Thank you for purchasing this Panasonic product. Please read these instructions before operating your set and retain them for future reference. The images shown in this manual are for illustrative purposes only.
Experience an amazing level of multimedia excitement

Receive digital terrestrial services using an integrated Digital TV tuner
Sharp pictures with HDMI terminal
Create home theatre and DVD recorder link-ups with “VIERA Link”
without complicated settings!

Enjoy rich multimedia

Notice about Digital TV Functions

The MPEG-4 AVC feature was designed to specifications as we know them today. This specification may be subject to future changes beyond our control that may not guarantee the decoding of such services.

February 2010

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard (“AVC Video”) and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use. Additional information may be obtained from MPEG LA, LLC. See http://www.mpegla.com.

Standard accessories
Check that you have the accessories and items shown ✔

- Remote Control
  - N2QAYB000494
- Pedestal ⇒ p. 6
- Batteries for the Remote Control (2)
  - R6 (AA)
- Fall-prevention parts ⇒ p. 7
- Operating Instructions with Warranty statement

Caution
● This product contains possibly dangerous parts (such as plastic bags), which can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Inserting and removing remote’s batteries

1. Open
2. Hook
3. Close

Note the correct polarity (+ or -)

Caution
● Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
● Do not mix old and new batteries.
● Do not mix different battery types (such as alkaline and manganese batteries).
● Do not use rechargeable (Ni-Cd) batteries.
● Do not burn or breakup batteries. Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
● Do not disassemble or modify the remote control.
Safety Precautions

Handling the mains plug and lead

- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively, or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting lead.
  - Do not use a damaged mains plug or socket outlet.

AC 220 - 240 V
50 / 60 Hz

If you find any abnormality, remove the mains plug immediately!

Power source / Installation

- This TV is designed for:
  - AC 220 - 240 V, 50 / 60 Hz
  - Indoor use
  - Table-top use

Do not remove covers and NEVER modify the TV yourself

- Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Do not expose to rain or excessive moisture

- To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Do not expose to direct sunlight and other sources of heat

- Avoid exposing the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

Do not insert foreign objects into the TV

- Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not place the TV on sloped or unstable surfaces

- The TV may fall off or tip over.

Use only the dedicated pedestals / mounting equipment

- Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use approved pedestals (p. 6) / wall-hanging brackets (p. 7).

Do not allow children to handle SD Card

- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Important Installation Notices

- **Install the TV on a stable surface**
  - If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
    - Using cabinets or stands recommended by the manufacturer of the television.
    - Only using furniture that can safely support the television.
    - Ensuring the television is not overhanging the edge of the supporting furniture.
    - Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
    - Not standing the televisions on cloth or other materials placed between the television and supporting furniture.
    - Educating children about the dangers of climbing on furniture to reach the television or its controls.

- **When cleaning the TV, remove the mains plug**
  - Cleaning an energized TV may cause electrical shock.

- **When the TV is not going to be used for a long period of time, remove the mains plug**
  - This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

- **Transport only in upright position**

- **Allow sufficient space around the TV for radiated heat**
  - When using the pedestal, keep a space between the bottom of the TV and the surface where the TV is set.
  - In case of using wall-hanging bracket, follow the manual of it.

- **Do not block the rear air vents**
  - Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

- **Do not apply strong force or impact to the display panel**
  - This may cause damage resulting in injury.

- **Do not expose your ears to excessive volume from the headphones**
  - Irreversible damage can be caused.

- **Auto power standby function**
  - If no signal is received and no operation is performed in Analogue TV mode for 30 minutes, the TV will automatically go to standby mode.

- **Keep the TV away from these types of equipment**
  - Electronic equipment
    - In particular, do not place video equipment near the TV. Electromagnetic interference may distort images / sound.
  - Equipment with an infrared sensor
    - This TV also emits infrared rays. This may affect operation of other equipment.

---

**Adjust the LCD panel to your desired angle**

- Set the mark at the centre as illustrated, to have the swivel positioned at the centre of the rotation angle.

- Ensure that the pedestal does not hang over the edge of the base even if the TV swivels to the full rotation range.

- Do not place any objects or hands within the full rotation range.
Accessories / Options

Attaching the pedestal

**Warning**

Do not disassemble or modify the pedestal.
● Otherwise the TV may fall over and become damaged, and personal injury may result.

**Caution**

Do not use the pedestal for any other TV or displays.
● Otherwise the TV or the display may fall over and become damaged, and personal injury may result.

**Do not use the pedestal if it becomes warped or physically damaged.**
● If you use the pedestal while it is physically damaged, personal injury may result. Contact your nearest Panasonic dealer immediately.

**During set-up, make sure that all screws are securely tightened.**
● If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.

**Ensure that the TV does not fall over.**
● If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.

**Two or more people are required to install and remove the TV.**
● If two or more people are not present, the TV may be dropped, and personal injury may result.

Assembling the pedestal

Use the assembly screws **A** to fasten the bracket **C** to the base **D** securely.
● Make sure that the screws are securely tightened.

Securing the TV

Insert the bracket into the TV, and then fasten securely with the assembly screws **B**.
● Make sure that the screws are securely tightened.
## Preventing the TV from falling over

This TV could fall over if it is pushed, pulled or knocked down. We therefore recommend the TV is secured to the furniture as illustrated.

- **Fall-prevention parts**

<table>

</thead>
<tbody>
<tr>
<td>B</td>
<td>Screw</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>Wood screw</td>
<td></td>
</tr>
</tbody>
</table>

**Securing to a furniture**
Fix pedestal and furniture together with band.

**Optional accessories**
Please contact your nearest Panasonic dealer to purchase the recommended wall-hanging bracket. For additional details, please refer to the wall-hanging bracket installation manual.

**Wall-hanging bracket**
- TY-WK3L2RW

**Warning**
- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licenced contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Do not mount the unit directly below ceiling lights (such as spotlights, floodlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the TV is disconnected from the mains socket before attaching or disconnecting any leads.

Connecting the aerial

TV only

- Do not put the RF cable close to the mains lead to avoid noise.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
- VIERA Link connection ⇒ p. 43
- Read the manual of the equipment, too.
- Another equipments connection ⇒ p. 48, 49

If the antenna is placed in the wrong location, interference might happen.

Identifying Controls

Remote control

1 Standby On / Off switch
- Switches TV On or Off standby

2 Aspect (p. 15)
- Changes aspect ratio from Aspect Selection list
- Also possible by pressing this button repeatedly until you reach the desired aspect

3 Main Menu (p. 22)
- Press to access Picture, Sound and Setup Menus

4 Channel / Programme Information (p. 14)
- Displays channel and programme information

5 VIERA TOOLS (p. 21)
- Displays some special feature icons and accesses easily

6 VIERA Link (p. 43)
- Accesses VIERA Link Menu

7 OK
- Confirms selections and choices
- Press after selecting channel positions to quickly change programme

8 Option Menu (p. 14)
- Easy setting for viewing and sound options

9 Teletext (p. 17)
- Switches to teletext mode

10 Subtitles (p. 13)
- Displays subtitles

11 Numeric buttons
- Changes channel and teletext pages
- When in Standby mode, switches TV On

12 Sound Mute
- Switches sound mute On or Off

13 Volume Up / Down

14 SD Card (p. 36)
- Switches to SD Card viewing / listening mode

15 Input mode selection
- TV - switches Digital TV / Analogue TV mode (p. 13)
- AV - switches to AV input mode from Input Selection list (p. 19)

16 Off Timer (p. 13)
- Sets the time the TV automatically turns off

17 Stereo / Bilingual Sound Selection (p. 50)
- Changes the sound track when more than two choices are available (Digital TV mode) (p. 14)

18 Exit
- Returns to the normal viewing screen

19 Guide (p. 16)
- Displays TV Guide

20 Cursor buttons
- Makes selections and adjustments

21 Return
- Returns to the previous menu / page

22 Coloured buttons
- Used for the selection, navigation and operation of various functions

23 Hold
- Freeze / unfreeze picture (p. 13)
- Holds the current teletext page (teletext mode) (p. 17)

24 Index (p. 17)
- Returns to the teletext index page (teletext mode)

25 Surround (p. 25)
- Switches surround sound setting

26 Channel Up / Down
- Selects channel in sequence

27 Connected equipment operations (p. 20)
**TV**

**Identifying Controls**

1. SD card slot
2. AV3 terminals
3. Headphone jack
4. HDMI3 terminal
5. USB terminal
6. Remote control signal receiver
   - Do not place any objects between the TV remote control signal receiver and remote control
7. C.A.T.S. (Contrast Automatic Tracking System) sensor
   - Senses brightness to adjust picture quality when "Eco Mode" in the Picture Menu is set to "On" (p. 24)
8. Power LED
   - Standby: red  On: green
   - When using the remote control, indicates the TV has received a command.
9. Function Select
   - Volume / Backlight / Contrast / Brightness / Colour / Sharpness / Tint (NTSC mode) / Bass ("Music" or "Speech" mode in the Sound Menu) / Treble ("Music" or "Speech" mode in the Sound Menu) / Balance / "Digital TV Auto Tuning" or "Analogue TV Auto Tuning" (p. 24 - 26)
10. Increases or decreases the channel position by one. When a function is already displayed, press to increase or decrease the selected function. When in standby mode, switches TV on.
11. Changes the input mode
12. Mains power On / Off switch
   - Switch On to turn on the TV or turn the TV to Standby mode by the remote control

**Using the On Screen Displays**

Many features available on this TV can be accessed via the On Screen Display menu.

Example (Sound Menu):

- **Mode**
  - Music
- **Bass**, **Treble**, **Balance**
- **Headphone Volume**
- **Surround**
- **Volume Correction**
- **Speaker Distance to Wall**
- **MPX Stereo**

**How to use remote control**

- **MENU**
  - Open the Main Menu
- **Move the cursor / select the menu item**
- **Move the cursor / adjust levels / select from a range of options**
- **EXIT**
  - Exit the menu system and return to the normal viewing screen
- **OK**
  - Access the menu / store settings after adjustments have been made or options have been set
- **RETURN**
  - Return to the previous menu

Operation guide will help you.
Auto Tuning

Search and store TV channels automatically. These steps are not necessary if the setup has been completed by your local dealer.

1. Plug the TV into mains socket and switch On
   - You can now use the remote control to turn On the TV or switch the TV to standby mode. (Power LED: On)

2. Select your area
   - Select State / Territory
     - New South Wales / Australian Capital Territory
       - Queensland
       - South Australia
       - Western Australia
       - Northern Territory
       - Tasmania

3. Select Auto Scan Type
   - Auto Scan Type
     - All Channels
     - Digital TV Channels only

4. Select “Home”
   - Auto Tuning starts
     - Auto Tuning will start to search for TV channels and store them. The sorted channel order depends upon the TV signal, the broadcasting system and reception conditions.

*Viewing environment mode

Home: Recommended mode for viewing at home. Select “Home” for optimal picture / power consumption. “Viewing Mode” is set as “Normal” (p. 24).

Shop: Demonstration mode to explain main features of this TV (for in-store display). “Viewing Mode” is set as “Dynamic” (p. 24).

To return to viewing environment selection mode if you selected “Shop”

- To change the viewing environment mode later on, reset all settings by accessing Shipping Condition. *“Shipping Condition”* (p. 34)
Watching TV

1. Turn power on
   - Mains power On / Off switch should be On (p. 11).

2. Select Digital TV or Analogue TV mode
   - Also possible to select the mode by pressing the TV button repeatedly on the remote control or side panel of the TV. (p. 11).

3. Select a channel
   - To select the two or three-digit channel number, e.g. 39 ➔ 3 ➔ 9 (in a short time)
   - If one or two-digit channel number ➔ quickly changes the channel

   ● To select from the Channel List ➔

Select a channel using information banner (p. 14)
Possible to confirm the programme name before selecting channels.
Display information banner if it is not displayed
   - Information banner appears whenever you select a channel
   - For details ➔ p. 14

Select a channel using TV Guide (Digital TV mode) (p. 16)
Possible to confirm the TV Guide (EPG) before selecting channels.
Display TV Guide ➔ Select a channel

(Based on GMT)

- These items can be set from “Other settings” in Setup Menu. (p. 23, 27)
Using TV Guide (Digital TV mode)

Using TV Guide enables you to select programme easily, view programme informations, etc. TV Guide—Electronic Programme Guide (EPG) provides an on screen listing of the current and future programmes over the next seven days depending on broadcasters.

To watch the programme

- select
- watch

To view details of the programme

Select the programme

- select
- Press again to return to TV Guide.

To return to TV

- EXIT

To list favourite channels → p. 29

To view a channel list of the selected type

- select type
- view

To view a channel list of the selected favourite list

- select a favourite list
- view

( Note )

- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before the TV Guide is completely shown.
Viewing Teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

What is TOP mode? (In case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.
- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen
- Available page up / down
- To select among subject blocks
- To select next subject within the subject block
- (After the last subject, it moves to the next subject block.)

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. (“Store frequently viewed pages” ⇒ p. 18)

Viewing Teletext

Functions (Teletext mode)

View in multi window

Watch TV and Teletext in two windows at once

- Operations can be made only in Teletext screen.

FULL / TOP / BOTTOM

- Normal (FULL) - (BOTTOM)
  - Expand the BOTTOM half
- TOP
  - Expand the TOP half

Store frequently viewed pages

- Store frequently viewed pages in the colour bar (List mode only)
  - Corresponding colour button
    - Press and hold
  - The number changes to white.

- To change stored pages
  - Colour button you want to change
  - Enter new page number
  - Press and hold

View sub page

- View sub page (Only when teletext is more than one page)
  - Appears at top of the screen

To view specific sub page

- Example: P6
- The number of sub pages varies depending on the broadcasters.
  - It may take some time for searching, during which time you can watch TV.

Watch TV while waiting for update

- View the TV picture while searching for a teletext page
  - Teletext automatically updates itself when new information becomes available.
  - The news page provides a function that indicates arrival of latest news (“News Flash”).
Watching External inputs

Connect the external equipment (VCRs, DVD equipment, PC, etc.) and you can watch through the input.

- To connect the equipment ➔ p. 48, 49

The Remote Control is capable of operating some functions of selected external equipment. For details, see the manual of the equipment or ask your local dealer.

1. Display the input selection menu
   - AV

2. Select the input mode of the connected equipment
   - You can also select the input using the AV button on the remote control or the side panel of the TV (p. 11). Press the button repeatedly until the desired input is selected.
   - You can label or skip each input mode ➔ “Input Labels” (p. 33)
   - Skipped inputs will not be displayed when the AV button is pressed.

Example (AV2)

<table>
<thead>
<tr>
<th>Input Selection</th>
</tr>
</thead>
<tbody>
<tr>
<td>AV1</td>
</tr>
<tr>
<td>AV2</td>
</tr>
<tr>
<td>AV3</td>

</tr>
<tr>
<td>TV</td>
</tr>
</tbody>
</table>

3. View
   - The selected mode is displayed on the screen.

Example (AV2)

- AV2
  - 16:9

Example (PC)

- PC
  - 640x480 / 70Hz
  - 16:9

- If the external equipment has an aspect adjustment function, set to “16:9”.

- You can also listen to PC sound with the audio cable connected.

- You can setup some functions, Advanced PC Settings (p. 24) in Picture Menu and PC setup (p. 26) in Setup Menu.

- For HDMI-compatible PC (p. 51-52), possible to connect to HDMI terminals (HDMI1 / HDMI2 / HDMI3) by using HDMI cable.
Watching External inputs

Operating the equipment with the TV remote control

The equipment connected to the TV can be directly operated with the below buttons of this TV remote control.

<table>

How to change the code for each equipment

Each type of Panasonic equipment has its own remote control code. Please change the code for each equipment you want to operate.

If you operate the connected equipment in VIERA Link (p. 43), select the code “73”.

Press and hold ![POWER button](image) during the following operations

Enter the appropriate code (see table below) ➔ Press ![OK button](image)

<table>
<thead>
<tr>
<th>Type of equipment</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder / DVD Player</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre / Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
<tr>
<td>The equipment using in VIERA Link</td>
<td>73</td>
</tr>
</tbody>
</table>

**Note**

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

1. Display icons of the feature

2. Select a feature

3. Follow the operation of each feature

1. VIERA Link Control ➔ “VIERA Link Control” (p. 46)

When two or more compatible equipments are connected, a selection screen will be displayed. Please select the correct description and access.

2. Pause Live TV ➔ “Pause Live TV” (p. 45)

3. Photo ➔ “Photo mode” (p. 38)

4. Video ➔ “Video mode” (p. 40)

5. Music ➔ “Music mode” (p. 42)
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1. Display the menu

   MENU

   Displays the functions that can be set (varies according to the input signal)

2. Select the menu

   VIDEO/Audio Main Menu
   - Picture
   - Sound
   - Setup

## Menu Functions

### 25 Menu Item Adjustments / Configurations (alternatives)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| **Mode** | | Selects basic sound mode (**Music** / **Speech** / **User**)  
- The selected mode affects all input signals.  
- **Music**: Improves sound quality for watching music video, etc.  
- **Speech**: Improves sound quality for watching news, drama, etc.  
  - In Music and Speech mode, you can adjust “Bass” and “Treble” settings, and those settings will be stored for each mode.  
- **User**: Adjusts the sounds manually by using the equalizer to suit your favourite sound quality.  
  - For the User mode, “Equalizer” will appear on the Sound Menu instead of “Bass” and “Treble”. Select the “Equalizer” and adjust the frequency. **“Equalizer” (below)**  
| **Bass** | Increases or decreases level to enhance or minimise lower, deeper sound output. |
| **Treble** | Increases or decreases level to enhance or minimise sharper, higher sound output. |
| **Equalizer** | Adjusts the frequency level to suit your favourite sound quality  
- This function is available when “Mode” is set to “User”.  
- Select the frequency and change the frequency level by using the cursor button.  
- If you want to enhance the bass sound, raise the level of the lower frequency. If you want to enhance the treble sound, raise the level of the higher frequency.  
- To reset the levels of each frequency to the default settings, select the “Reset Sound Defaults” by using cursor button, and then press the OK button.  
| **Balance** | Adjusts the volume level of right and left speakers. |
| **Headphone Volume** | Adjusts the volume of the headphones. |
| **Surround** | Surround sound settings (**Off** / **V-Audio** / **V-Audio Surround**)  
- **V-Audio**: Provides a dynamic enhancer of width to simulate improved spatial effects  
- **V-Audio Surround**: Provides a dynamic enhancer of width and depth to simulate improved spatial effects  
- Switching is also possible by the Surround button on the remote control (p. 10). |
| **Volume Correction** | Adjusts the volume of individual channel or input mode. |
| **Speaker Distance to Wall** | Adjusts the low frequency sound (**Over 30cm** / **Up to 30cm**).  
- If the back space between the TV and wall is over 30 cm, “Over 30cm” is recommended.  
- If the back space between the TV and wall is within 30 cm, “Up to 30cm” is recommended. |
| **MPX** | Selects multiplex sound mode (if available) (p. 50)  
- Normally: Stereo  
- Stereo signal cannot be received: Mono  
- **M1 / M2**: Available while mono signal is transmitted  
- Analogue TV mode only |
| **Digital Audio Preference** | Selects the initial setting for Audio tracks (**Dolby D** / **MPEG**)  
If programme has both Dolby Digital and MPEG audio tracks, priority is given to what you select  
- **Dolby D**: A method of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can also be multi-channel audio.  
- **MPEG**: An audio compression method that compresses audio to small size without any considerable loss of audio quality.  
  - Digital TV mode only |
| **SPDIF Selection** | SPDIF: A standard audio transfer file format  
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT terminal (**Auto** / **PCM**)  
- **Auto**: Dolby Digital is output as Dolby Digital Bitstream. HE-AAC and MPEG are output as PCM.  
- **PCM**: Digital output signal is fixed to PCM.  
  - For Digital TV mode or Video mode (p. 40) |
| **MPEG Optical Level** | Adjusts the audio level of MPEG output from DIGITAL AUDIO OUT terminal as the initial setting (**0** / **-2** / **-4** / **-6** / **-8** / **-10** / **-12dB**)  
- Normally, MPEG sound is louder comparing with the other types of audio track.  
  - Digital TV mode only |

Switches to a wide view
- VGA (640 x 480 pixels), WVGA (852 x 480 pixels),
- XGA (1,024 x 768 pixels), WXGA (1,280 x 768 pixels, 1,366 x 768 pixels)
- Options change depending on signals

Clock
Set to the minimum level if noise occurs.

HDMI input mode only
## Menu Item Adjustments / Configurations (alternatives)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| VIERA Link Settings | VIERA Link | Sets to use VIERA Link functions *(Off / On)*  
● VIERA Link functions become available when “VIERA Link” is set to “On” *(p. 44)*. |
| Power on Link | Power on Link | Sets to use Power on Link functions *(Off / On)* *(p. 44)* |
| Power off Link | Power off Link | Sets to use Power off Link functions *(Off / On)* *(p. 44)* |
| Standby Power Save | Standby Power Save | Controls the power consumption in Standby mode of the connected equipment to reduce the power consumption *(Off / On)* *(p. 44)*  
● This function is available when “VIERA Link” is set to “On” and “Power off Link” is set to “On”. |
| Intelligent Auto Standby | Intelligent Auto Standby | Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption *(Off / On (With reminder) / On (No reminder))* *(p. 44)*  
● This function is available when “VIERA Link” is set to “On”. |
| System Menu | Shipping Condition | Resets all settings to the original condition *(p. 34)* |
| | System Update | Downloads new software to TV *(p. 35)* |
| | Software Licence | Displays the software licence information |
| | System Information | Displays the system information of this TV |
| Setup | Auto Standby | Sets the time the TV automatically goes to Standby mode when no operation is performed for the selected times *(Off / 2 hours / 4 hours)*  
● Inserting the SD Card to the card slot does not affect this function.  
● Automatic input switching with the connected equipment affects this function and time-count will be reset.  
● The notification message will appear 3 minutes before going to Standby mode. |
| | Power Save | Reduces brightness of picture to economise on power consumption *(Off / On)* |
| Other Settings | 16:9 Overscan | Selects the screen area for displaying the image *(Off / On)*  
On: Enlarges the image to hide the edge of the image  
Off: Displays the image in the original size  
● Set to “On” if noise is generated on the edges of the screen.  
● This function is available when aspect is set to “16:9”.  
● This function can be memorized separately for SD (Standard Definition) and HD (High Definition) signals. |
| | Region Select | Selects the region where you live to adjust the standard time *(NSW / ACT / Victoria / Queensland / South Australia / Western Australia / Northern Territory / Tasmania)* *(p. 15)* |
| | Daylight Saving Time | Select time offset from the standard time for Summer Time *(Auto / Off / +1/2 hour / +1 hour)* *(p. 15)*  
● Set to “Auto” normally. |
| | DVI Input Setting | Changes the black level in the image for HDMI input mode with DVI input signal manually *(Normal / Full)*  
● When the DVI input signal from the external equipment, especially from PC, is displayed, the black level may not be suitable. In this case, select “Full”.  
● The black level for HDMI input signal will be adjusted automatically. |

● A different menu will be displayed in the mode of SD Card *(p. 36 - 42)*.  
● Only available items can be selected.
Tuning and Editing Channels

You can make Auto Tuning, listing your favourite channels, skipping unwanted channels, etc.

1. Select Digital TV or Analogue TV
   - The selected mode is displayed on the screen (p. 13).

2. Display the menu

3. Select “Setup”
   - access
   - select

4. Select “Digital TV Tuning Menu” or “Analogue TV Tuning Menu”

5. Select a function
   - For Auto Tuning, using the buttons on the side panel of the TV (p. 11)
     ① Press repeatedly until “Auto Tuning” appears
     ② Access “Auto Tuning”
     ③ Start “Auto Tuning”

6. Set (see next page)
Digital TV Tuning Menu

**Favourites Edit** List favourite channels

Create your favourite channel lists (Favourites) from various broadcasters (up to 4: Favourites1 to 4). The Favourites lists are available from the Information banner (p. 14) and the TV Guide (p. 16).

1. **Select a channel to list**

2. **Add it to the Favourites list**

- To display another Favourites
- To add all channels to the list

**To edit List**

- Select the field of Favourites to edit and:
  - To name the Favourites
  - User input

- To move the channel
- Select the new position
- Confirm

- To delete the channel
- To delete all channels

**Store**

**Note**

- Channel numbers are defined by the broadcaster and cannot be changed.
- Hidden channels (see below) can be selected but not viewed.

**Channel List** Skip unwanted channels / Edit channels

Select a channel and reveal / hide

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

To edit channels

You can also edit each channel in Channel List.

- To swap the channel position (if available)
- To move the channel position (if available)

Select a channel to edit and:

- Enter the new position number
- Select the new position

- To reveal all channels
- To return each channel (Manual Tuning) (p. 30)

**Favourites Edit** List favourite channels

Create your favourite channel lists (Favourites) from various broadcasters (up to 4: Favourites1 to 4). The Favourites lists are available from the Information banner (p. 14) and the TV Guide (p. 16).

1. **Select a channel to list**

2. **Add it to the Favourites list**

- To display another Favourites
- To add all channels to the list

**To edit List**

- Select the field of Favourites to edit and:
  - To name the Favourites
  - User input

- To move the channel
- Select the new position
- Confirm

- To delete the channel
- To delete all channels

**Store**

**Note**

- Channel numbers are defined by the broadcaster and cannot be changed.
- Hidden channels (see below) can be selected but not viewed.

**Channel List** Skip unwanted channels / Edit channels

Select a channel and reveal / hide

You can hide unwanted channels. The hidden channels cannot be displayed except in this function. Use this function to skip unwanted channels.

To edit channels

You can also edit each channel in Channel List.

- To swap the channel position (if available)
- To move the channel position (if available)

Select a channel to edit and:

- Enter the new position number
- Select the new position

- To reveal all channels
- To return each channel (Manual Tuning) (p. 30)
## Digital TV Tuning Menu

### Auto Tuning  Set all channels automatically

#### Start Auto Tuning

- All digital TV tuning data will be erased.
- When the operation is completed, the channel at channel position “1” will be displayed.
- Search begins in the order from the lower channels to the higher channels. Channels received during this process are added to the list (p. 29).
- If tuning has not been done completely ➔ “Manual Tuning” (see below)

#### Settings are made automatically

- Automatically retune all Digital TV channels received in the area.

#### All the previous tuning settings are erased.
#### When the operation is completed, the channel at channel position “1” will be displayed.
#### Search begins in the order from the lower channels to the higher channels. Channels received during this process are added to the list (p. 29).
#### If tuning has not been done completely ➔ “Manual Tuning” (see below)

### Manual Tuning  Set Digital TV channel manually

- Normally use “Auto Tuning” or “Update Channel List” to update Digital TV channels on your channel list.
- If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

#### Update Channel List  Update channels automatically

- You can add new channels, delete duplicated channels, update channel name and position automatically to Channel List.
  - Channel List is updated with keeping your settings in Favourites Edit, Channel List, Child Lock, etc.

#### New Channel Message  Display a notification message

- Selects whether to give a message when new Digital TV channel is found. (Off / On)
  - Selecting OK will perform “Update Channel List”.

### Signal Condition  Check Digital TV signal

- Selects a channel and checks the Digital TV signal condition.
- A good Signal Strength is not an indication of suitable signal for Digital TV reception. Please use the Signal Quality indicator as follows:

#### Signal Quality:
- Green bar ➔ Good
- Yellow bar ➔ Poor
- Red bar ➔ Bad (Check the aerial)
**Analogue TV Tuning Menu**

**Channel List** | Skip unwanted channels / Edit channels (Change name, Move)

**Start Auto Tuning**

All analogue TV tuning data will be erased

- All previous tuning settings are erased.
- When the operation is completed, the channel at channel position “1” will be displayed.
- Search begins in the order from the lower channels to the higher channels. Channels received during this process are added to the list (see above).
- If tuning has not been done completely ➔ “Manual Tuning” (see below)

**Manual Tuning** | Set Analogue TV channel manually
---|---

Set Analogue TV channel manually after Auto Tuning.
- If a VCR is connected only with the RF cable, select channel position “0”.

**Note**

- If a VCR is connected only with the RF cable, edit “VCR”.

**Advanced**

Tuning and Editing Channels
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears; by entering the PIN number, you can watch it.

1. Display the menu

2. Select “Setup”

3. Select “Child Lock”

4. Set (see below)

Child Lock PIN Entry

Enter the PIN number (4 digits)

“0000” has been stored as the default PIN number.

Select “Child Lock List” or “Parental Rating”

To set “Child Lock List”

To set “Parental Rating”

To change the PIN number

Select “Change PIN” in “Child Lock” and enter a new PIN number twice.

Note

- Performing “Shipping Condition” (p. 34) erases the PIN number and all settings.
- If you have forgotten the PIN number which you have changed by yourself, input “6969” as the PIN number.
- Keep this Operating Instructions out of reach of children.

- To cancel
  - Select the locked channel / input
  - To lock all
  - To cancel all locks
  - To jump to the top of the next input

Note

- To jump to the top of the next input
Input Labels

For easier identification and selection of the input mode, you can label each input terminals or skip terminal that is not connected to any equipment.

1. To select the input mode ➔ p. 19

2. Display the menu

3. Select “Setup”

4. Select “Display Settings”

5. Select “Input Labels”

6. Select an input terminal and set

The labels you set will be displayed in “Input Selection” menu (p. 19) or banner.

If “Skip” is selected, you cannot select the mode.

User input

You can name each input terminals freely.

Select “User input”

Set characters

You can set characters by using numeric buttons (p. 22).
Shipping Condition (Reset settings)

Resets the TV to its original condition, i.e. no channels tuned in. All settings are reset (channels, picture, sound settings, etc.).

1. Display the menu
   MENU

2. Select “Setup”

3. Select “System Menu”

4. Select “Shipping Condition”

5. Set (see below)

Shipping Condition | Reset Settings

1. Check the message and reset

Shipping Condition
All tuning data will be erased
Are you sure?
Are you sure?

2. Follow the on screen instructions

Reset to Factory Shipping Condition
Completed.
Please switch off TV.

To retune TV channels only, e.g. after moving house
→ “Auto Tuning” in “Tuning and Editing Channels” (p. 30, 31)
Updating the TV Software (Digital TV mode)

From time to time, a new version of software may become available for download to enhance the performance or operations of the TV. If there is an update available, a notification banner is displayed when the channel has the update information. This function is available in Digital TV mode.

1. Display the menu
2. Select “Setup”
3. Select “System Menu”
4. Select “System Update”
5. Set (see below)

Set “Auto Update Search in Standby” to “On”

- Every time you set, the TV automatically performs a search in standby and downloads an update, if any software updates are available.
- The automatic updating is performed at 3:00 AM and 5:00 AM every morning under the following conditions:
  - Standby (TV turned Off with the remote control)
  - Direct TV Recording is not in progress.

If System Update is performed, the software will be updated (it may change TV functions). If you do not wish to do so, set “Auto Update Search in Standby” to “Off”.

Note
- Download may take about 60 mins.
- During software download and update, DO NOT switch Off the TV or press any buttons. The TV will automatically be activated after downloading is completed.
- The message might be the notification beforehand. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is set to Off.
- A clicking sound will occur at 3:00 AM and 5:00 AM when “Auto update Search in Standby” is set to “On”. This sound is normal.
- During downloading, the TV will display a blank screen for 40 to 50 seconds. Do not interrupt the TV during this procedure.
Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory. VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD card slot.

Photo mode: Still pictures recorded by digital cameras will be displayed.
Video mode: (For SD Card or USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.
Music mode: Digital music data will be played back.

When these functions are used, the audio signal is output from audio output terminals, but video signals are not output.

● “Date” shows the date on which the recording was made by the recording equipment. The file without record of the date is shown “**/**/****”.

Data format for SD Card / USB Flash Memory browsing

- Photo: Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF standards
  Data format - Baseline JPEG (Sub-sampling 4:4:4, 4:2:2 or 4:2:0)
  Image resolution - 160 × 120 to 20,000,000 pixels

- Video: SD-Video Standard Ver. 1.2 [MPEG-2 (PS format)] and AVCHD Standard compatible files with an audio format that is either MPEG-1/Layer-2 format or Dolby Digital format
  (A modified data with a PC may not be displayed correctly.)

- Music: Data format - MP3 and AAC (Copy-protected files cannot be played back.)
- SD Card format: SDXC Card - exFAT
  SDHC Card / SD Card - FAT16 or FAT32

- Compliant card type (maximum capacity): SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adapter)

- If miniSD Card is used, insert / remove it together with the adapter.
- Check the latest information on the card type at the following website. (English only)
  http://panasonic.jp/support/global/cs/tv/

- USB Flash Memory format: FAT16, FAT32 or exFAT

*DCF (Design rule for camera file system): Unified standard established by Japan Electronics and Information Technology Industries Association (JEITA).

Note

- Format the device with the recording equipment.
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- This function cannot display Motion JPEG and still image not JPEG formatted (i.e. TIFF, BMP).
- A data modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF (Exchangeable Image File) 2.0, 2.1, and 2.2.
- Partly degraded files might be displayed at a reduced resolution.
- The folder and file names may be different depending on the digital camera or digital video camera used.
- Do not use two-byte characters or other special codes.
- The device may become unusable with this TV if the file or folder names are changed.

To insert or remove the SD Card / USB Flash Memory

USB Flash Memory
- Insert the device
  Insert straight in
- Remove the device
  Pull straight out

SD Card
- To insert SD Card
  Gently insert the SD Card label surface facing front.
  Push until a click is heard

- To remove SD Card
  Push the centre of the card

Media player only supports USB Flash Memory devices.
Starting Media Player

1 Insert the SD Card or USB Flash Memory

2 Switch to Media Player

3 Select the device you want to access to

4 Select the content

To return to TV

EXIT or SD CARD

To return to the previous screen

RETURN

Change the device
You can change to the other device directly in the same mode if two devices are connected.

Display the menu

Select "Drive Select"

Select the device you want to access to

SD CARD

or

VERA TOOLS

● When SD Card is inserted, switching will be done automatically.

● If only one device is connected, this step will be skipped.

● Photo ⇒ “Photo mode” (p. 38)
● Video ⇒ “Video mode” (p. 40)
● Music ⇒ “Music mode” (p. 42)
Using Media Player

Photo mode

Photo mode will read all "jpg" extension files in the card or USB Flash Memory.

VIERA Link Functions

VIERA Link “HDAVI Control™”

Enjoy additional HDMI interoperability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 5” function. Connections to the equipment with HDMI cable such as DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc., allow you to interface them automatically. These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment’s version of HDAVI Control. Please confirm the connected equipment’s version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for the equipment. About applicable Panasonic equipment, consult your local Panasonic dealer.

*1: HDMI Connection only
*2: HDMI and Audio out connections
*3: available with the equipment which has “HDAVI Control 2 or later” function
*4: available with the equipment which has “HDAVI Control 3 or later” function
*5: available with the equipment which has “HDAVI Control 4 or later” function
*6: available with DIGA Recorder which has HDD
*7: while playing back a disc
*8: except for watching a disc
*9: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

Connection

- To use DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera

- To use Player theatre / Blu-ray Disc theatre:

- To use Amplifier:

*9: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or RCA cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.
VIERA Link Functions

Note
- This function may not work properly depending on the connected equipment.
- For DIGA Recorder / DVD Player / Blu-ray Disc Player / HD Video Camera / LUMIX Camera with VIERA Link function, connect to HDMI1, HDMI2 or HDMI3 terminal via an HDMI cable.
- For Player theatre / Blu-ray Disc theatre / Amplifier, connect to HDMI1, HDMI2 or HDMI3 or terminal via an HDMI cable and/or either the optical digital audio cable or RCA cable for audio output from the TV.
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilized.
- Recommended Panasonic’s HDMI cable part number:
  - RP-CDHS15 (1.5 m)
  - RP-CDHS30 (3.0 m)
  - RP-CDHS50 (5.0 m)

Preparations
- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.
- Set VIERA Link On in Setup Menu ⇒ “VIERA Link” (p. 27)
- Set the input mode to HDMI1, HDMI2 or HDMI3 (p. 19), and make sure that an image is displayed correctly.
  This setup should be done each time when the following conditions occur:
  - for the first time
  - when adding or reconnecting equipment
  - when changing setup

Features available

Channel download
Channel setting can be downloaded to the recorder.

Easy playback
Automatic input switching - When the connected equipment is operated, input mode is switched automatically.

Power on link
Set Power on Link “On” in Setup Menu to use this function ⇒ “Power on Link” (p. 27)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

Power off link
Set Power off Link “On” in Setup Menu to use this function ⇒ “Power off Link” (p. 27)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
  - This function will work even if the TV enters standby mode automatically by Off Timer function or auto power standby function.

Standby Power Save
Reduce unnecessary power consumption in standby
Set Standby Power Save “On” in the Setup Menu to use this function ⇒ “Standby Power Save” (p. 27)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronization with the TV On / Off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption in Standby mode of the connected equipment is automatically minimized. When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time early.
  - This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
  - This function will work when “Power off Link” is set to “On”.

Intelligent Auto Standby
Auto standby for unnecessary equipment
Set Intelligent Auto Standby “On (With reminder)” or “On (No reminder)” in the Setup Menu to use this function ⇒ “Intelligent Auto Standby” (p. 27)
When the TV is On, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, when Speaker Selection is changed to “TV” (except for watching a disc).
  - If you select “On (With reminder)”, the on screen message will be displayed to be noticed before working this function.
  - This function may not work properly depending on the connected equipment. If required, set to “Off.”
Features available (Using VIERA Link Menu)

Pause Live TV  Pause Live TV programme
Access and pause the live TV programme
You can pause the live TV programme and resume later.
Live TV programme will be recorded on HDD of the connected DIGA Recorder.
- This function is available with DIGA Recorder which has HDD.
- If you connect several recorders including other manufacturers’ recorders at the same time,
  please connect DIGA Recorder which has HDD to the TV's lower HDMI terminal number. For example,
  if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder
  which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 43, 44)

Display “VIERA Link Menu”

Select “Pause Live TV” and pause

- You can also access Pause Live TV by using VIERA TOOLS. ➤ p. 21
- Live TV programme is recorded on HDD from where it was paused.
- If the paused TV picture disappears after a few minutes
  (the paused picture will be restored)

To operate Pause Live TV  Operations may be different depending on the recorder. In
  this case, follow the operation guide or read the manual of the
  recorder.

To return to Live TV (stop playback of Pause Live TV / cancel pause)

Select “Yes”

- If you stop playback or cancel pause, the recorded programme will be deleted from HDD.

Direct TV Rec  Direct TV Recording - What you see is What you record
Recording the current programme in DIGA Recorder immediately.
- If you connect a variety of recorders including other manufacturers’ recorders at the same time,
  please connect DIGA Recorder to the TV's lower HDMI terminal number. For example,
  if you use HDMI1 and HDMI2 for two recorders, in this case connect DIGA Recorder to HDMI1.
- If you cannot operate, check the settings and the equipment
  ➤ “Summary of features”, “Connection”, “Preparations” (p. 43, 44)

Display “VIERA Link Menu”

Select “Direct TV Rec” and start recording

To stop recording
Select “Stop” in “Direct TV Rec” and stop recording
VIERA Link “HDAVI Control™”

Features available (Using VIERA Link Menu)

VIERA Link Control Operate the connected equipment with VIERA remote control

Access and operate the menu of the equipment
You can control some functions of the connected equipment with this TV remote control by pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment
  - “Summary of features”, “Connection”, “Preparations” (p. 43, 44)
  - For details of the operations of the connected equipment, read the manual of the equipment.

1. Display “VIERA Link Menu”
2. Select “VIERA Link Control”
3. Select the equipment you want to access
The type of the connected equipment is displayed. Select the type of the equipment and access.

You can also access VIERA Link control by using VIERA TOOLS. p. 21
The displayed item may vary depending on the connected equipment.
“Home Cinema” means Player theatre, Blu-ray Disc theatre or Recorder theatre.
“Other” means Tuner set top box.

The menu of the accessed equipment
(Input mode will be changed automatically)

5. Operate the connected equipment
1. Set the remote control code to “73” (p. 20)
2. Follow the operation guide
To display the operation guide Store / set / access
Move the cursor / select the menu Return to the previous menu
Move the cursor / access / adjust Exit the menu
When the key words are displayed on colour bar
(Note)
- Some operations may not be available depending on the equipment. If so, use its own remote control.

If multiple recorders or players are connected
The number is given from the TV’s lower HDMI terminal number connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, in this case the recorder connected to HDMI2 is displayed as “Recorder1”, and the recorder connected to HDMI3 is displayed as “Recorder2”.

If you access non-VIERA Link equipment
When the equipment with “HDAVI Control” function is connected
You can access the menu of the equipment. But you cannot operate it. Use its own remote control to operate the equipment.
Features available (Using VIERA Link Menu)

Speaker Selection  Speaker control

Access and control the speaker volume
You can control the theatre speaker with this TV remote control by pointing at the TV’s signal receiver.

● If you cannot operate, check the settings and the equipment
  ⇒ “Summary of features”, “Connection”, “Preparations” (p. 43, 44)

1) Display “VIERA Link Menu”

2) Select “Speaker Selection”

VIERA Link Menu
- Pause Live TV  Start
- Direct TV Rec  Start
- VIERA Link Control  Recorder
- Speaker Selection  Home Cinema

3) Set to “Home Cinema” or “TV”

Home Cinema
Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

● Volume up / down
  ⇒ + (Volume slide bar will be displayed when adjusting the volume of the equipment.)

● Mute

● The sound of TV speakers is mute.
● When the equipment is turned off, TV speakers will be active.

TV
TV speakers are active.

Note

● If you wish to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect with HDMI cable and Optical digital audio cable (p. 43), and then select “Home Cinema”. If your Amplifier has “HDAVI Control 5” function, you can connect only with HDMI cable. In this case, connect your Amplifier to the TV’s HDMI2 terminal.
To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 43).

Note

● These functions may not work properly depending on the connected equipment.
● Image or sound may not be available for the first few seconds when input mode is switched.
● Easy playback may be available by using the remote control for Player theatre, Blu-ray Disc theatre or Amplifier. Read the manual of the equipment.
● “HDAVI Control 5” is the newest standard (current as of December, 2009) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
● To confirm this TV’s version of HDAVI Control ⇒ “System Information” (p. 27)
External Equipment

These diagrams show our recommendations for how to connect the TV to your various equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 59).

Types of connectable equipment to each terminal

</tbody>
</table>

- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the stereo / bilingual sound selection button.
- **DUAL**, also known as **DUAL MONO** or as **BILINGUAL** is not currently transmitted in some countries.
HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment (1) with an HDMI or DVI output terminal, such as a DVD player, a set top box or a game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. About connections, see “External Equipment” (p. 48, 49).

Applicable HDMI features

- Input audio signal: 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p
  - “Input signal that can be displayed” (p. 52)
  - Match the output setting of the digital equipment.
- Input PC signal: “Input signal that can be displayed” (p. 52)
  - Match the output setting of the PC.
- VIERA Link (HDAVI Control 5): “VIERA Link” (p. 43)
- Audio Return Channel (2) (HDMI2 terminal only)

DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adapter cable (3).

When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal (HDMI1 / 2: use AV2 audio terminals / HDMI3: use AV3 audio terminals).

If the picture position is not fit to the screen during the DVI connection, adjust the position on “DVI Position Settings” in Setup Menu (p. 26). The settings are memorized for each HDMI terminals and input signals.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- PC signals that can be inputted: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz. More than 1,024 signal lines could result in incorrect display of the image.
- A PC adapter is not necessary for the DOS/V-compliant D-sub 15-pin connector.

Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see p. 52.

Max. display resolution

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
SD Card

Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

**Cautions in handling SD Card**
- Do not remove the card while the TV is accessing data (this can damage card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to a high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

</table>
Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

For regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Then wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution
- Do not use a hard cloth or rub the surface too hard. This may cause scratches on the surface.
- Take care not to subject the TV’s surfaces to water or detergent. A liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner, or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug
Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in “AV mode”?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check Picture Menu (p. 24) and volume.
- Check all required cables and connections are firmly in place.

An error message appears

- Follow the message’s instructions.
- If the problem persists, contact your local Panasonic dealer.

The LCD panel moves slightly when it is pushed with a finger Clattered sound might be heard

- There are some looseness around the panel to prevent the damage to the panel.
  The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.

There may be red spots, blue spots, green spots and black spots on the screen

- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture. Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/sub-pixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.
## FAQs

<table>
<thead>
<tr>
<th>Problem</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Note:</strong> Digital TV reception is only as good as the antenna and the antenna cabling delivering the DTV signals to the television. Reliable digital TV reception requires high quality, robust DTV signals which can only be achieved when using a TV antenna and cabling designed for digital TV reception.</td>
<td>To maintain optimum antenna signal quality, use an 'F' type TV signal splitter (as illustrated) when connecting two or more devices to the same antenna socket.</td>
</tr>
<tr>
<td>● Further reading please visit: <a href="http://www.digitalready.gov.au/publications.aspx">http://www.digitalready.gov.au/publications.aspx</a> where you can download ‘The Digital TV Antenna Systems for Homes Handbook’ information pdf file.</td>
<td><strong>Connecting devices such as DTV recorder / PVR / VCR etc that also require an antenna connection to the digital television</strong></td>
</tr>
<tr>
<td>● For your safety, the antenna and cabling should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1 for Domestic installations or AS1367 for MATV installations.</td>
<td>● Hint: Some degradation of the DTV signal may occur if you are connecting the aerial through an external device (e.g. DVD Recorder or Set Top Box). In this case it is better to use a splitter and connect the aerial directly to both devices.</td>
</tr>
<tr>
<td><strong>Digital TV</strong></td>
<td>After digital TV tuning, (or re-tuning) some or all DTV channels are missing</td>
</tr>
<tr>
<td>● Check to ensure your area is covered by DTV transmissions.</td>
<td>● Check &quot;Signal Condition&quot; via TV Setup menu. If &quot;Signal Quality&quot; or &quot;Signal Strength&quot; are red/orange or constantly changing, check aerial/cable/connections. If problem persists consult your local TV antenna installer.</td>
</tr>
<tr>
<td>● Check that the aerial and antenna cable are designed for DTV reception. If you live within 5-10 Km of DTV transmission towers, a combined VHF / UHF Digital TV aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance.</td>
<td>● Too much signal; is &quot;Signal Strength&quot; always at full strength? If yes, try attenuating (reducing) the signal strength</td>
</tr>
<tr>
<td>● If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DTV reception. Please consult your body corporate.</td>
<td>● Check that the aerial and antenna cable are designed for DTV reception.</td>
</tr>
<tr>
<td><strong>Picture regularly pixelates on some channels, or ‘No Signal’ message</strong></td>
<td>● The received signal may be too weak to allow the TV to reliably lock to the selected channel to generate a viewable picture. If problem persists consult your local TV aerial installer.</td>
</tr>
<tr>
<td>● Interference from household appliances (known as impulse noise) such as light switches, fridges etc may cause picture break up and / or audio distortion. Use high quality quad shielded coaxial cable (RG6Q) fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists consult your local TV aerial installer.</td>
<td>● Antenna installation may be using an aerial amplifier that is faulty or an older style aerial amplifier that was not designed for digital TV.</td>
</tr>
<tr>
<td><strong>Picture infrequently pixelates on some or all channels</strong></td>
<td>● Older style antenna cabling, loose fitting/corroded wall socket connections/terminals etc.</td>
</tr>
<tr>
<td>● Electrical interference caused by local or distant lighting storms, heavy rain, high wind etc may cause picture to break up and or audio to mute/distort momentarily.</td>
<td>● Impulse noise interference from an infrequently used electrical appliance, or a passing vehicle or lawn mower with a &quot;noisy&quot; ignition system.</td>
</tr>
<tr>
<td>● Old style antenna cabling, loose fitting/corroded wall socket connections/terminals etc.</td>
