

The surface on which you can see a roll of tape should face up.
Insert a video cassette.
- The unit is automatically turned on.
- If you insert a video cassette without the accidental erasure prevention tab, play starts automatically.

To eject a video cassette
- You can eject a video cassette even when the unit is in standby mode. It switches back to standby once it ejects the video cassette.

For main unit
- Press [EJECT] on the main unit.

For remote control
- Press [DRIVE SELECT] to select the VHS and then press and hold [EJECT] for about 3 seconds or more.

Video Cassette information

- Poor quality or damaged video cassettes can cause the heads to become dirty and malfunction. Store your video cassettes carefully and discard them when they become dirty or damaged.
- Never use video cassettes on which juice has been spilled or those that are extremely damaged since this will not only cause the heads to become dirty, but will also make the unit malfunction.
- Break off the video cassette’s tab to prevent accidental erasure. Cover the hole with a double layer of adhesive tape when you want to use the video cassette for recording again.
- You can use video cassettes with the VHS and S-VHS marks, but the unit is unable to make full use of the characteristics of S-VHS video cassettes.

Disc care

- How to hold a disc
  Do not touch the recorded surface.

DO DO NOT

- Concerning non-cartridge discs
  Be careful about scratches and dirt.

- If there is dirt or condensation on the disc
  Wipe with a damp cloth and then wipe dry.

DO DO NOT

- Handling precautions
  - Do not attach labels or stickers to discs. (This may cause disc warping and un-balanced rotation, rendering it unusable.)
  - Write on the label side of the disc only with a soft, oil-based felt pen. Do not use ballpoint pens or other hard writing implements.
  - Do not use record cleaning sprays, benzine, thinner, static electricity prevention liquids or any other solvent.
  - Do not use scratch-proof protectors or covers.
  - Do not drop stack, or impact discs. Do not place objects on them.
  - Do not use the following discs:
    - Discs with exposed adhesive from removed stickers or labels (rental discs, etc.).
    - Discs that are badly warped or cracked.
    - Irregularly shaped discs, such as heart shapes.

DO NOT

- Do not place in the following areas:
  - In direct sunlight.
  - In very dusty or humid areas.
  - Near a heater.
  - Locations susceptible to significant difference in temperature (condensation can occur).
  - Where static electricity or electromagnetic waves occur.
  - To protect discs from scratches and dirt, return them to their cases or cartridges when you are not using them.

The manufacturer accepts no responsibility and offers no compensation for loss of recorded or edited material due to a problem with the unit or recordable media, and accepts no responsibility and offers no compensation for any subsequent damage caused by such loss.
Examples of causes of such losses are
- A disc recorded and edited with this unit is played in a DVD Recorder or computer disc drive manufactured by another company.
- A disc used as described above and then played again in this unit.
- A disc recorded and edited with a DVD Recorder or computer disc drive manufactured by another company is played in this unit.
Watching analogue and digital broadcasts

Digital channel information
While stopped
Press [STATUS ①] to show the information screen.

Programme name
Channel
Station Name
Progress of the current programme
Signal Quality (→ below)
Current time
Group
Change the group (→ 58).
The parental ratings level is displayed.

Broadcast time
To switch information of the current programme and the next
programme Press [⑤ ⑥] and then followed by analogue channels.
To show detailed information about the programme
Press [STATUS ①] (only when "info " is displayed).
To hide the information screen
Press [STATUS ①] once or twice.

Signal Quality
No Signal: The digital broadcast signal is not being received.
No Service: No broadcasts are currently available.

If "No Signal" is displayed:
• Adjust the position and direction of the aerial.
• Check that the current digital broadcast channel is correctly
  broadcasting.

You can also select the other channel when the information screen is
displayed by pressing [③④] and [OK].

■ If a software update is available, a notification is
displayed on the digital channel information

During scrambled broadcasting
(Cannot be viewed with this unit.)

Press EJECT buttons
e.g., 5: [0]

You can also select the channel with the numbered buttons.
e.g., 5: [0] → [0] → [5]
15: [0] → [1] → [5]
115: [1] → [1] → [5]

■ If New service message appears
When a new DVB channel is added, this unit will be informed
automatically. Then the confirmation message appears. If you
select "Yes" on the display, Auto-Setup starts (all channel settings
and all created groups are deleted. The timer recording
programmes are also cancelled.)

The display/hide setting can be changed (→ 62, New Service Message).

Select the channel
1 Turn on the television and select the appropriate AV input to suit the
courses to this unit.
2 Press [⑦ DVD/VHS] to turn the unit on.
3 Press [③ CH] to select the channel.

Everytime you change the station, digital channel information appears automatically (terrestrial digital channels only).
Channels are displayed in the order of digital channels first,
and then followed by analogue channels.

Digital channel

You can also select the channel with the numbered buttons.
e.g., 5: [0] → [0] → [5]
15: [0] → [1] → [5]

Analogue channel

You can also select the channel with the following steps.
e.g., 5: [0] → [5]
15: [1] → [5]

Note (Digital broadcast only)
• This unit can receive Standard Definition (SD) broadcasts, but is
  unable to receive High Definition (HD) broadcasts.
  When High Definition (HD) programmes are broadcast, "Unable to
decode HD" is displayed in the digital channel information
  (right).
• This unit can receive free cable television but it cannot receive paid
  services.

3 Press  EXIT

Applications
• Press [EXIT] to turn the unit on.

You can also select the other channel when the information screen is
displayed by pressing [③④] and [OK].

If "No Signal" is displayed:
• Adjust the position and direction of the aerial.
• Check that the current digital broadcast channel is correctly
  broadcasting.

You can also select the other channel when the information screen is
displayed by pressing [③④] and [OK].

■ If a software update is available, a notification is
displayed on the digital channel information

During scrambled broadcasting
(Cannot be viewed with this unit.)

Press EJECT buttons
e.g., 5: [0]

You can also select the channel with the numbered buttons.
e.g., 5: [0] → [0] → [5]
15: [0] → [1] → [5]
115: [1] → [1] → [5]

■ If New service message appears
When a new DVB channel is added, this unit will be informed
automatically. Then the confirmation message appears. If you
select "Yes" on the display, Auto-Setup starts (all channel settings
and all created groups are deleted. The timer recording
programmes are also cancelled.)

The display/hide setting can be changed (→ 62, New Service Message).
Playing discs

Refer to “Advanced disc playback” (32) for detail information.

Preparation

1. Turn on the television and select the appropriate video input to suit the connections to this unit.
2. Turn on this unit.

1 Press [DRIVE SELECT] to select the DVD drive.

DVD indicator lights up on the unit’s display.

2 Press [OPEN/CLOSE] on the main unit to open the tray and insert a disc.

≥ Press the button again to close the tray.

3 Press [1](PLAY).

DVD/VCD
Play starts from the most recently recorded title.

VCD
Play starts from the point specified by the disc.

CD
Play starts from the beginning of the disc.

Note

≥ A disc or title with different “TV System” (62) may not be able to play while recording or on standby for the timer recording. You will be able to playback by changing the “TV System” settings in that case, but to prevent failure of the timer recording, change back the settings before the recording starts.

≥ Depending on the disc, it may take time for the menu screen, pictures, sound, etc. to start.

≥ The producer of the disc can control how discs are played. So you may not always be able to control play as described in these operating instructions. Read the disc’s instructions carefully.

When a menu screen appears on the television

DVD/VCD
Press [A, V, <<, >>] to select the item and press [OK].

≥ Some items can also be selected using the numbered buttons.
≥ If you are instructed to press the “ENTER” button by the menu screen or the disc’s instruction document, press [OK].

VCD
Press the numbered buttons to select the item.

e.g., 5: [0] ➡ [5] 15: [1] ➡ [5]

≥ To return to the menu screen

DVD/VCD
1 Press [OPTION].
2 Press [A, Y] to select “Top Menu” or “Menu” and press [OK].

VCD
Press [RETURN].

Note

Discs continue to rotate while menus are displayed. Press [∫] when you have finished playback to protect the unit’s motor, your television screen and so on.

Menu operation for other type of contents

≥ DivX (36)
≥ MP3 (37)
≥ Still pictures (JPEG) (38)

Note

≥ A disc or title with different “TV System” (62) may not be able to play while recording or on standby for the timer recording. You will be able to playback by changing the “TV System” settings in that case, but to prevent failure of the timer recording, change back the settings before the recording starts.

≥ Depending on the disc, it may take time for the menu screen, pictures, sound, etc. to start.

≥ The producer of the disc can control how discs are played. So you may not always be able to control play as described in these operating instructions. Read the disc’s instructions carefully.
Playing a video cassette

Refer to “Advanced video cassette playback” ( 34) for detail information.

1 Insert a recorded video cassette. ( 14)
   • Play starts automatically if you insert a video cassette without the accidental erasure prevention tab.

2 Press [ ] (PLAY).
   • To pause play
     Press [ ]. (Press again, to restart play.)
   • To stop play
     Press [ ].

Note
   • If the unit is on standby with the VHS selected, an inserted video cassette can be played back by pressing [ ] (PLAY).
   • When the tape reaches its end, the unit automatically rewinds it to the beginning. This function does not work during timer recording and fast-forwarding.
   • Jet Search, cue, review or slow-motion play will be automatically cancelled after 10 minutes and pause will be automatically cancelled after 5 minutes
   • During playback functions other than normal playback, horizontal noise bars may appear on the picture, the colour of the picture may be unstable or the picture may be otherwise distorted.
   • When playing back a video cassette which was recorded on another VHS, it may be necessary to adjust the tracking ( 35). In some cases the picture quality may still be inferior. This is due to format constraints.
Recording television programmes

Refer to “Important notes for recording” (14) and “Advanced recording” (24) for detail information.

1 Press [DRIVE SELECT] to select the DVD or VHS drive.

2 Insert a disc. (14)

- If the “Format” screen appears (25), When the format confirmation screen is displayed.

or

Insert a video cassette. (14)

3 Press [A, V, CH] to select the channel.

Channels are displayed in the order of digital channels first, and then followed by analogue channels.

- Digital channel

You can also select the channel with the numbered buttons.

E.g., 5: [0] [0] [5]

15: [0] [1] [5]

115: [1] [1] [5]

- Analogue channel

You can also select the channel with the following steps.

1 Press [ANALOGUE CH].

2 Press the numbered buttons to select the channel.

E.g., 5: [0] [5]

15: [1] [5]

4 Press [REC MODE] to select the recording mode.

- Recording modes and approximate recording times (24)

5 Press [REC] to start recording.

Recording will take place on open space on disc. Data will not be overwritten.

- You cannot change the channel or recording mode during recording.

- You can record while the unit is in standby for timer recording. However, once the time for the timer recording to begin is reached, any recording taking place will stop and the timer recording will begin.

- Even if the video cassette is labelled “S-VHS”, it is not possible to record in the S-VHS system with this unit.

- When recording is paused for 5 minutes or more, the unit returns to stop.

To specify a time to stop recording—One Touch Recording

During recording Press [REC] on the main unit to select the recording time.

- You can specify up to 4 hours later.

- The unit display changes as shown below.

  OFF 0:30 OFF 1:00 OFF 1:30 OFF 2:00

  Counter (cancel) OFF 4:00 OFF 3:00

- This does not work during timer recordings (19, 29) or while using Flexible Recording (26).

To cancel Press [REC] on the main unit several times until the counter appears.

- The time to stop recording is cancelled; however, recording continues.

To stop recording Press [I].
Timer recording

Refer to “Advanced timer recording” (☞ 29–31) for detail information.

1 Press [GUIDE].

2 Press [▲, ▼, ◄, ►] to select the future programme and press [OK].

3 Press [OK].

The timer programme is stored and the timer icon is displayed.

To cancel a timer recording on the TV Guide screen
① Press [▲, ▼, ◄, ►] to select the programme in the TV Guide and press [OK]. (Confirmation screen appears.)
② Press [◄] to select “Yes” and press [OK]. (“*” in the TV Guide disappears.)

To cancel recording when recording has already begun (☞ 30)
To release the unit from recording standby (☞ 30)

Notes on timer recording (☞ 30)

Preparation

You can enter up to 16 programmes up to a month in advance.
(Each daily or weekly programme is counted as one programme.)
To use a new disc, formatting is necessary.

TV Guide system provides programme information only from the digital broadcasts station displayed on the television like a TV programme magazine.

This unit receives the programme information differently according to where you live.

Notes

* TV Guide does not work if the clock is not set correctly.
* If the unit is disconnected from the AC mains, all programme data are not updated.
* TV Guide system of this unit does not support analogue broadcasts.

Insert a disc or video cassette with enough remaining blank space and press [OK].

Using the TV Guide system to make timer recordings (Digital broadcast only)

TV Guide system data is only possible via the aerial input of this unit. The receipt of the TV Guide data via externally connected satellite receivers is not possible.

If “NTSC” has been selected for “TV System” (☞ 62), the TV Guide system cannot be used.

Turn on the television and select the appropriate video input to suit the connections to this unit.
Insert a disc or video cassette with enough remaining blank space (☞ 14).
Make sure that the clock settings are correct (☞ 64).

Guide system data via analogue broadcasts can be recorded manually or with the G-CODE system (☞ 29).

Notes on timer recording (☞ 30)
The tape starts.

In One Touch Copying, programmes are automatically copied onto [RAM]≥ [RAM].

Preparation
- Turn on the television and select the appropriate video input to suit the connection to this unit.
- When copying an NTSC tape to a DVD, change the "TV System" to "NTSC" in the Setup menu (62). This unit cannot record NTSC signals to discs that already have PAL signal recordings.

VHS (Recording source)
- Press [DRIVE SELECT] to select the VHS drive.
- Insert the video cassette containing the programme to be copied. (14)
- Press [ ] (PLAY) to play the video cassette and then press [AUDIO] to select the audio type you wish to record.
- Stop the tape at the position where you wish to start recording.

DVD (Recording target)
- Press [DRIVE SELECT] to select the DVD drive.
- [RAM] Release protection. (55)
- Insert a disc and confirm there is sufficient empty space for recording on it. (14, 54)
- Select the recording mode. (24)

1 While both DVD and VHS are stopped
Press and hold [DVD, COPYING] on the main unit for about 3 seconds or more (until "START" on the unit's display stops flashing).
- Check if copying starts properly.
- If you press [REC], the disc will automatically be finalised after copying completes. After finalising, the discs become play-only and you can play them on other DVD equipment. However, you can no longer record or edit.
- If you press [PLAY], you can start copying without finalising.
- If you press [ ], you can cancel the copy.
- Finalising will not start if copying is not completed (e.g., due to shortage of remaining disc space).

To stop copying in the middle
Press [ ] or press and hold [RETURN] for about 3 seconds or more.
- However you cannot stop finalise after it has started.

Note
- While One Touch Copying is activated, a timer recording cannot be started.
- When the copying is not started or not executed, the "COPYING" indicator blinks for about 7 seconds. Check if the unit is properly prepared.

Dividing a title to be copied
When copying from VHS to DVD, the title is divided by index signal (35) detected and then recorded. You can search desired titles with the Direct Navigator (33) after copy to DVD.
- Titles that are too short may not be divided correctly.
- The recording time may become longer than the original title depending on the number of index signals.

If you want to copy without dividing the contents into titles, follow the method below.
- Set "Time Setting" to "On" on the GUI Copy (48).

One Touch copying (VHS → DVD)

You can copy programmes recorded on a video cassette onto a disc with one stroke of the button.
In One Touch Copying, programmes are automatically copied onto the disc from the location of playback at the time when the copying of the tape starts.
You can copy titles recorded on a disc onto a video cassette with one stroke of the button. In One Touch Copying, all contents on the disc are automatically copied onto the video cassette.

1 Press and hold [VHS — COPYING] on the main unit for about 3 seconds or more (until “START” on the unit’s display stops flashing).

≥ Check if copying starts properly.
≥ Copying is automatically completed when playback of the disc is finished or the tape reaches its end.

∫ To stop copying in the middle
Press [ ] or press and hold [RETURN] for about 3 seconds or more.

∫ While One Touch Copying is activated, a timer recording cannot be started.

∫ About Recording VISS (☞ 35)
When copying from DVD to VHS, the index signal is automatically recorded for each title. You can search desired titles with [ ] or [ ].
Deleting titles

Using the DELETE Navigator to delete

1 While stopped
Press [FUNCTION MENU].

2 Press [▲, ▼] to select “Delete” and press [OK].

3 Press [▲, ▼, ◄, ►] to select the title and press [II].
A check mark is displayed. Repeat this step until you select all necessary items.
Press [II] again to cancel.

To show other pages
Press [◄, ►] to show other pages.
You can confirm the titles, that you have selected using the option menu.
Refer to option menu operations for the “Title View” (➡ 42, step 4).

4 Press [OK].

5 Press [◄, ►] to select “Delete” and press [OK].
The title is deleted.

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

Deleting during play

1 While playing
Press [◄ DELETE].

2 Press [◄, ►] to select “Delete” and press [OK].
The title is deleted.

Available disc space after deleting

RAM The space deleted becomes available for recording.

<table>

Later recorded titles

This space become available for recording after all the later recorded titles are deleted.

Available space does not increase even after the contents are deleted.
**Important notes for recording**

### Selecting Audio for Recording

**Broadcast in multi-channel sound (Digital broadcast only):**
You can select the audio language when receiving audio in multi-channel broadcast (“Multi Audio” appears at the bottom of the disc). However, audio cannot be switched after recording.

**Bilingual broadcasts (Analogue broadcast only):**
Both main and secondary audio can be recorded. You can change the audio during playback.

However, in the following cases, select whether to record the main or secondary audio:

- **Recording in LPCM**
  - Recording sound in LPCM

- **Automatic** (The default setting is “Automatic”)
  - Programme recorded using “EP” or “FR” (“recordings 5 hours or longer”)

- **Bilingual Audio Selection**
  - Programme recorded using “EP” or “FR”

It is not possible to record the broadcasts that allow “One time only recording” onto DVD-R, DVD-R DL, +R, +R DL, +RW or 8 cm DVD-RAM discs. Use CPRM (“RAM”) compatible DVD-RAM, DVD-R DL, D-R DL, etc. on this unit after recording or copying titles to them. You can then play them as a commercially sold DVD-Video.

#### Recording/Playback direction

- **M1**
  - Recording in “D-R, D-R DL, etc.”

- **M2**
  - Recording in “D-R DL, etc.”

- **M 1**
  - Recording in “D-R, D-R DL, etc.”

- **M 2**
  - Recording in “D-R DL, etc.”

- **Automatic**
  - Programme recorded using “EP” or “FR” (“recordings 5 hours or longer”)

- **Bilingual Audio Selection**
  - Programme recorded using “EP” or “FR”

#### About the aspect when recording a programme

**RAM**

- **M1**
  - Recording in “D-R, D-R DL, etc.”

- **M2**
  - Recording in “D-R DL, etc.”

**VHS**

- **M 1**
  - Recording in “D-R, D-R DL, etc.”

- **M 2**
  - Recording in “D-R DL, etc.”

- **Automatic**
  - Programme recorded using “EP” or “FR” (“recordings 5 hours or longer”)

- **Bilingual Audio Selection**
  - Programme recorded using “EP” or “FR”

**CPRM compatible discs only.**

- **RAM**
  - Recording in “D-R, D-R DL, etc.”

- **VHS**
  - Recording in “D-R, D-R DL, etc.”

- **CPRM compatible discs only.**
  - Recording in “D-R, D-R DL, etc.”

**Even when copying to videotape the title may not be copied correctly because of the copy guard.**

### When recording the “One time only recording” broadcasts

It is not possible to record the broadcasts that allow “One time only recording” onto DVD-R, DVD-R DL, DVD-RW, +R, +R DL, +RW or 8 cm DVD-RAM discs. Use CPRM (“RAM”) compatible DVD-RAM, DVD-R DL, D-R DL, etc. on this unit after recording or copying titles to them. You can then play them as a commercially sold DVD-Video. However, the discs become play-only and you can no longer record or copy.

- **You can record and copy again if you format DVD-RW.**

**If the disc failed to play on other equipment, we recommend you create top menu (57).**

### Playing the disc on other DVD players

**It is not possible to record continuously from the first layer to the second layer.**

The disc must be finalised after recording or copying (56). It is necessary to finalise DVD-R, etc. on this unit after recording or copying titles to them. You can then play them as a commercially sold DVD-Video. However, the discs become play-only and you can no longer record or copy.

- **You can record and copy again if you format DVD-RW.**

**If the disc failed to play on other equipment, we recommend you create top menu (57).**

### Recording to DVD-R DL and +R DL

- **DVD-R DL** and +R DL discs have two layers of recording surface on one side.

- **The first layer**
  - Available space

- **The second layer**
  - Available space

- **Recording/Playback direction**
  - Title 1
  - Title 2

- **It is not possible to record continuously from the first layer to the second layer.**

- **Hello**
  - The selected audio only is recorded.

- **Hola**
  - The selected audio only is recorded.
Advanced recording

Recording modes and approximate recording times

**DVD Recording Modes and Durations**
Depending on the content being recorded, the recording times may become shorter than indicated.
(The times provided on this chart are an estimate.)

†† It is not possible to record or play continuously from one side of a double sided disc to the other.
†‡ When “Recording time in EP mode” is set to “EP (6 Hours)” in the Setup menu (➡ 60).
§ The sound quality is better when using “EP (6 Hours)” than when using “EP (8 Hours)”.

- [RAM] When recording to DVD-RAM using “EP (8 Hours)” mode, play may not be possible on DVD players that are compatible with DVD-RAM. Use “EP (6 Hours)” mode if playback may be on other equipment.
- [RAM, [RDL, [RW] You can record up to 99 titles on one disc.
- [RDL, [R] You can record up to 49 titles on one disc.

FR (Flexible Recording Mode)
You can set FR (Flexible Recording) mode when copying or programming timer recordings.
The unit automatically selects a recording rate between XP and EP (8 Hours) that will enable the recordings to fit in the remaining disc space with the best possible recording quality.

For example with a 90 minute recording to an unused DVD-RAM, the picture quality is adjusted to between “XP” and “SP”.
- All the recording modes from XP to EP appear in the display.

**VHS Recording Modes and Durations**

<table>

</table>

- **AUTO Mode**
  Timer recording
  1st programme (30 min) 2nd programme (45 min)
  30 min at SP 15 min at SP 30 min at LP
  Video tape (e.g.: 60-minute cassette)
  – The tape length must be set correctly (➡ 63).
  – Picture distortion may occur when the recording mode switches.
  – This may not work correctly with some video cassettes.
  – It may not work correctly when NTSC is set as the “TV System” (➡ 62).

To prevent recording errors:
- Set a timer recording period slightly longer than the actual programme (to make sure the programme is recorded in full).
- If the image quality is important to you or if you wish to store the tape for a long period, select SP.
- The unit can play tapes recorded in LP mode on other equipment.
When the format confirmation screen is displayed

When you insert a new disc or a disc recorded on a computer or other equipment, a format confirmation screen is displayed. Format the disc to use it. However, all the recorded contents are deleted.

Press [4, 5] to select “Yes” and press [OK].

To format a disc
“Deleting all the contents of a disc—Format” (➡ 56)

When removing a recorded disc

The following screen appears when you have not processed the disc for play on other equipment.

To finalise the disc
Press (REC) on the main unit.

Notes:
- You cannot stop this process once you have started it.
- If you want to set up play menu select or provide a disc name, select “Auto-Play Select” (➡ 56) or “Disc Name” (➡ 55) in “DVD Management” before finalising.
- You can also change the drive and play while recording. Press [DRIVE SELECT].

To open the tray without disc finalisation
Press (OPEN/CLOSE) on the main unit.

Playing while you are recording

You can play DVD or VHS while recording to the other drive. The recording will not be affected.
- DVD playback (➡ 16)
- VHS playback (➡ 17)

Notes:
- You cannot watch images on a tape from the DVD priority out terminals while recording on a disc (➡ 8).
- “Chasing playback” and “Simultaneous rec and play” can only be used with programmes of the same encoding system (PAL/NTSC).

Playing from the beginning of the title you are recording—Chasing playback

Press (PLAY) during recording.

There is no sound output while searching forward or backward.

To stop play
Press [■].

To stop recording
2 seconds after play stops, press [■].

To stop timer recording
2 seconds after play stops
1 Press [■].
2 Press (4, 5) to select “Stop Recording” and press [OK].

Playing a title previously recorded while recording—Simultaneous rec and play

1 Press [DIRECT NAVIGATOR] during recording.
2 Press (4, 5) to select a title and press [OK].

To stop play
Press [■].

To exit the Direct Navigator screen
Press [DIRECT NAVIGATOR].

To stop recording
After play stops
1 Press [DIRECT NAVIGATOR] to exit screen.
2 If the recording is on the other drive
   Press [DRIVE SELECT] to select the recording drive.
3 Press [■].

To stop timer recording
After play stops
1 Press [DIRECT NAVIGATOR] to exit screen.
2 If the recording is on the other drive
   Press [DRIVE SELECT] to select the recording drive.
3 Press [■].
4 Press (4, 5) to select “Stop Recording” and press [OK].

Notes:
- Chasing playback” and “Simultaneous rec and play” can only be used with programmes of the same encoding system (PAL/NTSC).
Advanced recording

Flexible Recording

(Recording that fits the remaining disc space)

The unit sets the best possible picture quality that fits the recording within the remaining disc space. The recording mode becomes FR mode.

- Using “Flexible Rec” is convenient in these kinds of situations.
  - When the amount of free space on the disc makes selecting an appropriate recording mode difficult
  - When you want to record a long programme with the best picture quality possible

- Recording a 90 minute programme to disc

If you select XP mode, the programme will not fit one disc.

If you try to record a 90 minute programme in XP mode, only the first 60 minutes will fit on the disc and the 30 minute balance will not get recorded.

- Another disc is necessary.

If you select SP mode, the programme will fit one disc.

However there will be 30 minutes remaining disc space.

If you select “Flexible Rec” the programme will fit one disc perfectly.

Necessary space for recording

Preparation
  - Select the channel or the external input to record.
  - Press [DRIVE SELECT] to select the DVD drive.

1 While stopped
  Press [FUNCTION MENU].

2 Press [▲, ▼] to select “To Others” and press [OK].

3 Press [▲, ▼] to select “Flexible Rec” and press [OK].

4 Press [◄, ►] to select “Hour” and “Min.” and press [▲, ▼] to set the recording time.
  - You can also set the recording time with the numbered buttons.
  - You cannot record more than 8 hours.

5 When you want to start recording
  Press [▲, ▼, ◄, ►] to select “Start” and press [OK].
  - Recording starts.
  - All the recording modes from XP to EP appear in the display.

To exit the screen without recording
  Press [RETURN].

To stop recording partway
  Press [□].

To show the remaining time
  Press [STATUS ◄].

Maximum recording time

This is the maximum recording time in EP (8 Hours) mode.

Necessary space for recording

e.g., DVD-RAM
Copying from an external device

Manual recording

This unit:

Yellow White Red

S Video cable

Audio/Video cable

Other video equipment

Connect to Audio/Video output terminals.

If the audio output of the other equipment is monaural, connect to L/MONO on the AV2 input terminals at the front.

The S VIDEO terminal achieves a more vivid picture than the VIDEO terminal.

About the aspect when recording a programme (≈ 23)

Preparation

1. Press [DRIVE SELECT] to select the DVD or VHS drive.
2. Insert a disc or video cassette with enough remaining blank space (≈ 14).
3. Press [REC MODE] to select the recording mode.
4. To reduce noise in input from a video cassette recorder, set “Copy NR” to “On” in the on-screen menu (≈ 54).
5. When recording bilingual programmes (≈ 23, Selecting Audio for Recording)
6. When the output signal from the external device is NTSC, change the “TV System” to “NTSC” in the Setup menu (≈ 62).

RAM [-R] [-R] DL [-RW] [+R] [+R] DL [+RW]

= RAM Release protection (≈ 55).

= This unit cannot record NTSC signals to discs that already have PAL signal recordings.

Almost all videos and DVD-Video on sale have been treated to prevent illegal copying. Any software that has been so treated cannot be recorded using this unit.

Manual recording

1. While stopped
   Press [INPUT SELECT] to select the input channel for the equipment you have connected.
   e.g., Connecting to the AV2 terminal on the front
   You can also connect to the AV1 input terminals on the rear.
   • Turn off the unit and other video equipment before connecting.

   e.g., If you have connected to AV2 input terminals, select “A2”.

2. Start play on the other equipment.

3. When you want to start recording
   Press [REC].

Recording to DVD

Follow the above step 1.

Recording to VHS

Follow the above step 1.

4. Start play on the external device.

5. Press [•] at the point where you want to start recording.

To skip unwanted parts

Press [•] to pause recording. (Press again to restart recording.)

To stop recording

Press [■].

Note

• If it becomes time for a timer recording to start while copying, the recording will start and the copying will stop.

• If video is copied from another piece of equipment to this unit, then the video quality will be degraded.
Copying from an external device

**DV automatic recording (DV Auto Rec)**

RAM [ ] EWV [ ] RW

When the “DV Auto Rec” function is used, programmes are recorded as a title while at the same time chapters are created at each break in the images and the playlist is created automatically.

- Turn off the unit and DV equipment before connecting.

![Diagram of DV connection](image)

- Select the type of audio recording from “Audio Mode for DV Input” in the Setup menu (➡ 61).
- When recording from DV equipment (e.g., digital video camcorder), you can record audio/video recordings from DV tape only.

**Preparation**

1. Turn off the main unit and DV equipment, then connect the equipment with the unit’s DV input terminal (➡ above).
2. Turn on the main unit.

When the output signal from the external equipment is NTSC, change the “TV System” to “NTSC” in the Setup menu (➡ 62).

1. Turn on the DV equipment, and pause play at the point you want recording to start.

   The following screen appears.

   ![Screen for DV automatic recording](image)

   - When the screen is not displayed
     After performing step 1
     1. Press [DRIVE SELECT] to select the DV drive.
     2. Press [FUNCTION MENU].
     3. Press [ , ] to select “Others” and press [OK].
     4. Press [ , ] to select “DV Auto Rec” and press [OK].
     ➡ Go to step 3 (below)

2. Press [ , , ] to select “Rec to DVD” and press [OK].

3. Press [REC MODE] to select the recording mode.

4. Press [ , , ] to select “Rec” and press [OK].

Recording starts.

**When recording finishes**

The confirmation screen appears. Press [OK] to finish DV automatic recording.

To stop recording

Press [ ■ ].

**Note**

- If it becomes time for a timer recording to start while copying, the recording will start and the copying will stop.
- If video is copied from another piece of equipment to this unit, then the video quality will be degraded.
- External DV cannot be recorded to VHS.
- Only one piece of DV equipment (e.g., digital video camcorder) can be connected to the unit via the DV input terminal.
- It is not possible to operate the unit from the connected DV equipment.
- The DV input on this unit is for use with DV equipment only. (It cannot be connected to a computer, etc.)
- The DV equipment name may not be shown correctly.
- Depending on the DV equipment, the images or audio may not be input properly.
- The date and time information on the tape of the DV equipment will not be recorded.
- You cannot record and play simultaneously.

If the DV automatic recording function does not work properly, check the connections and DV equipment settings, and turn the unit off and back on. If that does not work, follow the instructions for manual recording (➡ 27).
Advanced timer recording

You can enter up to 16 programmes up to a month in advance. (Each daily or weekly programme is counted as one programme.)

To use a new disc, formatting is necessary.

Preparation
- Turn on the television and select the appropriate video input to suit the connections to this unit.
- Insert a disc or video cassette with enough remaining blank space (➡ 14).
- Make sure that the clock settings are correct (➡ 64).

Entering G-CODE numbers is an easy way of timer recording. You can find these numbers in TV listings in newspapers and magazines.

1 Press [G-Code].

2 Press the numbered buttons to enter the G-CODE number.
Press [+] to move back to correct a digit.

3 Press [OK].

4 Press [OK].

Manualy programming timer recordings

1 Press [PROG/CHECK].

3 Press [▲] to move through the items and change the items with [▲, ▼].
- When “Name” is selected, you can press the “Blue” button to change the group (e.g., TV, Radio, Edit Favourites screen (➡ 58)) and then press [▲, ▼] to select the channel you want to record.
- Press and hold [▲, ▼] to alter the Start (Start time) and Stop (Finish time) in 30-minute increments.
- You can also set Name (Programme position/TV Station Name), Date, Start (Start time), and Stop (Finish time) with the numbered buttons.
- Date
  Date: Current date up to one month later minus one day
  Daily timer: SUN-SAT → MON-SAT → MON-FRI
  Weekly timer: SUN → SAT
- You can also press [DRIVE SELECT] to select the recording drive.
- You can also press [REC MODE] to change the recording mode.
- Programme Name
  Press [▲, ▼] to select “Programme Name” and press [OK].
  (➡ 46, Entering text)

4 Press [OK].

The timer programme is stored and the timer icon is displayed.

“F” lights on the unit’s display to indicate timer recording standby has been activated.

Repeat steps 2–4 to programme other recordings.
Press [DVD/VHS] to turn the unit off.

Using G-CODE system to make timer recordings (Analogue broadcast only)

G-CODE® is a registered trademark of Gemstar Development Corporation. The G-CODE system is manufactured under license from Gemstar Development Corporation.

Entering G-code numbers is an easy way of timer recording. You can find these numbers in TV listings in newspapers and magazines.

1 Press [G-Code].

2 Press the numbered buttons to enter the G-code number.

3 Press [OK].

4 Press [OK].

The timer programme is stored and the timer icon is displayed.

“F” lights on the unit’s display to indicate timer recording standby has been activated.

Repeat steps 1–4 to programme other recordings.
Press [DVD/VHS] to turn the unit off.

Manually programming timer recordings

You can enter up to 16 programmes up to a month in advance. (Each daily or weekly programme is counted as one programme.)

To use a new disc, formatting is necessary.

Preparation
- Turn on the television and select the appropriate video input to suit the connections to this unit.
- Insert a disc or video cassette with enough remaining blank space (➡ 14).
- Make sure that the clock settings are correct (➡ 64).

G-CODE is a registered trademark of Gemstar Development Corporation. The G-CODE system is manufactured under license from Gemstar Development Corporation.

Entering G-code numbers is an easy way of timer recording. You can find these numbers in TV listings in newspapers and magazines.

1 Press [G-Code].

2 Press the numbered buttons to enter the G-CODE number.
Press [+] to move back to correct a digit.

3 Press [OK].

4 Press [OK].

The timer programme is stored and the timer icon is displayed.

“F” lights on the unit’s display to indicate timer recording standby has been activated.

Repeat steps 1–4 to programme other recordings.
Press [DVD/VHS] to turn the unit off.
Advanced timer recording

To cancel recording when recording has already begun

1 While the unit is on
   Press [DRIVE SELECT] to select the recording drive and press [■].

2 Press [◄, ►] to select “Stop Recording” and press [OK].
   If you stop a timer recording, it will be cancelled. However, if you have set a weekly, daily timer recording, the recording will start from the next time the timer recording is set.

To release the unit from recording standby

Even when the unit is turned off, you can display the timer recording list by pressing [PROG/CHECK].

1 Press [PROG/CHECK].
2 Press [▲, ▼] to select the programme and press the “Red” button.
   - The timer icon “l” (left) disappears from the timer recording list.
   - You cannot cancel timer recording standby mode as long as even one timer icon “I” (right) remains in the timer recording list.
   - Press the “Red” button again to activate timer recording standby.

Notes on timer recording

- When a timer recording is set, DVDs that were recorded using a different TV system cannot be played unless the TV system is changed in the Setup menu (p. 62) or the timer recording has completed or has been cancelled.
- Timer recordings are activated regardless of whether the unit is turned on/off.
- Timer recordings begin when the set time is reached even when playing.
- Timer recordings do not begin while editing or copying.
- If the unit is turned on when timer recording begins, it remains turned on after recording finishes. It does not turn off automatically.
- You can turn the unit off during timer recording.
- If the unit is not in the timer recording standby mode at the last 10 minutes before the programmed timer recording starting time, the “00” flashes on the unit’s display.
- When you programme successive timer recordings to start immediately one after the other, the unit cannot record the part at the beginning of the later programmes.

Check, change or delete a programme

- Even when the unit is turned off, you can display the timer recording list by pressing [PROG/CHECK].

Press [PROG/CHECK].

Icons
- Timer recording standby is activated.
- This programme is currently recording.
- Programmes are overlapped. Recording of the programme with the later start time starts when the earlier programme finishes recording.
- You stopped a weekly or daily timer recording. The icon disappears the next time the timer programme starts recording.
- The disc was full so the programme failed to record.
- The programme was copy-protected so it was not recorded.
- The programme did not complete recording because the disc is dirty or some other reason.

Drive: Recording drive is set to DVD or VHS.

Message displayed in the “Drive space” line

OK: Displayed if the recording can fit in the remaining space. DVD
   → (Date): For recordings made daily or weekly, the display will show until when recordings can be made (up to a maximum of one month from the present time) based on the time remaining on the disc.
   I: May not be possible to record because:
       - The disc is write-protected. DVD
       - There is no more space left. DVD
       - The number of possible titles has reached its maximum. DVD
       - The new timer recording will completely or partially record over this timer recording.
   !: All other recordable cases. VHS

Channel name, programme name and other information are displayed

To change a programme
Press [▲, ▼] to select the programme and press [OK]. (p. 29, right column, step 3)

To delete a programme
Press [▲, ▼] to select the programme and press [■: DELETE].
You can also delete a programme with the following steps
1 Press [▲, ▼] to select the programme and press [OPTION].
2 Press [▲, ▼] to select “Delete” and press [OK].

To exit the timer recording list
Press [PROG/CHECK].

Note
- Programmes that failed to record are deleted from the timer recording list at 4 a.m. two days later.
Operations in the TV Guide system

Basic operations
Press [GUIDE] to switch between Landscape view and Portrait view.

Landscape view

Portait view

To change channels
Landscape view
Press [ ], [ ] to select a channel.

Portrait view
Press [ ], [ ] to select a channel.
The TV Guide list appears for this channel.

To view a programme list for another day
• Jump ahead 24 hours
Press the “Green” button to jump ahead by one day.
• Jump back 24 hours
Press the “Red” button.
You can only jump back to the current date. Past information cannot be viewed.

To browse through the TV Guide list
Press [ ], [ CH].

To see programme information
(Programmes with the symbol)
Press [STATUS].
Additional information (programme name, programme duration, broadcast time, description) is available for these programmes.

Press [ ], [ ] to scroll up and down.
To show other pages
Press [CH ] (Previous) or [ CH] (Next).
Press [STATUS] again to return to the programme list.

When the TV Guide displays “No info for analogue services” or the empty TV Guide list

Press [STATUS].
The “empty” field

Selecting the programme from the desired programme type or group
This function lets you display a TV Guide list sorted by programme type (e.g. Movies, Sport) or group (e.g. Free TV, Radio).

1 From the desired programme type
Press the “Yellow” button to display the list of programme type.
From the desired group
Press the “Blue” button to display the list of groups.

2 Press [ ], [ ] to select the desired item.

3 Press [OK].

• A list appears with all programmes of the selected item.
• When you select the Landscape view, the unit displays programmes in grey that do not belong to the selected programme type.

4 Press [ ], [ , ] to select the programme.

To return to the previous TV Guide list before you have selected the programme type or groups
Select “All Types” of the programme type and “All Services” of the groups in step 2 above.

To return to the previous screen
Press [RETURN]. To exit the screen
Press [EXIT].
Advanced disc playback

Operation during play

- Depending on the media, some operations may not be possible.

Stop
Press [ ]. The stopped position is memorized.
Resume play function
Press [►] (PLAY) to restart from this position.
Stopped position
- If [ ] is pressed several times, the position is cleared in some cases.
- The position is cleared if the tray is opened.
- CD, VCD and MP3/DivX : The position is cleared if the unit is turned off.

Pause
Press [■]. Press [■] again or [►] (PLAY) to restart play.

Search
Press [◄] or [►].
- The speed increases up to 5 steps. (Press and hold to change in succession up to 3 steps)
- Press [►] (PLAY) to restart play.
- Audio is heard during first level search forward.
- DivX : Audio is heard during all levels of search.
- Audio is not heard during all levels of search.

Skip
During play or while paused, press [◄◄] or [►►].
Skip to the title, chapter or track you want to play.
- Each press increases the number of skips.
- DivX : Press [◄◄] to return to the beginning of the title currently playing.

Starting from a selected title
Press the numbered buttons.
Play starts from the selected title, chapter or track.
- MP3 and JPEG
  e.g., 9: [0] [0] [0] [5]
  15: [0] [0] [1] [5]
- Other discs
  Input a 2-digit number
  e.g., 5: [0] [5]
- This works only when stopped (the screen on the right is displayed on the television) with some discs.
  CD (with playback control)
  If you press the numbered buttons while stopped (the above screen is displayed on the television), you can cancel PBC. (Elapsed play time appears on the unit's display.)

Quick View
Press and hold [►] (PLAY) (x 1.3).
Play speed is quicker than normal.
- Press again to return to normal speed.

Slow-motion
While paused, press [◄◄] or [►►].
The speed increases up to 5 steps.
- Press [►] (PLAY) to restart play.
- CD : Forward direction [►►] only.
- The unit will pause if slow-motion play is continued for approximately 5 minutes (excluding DVD/VCD).

Frame-by-frame
While paused, press [◄] (◄◄) or [►] (►►).
Each press shows the next frame.
- Press and hold to change in succession forward or backward.
- Press [►] (PLAY) to restart play.
- CD : Forward direction [►] (►►) only.

Skipping the specified time (Time Slip)
1 Press [TIME SLIP].
2 Press [◄◄] or [►►] to select the time and press [OK].
- Each time you press [◄◄] or [►►], the time increases by 1 minute intervals. (Press and hold for 10-minute intervals.)
- This automatically disappears after approximately 5 seconds. To show the screen again press [TIME SLIP] again.

Manual Skip
Press [MANUAL SKIP].
- Each time you press, play restarts approximately 1 minute later.

Create Chapter
Press [CREATE CHAPTER].
- Chapters are divided at the point pressed.
- Press [◄◄], [►►] to skip to the start of a chapter.
Changing audio during play

Press [AUDIO].

You can change the audio channel number each time you press the button. This allows you to change things like the soundtrack language (➡ 60, Soundtrack).

Note
You cannot change the audio type in the following cases.
• When a DVD-R, DVD-R DL, DVD-RW (DVD-Video format), +R, +R DL, or +RW disc is in the disc tray while DVD drive is selected.
• When the recording mode is XP and “Audio Mode for XP Recording” is set to “LPCM” (➡ 81).

Selecting recorded programmes (titles) to play—Direct Navigator

1 Press [DIRECT NAVIGATOR].

2 Press [▲, ▼, ◀, ▶] to select the title and press [OK].

To show other pages
Press [▲, ▼, ◀, ▶] to select “Previous” or “Next” and press [OK].

To exit the screen
Press [DIRECT NAVIGATOR].
**Advanced video cassette playback**

Depending on the video cassettes, this function may not work.

<td>- At the end of the programme the tape automatically rewinds to the beginning of the programme and play starts again (it only works if there is at least 5 seconds of blank space at the end of the programme).</td>
</tr>
<tr>
<td></td>
<td>- The “R” indication appears on screen. This continues until you cancel it.</td>
</tr>
<tr>
<td></td>
<td>- Depending on the video cassette, this function may not work.</td>
</tr>
</tbody>
</table>

To restart normal playback
Press [►] (PLAY).

To stop play
Press [■].
Adjusting the playback picture

**Manual tracking**

The unit usually makes tracking adjustments automatically, but you may need to adjust it manually if noise appears on a video cassette recorded on other equipment.

**During play**

Press and hold [TRACKING/V-LOCK, +] or [TRACKING/V-LOCK, −] until the noise bars disappear.

**Vertical locking adjustment**

If the still picture shakes, perform the following operation.

**While paused**

Press and hold [TRACKING/V-LOCK, +] or [TRACKING/V-LOCK, −] until the picture stops shaking.

**To return to auto tracking**

Press both [TRACKING/V-LOCK, +] and [TRACKING/V-LOCK, −] simultaneously.

**To remove the noise from a paused picture**

Start Slow-motion play, then adjust the tracking.

**Note**

★ This function may not work with some TVs and video cassettes.

★ You can also adjust the tracking and vertical synchronization with [V CH] and [CH W] on the main unit.

**VHS Index Search System (VISS)**

The unit automatically records special index signals onto the tape every time a recording is started. The index search function makes use of these index signals to let you find the beginning of a desired programme quickly and easily.

**Index signals are recorded in the following cases.**

★ When a recording is started by pressing [REC].

★ When timer recording is started.

**While stopped or during normal play**

Press 

★ The unit automatically starts playback after the index signal is found.

★ Each press increases the number of skips.

**To cancel the index search**

Press [·].

**Note**

★ Up to 20 index signals can be searched for in both directions.

★ When you press either of the buttons too much, you can correct the number of skips by pressing the opposite button.

★ The figure on the display decreases by 1 each time an index signal is located.

★ This feature may not work correctly if the index signals are too close together. Make recordings of at least 5 minutes.

Changing audio during play

Press [AUDIO] to select the audio type. The audio changes as follows:

L R (Stereo) → L → R → – – (Normal audio track)

Various indications in on-screen display

When playing back VHS, the on-screen displays that are illustrated below can be displayed.

**Press [STATUS].**

The following displays appear.

1. VHS drive indicator

2. L and R indicators

The Left (L) and Right (R) indicators show which sound mode is selected as follows:

L R (Stereo): Hi-Fi stereo audio

L –: Mono L audio of the Hi-Fi stereo audio

– R: Mono R audio of the Hi-Fi stereo audio

– – (Normal): Normal audio

3. Recording mode

4. Operation status

5. Shows the tape counter and remaining tape time

Pressing [STATUS] to cycle the display as follows:

No display → Tape counter

Remaining tape time →

★ Press [· DELETE] to reset the tape counter (elapsed time) to 0:00.00. The tape counter is automatically reset when inserting a video cassette.

**Note**

★ The on-screen display may be distorted depending on the video cassette being played back.
Playing DivX, MP3 and still pictures

Selecting file type to play

You can play CD-R/CD-RW discs which contain MP3 files, DivX video contents or still pictures that have been recorded on a computer.

The screen shown below is displayed when you insert a disc containing DivX video contents, MP3 files and still pictures (JPEG).

When playing the file displayed on the screen
Press [OK].

When you want to play files other than the one displayed on the screen
Follow the steps below.

1 Press [RETURN].
2 Press [FUNCTION MENU].
3 Press [3, 4] to select "Playback" and press [OK].
4 Press [3, 4] to select playback mode and press [OK].

If "DivX" is selected: Go to "Playing DivX video contents" step 2 in the right column.
If "MP3" is selected: Go to "Playing MP3 files" step 2 on page 37.
If "JPEG" is selected: Go to "Playing still pictures" step 3 on page 38.

Playing DivX video contents

You can play DivX video contents recorded with a computer onto DVD-R, DVD-R DL, CD-R/CD-RW.

Preparation
Press [DRIVE SELECT] to select the DVD drive

1 Press [DIRECT NAVIGATOR]

Files are treated as titles.
When the MP3 or JPEG Menu is displayed, perform steps 1–4 in "To select file type" on the left column selecting "DivX" in step 4 to change the playback mode.

2 Press [▲, ▼] to select the title and press [OK].

Play starts on the selected title.
You can also select the title with the numbered buttons.

You cannot select folders that contain no compatible files.

Using the tree screen to find a folder

1 While the file list is displayed
Press [►] while a title is highlighted to display the tree screen.

F: Selected folder no./Total folder no. including DivX title.

You cannot select folders that contain no compatible files.

2 Press [▲, ▼] to select a folder and press [OK].
The file list for the folder appears.

To return to the previous screen
Press [RETURN].
Regarding DivX VOD content
DivX Video-on-Demand (VOD) content is encrypted for copyright protection. In order to play DivX VOD content on this unit, you first need to register the unit.
Follow the on line instructions for purchasing DivX VOD content to enter the unit’s registration code and register the unit. For more information about DivX VOD, visit www.divx.com/vod
Display the unit’s registration code, (64, “DivX Registration” in “Others” tab)

After playing DivX VOD content for the first time, another registration code is then displayed in “DivX Registration”. Do not use this registration code to purchase DivX VOD content. If you use this code to purchase DivX VOD content, and then play the content on this unit, you will no longer be able to play any content that you purchased using the previous code.
If you purchase DivX VOD content using a registration code different from this unit’s code, you will not be able to play this content. (“Authorisation Error.” is displayed.)

Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times. When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. (“Rental Expired.” is displayed.)
When playing this content:
★ The number of remaining plays is reduced by one if
   – you press [DIRECT NAVIGATOR],
   – you press [DIRECT NAVIGATOR],
   – you press [DIRECT NAVIGATOR],
   – you press [DIRECT NAVIGATOR],
   – you press [DIRECT NAVIGATOR],
   or arrive at another content or the start of the content being played.
★ Resume functions do not work.

Playing MP3 files

You can play MP3 files recorded with a computer onto a CD-R/CD-RW.

Preparation
Press [DRIVE SELECT] to select the DVD drive

1 Press [DIRECT NAVIGATOR]

G. Group No.
T. Track No. in the group
TOTAL: Track No./Total tracks in
all groups

– Files are treated as tracks and folders are treated as groups.
– When the DivX or JPEG Menu is displayed, perform steps 1–4 in “To select file type” on page 36 selecting “MP3” in step 4 to change the playback mode.

2 Press [A, V] to select the track and press [OK].

Play starts on the selected track.
★ “[ ]” indicates the track currently playing.
★ You can also select the track with the numbered buttons.
   e.g., 5: [0] [0] [0] [5]
   15: [0] [0] [1] [5]

To stop playing
Press [DIRECT NAVIGATOR]

To show other pages
Press [A, V, ]

To exit the screen
Press [DIRECT NAVIGATOR].

Using the tree screen to find a group

1 While the file list is displayed
   Press [ ] while a track is highlighted to display the tree screen.

Selected group No./Total groups
If the group has no track, “– –” is displayed as group number.

The file list for the group appears.

To return to the previous screen
Press [RETURN].
Playing DivX, MP3 and still pictures

Playing still pictures

You can playback still pictures recorded onto a CD-R/CD-RW on a PC.
Playback is not possible if recording is performed on the VHS drive.

1 Press [DRIVE SELECT] to select the DVD drive.
The DVD indicator lights up on the unit’s display.

2 Press [DIRECT NAVIGATOR].
When the DivX or MP3 Menu is displayed, perform steps 1–4 in “To select file type” on page 36 selecting “JPEG” in step 4 to change the playback mode.

To show other pages
Press [△, ▽, ←, →] to select “Previous” or “Next” and press [OK].
You can also press [△, ▽] to show other pages.

To select the still pictures in another folder (➡ right)

3 Press [△, ▽, ←, →] to select the still picture and press [OK].
You can also select still pictures with the numbered buttons.
e.g.,
5: [0] ➔ [0] ➔ [0] ➔ [5]
15: [0] ➔ [0] ➔ [1] ➔ [5]
115: [0] ➔ [1] ➔ [1] ➔ [5]
Press [△, ▽] to display the previous or next still picture.
Useful functions during still picture play (➡ right)

To return to the Picture (JPEG) View screen
Press [RETURN].

To exit the screen
Press [DIRECT NAVIGATOR].

Useful functions during still picture play

Start Slide Show

You can display still pictures one by one at a constant interval.
1 While the Picture (JPEG) View screen is displayed
Press [△, ▽, ←, →] to select “Folder” and press [OPTION].
2 Press [△, ▽] to select “Start Slide Show” and press [OK].
To change the display interval
1 Press [△, ▽] to select “Slide Interval” in step 2 and press [OK].
2 Press [△, ▽] to select “Display interval”.
3 Press [△, ▽] to select the desired interval (0–30 seconds) and press [OK].

Rotate
While playing
1 Press [OPTION].
2 Press [△, ▽] to select “Rotate RIGHT” or “Rotate LEFT” and press [OK].
Rotation information will not be stored.

Zoom in

1 Press [OPTION].
2 Press [△, ▽] to select “Zoom in” and press [OK].
To return the picture to its original size, press [△, ▽] to select “Zoom out” in step 2 and press [OK].
When zooming in, the picture may be cut off.
The enlargement information will not be stored.
The “Zoom in/Zoom out” function is only available for still pictures smaller than 640 x 480 pixels.

Zoom out

Properties
While playing
Press [STATUS] twice.
18:53:50 11.10.
Date 1. 1. 2005 No. 3 / 9
Shooting date
To exit the picture properties screen
Press [STATUS] (△).

To select the still pictures in another folder
1 While the Picture (JPEG) View screen is displayed
Press [△, ▽, ←, →] to select “Folder” and press [OK].
2 Press [△, ▽] to select the folder and press [OK].
### Convenient functions

#### FUNCTION MENU window

By using the FUNCTION MENU window you may access the main functions quickly and easily.

1. **Press [FUNCTION MENU].**

   Functions displayed depend on the selected drive or type of disc.

2. **Press [▲, ▼] to select an item and press [OK].**

   - If you select "To Others" and press [OK], the following screen appears. Press [▲, ▼] to select an item and press [OK].

   - If you press [RETURN], you can return to the previous screen.

To exit the FUNCTION MENU window

Press [FUNCTION MENU].
Linked operations with the TV (VIERA Link “HDAVI Control™")

You can enjoy linked operations with the TV and receiver by using "HDAVI Control".

**What is VIERA Link “HDAVI Control”?**

VIERA Link “HDAVI Control” is a convenient function that offers linked operations of this unit, and a Panasonic TV (VIERA) or receiver under “HDAVI Control”. You can use this function by connecting the equipment with the HDMI cable. See the operating instructions for connected equipment for operational details.

- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- This unit supports “HDAVI Control 3” function.
- “HDAVI Control 3” is the newest standard (current as of December, 2007) for Panasonic’s HDAVI Control compatible equipment. This standard is compatible with Panasonic’s conventional HDAVI equipment.
- Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.

**Preparation**

1. Connect this unit to your TV using an HDMI cable (≥9) or to your receiver using an HDMI cable (≥69).
2. Set “VIERA Link” to “On” (≥63). (The default setting is “On”.)
3. Set the “HDAVI Control” operations on the connected equipment (e.g., TV).
4. Set the input channel on VIERA to suit the terminal to be used as “HDAVI Control”.
5. Turn on all “HDAVI Control” compatible equipment and select this unit’s input channel on the connected TV so that the “HDAVI Control” function works properly.

Also when the connection or settings are changed, repeat this procedure.

**What you can do with “HDAVI Control”**

| **Download from the TV**<sup>2,3</sup> | When you connect the unit to a TV for the first time, the station list data is automatically copied from the TV to the unit and the TV stations are assigned to the programme positions on the unit in the same order as on the TV (≥10). |
| **(When the TV is on)** Easy playback | When the TV is on and the following operations are performed, the TV's input will automatically switch to HDMI input mode and the TV displays the corresponding action. (Picture or sound may not be available for the first few seconds.) Press [FUNCTION MENU]<sup>1</sup>, [►] (PLAY)<sup>3</sup>, [DIRECT NAVIGATOR], [GUIDE], [PROG/CHECK], [G-Code] etc. |
| **(When the TV is off)** Power on link | When the TV is off and the following operations are performed, the TV will automatically turn on and displays the corresponding action. (Picture or sound may not be available for the first few seconds.) Press [FUNCTION MENU]<sup>1</sup>, [►] (PLAY)<sup>3</sup>, [DIRECT NAVIGATOR], [GUIDE], [PROG/CHECK], [G-Code] etc.  
  - DVD/VCD and MP3  
    The TV is automatically turned on when you insert the discs. |
| **Power off link** | When you set the TV to standby mode, the unit is also automatically set to standby mode. The unit is automatically set to standby mode even if the FUNCTION MENU screen etc. is displayed during playback or when the unit set to a timer recording.  
  Even if the TV is set to standby mode, the unit will not be set to standby mode at the same time when recording, copying, finalising etc.  
  - When this unit is connected to an “HDAVI Control” compatible Panasonic receiver with an HDMI cable, the receiver will also turn off. |
| **Direct TV Recording**<sup>2,3</sup> | This function allows you to immediately start recording the programme that you are viewing on the TV. Refer to the TV operating instructions for operation.  
  - The titles are recorded to the DVD disc.  
  To stop recording  
  Press [●] |

<sup>1</sup>This button is available only when the unit is on.  
<sup>2</sup>When this button is pressed, the playback image is not immediately displayed on the screen and it may not be possible to watch the contents from where playback started.  
  In this case, press [◄◄] or [◄◄►] to go back to where playback started.  
<sup>3</sup>This function is available with the TV which has “HDAVI Control 3” function.

**Note**

- These functions may not work normally depending on the equipment condition.
- About “HDAVI Control” function, read the manual of the connected equipment (e.g., TV) too.
Easy control only with VIERA remote control

If you connect this unit to the TV that has "HDAVI Control 2" or "HDAVI Control 3" function with an HDMI cable, you can enjoy using more convenient functions.

You can operate this unit using the following buttons on the TV remote control:
- [3], [4], [2], [1], [OK], [RETURN], [EXIT], [OPTION] and the coloured buttons.
- Use the remote control for this unit to operate any other buttons (numbered buttons, etc.) that are not listed above.
- The TV displays the TV tuner's picture when the linked operation is finished.

Using the FUNCTION MENU window to operate this unit

This function is available with the TV which has "HDAVI Control 2" or "HDAVI Control 3" function.

Refer to the TV operating instructions for operating the TV.

1. Display this unit’s "FUNCTION MENU" window using the TV remote control.
   - If this unit is set to standby mode, it will automatically turn on.
2. Select the item you want to operate with the TV remote control, and press [OK].

Using the OPTION menu window to operate this unit

This function is available with the TV which has "HDAVI Control 2" or "HDAVI Control 3" function.

By using the TV remote control, you can play discs using the "Control Panel" (→ below) and display the Top Menu for DVD-Video.

1. Press [OPTION].
   - e.g., [FUNCTION MENU] (FUNCTION MENU window is displayed (→ above).
   - Top Menu (Top menu is displayed (→ 16).
   - Menu (Menu is displayed (→ 16).
   - Rotate RIGHT (JPEG) (Rotate the still picture (→ 38).
   - Rotate LEFT (JPEG)
   - Zoom in (JPEG) (Enlarge or shrink the still picture (→ 38).
   - Zoom out (JPEG)

Not:

You cannot use the OPTION menu while the Top Menu for DVD-Video is displayed and while DVD-Video is copying.

2. Select an item then press [OK].

Using the Control Panel

Using the Control Panel, you can operate search backward, search forward, stop, etc. with the TV remote control. Perform steps 1 and 2 of "Using the OPTION menu window to operate this unit" (→ above).

The Control Panel is displayed (→ right).
- When playing a title or DVD-Video, etc.
  - [ ]: Pause, [ ]: Stop, [ ]: Search backward, [ ]: Search forward, [OK]: Play, [EXIT]: Exit the screen.
  - While playing still pictures
  - [ ]: Stop, [ ]: View previous picture, [ ]: View next picture, [EXIT]: Exit the screen.

Control Panel

- Pause  ○ Exit
- Search  Play
- Search  Stop

When you want to leave the TV on and set only this unit to standby mode

Press [ ] on this unit’s remote control and set to standby mode.

When not using "HDAVI Control"

Set “VIERA Link” in the Setup menu to “Off” (→ 63).
Editing titles/chapters

Title/Chapter
Programmes are recorded as a single title consisting of one chapter.

<table>
<thead>
<tr>
<th>Title</th>
<th>Chapter</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start</td>
<td>End</td>
</tr>
</tbody>
</table>

RAM
You can divide a title into multiple chapters. Each section between the division points becomes a chapter. (☞ 32, 43, Create Chapter)

You can change the order of chapters and create a playlist (☞ 44).

- The maximum number of items on a disc:
  - RAM: 99 (RAM: 49 titles, 49 chapters)
  - +R: 254

Note
- Once deleted, divided or partially deleted, recorded content cannot be restored to its original state. Make certain before proceeding.
- You cannot edit during recording or copying, etc.
- Restricted recording information remains even after editing (e.g. dividing a title etc).
- RAM: Each time you edit a title the information is saved to the free space on the disc. If you do this numerous times, the amount of free space decreases.

Editing titles/chapters and playing chapters
You can modify (remove unnecessary parts, divide, etc.) recorded programmes.

Preparation
- Turn on the television and select the appropriate video input to suit the connection to this unit.
- Turn the unit on.
- Press [DRIVE SELECT] to select the DVD drive.
- RAM: Release protection (☞ 55, Setting the protection).

1 During play or while stopped
Press [DIRECT NAVIGATOR].

2 Press [▲, ▼, ◀, ▶] to select the title.

3 Press [OPTION].

4 Press [▲, ▼] to select the operation and press [OK].
  - If you select "Edit", press [▲, ▼] to select the operation and press [OK].
  - Refer to "Title operations" (☞ 43).

5 Press [▲, ▼, ◀, ▶] to select the chapter.
To start play ◄ Press [OK].
To edit ◄ Step 6.

6 Press [OPTION], then [▲, ▼] to select the operation and press [OK].
  - To show other pages/Multiple editing (☞ above)
  - Refer to "Chapter operations" (☞ 43).

To return to the previous screen
Press [RETURN].
To exit the screen
Press [DIRECT NAVIGATOR].
### Title operations

#### After performing steps 1–6 (42)

**Delete**

Press [◄, ►] to select “Delete” and press [OK].
- Once deleted, the recorded contents are lost and cannot be restored. Make certain before proceeding.
- The available recording space on DVD-R, DVD-R DL, +R DL, or +R DL does not increase when you delete titles.
- Available recording space on DVD-RW (DVD-Video format) and +RW increases only when the last recorded title is deleted. It does not increase if other titles are deleted (22).

**Properties**

- Information (e.g., time and date) is shown.
- Press [OK] to exit the screen.

</tr>
</tbody>
</table>

**Enter Name**

You can give names to recorded titles.
(46, Entering text)

**Set up Protection**

If set, this will protect the title from accidental deletion.

**Cancel Protection**

Press [◄, ►] to select “Yes” and press [OK].

The lock symbol appears when the title is protected.

**Partial Delete**

- Press [OK] at the start point and end point of the section you want to delete.
- Press [▲, ▼] to select “Finish” and press [OK].
- Press [◄, ►] to select “Delete” and press [OK].

**Change Thumbnail**

You can change an image to be shown as the thumbnail picture in the Title View.
- Press [◄] (PLAY) to start play.
- Press [OK] when you want to use as a thumbnail is shown.
- Press [▲, ▼] to select “Change”, then press [OK] at the point you want to change.

**Divide Title**

You can divide a title into two.
- Press [OK] at the point you want to divide the title.
- Press [▲, ▼] to select “Finish” and press [OK].
- Press [◄, ►] to select “Divide” and press [OK].

To confirm the division point
- Press [▲, ▼] to select “Preview” and press [OK]. (The unit plays 32 seconds before and after the division point.)

To change the division point
- Restart play and press [▲, ▼] to select “Change”, then press [OK] at the point you want to divide the title.

### Chapter operations

#### After performing steps 1–6 (42)

**Delete Chapter**

Press [◄, ►] to select “Delete” and press [OK].
- Once deleted, the recorded contents are lost and cannot be restored. Make certain before proceeding.
- Select “Combine Chapters” (below) when you only want to delete the division point between chapters.
- The recorded contents will not be deleted.

**Create Chapter**

Select the point where you want to start a new chapter while viewing the title.
- Press [OK] at the point you want to divide.
- Press [▲, ▼] to select “Finish” and press [OK].

**Combine Chapters**

Press [◄, ►] to select “Combine” and press [OK].
- The selected chapter and following chapter are combined.

* Multiple editing is possible.

For your reference
- Use Search (32), Time Slip (32) to find the desired point.
- To find the desired point correctly, use Slow-motion (32) and Frame-by-frame (32).
- To skip to the start or end of a title, press [◄, ►] (start) or [◄, ►] (end).
Creating, editing and playing playlists

You can arrange the chapters (▶ 42) to create a playlist.

<table>
<thead>
<tr>
<th>Chapter</th>

Name field: shows the text you have entered

**2**

Press [▲, ▼, ◀, ▶] to select a character and press [OK].

Repeat this step to enter other characters.

- **To delete a character**
  - Press [▲, ▼, ◀, ▶] to select the character in the name field and press [DELETE]. (The selected characters are deleted.)

- **Using the numbered buttons to enter characters**
  - e.g., entering the letter "R"
    2. Press [7] twice to highlight "R".
    3. Press [OK].

- **To enter a space**
  - Press [DELETE] and press [OK].

**3**

Press [OK] (Set).

"Writing..." appears then the screen returns to the Title view screen and so on.

To end partway

Press [RETURN].

Text is not added.

For your reference

If you enter a long name, only part of it is shown in the Top Menu after finalisation (➡️56). When entering a title name, the name that will appear in the Top Menu can be previewed in "Top Menu Preview" window.
Before copying

You can select from a variety of methods to copy on this unit.

- When you want to copy only for a limited amount of time | Cannot copy  
DVD-Video Copy (➡️ 52) |

- Since you cannot create playlists on +RW, you cannot copy them either.

---

Caution for copying from VHS to DVD

- Copy-protected video cassettes cannot be copied.
  - Most of the commercially sold/purchased video cassettes are copy-protected to prevent illegal reproduction and they cannot be copied.
  - When a copy-protected cassette is inserted, a message appears on the display and the recording stops.
  - If a video is copied from a video cassette to a DVD, the video quality will be degraded.

In order to play a DVD-R, DVD-R DL, DVD-RW (DVD-Video format), +R or +R DL recorded using this unit on another playback source, the disc must be finalised (➡️ 56).

---

Caution for copying from DVD to VHS

- Copy-protected discs cannot be copied. Most DVD-VIDEOS are copy-protected to prevent illegal reproduction and they cannot be copied.

When the playback location of the disc is memorised by the resume play function (➡️ 32) and you start copying, the copying is executed from the top of the title which contains the starting position of playback to the end of the disc.

### GUI (Graphical User Interface) Copying (VHS → DVD)

#### Preparation
- Turn on the television and select the appropriate video input to suit the connection to this unit.
- When copying an NTSC tape to a DVD, change the “TV System” to “NTSC” in the Setup menu (**62**). This unit cannot record NTSC signals to discs that already have PAL signal recordings.

#### VHS (Recording source)
- Press [DRIVE SELECT] to select the VHS drive.
- Insert the video cassette containing the programme to be copied. (**14**)
- Press [PLAY] to play the video cassette and then press [AUDIO] to select the audio type you wish to record.
- Stop the tape at the position where you wish to start recording.

#### DVD (Recording target)
- Press [DRIVE SELECT] to select the DVD drive.
- Press [RAM] Release protection. (**55**)
- Insert a disc and confirm there is sufficient empty space for recording on it. (**14, 54**)

### 1 While both DVD and VHS are stopped
Press [FUNCTION MENU].

### 2 Press [▲, ▼] to select “Copy” and then press [OK].

### 3 Set the copying direction.

#### To change the setting
1. Make sure “Copy Direction” is selected and press [▲].
2. Press [▲] “Source” to “VHS”.
3. If you are not going to change the copy direction, press [▼] and skip to step 4.

#### To change the setting
1. Make sure “Copy Mode” is selected and press [▲].
2. Press [▲] “Format” is automatically set to “VHS-Video”.
3. Make sure “Recording Mode” is selected and press [OK].
4. Press [▲] “Recording Mode” (**49**)
5. Press [▼].

### 4 Set the recording mode.
5 Set the time limit.

- If you are not going to change the recording time, press \[4\] and skip to step 6.

To change the setting

1. Make sure “Copy Time” is selected and press \[1\].
2. Make sure “Time Setting” is selected and press [OK].
3. Press \[\downarrow, \uparrow\] to select “Off” and press [OK].
4. Press \[\downarrow\].
5. Press \[\downarrow\].

- Setting the copying time

1. Press \[\downarrow, \uparrow\] to select “On” and press [OK].
2. Press \[\downarrow\] to select “Copy Time” and press [OK].
3. Press \[\downarrow, \uparrow\] to select “Hour” and “Min.” and press \[3, 4\] to set the recording time and then press [OK].
4. You can also set the time with the numbered buttons.
5. Maximum recording time is 8 hours.
6. Press \[\downarrow\].
7. Press \[\downarrow\].

6 Make sure “Start Copying” is selected and press [OK].

- The confirmation screen appears.

7 Press \[\downarrow, \uparrow\] to select “Yes” and then press [OK].

- Copying starts.
- Copying is automatically stopped when the tape reaches the end, the remaining capacity of the disc is filled.
- If “Copy & Finalise” is selected;
  - After finalising, the disc becomes play-only and you can play them on other DVD equipment.
  - However, you can no longer record or edit.
  - Finalising will not start if copying is not completed (e.g., due to shortage of remaining disc space).

■ About FR mode

When “Time Setting” is set to “Off” in step 5 above:
- The recording mode is automatically selected by estimating the remaining capacity of the disc for copying of only the recorded parts in the video cassette (unrecorded parts will not be recorded).
- When you press [OK] to start copy, the tape is automatically fast-forwarded to the end and then fast-rewound to the beginning before the copying is actually started. It may take time to start copy. If the remaining capacity of the disc is insufficient, the copying will be stopped in the middle.
- The recording is divided into titles every time the tape index signals are detected.

When “Time Setting” is set to “On” in step 5 above:
- The recording mode is automatically determined by estimating the remaining capacity of the disc for copying of the contents equivalent to the recording time set from the start point of the copying on the video cassette (unrecorded parts will also be recorded).
- The recording is not divided into titles.

■ To stop copying in the middle (process)

Press and hold [RETURN] for about 3 seconds or more.
- However you cannot stop finalise after it has started.

To return to the previous screen
Press [RETURN].
Copying titles or playlists

GUI (Graphical User Interface) Copying (DVD → VHS)

Preparation
- Turn on the television and select the appropriate video input to suit the connection to this unit.
- When copying an NTSC disc to a video cassette, change the “TV System” to “NTSC” in the Setup menu (➡ 62).

DVD (Recording source)
- Press [DRIVE SELECT] to select the DVD drive.
- Insert the disc containing the programme to be copied. (➡ 14)
- RAM | VIEW | Press [ ] (PLAY) to play the disc and then press [AUDIO] to select the audio type you wish to record.

VHS (Recording target)
- Press [DRIVE SELECT] to select the VHS drive.
- Insert a video cassette with a secure accidental erasure prevention tab. (➡ 14)

Stop the tape at the point where you want to start copying to.
- Confirm that the remaining tape time is sufficient for recording. (➡ 54)

1 While both DVD and VHS are stopped
Press [FUNCTION MENU].

2 Select “Copy” with [▲, ▼] and press [OK].

3 Set “Copy Direction”.
- Set “Source” to “DVD”.
- If you are not going to change the copy direction, press [▼], then skip to step 4.
- To change the setting
  ① Make sure “Copy Direction” is selected and press [▼].
  ② Make sure “Source” is selected and press [OK].
  ③ Press [▲, ▼] to select “DVD” and press [OK].

4 Set the recording mode.
- If you are not going to change the recording mode, press [▼], then skip to step 5.
- To change the setting
  ① Make sure “Copy Mode” is selected and press [▼].
  ② “Format” is automatically set to “VIDEO”.
  ③ Make sure “Recording Mode” is selected and press [OK].
  ④ Select recording mode with [▲, ▼] and press [OK].
  ⑤ Press [▼].

5 Register titles and playlists for copying.
- If you are going to copy a registered list without making any changes to it, press [ ], then skip to step 6.

To set for the registration
① Make sure “Create List” is selected and press [►].
② Make sure “New item” is selected and press [OK].
③ RAM | VIEW | Press the “Red” button to select “VIDEO” or press “Green” button to select “Playlists”.

③ You can also select the view by selecting “Other View” from the OPTION MENU.
  1 Press [OPTION].
  2 Make sure “Other View” is selected and press [OK].
  3 The confirmation screen appears.
  4 Press [OK].
④ Press [▲, ▼, ◄, ►] to select the title or playlist and press [ ].

④ A check mark appears. Press [ ] again to cancel. Repeat this step to until you select all necessary items.
⑤ When you switch between the “VIDEO” and “Playlists” tab, the check mark is cancelled.
⑥ The items will be copied in the order of the copying list if you want to specify the order, repeat selecting one item at a time.
⑦ To show other pages (➡ 51)
  5 Press [OK].
⑧ Press [▲, ▼].

⑧ To edit the copying list (➡ 51)
  6 Press [ ].
  7 Make sure that the value on “Size” is smaller than the value in “Destination Remaining”.
  8 Press [▼].
When you finish creating the copying list, make sure to select "Start Copying" and press [OK].

The confirmation screen appears.

Select "Yes" with [◄] and press [OK].

Copying is started.

To stop copying in the middle
Press and hold [RETURN] for about 3 seconds or more.

To return to the previous screen
Press [RETURN].

Various operations

To show other pages
Press [◄], [►], or [◄, ►] to select "Previous" or "Next" and press [OK] to show other pages.

Copying list display and convenient functions

Copying list icons

- Title with "One time only recording" restriction (➡ 81, CPRM)
- Title or playlist contains still picture(s)
- Titles and playlists that contain only still pictures cannot be copied.
- Titles and playlists displaying the following marks cannot be selected.
- NTSC/PAL
- Titles or playlists recorded using a different encoding system from that of the TV system currently selected on the unit.
- Unable to play
- Titles or playlists recorded using a different encoding system from that of the TV system currently selected on the unit.

To edit the copying list

In step 5 (➡ 50)
1. Select a desired item in the copying list with [▲, ▼] and press [OPTION].
2. Press [▲, ▼] to select the operation and press [OK].

Delete All:
Delete all items registered on the copying list.
Press [◄] to select "Yes" and press [OK].

Add:
Add new items to the copying list.
Press [▲, ▼, ◄, ►] to select the titles or playlists to be added and press [OK].

Delete:
Delete the selected item.
Press [◄] to select "Yes" and press [OK].

Move:
Move selected items or change the order of items on the copying list.
Press [▲, ▼] to select the destination and press [OK].

To cancel all registered copying settings and lists

After performing steps 1 to 2 of "GUI (Graphical User Interface) Copying (DVD → VHS)" (➡ 50),
1. Press [▲] to select "Cancel All" and press [OK].
2. Press [◄] to select "Yes" and press [OK].

The settings and lists may be cancelled in the following situations.
- When a title or a playlist has been recorded or deleted at the copying source.
- When steps have been taken, for instance, to turn off the unit or open the tray.
Copying titles or playlists

You can copy the contents of a disc being played onto a video cassette for the set time while playing the disc.

Operations and on screen displays during copying are also recorded.

Almost all DVD-Video on sale have been treated to prevent illegal copying and cannot be copied.

The following cannot be copied: Video CD, Audio CD and so on.

After performing steps 1 to 4 of “GUI (Graphical User Interface) Copying (DVD VHS)” (⇒ 50),

5 Set “Copy Time”.
   • If you are not going to change the setting, press [4], then skip to step 6.

   Setting the unit to copy according to the set time
   ① Make sure “Copy Time” is selected and press [1].
   ② Make sure “Time Setting” is selected and press [OK].
   ③ Setting the unit to copy all the content on the disc
      ④ Press [▲, ▼] to select “Off” and press [OK].
      ⑤ Press [▼].
   ⑥ Setting the copying time
      ⑦ Press [▲, ▼] to select “On” and press [OK].
      ⑧ Press [▼] to select “Copy Time” and press [OK].
      ⑨ Press [▲, ▼] to select “Hour” and “Min.” and press [3, 4] to set the recording time and then press [OK].
      • You can also set the time with the numbered buttons.
      • Maximum recording time is 8 hours.
      ⑩ Press [▼].
   ⑪ Make sure “Start Copying” is selected and press [OK].

6 Make sure “Start Copying” is selected and press [OK].

Press [▼] to select “Yes” and press [OK] to start copy.

Disc play automatically begins from title 1 when “Title 1” is selected from the “Auto-Play Select” menu when finalising the disc (⇒ 56).

7 When the top menu is displayed
   Press [▲, ▼, ◄, ►] to select the title you want to start copying and press [OK].
   • While playing in order, all the titles after the selected title are recorded until the set time.
   • After the last title on the disc has finished playing the top menu is recorded until the set time is reached.

   To stop copying in the middle
   Press [∫] or press and hold [RETURN] for about 3 seconds or more.

   To return to the previous screen
   Press [RETURN].
Using on-screen menus

Preparation
- Press [DRIVE SELECT] to select the DVD drive.

Common procedures

1 Press [DISPLAY].

2 Press [▲, ▼] to select the menu and press [▶].

3 Press [▲, ▼] to select the item and press [▶].

4 Press [▲, ▼] to select the setting.

≥ Some items can be changed by pressing [OK].

To clear the on-screen menus
Press [DISPLAY].

- Chapter
- Group
- PL (Playlist)
- Title
- Track
- CO VCD and MP3

Select “Off” to cancel.
Using on-screen menus/Status message

Picture menu—Change the picture quality

Playback NR
Reduces noise and picture degradation.

Progressive (81)
Select "On" to enable progressive output. Select "Off" if the picture is stretched horizontally.

Transfer (When "Progressive" is set to "On")
Select the method of conversion for progressive output to suit the type of title being played (81, Film and video).

During playback or recording
Press [STATUS ].
The display changes each time you press the button.

Picture menu—Change the picture quality

When the output signal is PAL
• Auto: Automatically detects the film and video content, and appropriately converts it.
• Video: Select when using "Auto", and the content is distorted.
• Film: Select this if the edges of the film content appear jagged or rough when "Auto" is selected. However, if the video content is distorted as shown in the illustration to the right, then select "Auto".

When the output signal is NTSC
• Auto1: Automatically detects the film and video content, and appropriately converts it.
• Auto2: In addition to "Auto1", automatically detects film contents with different frame rates and appropriately converts it.
• Video: Select when using "Auto1" and "Auto2", and the content is distorted.

Copy NR (Only when AV1, AV2 or DV is selected)
Reduces video tape noise while copying.

• Automatic: Noise reduction only works on picture input from a video tape.
• On: Noise reduction works for input video.
• Off: Noise reduction is off. You can record the input signal as it is.

Sound menu—Change the sound effect

DVB Multi Audio
(Digital channel only)
If more than one audio channel is output, you can set the desired channel before recording.
• DVB Multi Audio cannot be selected during playback or recording.
• Depending on the broadcast, the items that can be selected will differ.

• English
• German
• Italian
• French
• Spanish
• Original
"Original" is displayed when a broadcast is only available in the original language.

V.S.S.
(Dolby Digital, MPEG, 2-channel or over only)
Enjoy a surround-like effect if you are using two front speakers only.
• Turn V.S.S. off if it causes distortion. (Check the surround function on the connected equipment.)
• V.S.S. does not work for bilingual recordings.

Dialog Enhancer
(Dolby Digital, 3-channel or over only, including a centre channel)
The volume of the centre channel is raised to make dialogue easier to hear.

Other menu—Change the display position

Position
1–5: The higher the setting the lower the on-screen menu moves.

Status messages
During playback or recording
Press [STATUS ].
The display changes each time you press the button.

Title number and elapsed time during play/Recording mode
Available recording time and recording mode

No display
Disc management

Preparation
- Press [DRIVE SELECT] to select the DVD drive.
- RAM - Release protection (right).

Common procedures

1. While stopped
   Press [FUNCTION MENU].
2. Press [▲, ▼] to select “To Others” and press [OK].

Setting the protection

5. Press [◄, ►] to select “Yes” and press [OK].

The lock symbol appears closed when the disc is write-protected.

To return to the previous screen
Press [RETURN].

To exit the screen
Press [EXIT].

Providing a name for a disc

You can provide a name for each disc.

4. Press [▲, ▼] to select “Disc Name” and press [OK].

The disc name is displayed in the DVD Management window.

To return to the previous screen
Press [RETURN].

To exit the screen
Press [EXIT].

Common procedures

1. While stopped
   Press [FUNCTION MENU].
2. Press [▲, ▼] to select “To Others” and press [OK].

Setting the protection

5. Press [◄, ►] to select “Yes” and press [OK].

The lock symbol appears closed when the disc is write-protected.

To return to the previous screen
Press [RETURN].

To exit the screen
Press [EXIT].

Providing a name for a disc

You can provide a name for each disc.

4. Press [▲, ▼] to select “Disc Name” and press [OK].

The disc name is displayed in the DVD Management window.

To return to the previous screen
Press [RETURN].

To exit the screen
Press [EXIT].

Cartridge-protection

For a DVD-RAM with a cartridge
- With the write-protect tab in the protect position, play automatically starts when inserted in the unit.

Providing a name for a disc

You can provide a name for each disc.

4. Press [▲, ▼] to select “Disc Name” and press [OK].

The disc name is displayed in the DVD Management window.

To return to the previous screen
Press [RETURN].

To exit the screen
Press [EXIT].
Disc management

Deleting all titles and playlists—Delete all titles

RAM

After performing steps 1–3 (55)

4 Press [▲, ▼] to select “Delete all titles” and press [OK].
5 Press [◄, ►] to select “Yes” and press [OK].
6 Press [◄, ►] to select “Start” and press [OK].
A message appears when finished.

7 Press [OK].

Note
• Once deleted, the recorded contents are lost and cannot be restored. Make certain before proceeding.
• Deleting all video titles will result in all playlists also being deleted.
• Delete does not work if one or more titles are protected.

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

Deleting all the contents of a disc—Format

RAM | RW | RWV | VRW | VR

Note
Formatting deletes all contents (including computer data), and they cannot be restored. Check carefully before proceeding. The contents are deleted when you format a disc even if you have set protection.

After performing steps 1–3 (55)

4 Press [▲, ▼] to select “Format Disc” and press [OK].
5 Press [◄, ►] to select “Yes” and press [OK].
6 Press [◄, ►] to select “Start” and press [OK].
A message appears when formatting is finished.

To stop formatting
Press [EXIT].

Note
• When a disc has been formatted using this unit, it may not be possible to use it on any other equipment.
• If [RAM] is selected, formatting cannot be performed on the disc.
• You can format DVD-RW only as DVD-Video format on this unit.

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

Selecting whether to show the Top Menu first—Auto-Play Select

RAM | RW | RWV | VRW | VR

You can select whether to show the top menu after finalising.

After performing steps 1–3 (55)

4 Press [▲, ▼] to select “Auto-Play Select” and press [OK].
5 Press [▲, ▼] to select “Top Menu” or “Title 1” and press [OK].

Top Menu: The top menu appears first.
Title 1: The disc content is played without displaying the top menu.

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

Enabling discs to be played on other equipment—Finalise

RAM | RW | RWV | VRW | VR

Make selections from “Auto-Play Select” (above) before finalising the disc.

After performing steps 1–3 (55)

4 Press [▲, ▼] to select “Finalise” and press [OK].
5 Press [◄, ►] to select “Yes” and press [OK].
6 Press [◄, ►] to select “Start” and press [OK].
A message appears when finalising is finished.

To stop finalising
Press [EXIT].

Note
When finalising a high-speed recording compatible disc, it may take longer than displayed on the confirmation screen (approximately four times).

After finalising
• [RAM] | [RW] | [RWV] | [VRW] | [VR] The disc becomes play-only and you can no longer record or edit.
• [RWV] You can record and edit the disc after finalising (left) although it becomes play-only after finalising.
• [VRW] Titles are divided into about 5-minute (8-minute) chapters.
• [VR] This time varies greatly depending on the condition and mode of recording.
• [VR] There is a pause of several seconds between titles and chapters during play.

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].
Creating Top Menu—Create Top Menu

+RW discs contain no Top Menu data. Top Menu is a convenient function. We recommend you create the menu before playing a +RW disc on other equipment.

You cannot use the Top Menu for playing on this unit.

Make selections from "Auto-Play Select" (➡ 56) before creating top menu.

After performing steps 1–3 (➡ 55) 4 Press [3, 4] to select “Create Top Menu” and press [OK].
5 Press [2, 1] to select “Yes” and press [OK].
6 Press [2, 1] to select “Start” and press [OK].

Creating Top Menu starts. You cannot cancel creating.

Creating Top Menu can take a few minutes.

7 Press [OK].

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

Note
• You can record or edit discs after creating the Top Menu. But the created menu is deleted when you record or edit disc. In such cases, create the Top Menu again by using “Create Top Menu”.

Close First Layer

DVD-R DL and +R DL discs have two layers of recordable surfaces on one side. This unit does not offer seamless recording between the two layers. Recording stops when space on the first layer is full. The first layer must be closed to start recording on the second layer. Closing the first layer makes it unavailable for recording (editing is still possible). You cannot cancel closing. Make certain before proceeding.

After performing steps 1–3 (➡ 55)
5 Press [2, 1] to select “Yes” and press [OK].
6 Press [2, 1] to select “Start” and press [OK].

Closing the layer starts. You cannot cancel closing.

Closing a layer can take a few minutes or up to a maximum of 30 minutes, depending on the remaining space on the disc.

Note
• Do not disconnect the AC mains lead while closing. This can render the disc unusable.

7 Press [OK].

To return to the previous screen
Press [RETURN].
To exit the screen
Press [EXIT].

To confirm the remaining recording time on the layer

Note
• You cannot close the first layer when there are no recordings on it.
## Changing the unit's settings

You can change the unit's settings using Setup menu.
- The settings remain intact even if you switch the unit to standby.

### Common procedures

1. **While stopped**  
   Press [FUNCTION MENU].

2. **Press [▲, ▼] to select “To Others” and press [OK].**

3. **Press [▲, ▼] to select “Setup” and press [OK].**

4. **Press [▲, ▼] to select the tab and press [►].**

5. **Press [▲, ▼] to select the menu and press [OK].**

6. **Press [▲, ▼] to select the option and press [OK].**

To return to the previous screen  
Press [RETURN].

To exit the screen  
Press [EXIT].

### Tuning

#### Edit Favourites

You can create four groups of channels for making viewing and recording easier. Editing these groups does not affect the channel setting itself.
- Timer recording may not work correctly if you edit the groups during timer recording standby.

Press the “Green” button to select the groups.

1. **To add channels to a group**  
   - Press [▲, ▼] to select the channel in the “All Services” column and press the “Yellow” button.
   - Repeat this step to add other channels.
   - Press the “Blue” button to add all the available channels to the group. (This function is available only when no channels have been added to the group.)

2. **Press [OK] to save the group.**

3. **To change the order of channels of a group**  
   - Press [►].
   - Press [▲, ▼] to select the channel in the “Favourite” column to move and press the “Green” button.
   - Press [▲, ▼] to select the new position of the channel and press the “Green” button.
   - Repeat the steps 2 – 3 to move other channels.

4. **Press [OK] to save the group.**

5. **To delete channels on a group**  
   - Press [►].
   - Press [▲, ▼] to select the channel in the “Favourite” column and press the “Yellow” button.
   - Repeat this step to delete other channels.
   - Press the “Blue” button to delete all the channels from the group.

6. **Press [OK] to save the group.**

   Deleting a channel from a group does not affect the channel itself. You can still select the channel from the “All Services” group.

7. **To change the name of a group in the “Favourite” column**  
   - Press [►].
   - Press the “Red” button.  
   - Press the “Green” button.  
   - Press the “Blue” button.  
   - Press the “Yellow” button.  
   - Repeat the steps 1 – 6 to move other channels.

#### Auto-Setup Restart

Download from TV

You can restart auto channel setting if set up (☞ 10) fails for some reason.
However, if you perform “Auto-Setup Restart”, the order of analogue channels will change.

Select “Download from TV” when you connect the unit to a VIERA Link (HDAVI Control 3) compatible TV with an HDMI cable.

When the confirmation screen appears  
Press (◄, ►) to select “Yes” and press [OK].

You can also use the following method to restart Auto-Setup.

Press and hold [- CH] and [CH +] on the main unit until the Auto-Setup screen appears.

All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.
### Settings for Digital Services

Press [OK] to show the following settings.

**DVB Manual Tuning**

You can set channels manually that the DVB Auto-Setup could not complete successfully.

2. Press [A, Y] to select the channel you want to set.
3. Press [Ʉ, ] to adjust the frequency.
   - The frequency rises and falls in steps of 0.5 MHz.
   - Adjust the frequency by checking the signal strength and signal quality displays.
   - Refer to “Signal Condition” (below) for signal quality and signal strength.
4. Press [OK] to start scan.
5. The set channel is displayed in the table.
6. Press [EXIT] and press [Ʉ, CH] to check that applicable channels have been selected.

**Add New DVB Services**

You can search for newly added terrestrial digital channels to receive.

   - The unit starts searching for newly available terrestrial digital channels. This takes about 5 minutes.
2. A message is displayed when the search is finished.
   - “No new services found” is displayed when no new services can be found.
3. Press [OK] to save the newly found channels.

**Signal Condition**

You can check the quality and strength of digital broadcast signals. Realignment the aerial if you are receiving a poor signal.

When “Signal Condition” is displayed in grey and cannot be selected:
1. Press [EXIT] to exit the screen.
2. Press [Ʉ, CH] to select a digital channel. “D” appears on the unit’s display.
3. Display the Setup menu again (58).

Press [A, Y] to select “Signal Condition” and press [OK].

- The quality and strength of the signal are shown.
- Press [Ʉ, CH] to select the channel.

**Signal Quality**

Below 2 (display red): The signal quality is so poor that there may be interference in the pictures and sound.

2–5 (display orange): The signal quality is basically adequate, but brief interference in the pictures and sound is possible in isolated cases.

Over 5 (display green): Optimum picture and sound quality.

**Signal Strength**

The display for signal strength is grey. “0” means signal strength 0%, “10” means signal strength 100%.

- If the signal is too strong, the display will change from grey to red.
- Reduce the signal amplification at your aerial.
- Check the aerial reception with "DVB Manual Tuning" in the Setup menu (above).
- Check that the current digital broadcast channel is correctly broadcasting.

### Settings for Analogue Services

Press [OK] to show the following setting.

**Manual Tuning**

You can delete analogue channels and set the analogue channel details.

To delete a programme position

Press [A, Y, Ʉ, ] to select a programme position and press the “Red” button.

To change the tuning settings for individual programme position

2. Press [A, Y] to select an item and press [Ʉ].

<table>
<thead>
<tr>

Changing the unit’s settings

Disc

(All factory default settings are indicated with underlined text.)

Settings for Playback

Press [OK] to show the following settings.

Ratings

Set a ratings level to limit DVD-Video play.

Follow the on-screen instructions. Enter a 4-digit password with

the numbered buttons when the password screen is shown.

Do not forget your password.

Setting ratings (When level 8 is selected)

[No Limit] All DVD-Video can be played.

[1 to 7] Prohibits play of DVD-Video with corresponding

ratings recorded on them.

[0 Lock All] Prohibits play of all DVD-Video.

Changing settings (When level 0 to 7 is selected)

Unlock Recorder Change Password Change Level Temporary Unlock

Subtitle

[Automatic] If the language selected for “Soundtrack” is not

available, subtitles of that language will automatically appear if available on that disc.

[English] [German] [French] [Italian]

Still Mode

Select the type of picture shown when you pause play (➡ 81, Frames and fields).

[Automatic] Select if jittering occurs when “Automatic” is

selected. (The picture is coarser.)

[Field] Select if small text or fine patterns cannot be

seen clearly when “Automatic” is selected. (The picture is clearer and finer.)

Seamless Play

Select the play mode between playlist chapter segments and

partially deleted titles.

[On] The chapters in playlists are played seamlessly. This does

not work when there are several audio types included on

the playlist and when using Quick View (PLAY ▶ 1.3). Additionally, the positioning of chapter segments may

change slightly.

[Off] The points where chapters in playlists change are played

accurately, but the picture may freeze for a moment.

Settings for Recording

Press [OK] to show the following settings.

Recording time in EP mode

Select the maximum number of hours for recording in EP mode

(➡ 24, Recording modes and approximate recording times).

[EP (6 Hours)] You can record for 6 hours on an unused

4.7 GB disc.

[EP (8 Hours)] You can record for 8 hours on an unused

4.7 GB disc.

• The sound quality is better when using “EP (6 Hours)” than

when using “EP (8 Hours)”.

Aspect for Recording

Sets the aspect ratio when recording or copying.

[Automatic] The programme will be recorded in the original

aspect used when recording started (including when recording started at a commercial, etc.).

[16:9] [4:3] When the recording mode is set to “EP” or

“FR (recordings 5 hours or longer)” mode.

– When recording or copying to +R, +R DL and +RW.

Picture

(All factory default settings are indicated with underlined text.)

Comb Filter

Select the picture sharpness when recording.

The setting is fixed with “On” if you set “TV System” to “NTSC”

(➡ 62).

[On] Pictures become clear and vivid. Normally, use this

setting.

[Off] Select it when recording noisy pictures.

Still Mode

Select the type of picture shown when you pause play (➡ 81, Frames and fields).

[Automatic] Select if jittering occurs when “Automatic” is

selected. (The picture is coarser.)

[Field] Select if small text or fine patterns cannot be

seen clearly when “Automatic” is selected. (The picture is clearer and finer.)

Seamless Play

Select the play mode between playlist chapter segments and

partially deleted titles.

[On] The chapters in playlists are played seamlessly. This does

not work when there are several audio types included on

the playlist and when using Quick View (PLAY ▶ 1.3). Additionally, the positioning of chapter segments may

change slightly.

[Off] The points where chapters in playlists change are played

accurately, but the picture may freeze for a moment.

Some discs start in a certain language despite any changes you

make here.
Sound

Dynamic Range Compression

(Dolby Digital only)
Change the dynamic range for late night viewing.

[On] [Off]

Bilingual Audio Selection

(Analogue broadcast only)
Select whether to record the main or secondary audio type when:

- Recording or copying to a DVD-R, DVD-R DL, DVD-RW (DVD Video format), +R, +R DL and +RW.
- Recording or copying sound in LPCM (right, “Audio Mode for XP Recording”).

On
M 1
M 2
Off

- You cannot select the audio on this unit when recording from an external source, such as when copying from a video cassette recorder (except from DV equipment connected to this unit’s DV input terminal). Select the audio on the other equipment.
- When recording from the unit’s DV terminal, select the type of audio recording from “Audio Mode for DV Input” (right).

Digital Audio Output

Change the settings when you have connected equipment through this unit’s DIGITAL AUDIO OUT terminal (68).

- Press [OK] to show the following settings.

PCM Down Conversion

Select how to output audio with a sampling frequency of 96 kHz.

- Signals are converted to 48 kHz despite the settings below if the signals have a sampling frequency of over 96 kHz, or the disc has copy protection.

[On] Signals are converted to 48 kHz. (Choose when the connected equipment cannot process signals with a sampling frequency of 96 kHz.)

[Off] Signals are output as 96 kHz. (Choose when the connected equipment can process signals with a sampling frequency of 96 kHz.)

Dolby Digital

Select how to output the signal.

- Select “Bitstream” if the connected equipment decodes the signal.
- Select “PCM” if this unit decodes the signal and outputs it as 2 channels.
- Not making the proper settings may result in noise.

- Bitstream When connecting to equipment displaying the Dolby Digital logo.

- PCM When connecting to equipment not displaying the Dolby Digital logo.

DTS

Select how to output the signal.

- Select “Bitstream” if the connected equipment decodes the signal.
- Select “PCM” if this unit decodes the signal and outputs it as 2 channels.
- Not making the proper settings may result in noise.

- Bitstream When connecting to equipment displaying the DTS logo.

- PCM When connecting to equipment not displaying the DTS logo.

MPEG

Select how to output the signal.

- Select “Bitstream” if the connected equipment decodes the signal.
- Select “PCM” if this unit decodes the signal and outputs it as 2 channels.
- Not making the proper settings may result in noise.

- Bitstream When connected to equipment with a built-in MPEG decoder.

- PCM When connected to equipment without a built-in MPEG decoder.
Changing the unit’s settings

**Display**

(All factory default settings are indicated with underlined text.)

**On-Screen Messages**

Choose the approximate time until the digital channel information screen (➡ 15) disappears automatically.

The length of time the control panel (➡ 41) is displayed can also be changed, but "Off" does not work.

- [Off] (The digital channel information is not displayed.)
- [3 sec.]  
- [5 sec.]  
- [7 sec.]  
- [10 sec.]

**Grey Background**

Select "Off" if you do not want to have the unit show the grey background when tuner reception is weak.

- [On]  
- [Off]

**FL Display**

Changes the brightness of the unit's display.

This setting is fixed with “Automatic” if you set “Power Save” (➡ 64) to “On”.

- [Bright]  
- [Dim]  
- [Automatic]  

This display turns dark during play and disappears when the unit is turned off. It reappears momentarily if a button is pressed. While using this mode, the standby power consumption can be reduced.

**New Service Message (➡ 15)**

When a new DVB channel is added this unit will be informed automatically. Then the confirmation message appears. If you select “Yes” on the display, Auto-Setup starts (all channel settings and all created categories are deleted. The timer recording programmes are also cancelled.).

- [Automatic]  
- [Off]

The service messages are not shown.

**Connection**

(All factory default settings are indicated with underlined text.)

Depending on the connected equipment, some items may be shaded in grey on the display and cannot be selected, or you may not be able to change the settings.

**TV Aspect**

Set to match the type of television connected.

- [Pan & Scan] When connected to a 4:3 aspect television, side picture is trimmed for 16:9 picture.
- [Letterbox] When connected to a 4:3 aspect television, 16:9 picture is shown in the letterbox style.

**Progressive**

You can enjoy progressive video by connecting this unit’s COMPONENT VIDEO OUT terminals to an LCD/plasma television or LCD projector compatible with progressive scan.

- [On]  
- [Off]

**Note**

- When connected to a regular television (CRT: Cathode ray tube) or a multi system television using PAL mode, even if it is progressive compatible, progressive output can cause some flickering. Turn off “Progressive” if you are concerned about it.
- Picture will not be displayed correctly if connected to an incompatible television.

**TV System**

Change the setting to match the equipment you are connecting with.

- [PAL]  
- [NTSC]

**Note**

- The unit cannot record NTSC signals to discs that already have PAL signal recordings.
- If “NTSC” has been selected, the TV Guide system cannot be used.
- A disc or title with different "TV System" may not be able to playback while recording or on standby for the timer recording. You will be able to playback by changing the "TV System" settings in that case, but to prevent failure of the timer recording, change back the settings before the recording starts.

**To change the setting all at once (PAL—NTSC)**

While stopped, keep pressing [■] and [OPEN/CLOSE] on the main unit at the same time for 5 or more seconds.
**HDMI Settings**

- Press [OK] to show the following settings.

**HDMI Video Format**
You can only select items compatible with the connected equipment. This setting normally does not need to be changed. However, if you are concerned about output picture quality, it may be improved by changing the setting.

- To enjoy High Quality Video up-converted to 1080p, you need to connect the unit directly to a 1080p compatible HDTV. If this unit is connected to an HDTV through other equipment, it must also be 1080p compatible.

  - [576i/480i]
  - [576p/480p]
  - [720p]
  - [1080i]
  - [1080p]

  When setting video output to “1080p”, we recommend using High Speed HDMI Cables that have the HDMI logo (as shown on the cover) and are less than 5.0 meters to prevent video distortion etc.

- [Automatic]
  - Automatically selects the output resolution best suited to the connected television (1080p, 1080i, 720p, 576i/480p or 576i/480i).

**Aspect for 4:3 Video**
To play a 4:3 title when connected with an HDMI cable, set how to show pictures on a 16:9 widescreen television.

- [4:3]
  - Picture output expands left or right.

- [16:9]
  - Picture is output as original aspect with side panels.

**Digital Audio Output**

- [HDMI and Optical]
  - Select when this unit is connected to an amplifier with an optical digital audio cable and connected to a TV with an HDMI cable, and you want to enjoy the highest quality of audio from discs (= 69).

- [Optical Only]
  - Select when this unit is connected to a device that supports “HDAVI Control”.

**VIERA Link**
Set to use “HDAVI Control” function when connected with an HDMI cable to a device that supports “HDAVI Control”.

- [On]
- [Off]

---

**VHS**

(All factory default settings are indicated with underlined text.)

**Tape Length**
Set the length of the tape you are using so the unit can show the correct remaining time.

- [Auto (E-240)]
  - The VHS automatically distinguishes E30, -60, -90, -120, -180, and -240 tapes.

- [E-195]
  - For E195 tape

- [E-260]
  - For E260 tape

- [E-300]
  - For E300 tape

**SQPB**
To play back video cassettes recorded in S-VHS format (SQPB; S-VHS Quasi Playback)

- [Automatic]
  - This unit automatically detects the format in which the recording was made and selects the same format for playback. However, picture distortion may appear.

- [On]
  - Use this setting when playing back a cassette tape recorded in the S-VHS format.

- [Off]
  - Use this setting when playing back a cassette tape recorded in the VHS format only.
Changing the unit’s settings

Others
(All factory default settings are indicated with underlined text.)

Remote Control
Change the remote control code on the main unit and the remote control (the two must match) if you place other Panasonic products close together.

[DVD 1] [DVD 2] [DVD 3]
Use ‘D1’, the factory set code, under normal circumstances.

1 Press [A, V] to select the code (“DVD 1”, “DVD 2” or “DVD 3”) and press [OK].

To change the code on the remote control
2 While pressing [OK], press and hold the numbered button ([1], [2] or [3]) for more than 5 seconds.
3 Press [OK].

■ When the following indicator appears on the unit’s display

The unit’s remote control code

Change the code on the remote control to match the main unit’s (⇒ step 2).

Note
Executing “Shipping Condition” in the Setup menu returns the main unit code to “D1”. Change the remote control code to 1 (⇒ step 2).

Clock
This unit usually obtains time and date information from digital broadcasts and automatically corrects the time several times a day. However, if the time is not set correctly use the settings listed in the method below.

• In the case of a power failure, the clock setting remains in memory for approximately 60 minutes.

2 Press [〈, 〉] to select the item you want to change.
3 Press [〈, 〉] to change the setting.
You can also use the numbered buttons for setting.
4 Press [OK] when you have finished the settings.
The clock starts.

Note
If a TV station transmits a time setting signal, and when “Automatic” in the Clock setting menu is set to “On”, the automatic time correction function checks the time and if necessary it is adjusted several times every day.

■ To change the Region
2 Press [A, V] to select the correct region and press [OK].
Auto clock setting starts. This takes a few minutes.
“Automatic clock setting completed.” screen is displayed.
3 Press [RETURN] to exit the screen.

Power Save
[On] Power consumption is minimized when the unit is turned to standby (⇒ 60).
[Off]
(If “Quick Start” is set to “On”, “Power Save” is automatically turned to “Off”)
• Refer to the following when “Power Save” is set to “On”.
  – FL Display is automatically set to “Automatic” (⇒ 62).
  – The “Quick Start” function does not work. (It is automatically turned to “Off”)

Quick Start
1 Sec. Quick Start for Recording & EPG Display
(When connecting to TV using COMPONENT VIDEO, VIDEO or S VIDEO terminals)
From the power on, recording on DVD-RAM starts in about 1 second after the REC button is pressed. (If the GUIDE button is pressed while the unit is off, the Electronic Program Guide (EPG) displays in less than 1 second.) (Quick Start Mode)

[On] Standby power consumption is less than when this is set to “Off”.
(If this is set to “On”, “Power Save” is automatically turned to “Off”)
• Startup takes up to a minute when:
  – You play a disc or start recording to discs other than DVD-RAM.
  – You want to make other operations.
  – The clock has not been set.
• Depending on the type of TV or the connected terminal, it may take time to display the screen.

DivX Registration
You need this registration code to purchase and play DivX Video-on-Demand (VOD) content (⇒ 37).
System Update
In order to update this unit’s software, the TV Guide download, and to support system changes made by broadcasts, the unit periodically performs software updates.
Press [OK] to show the following settings.

- Update data and TV Guide download information is sent by an unscheduled digital broadcast. In order to receive these updates, you must be able to receive digital broadcasts.
- An update will take approximately 60 minutes. While the update is in progress, “SW-DL” appears on the unit’s display. You cannot operate the unit until the update is complete. Removing the AC mains lead while the update is in progress may damage the unit.
- TV Guide download will take approximately 60 minutes. While the TV Guide download is in progress, “GUIDE” appears on the unit’s display. The TV Guide download can be interrupted by switching on the unit.

TV Guide Download in Standby
[On] When you set this unit to standby mode, TV Guide data is downloaded automatically.
[Off]

Software Update in Standby
[On] When you set this unit to standby mode, software updates are downloaded automatically.
[Off]

TV Guide/Software search period
Selects the time to automatically perform TV Guide download and updates when the unit is set to standby mode. This can only be set when “TV Guide Download in Standby” and “Software Update in Standby” is set to “On”.

- If a programmed recording set for the time you have selected, the programmed recording will be given priority.
- The unit will give priority to searching for TV Guide download and update data at midnight.

Software Update Search Now
Start the search for new software manually. A new software version is announced by a message. Do not turn your unit off during the update. This could result in the loss of data. A message shows that the update has finished.
If a new software version is not going to be broadcast for the next few days, a corresponding message also appears.
- If applicable update data is found, press [2, 1] to select “Yes” and press [OK].

Initialize
Press [OK] to show the following settings.

Shipping Condition
All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.
[Yes] [No]

Default Settings
All the settings other than the tuning settings, clock settings, region settings, disc language settings, ratings level, ratings password, remote control code, return to the factory presets.
[Yes] [No]

---

2. Test by turning on the television and changing channels.
   - Repeat the procedure until you find the code that allows correct operation.
   - If your television brand is not listed or if the code listed for your television does not allow control of your television, this remote control is not compatible with your television.

**Note**
- If your television brand has more than one code listed, select the one that allows correct operation.

### Child Lock

The Child Lock deactivates all buttons on the unit and remote control. Use it to prevent other people from operating the unit.

Press and hold [OK] and [RETURN] simultaneously until “X HOLD” appears on the unit’s display.

If you press a button while the Child Lock is on, “X HOLD” appears on the unit’s display and operation is impossible.

To cancel the Child Lock
Press and hold [OK] and [RETURN] simultaneously until “X HOLD” disappears.
**Additional connections**

* Leave “Yellow” unconnected.

### Connecting a television with S VIDEO terminals

The S VIDEO OUT terminal achieves a more vivid picture than the VIDEO OUT terminal. (Actual results depend on the television.)

![Diagram of S VIDEO connections](image)

Connect to terminals of the same colour.

If you have a regular television (CRT: cathode ray tube)

Progressive output may cause some flickering, even if it is progressive compatible. Turn off “Progressive” if you are concerned about it (➡ 62).

This is the same for multi system televisions using PAL mode.

### Connecting a television with COMPONENT VIDEO terminals

COMPONENT VIDEO terminals can be used for either interlace or progressive output (➡ 81) and provide a purer picture than the S VIDEO OUT terminal.

Connect to terminals of the same colour.

**Recommended setting**

“Progressive” setting in the Setup menu (➡ 62)

If you have a regular television (CRT: cathode ray tube)

Progressive output may cause some flickering, even if it is progressive compatible. Turn off “Progressive” if you are concerned about it (➡ 62).

This is the same for multi system televisions using PAL mode.
Additional connections

Connecting a stereo amplifier

To enjoy multi-channel surround sound DVD-Video, connect an amplifier with Dolby Digital, DTS and MPEG decoders.

Required setting
"Digital Audio Output" in the Setup menu (➡61)

When this unit is connected to an amplifier with an optical digital audio cable and connected to a television with an HDMI cable, you can enjoy the highest quality of audio from the disc by setting "Digital Audio Output" to "Optical Only" in the Setup menu (➡63). In this case audio is only output from the amplifier not the television.

Before purchasing an optical digital audio cable (not included), check the terminal shape of the connected equipment.

You cannot use DTS Digital Surround decoders not suited to DVD.

Connecting an amplifier with a digital input terminal

To enjoy multi-channel surround sound DVD-Video, connect an amplifier with Dolby Digital, DTS and MPEG decoders.

Required setting
"Digital Audio Output" in the Setup menu (➡61)

When this unit is connected to an amplifier with an optical digital audio cable and connected to a television with an HDMI cable, you can enjoy the highest quality of audio from the disc by setting "Digital Audio Output" to "Optical Only" in the Setup menu (➡63). In this case audio is only output from the amplifier not the television.

Before purchasing an optical digital audio cable (not included), check the terminal shape of the connected equipment.

You cannot use DTS Digital Surround decoders not suited to DVD.
Connecting with an HDMI compatible television and receiver

When connected to an HDMI compatible unit, an uncompressed digital audio and video signal is transmitted. You can enjoy high quality, digital video and audio with just one cable. When connecting to an HDMI-compatible HDTV (High Definition Television), the output can be switched to 1080p, 1080i or 720p HD video.

- Video sources converted to 1920 x 1080 resolution, while of high quality, will exhibit somewhat lower subjective image resolution than true, native 1080p full-HD sources. See dealer for details.
- Please use High Speed HDMI Cables that have the HDMI logo (as shown on the cover).
- When outputting 1080p signal, please use the HDMI cables 5.0 meters or less.

Regarding VIERA Link “HDAVI Control™” function

When connecting with a Panasonic TV (VIERA) or a receiver equipped with the “HDAVI Control” function, linked operations would be possible. ([40] Linked operations with the TV (VIERA Link “HDAVI Control™”)]

- Non-HDMI-compliant cables cannot be utilised.
- It is recommended that you use Panasonic’s HDMI cable.

Recommended part number:
RP-CDHG10 (1.0 m), RP-CDHG15 (1.5 m), RP-CDHG20 (2.0 m), RP-CDHG30 (3.0 m), RP-CDHG50 (5.0 m), etc.

Television’s rear panel

Receiver’s rear panel

This unit’s rear panel

Audio/Video cable

Audio/Video cable (included)

Note:
- If you are connecting to a TV that is only compatible with 2 channel audio output, audio with 3 channels or more will be down mixed ([81] and output as 2 channels, even if connecting with an HDMI cable. (Some discs cannot be down mixed.)
- You cannot connect this unit to DVI devices that are incompatible with HDCP.
- For units compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection that are equipped with a digital DVI input terminal (PC monitors, etc.): Depending on the unit, images may not display properly or at all when connecting with a DVI/HDMI switching cable. (Audio cannot be output.)
- Usually you can watch video from HDMI input on TV. When you want to playback VHS while recording on DVD, switch to an appropriate AV input on TV.

[Required] setting
- Set “Digital Audio Output” to “HDMI and Optical” ([63]). (The default setting is “HDMI and Optical”.)

---

**Recording**

- You cannot record digital signals from other equipment. The digital audio terminals on this unit are for output only. (The audio recorded using the unit’s DV input terminal from a digital video camcorder, for example, is recorded digitally.)

---

**Set up**

- You can use your current aerial. However, depending on the area where you live, a new aerial may be necessary. Consult your local TV aerial installer.

---

**Disc**

- You cannot play DVD-Video if their region number does not include ‘4’ or ‘ALL’. Refer to the disc’s jacket for more information.

---

**TV Guide**

- You can manually change the start and end time of programmes in the Timer Recording menu.

</table>

* The message are alternately displayed.
Troubleshooting guide

Before requesting service, make the following checks. If you are in doubt about some of the check points, or if the solutions indicated in the chart do not solve the problem, consult your dealer for instructions.

The following do not indicate a problem with this unit:

- Regular disc/video rotating sounds.
- Poor reception due to atmospheric conditions.
- Image disturbance during search.
- Interruptions in reception due to periodic satellite broadcasting breaks.
- Operations are slow to respond in power save mode.
- Operations do not work due to a poor-quality disc. (Try again using a Panasonic disc.)

### Power

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No power.</td>
<td>Insert the AC mains lead securely into a known active household mains socket.</td>
</tr>
<tr>
<td>The unit does not turn on pressing [DVD/VHS].</td>
<td>Set the clock.</td>
</tr>
<tr>
<td>The unit switches to standby mode.</td>
<td>One of the unit’s safety devices is activated. Press [I/II] on the main unit to turn the unit on.</td>
</tr>
<tr>
<td>The power is turned off automatically.</td>
<td>If you connected this unit to a “HDAVI Control” compatible TV with an HDMI cable, this unit will be automatically set to standby mode when the TV is set to standby mode.</td>
</tr>
</tbody>
</table>

### Displays

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The display is dim.</td>
<td>Change “FL Display” in the Setup menu.</td>
</tr>
<tr>
<td>“0:00” is flashing on the unit’s display.</td>
<td>Times shown may disagree with actual times.</td>
</tr>
<tr>
<td>The recorded time on the disc and the available time shown do not add up.</td>
<td>Available recording space on DVD-R (DVDR Video format) or + RW increases only when the last recorded title is deleted. It does not increase if other titles are deleted.</td>
</tr>
<tr>
<td>The displayed time of this unit is different from the actual recording time or MP3 recording time.</td>
<td>Even if you delete recorded content from the DVD-R, DVD-R DL, + R or + R DL, there is no increase in disc space.</td>
</tr>
<tr>
<td>The unit is carrying out the recovery process. Do the following to eject the disc.</td>
<td>More disc space than the actual recording time is used after recording or editing the DVD-R, DVD-R DL, + R or + R DL 200 times or more.</td>
</tr>
<tr>
<td>The clock is not correct.</td>
<td>While searching, the elapsed time may not display correctly.</td>
</tr>
</tbody>
</table>

### Compared to the actual recorded time, the elapsed time displayed is less. (Only when recording in NTSC)

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The tape counter does not change while playing unrecorded parts.</td>
<td>The “second” display changes as follows: (e.g., 1 h 36 min)</td>
</tr>
<tr>
<td>The unit’s display also appears like this if the tape is dirty or damaged. Consult your dealer if this is the case.</td>
<td></td>
</tr>
</tbody>
</table>

### “U88” is displayed and the disc cannot be ejected.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The displayed recording/play time is converted from the number of frames at 29.97 frames per second (equal to 0.999 seconds) to one second. There will be a slight difference between the time displayed and the actual elapsed time (e.g., actual one-hour elapsed time may display as approximately 59 minutes 56 seconds). This does not affect the recording.</td>
<td>The unit is carrying out the recovery process. Do the following to eject the disc.</td>
</tr>
<tr>
<td>1. Press [I/II] on the main unit to switch the unit to standby.</td>
<td></td>
</tr>
<tr>
<td>2. While the unit is off, press and hold [I] and [CH –] on the main unit at the same time for about 5 seconds. Remove the disc.</td>
<td></td>
</tr>
</tbody>
</table>

### TV screen and video

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Television reception worsens after connecting the unit.</td>
<td>This can occur because the signals are being divided between the unit and other equipment. It can be solved by using a signal booster, available from audio-visual suppliers. If it is not solved by using a signal booster, consult the dealer.</td>
</tr>
<tr>
<td>The digital channel information or control panel does not appear.</td>
<td>Select the length of time (3~10 sec.) in “On-Screen Messages” in the Setup menu.</td>
</tr>
<tr>
<td>The control panel is only displayed when connected to a TV with “HDAVI Control 2” or “HDAVI Control 3” function.</td>
<td>The unit switches to standby mode.</td>
</tr>
<tr>
<td>The grey background does not appear.</td>
<td>Select “On” in “Grey Background” in the Setup menu.</td>
</tr>
<tr>
<td>Picture does not appear during timer recording.</td>
<td>Timer recordings work regardless whether the unit is on or off. To confirm the timer recording is going to work properly, turn the unit on.</td>
</tr>
<tr>
<td>The 4:3 aspect ratio picture expands left and right.</td>
<td>Use the television to change the aspect. If your television does not have that function, set “Progressive” in the Picture menu to “Off.”</td>
</tr>
<tr>
<td>Screen size is wrong.</td>
<td>Check the settings for “TV Aspect” in the Setup menu.</td>
</tr>
<tr>
<td>1. If you connect an HDMI cable, set “Aspect for 4:3 Video” to “16:9” in the Setup menu.</td>
<td></td>
</tr>
<tr>
<td>2. “DVD By setting “Aspect for Recording” to “Automatic”, there is a chance that the recording will be made using the wrong aspect. Match the aspect settings to the broadcast when recording. It may be possible to adjust the display mode on the TV. Refer to your television’s operating instructions.</td>
<td></td>
</tr>
</tbody>
</table>
## Troubleshooting guide

### Sound

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No sound.</td>
<td></td>
</tr>
</tbody>
</table>
- Check the connections and the "Digital Audio Output" settings. Check the input mode on the amplifier if you have connected one.
- Press [AUDIO] to select the audio. |
| Low volume. |  
- Distorted sound.  
- Cannot hear the desired audio type.  
- Cannot switch audio. |
| Distorted sound. |  
- Cannot hear the desired audio type.  
- Cannot switch audio. |
| Cannot hear the desired audio type. |  
- Check the connections and the "Digital Audio Output" settings. Check the input mode on the amplifier if you have connected one.
- Press [AUDIO] to select the audio. |
| Cannot switch audio. |  
- You cannot switch the audio in the following cases.  
  - When a DVD-R, DVD-R DL, DVD-RW (DVD-Video format), +R, +R DL or +RW disc is in the disc tray while DVD drive is selected.
  - When the recording mode is XP and "Audio Mode for XP Recording" is set to "LPCHM".
  - The amplifier is connected using an optical digital cable or an HDMI cable. You cannot switch the audio if "Dolby Digital" is set to "Bitstream". Set "Dolby Digital" to "PCM" or connect using audio cables.  
  - There are discs for which audio cannot be changed because of how the disc was created. |
### Operation

<table>
<thead>
<tr>
<th>Issue</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cannot operate the television. The remote control doesn't work.</td>

<td></td>
</tr>
<tr>
<td>• Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a “noisy” ignition system.</td>
<td></td>
</tr>
</tbody>
</table>
VIERA Link

VIERA Link doesn’t work.

- Check the HDMI cable connection. Check that “HDMI” is displayed on the front display when the power for the main unit is set to On.
- Make sure that “VIERA Link” is set to “On”.
- Check the “HDAVI Control” settings on the connected device.
- Some functions may not work depending on the version of “HDAVI Control” of the connected equipment. This unit supports “HDAVI Control 3” functions.
- If the connection for the equipment with HDMI was changed, or if there was a power failure or the plug was removed from the household mains socket, “HDAVI Control” may not work.

In this case, perform the following operations.
1. When the HDMI cable is connected to all equipment with the power on, turn the TV (VIERA) on again.
2. Change the TV (VIERA) settings for the “HDAVI Control” function to off, and then set to on again. (For more information, see the VIERA operating instructions.)
3. Switch the VIERA input to HDMI connection with this unit, and after this unit’s screen is displayed check that “HDAVI Control” is working.

To reset this unit

To return all the settings other than the main ones to the factory preset

- Select “Yes” in “Shipping Condition” in the Setup menu. All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.
- Select “Yes” in “Default Settings” in the Setup menu. All the settings other than the tuning settings, clock settings, region settings, disc language settings, ratings level, ratings password, remote control code, return to the factory presets.
- Press and hold (CH) and (CH ↓) on the main unit until the Auto-Setup screen appears. All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.

To reset the ratings level settings

- While the disc tray is open, press (DRIVE SELECT) to select the DVD drive, then press and hold (REC) and (PLAY) on the main unit for 10 seconds. (The settings remain.)

To restore the unit if it freezes due to one of the safety devices being activated

- Press and hold (II/I) on the main unit for 10 seconds. (The settings remain.)

Other

After performing an update, you can no longer receive broadcasts.

Depending on the content of the update, some settings may have returned to the preset values. Fix the settings again.

Troubleshooting guide

- Select “Yes” in “Shipping Condition” in the Setup menu. All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.
- Select “Yes” in “Default Settings” in the Setup menu. All the settings other than the tuning settings, clock settings, region settings, disc language settings, ratings level, ratings password, remote control code, return to the factory presets.
- Press and hold (CH) and (CH ↓) on the main unit until the Auto-Setup screen appears. All the settings except for the ratings level, ratings password and clock settings return to the factory preset. The timer recording programmes are also cancelled.

To reset the ratings level settings

- While the disc tray is open, press (DRIVE SELECT) to select the DVD drive, then press and hold (REC) and (PLAY) on the main unit for 10 seconds. (The settings remain.)

To restore the unit if it freezes due to one of the safety devices being activated

- Press and hold (II/I) on the main unit for 10 seconds. (The settings remain.)

Other

After performing an update, you can no longer receive broadcasts.

Depending on the content of the update, some settings may have returned to the preset values. Fix the settings again.
Specifications

Recording system
- DVD-RAM : DVD Video Recording format
- DVD-R : DVD-Video format
- DVD-R DL (Dual Layer) : DVD-Video format
- DVD-RW : DVD-Video format
- +R DL (Double Layer) +RW

Recordable discs
- DVD-RAM: 2X SPEED (Ver. 2.0), 2.5X SPEED (Ver. 2.2)
- DVD-R (SL): 1X SPEED (Ver. 2.0), 1.4X SPEED (Ver. 2.0), 1.6X SPEED (Ver. 2.1)
- DVD-R DL (Dual Layer): 2.4X SPEED (Ver. 3.0), 2.8X SPEED (Ver. 3.0)
- DVD-RW: 1X SPEED (Ver. 1.1), 1.2X SPEED (Ver. 1.1), 2.4X SPEED (Ver. 1.3), 2.6X SPEED (Ver. 1.2)
+R (SL): 2.4X SPEED (Ver. 1.0), 2.4-4X SPEED (Ver. 1.1), 2.4-16X SPEED (Ver. 1.3)
+R (DL): 2.4X SPEED (Ver. 1.0), 2.4-8X SPEED (Ver. 1.1)
+RW: 2.4X SPEED (Ver. 1.1), 2.4-4X SPEED (Ver. 1.2)

Recording time
- Maximum 8 hours (using 4.7 GB disc) LP: Approx. 4 hours, EP: Approx. 6 hours/8 hours

Playable discs
- DVD-RAM : DVD Video Recording format
- DVD-R : DVD-Video format, DivX®
- DVD-R DL (Dual Layer): DVD-Video format, DivX®
- DVD-RW : DVD-Video format, DVD Video Recording format

Optical pickup
- System with 1 lens, 2 integration units (662 nm wavelength for DVDs, 780 nm wavelength for CDs)

LASER specification
- Class 1 LASER Product (Pickup)
- Wave length: 780 nm (CDs), 662 nm (DVDs)
- Laser power: No hazardous radiation is emitted with the safety protection

Audio
- Recording system: Dolby Digital 2ch, Linear PCM (XP mode)
- Audio in: AV1/AV2 (pin jack) Input level: Standard: 0.5 Vrms, Full scale: 2.0 Vrms at 1 kHz
- Audio output impedance: More than 10 kΩ
- Audio output (COMMON/DVD PRIORITY): Optical Out (pin jack) Output level: Standard: 0.5 Vrms, Full scale: 2.0 Vrms at 1 kHz

Video
- System: PAL colour signal, 625 lines, 50 fields
- NTSC colour signal, 525 lines, 60 fields
- Recording system: MPEG2 (Hybrid VBR)
- Video in (PAL/NTSC): AV1/AV2 (pin jack) 1 Vp-p 75 Ω, termination S-Video in (PAL/NTSC): AV2 (S terminal) 1 Vp-p 75 Ω, termination
- Video out (PAL/NTSC) (COMMON/DVD PRIORITY): Video Out (pin jack) 1 Vp-p 75 Ω, termination
- Component video output (NTSC) (DVD PRIORITY): S-Video Out (S terminal) 1 Vp-p 75 Ω, termination
- Component video (NTSC) (DVD PRIORITY): Y: 1.0 Vp-p 75 Ω, termination, Pb: 0.7 Vp-p 75 Ω, termination, Pr: 0.7 Vp-p 75 Ω, termination

HDMI Output (DVD PRIORITY)
- 10 pin type A: 1 pc
- HDMI™ (V1.3 with Deep Colour)
- This unit supports "HDAVI Control 3" function.

Power consumption:
- Approx. 4.3 W (Power Save mode)
- Approx. 14.5 W (Quick Start mode)

Specifications are subject to change without notice.
* Finalising is necessary for compatible playback.

Note

Specifications are subject to change without notice.
Film: Recorded at 25 frames per second (PAL discs) or 24 frames/50 fields per second (NTSC discs). These perform the reading and writing of data.

MP3 (MPEG Audio Layer 3) An audio compression method that compresses audio to approximately one tenth of its size without any considerable loss of audio quality. You can play MP3 you have recorded onto CD-R and CD-RW (Close the session after recording.).

JPEG (Joint Photographic Experts Group) A system used for compressing/decoding colour still pictures. If you select JPEG as the storage system on digital cameras, etc., the data will be compressed to 1/10–1/100 of its original size. The benefit of JPEG is less deterioration in picture quality considering the degree of compression.

LPCM (Linear PCM) These are uncompressed digital signals, similar to those found on CDs.

MPEG2 (Moving Picture Experts Group) A standard for efficiently compressing and expanding colour video. MPEG2 is a compression standard used for DVD and satellite based digital broadcasting.

HDMI (High-Definition Multimedia Interface) Unlike conventional connections, it transmits uncompressed digital video and audio signals on a single cable. This unit supports high-definition video output (720p (750p), 1080i (1125i), 1080p (1125p)) from HDMI AV OUT terminals. To enjoy high-definition video a high definition compatible television is required.

CPRM (Content Protection for Recordable Media) This is a technology used to protect broadcasts that are allowed to be recorded only once. Such broadcasts can be recorded only with CPRM compatible recorders and discs.

Decoder A decoder restores the coded audio signals on DVDs to normal. This is called decoding.

Dynamic range Dynamic range is the difference between the lowest level of sound that can be heard above the noise of the equipment and the highest level of sound before distortion occurs. Dynamic range compression means reducing the gap between the loudest and softest sounds. This means you can listen at low volumes but still hear dialogue clearly.

Finalise A process that makes play of a recorded CD-R, CD-RW, DVD-R, etc. possible on equipment that can play such media. You can finalise DVD-R, DVD-R DL, DVD-RW (DVD-Video format), +R, +R DL on this unit. After finalising, the disc becomes play-only and you can no longer record or edit. However, finalised DVD-RW can be formatted for recording again.

Formatting Formatting is the process of making media such as DVD-RAM recordable on recording equipment. You can format DVD-RAM, DVD-RW (only as DVD-Video format), +RW or unused +R and +R DL on this unit. Formatting permanently deletes all contents.
**Protection**
You can prevent accidental deletion by setting writing protection or deletion protection.

**RGB**
This refers to the three primary colours of light, red (R), green (G), and blue (B) and also the method of producing video that uses them. By dividing the video signal into the three colours for transmission, noise is reduced for even higher quality images.

**Sampling frequency**
Sampling is the process of converting the heights of sound wave (analog signal) samples taken at set periods into digits (digital encoding). Sampling frequency is the number of samples taken per second, so larger numbers mean more faithful reproduction of the original sound.

**Signal Quality**
This is the guide for checking the aerial direction. The numbered values displayed do not indicate the strength of the signal, but the quality of the signal (the signal to noise ratio, or "S/N"). The channels you can receive are affected by weather conditions, seasons, time (day/night), region, length of the cable that is connected to the aerial, etc.

**Thumbnail**
This refers to a miniature representation of a picture used to display multiple pictures in the form of a list.

**1080i**
In one high definition image, 1080 (1125) alternating scan lines pass every 1/50th of a second to create an interlace image. Because 1080i (1125i) more than doubles current television broadcasts of 480i (525i), the detail is much clearer and creates a more realistic and rich image.

**1080p**
In one high definition image, 1080 (1125) scan lines pass at the same time every 1/50th of a second to create a progressive image. Since progressive video does not alternate scan lines like interlace, there is a minimal amount of screen flicker.

**720p**
In one high definition image, 720 (750) scan lines pass at the same time every 1/50th of a second to create a progressive image. Since progressive video does not alternate scan lines like interlace, there is a minimal amount of screen flicker.
Safety precautions

Placement

Set the unit up on an even surface away from direct sunlight, high temperatures, high humidity, and excessive vibration. These conditions can damage the cabinet and other components, thereby shortening the unit's service life.
Do not place heavy items on the unit.

Voltage

Do not use high voltage power sources. This can overload the unit and cause a fire.
Do not use a DC power source. Check the source carefully when setting the unit up on a ship or other place where DC is used.

AC mains lead protection

Ensure the AC mains lead is connected correctly and not damaged. Poor connection and lead damage can cause fire or electric shock. Do not pull, bend, or place heavy items on the lead.
Grasp the plug firmly when unplugging the lead. Pulling the AC mains lead can cause electric shock.
Do not handle the plug with wet hands. This can cause electric shock.

Foreign matter

Do not let metal objects fall inside the unit. This can cause electric shock or malfunction.
Do not let liquids get into the unit. This can cause electric shock or malfunction. If this occurs, immediately disconnect the unit from the power supply and contact your dealer.
Do not spray insecticides onto or into the unit. They contain flammable gases which can ignite if sprayed into the unit.

Service

Do not attempt to repair this unit by yourself. If sound is interrupted, indicators fail to light, smoke appears, or any other problem that is not covered in these instructions occurs, disconnect the AC mains lead and contact your dealer or an authorized service centre. Electric shock or damage to the unit can occur if the unit is repaired, disassembled or reconstructed by unqualified persons.
Extend operating life by disconnecting the unit from the power source if it is not to be used for a long time.
