Safety Precautions

Handling the mains plug and lead
- Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
- Ensure that the mains plug is easily accessible.
- Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
- Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
  - Do not move the TV with the lead plugged in the socket outlet.
  - Do not place a heavy object on the lead or place the lead near a high-temperature object.
  - Do not twist the lead, bend it excessively, or stretch it.
  - Do not pull on the lead. Hold onto the mains plug body when disconnecting lead.
  - Do not use a damaged mains plug or socket outlet.

Warning

If you find any abnormality, remove the mains plug immediately!

AC 220-240 V 50 / 60 Hz

Power source
- This TV is designed to operate on 220-240 V, 50 / 60 Hz AC.

Do not remove covers
NEVER modify the TV yourself
(High-voltage components may cause serious electrical shock.)
- Have the TV checked, adjusted, or repaired at your local Panasonic dealer.

Keep liquids away from the TV
- To prevent damage which may result in fire or shock hazard, do not expose this appliance to dripping or splashing.
- Do not place containers with water (flower vase, cups, cosmetics, etc.) above the TV. (including on shelves above, etc.)

Do not expose to direct sunlight and other sources of heat
- Avoid exposing the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

Do not place foreign objects inside the TV
- Do not let metal or flammable objects drop into the TV through the air vents (fire or electrical shock may result).

Do not place the TV on sloped or unstable surfaces
- The TV may fall off or tip over.

Use only the dedicated stands / mounting equipment
- Using an unauthorized stand or other fixtures may make the TV shaky, risking injury. Be sure to ask your local Panasonic dealer to perform setup.
- Use optional stands / mounts (p. 6).

Do not allow children to handle SD card
- As with any small object, SD Cards can be swallowed by young children. Please remove SD Card immediately after use and store out of reach of children.
Cleaning an energized TV may cause electrical shock.

When cleaning the TV, remove the mains plug
- Cleaning an energized TV may cause electrical shock.

When the TV is not going to be used for a long period of time, remove the mains plug
- This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

Allow sufficient space around the TV for radiated heat

- When using the pedestal, keep the space between the bottom of the TV and the floor surface.
- In case of using Wall-hanging bracket, follow the manual of it.

Do not block the rear air vents
- Blocked ventilation by newspapers, table cloths, curtains, etc. may cause overheating, fire or electrical shock.

Do not expose your ears to excessive volume from the headphones
- Irreversible damage can be caused.

Auto power standby function
- If no signal is received and no operation is performed in Analogue TV mode for 30 minutes, the TV will automatically go to standby mode.

Keep the TV away from these types of equipment
- Electronic equipment
  In particular, do not place video equipment near the TV (electromagnetic interference may distort images / sound).
- Equipment with an infrared sensor
  This TV also emits infrared rays (this may affect operation of other equipment).

Transport only in upright position

Adjust the LCD panel to your desired angle
- Ensure that the pedestal does not hang over the edge of the base even if the TV swivels to the full rotation range.
- Do not place any objects or hands within the full rotation range.

Display panel

Regular care: Gently wipe the surface clean of dirt by using a soft cloth.
Major contamination: Wipe the surface clean using a soft cloth dampened with clean water or diluted neutral detergent by 100 times of water. Then, using a soft dry cloth, evenly wipe the surface clean until it is dry.

- The surface of the display panel has been specially treated and may be easily damaged.
- Do not tap or scratch the surface with your fingernail or other hard object.
- Use care not to subject the surface to bug repellent, solvent, thinner, or other volatile substances (this may degrade surface quality).

Cabinet

Regular care: Wipe the surface clean using a soft dry cloth.
Major contamination: Dampen a soft cloth with clean water or water containing a small amount of neutral detergent. Then, wring the cloth and wipe the surface clean with it. Finally, wipe the surface clean with a dry cloth.

- Use care not to subject the TV's surfaces to detergent.
  (A liquid inside the TV could lead to product failure.)
- Use care not to subject surfaces to bug repellent, solvent, thinner, or other volatile substances (this may deteriorate the surface by peeling the paint).
- Do not allow the cabinet to make contact with a rubber or PVC substance for a long time.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. (Moisture and dust may lead to fire or electrical shock.)
Accessories / Options

Standard accessories

Check that you have the accessories and items shown ✔

- Remote Control Transmitter
  - N2QAYB000122
- Batteries for the Remote Control Transmitter (2)
  - R6 (AA)
- Cleaning cloth

Optional accessories

Wall-hanging bracket
- TY-WK32LR2W

Installing remote’s batteries

1. Pull open
2. Close

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or breakup batteries.
  - Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

Optional accessories

Please contact your nearest Panasonic dealer to purchase the recommended wall-hanging bracket. For additional details, please refer to the wall-hanging bracket installation manual.

How to remove the TV Stand

Remove four screws.

WARNING!
- Failure to use a Panasonic bracket or choosing to mount the unit yourself will be done at the risk of the consumer. Any damage resulting from not having a professional installer mount your unit will void your warranty.
- Always be sure to ask a qualified technician to carry out set-up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage.
- Do not mount the unit directly below ceiling lights (such as spotlights, floodlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
Basic Connection

External equipment and cables shown are not supplied with this TV. Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

Example 1 Connecting aerial

TV only

Example 2 Connecting DVD Recorder / VCR

TV, DVD Recorder or VCR

Note

- Do not put the RF cable close to the mains lead to avoid noise.
- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an Aerial, the correct cable (75 Ω coaxial) and the correct terminating plug are required.
- If a communal Aerial system is used, you may require the correct connection cable and plug between the wall Aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct Aerial system for your particular area and the accessories required.
- Any matters regarding Aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.
Identifying Controls

- Cursor buttons to make selections and adjustments.
- Standby On / Off switch (Switches TV On or Off standby).
- Changes aspect ratio (p. 12).
- Access VIERA Link Menu (p. 35).
- TV Guide (p. 13).
- OK button to confirm selections and choices.
- Press after selecting programme positions to quickly change programme. (DVB) (p. 10).
- Main Menu
  - Press to access VIERA Link, Picture, Sound and Setup menus (p. 18).
- Teletext (p. 16).
- Subtitles
  - Showing subtitles (p. 10).
- Programme / service change buttons (0-9) and Teletext page buttons. (p. 10 and p. 16)
  - When in Standby mode, switches TV On.
- Programme Information (p. 11).
- Selects services in sequence.
  - When in Standby mode, switches TV On.
- VCR / DVD operations (p. 15).
- Multi window (p. 12).
- Changes the sound track, if programme has multiple audio tracks (DVB).
  - Stereo / Bilingual Sound Selection (p. 41) (Analogue).
- Changes the input mode.
  - TV - switches DVB (digital broadcasting) / Analogue mode (p. 10).
  - AV - changes AV input mode (p. 14).
- Viewing SD Card (p. 32).
- Option menu
  - Sets the preferred settings of the current programme easily (p. 11).
- Exit (Returns to TV screen).
- Cursor buttons to make selections and adjustments.
- Returns to the previous menu.
- Coloured buttons used for the selection, navigation and operation of various functions.
- Still picture (p. 10).
- Teletext Hold (p. 17).
- Teletext Index (p. 17).
- Sound mute On / Off.

- Power LED
  - Standby: red
  - On: green
  - When using the remote control, indicates the TV has received a command.
- Mains power On / Off switch
  - Switch On to turn on the TV or turn the TV to standby mode by the remote control.
- Changes the input mode.
  - Switch On to turn on the TV or turn the TV to standby mode by the remote control.

Other controls:
- C.A.T.S. (Contrast Automatic Tracking System) sensor
  - Senses brightness to adjust picture quality in "Eco" mode in Picture Menu (p. 20).
- Remote control signal receiver.
- Increases or decreases the programme position by one. When a function is already displayed, press to increase or decrease the selected function. When in Standby mode, switches TV On.
- Swing door to open.
- SD Card slot (p. 33).
- Swing door to open.
- AV4 terminals (p. 38).
- Function select
  - Volume / Contrast / Brightness / Colour / Sharpness / Tint (NTSC mode) / Bass / Treble / Balance / Auto Tuning (p. 26).
- Headphones jack (p. 38).
- HDMI4 terminal (p. 38).
- Increases or decreases the programme position by one. When a function is already displayed, press to increase or decrease the selected function. When in Standby mode, switches TV On.
- Changes the input mode.
- Changes the input mode.
  - TV - switches DVB (digital broadcasting) / Analogue mode (p. 10).
  - AV - changes AV input mode (p. 14).
- Viewing SD Card (p. 32).
- Option menu
  - Sets the preferred settings of the current programme easily (p. 11).
- Exit (Returns to TV screen).
- Cursor buttons to make selections and adjustments.
- Returns to the previous menu.
- Coloured buttons used for the selection, navigation and operation of various functions.
  - Still picture (p. 10).
  - Teletext Hold (p. 17).
  - Teletext Index (p. 17).
- Sound mute On / Off.

- Volume.
Auto Tuning

Search and store TV programmes automatically. These steps are not necessary if the setup has been completed by your local dealer.

1. Plug the TV into mains socket and switch On
   - You can now use the remote control to turn On the TV or turn the TV to standby mode. (Power LED: On)

2. Select your state
   - Select State / Territory
     - New South Wales / Australian Capital Territory
     - Victoria
     - Queensland
     - South Australia
     - Western Australia
     - Tasmania
     - Northern Territory

3. Start Auto Tuning
   - Auto Tuning will start to search for TV services and store them in the numbered order as specified by the broadcasters.

4. Select the picture setting
   - Auto Tuning is now complete and your TV is ready for viewing.
   - To edit programmes
     - Editing Programmes (p. 24)
   - If tuning has failed
     - “Auto Tuning” (p. 24).
   - If you turned the TV Off during Standby mode last time, the TV will be in Standby mode when you turn the TV On with Mains power On / Off switch.

Many features available on this TV can be accessed via the On Screen Display menu.

How to use remote control

- Open the main menu
- Move the cursor / select the menu
- Move the cursor / adjust levels / select from a range of options
- Access the menu / store settings after adjustments have been made or options have been set
- Return to the previous menu
- Exit the menu system and return to the normal viewing screen

ON SCREEN HELP Instructions box

(example: Sound Menu)
Watching TV

1. Turn power on
   - Mains power On / Off switch should be On.
   - If “Shop” is displayed on the top right of the screen, reset settings in “Shipping Condition” (p. 28), and select “Home” in “Auto Tuning” (p. 9).

2. Select DVB (Digital Video Broadcasting) or Analogue
   - You can also select the mode using the TV button on the top panel of the TV.

   Select a programme
   - To select the two or three-digit programme number, e.g. 39
     - 3 ➔ 9 (in a short time)
   - If one or two-digit programme number ➔ quickly changes the programme
   - To select from the Programme List

3. Other useful functions (Operate after 3)
   - Hold
     - Freeze / unfreeze picture
   - Display subtitles
     - Display / hide subtitles (if available)

   Note
   - When the TV is switched to standby, there will be a clicking sound after a short delay. This is normal.

   Information banner

   Select a programme using Information banner (p. 11)
   Possible to confirm the programme name before selecting programmes.
   Display Information banner if it is not displayed
   While the banner is displayed, select the programme
   - Possible to set display timeout in “Banner Display Timeout” (p. 21).

   Select a programme using TV Guide (p. 13)
   Possible to confirm the TV Guide (EPG) before selecting programmes.
   Display TV Guide
   Select the programme

   Hold
   - Freeze / unfreeze picture
   - Display subtitles
   - Display / hide subtitles (if available)

   • Channel changing is also possible when this function is active.
Other useful functions (Operate after ③)

Display the current programme status

Check or change the current programme status instantly

- **OPTION**

MPX (Analogue mode)
- Sound Menu (p. 20)

Audio selection (DVB mode)
- Sound Menu (p. 20)

Allows you to select between alternative language for sound tracks (if available)

Volume Correction
- Adjusts volume of individual programme or input mode

Note

- Also possible to change the settings in Menu list (p. 20).

Display Information banner

- Also appears when changing a programme

<table>
<thead>
<tr>
<th>Event</th>
<th>Programme</th>

Watching TV

**Other useful functions** (Operate after 6)

### Change aspect ratio

**Change the aspect ratio** (p. 40)

Enjoy viewing the picture at its optimum size and aspect.

- To change the mode
  - Display Aspect Selection list
  - During the list is displayed, select the mode

- To change the mode using the ASPECT button only
  - Press repeatedly until you reach the desired mode

**Note**

- Only "16:9" and "4:3 Full" are available in DVB mode.

### View in multi window

**View in multi window** (p. 42)

Enjoy viewing two images at once, such as a TV programme and a DVD.

- **Picture-in-Picture mode (PinP)**
- **Picture-and-Picture mode (PandP)**

**Operations in multi window**

- To exit multi window (return to the single-screen view with main screen)
- To change the layout, images, first show the colour bar

  To change the layout
  - Press repeatedly until you reach the desired mode

  To swap

  To exit multi window

  To change the input mode or position of sub screen

  Swap sub screen for main screen

  Change the input mode or position by the remote control (p. 10 or p. 14)

- Remote control operations apply to the main screen.
Using TV Guide

Using TV Guide enables you to select programmes easily, view event information, etc. TV Guide—Electronic Programme Guide (EPG) provides an on-screen listing of programmes currently broadcast and future broadcasts over the next seven days (depending on the broadcaster).

Analogue programmes will be listed after DVB programmes. “D” means DVB programme and “A” means Analogue programme.

View TV Guide

Each time pressed, the layout will be changed. (Landscape / Portrait)

To return to TV

EXIT

To view details of the event (DVB mode)
Select the event

select

Press again to return to TV Guide.

Note

When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before the TV Guide is completely shown.
Watching Videos and DVDs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch the input. To connect the equipment (p. 7) The Remote Control is capable of operating some functions of selected Panasonic external equipment.

1. Display the Input select menu

2. Select the input mode connected to the equipment

- You can also select the input using the AV button on the remote control or the side panel of the TV.
- Press the button repeatedly until the desired input is selected.
- You can label or skip each input modes ➔ “Input Labels” (p. 29)

3. View

Displays the selected mode

Note

- If the external equipment has an aspect adjustment function, set to “16:9”.
- For details, see the manual of the equipment or ask your local dealer.
Panasonic equipment connected to the TV can be directly operated with the remote control.

</table>

**Note**
- Confirm correct operation after the code changed.
- The codes will be reset to default values if batteries are replaced.
- "DVD" means DVD player, DVD recorders and Recorder home theatre.
- Some operations may not be possible on some equipment models.
Viewing Teletext

You can enjoy teletext broadcasting, including news, weather forecasts and subtitles, if this service is provided by the broadcasters.

**What is FASTEXT mode?**
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriately coloured button. This facility enables fast access to information on the subjects shown.

**What is TOP mode?** (in case of TOP text broadcasting)
TOP is a particular improvement of the standard teletext service that results in an easier search and effective guide.

- Fast overview of the teletext information available
- Easy to use step-by-step selection of the topical subject
- Page status information at the bottom of the screen

- Available page up / down 🔴 🔴 🔴 🔴
- To select among subject blocks 🔴
- To select next subject within the subject block (After the last subject, it moves to the next subject block.) 🔴

**What is List mode?**
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. (“Store frequently viewed pages”, p. 17)

- ■ To change mode ⇒ “Teletext” in Setup Menu (p. 21)

![Remote control diagram]

**Switch to Teletext**
- Displays Index (content varies depending on the broadcasters)
- Current page number
- Time / date
- Colour bar
- Sub page number

**Select the page** (up to page 899)

- or
- or
- or

- R  G  Y  B
  (Corresponds to the colour bar)

down
Depending on the received signals, available items are varied.
## How to Use Menu Functions

### Menu list

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| **VERA Link** | Pause Live TV | Controls the connected equipment with VIERA Link function, and enables various convenient recording, playback, etc. (p. 35 - 37)  
- You can also access VIERA Link Menu directly using the VIERA Link button on the remote control. |
| Direct TV Rec | **Speaker Selection** | ![Menu list](image) |
| **Picture** | VIERA Link Control | ![Menu list](image) |
| Viewing Mode | ![Menu list](image) |
| Contrast, Brightness, Colour, Sharpness | ![Menu list](image) |
| Tint | With an NTSC signal source connected to the TV, the picture hue can be adjusted to suit your personal preference  
- For NTSC or Component / HDMI input signal reception only |
| Colour Balance | Allows you to set the overall colour tone of the picture (Cool / Normal / Warm) |
| Colour Management | Automatically adjusts colours to vivid ones (Off / On)  
- Not valid on PC signal |
| P-NR | Picture Noise Reduction  
- Automatically reduces unwanted picture noise and flicker noise in the contoured parts of a picture (Off / Min / Mid / Max)  
- Not valid on PC signal |
| 3D-COMB | Occasionally, whilst viewing still or slow moving pictures, colour patterning may be seen  
- Set to “On” to display sharper and more accurate colours (Off / On)  
- For PAL or NTSC signal reception only  
- Not valid on S-Video, Component, PC, HDMI and SD Card |
| Reset Picture Defaults | Press the OK button to reset Viewing Mode on all inputs to default settings. |
| **Sound** | ![Menu list](image) |
| Mode | Basic sound mode (Music / Speech) |
| Bass | Increases or decreases level to enhance or minimise lower, deeper sound output |
| Treble | Increases or decreases level to enhance or minimise sharper, higher sound output |
| Balance | Adjusts volume level of right and left speakers |
| Headphone Volume | Adjusts the volume of the headphones |
| Surround | ![Menu list](image) |
| Volume Correction | Adjusts volume of individual programme or input mode |
| Speaker Distance to Wall | Adjusts the low frequency sound (Over 30cm / Up to 30cm)  
- If the back space between the TV and wall is over 30 cm, “Over 30cm” is recommended.  
- If the back space between the TV and wall is within 30 cm, “Up to 30cm” is recommended. |
| MPX | Select stereo / monaural (Mono / Stereo) (p. 41)  
- Normally: Stereo  
- Stereo signal cannot be received: Mono  
- M1 / M2: Available while mono signal is transmitted  
- Analogue mode only |
| DVB Audio Preference | Select the initial setting for Audio tracks (Dolby Digital / MPEG)  
- If programme has both Dolby Digital and MPEG audio tracks, priority is given to what you select  
- Dolby Digital: A method of coding digital signals developed by Dolby Laboratories. Apart from stereo (2ch) audio, these signals can also be multi-channel audio.  
- MPEG: An audio compression method that compresses audio to small size without any considerable loss of audio quality  
- DVB mode only |
| SPDIF Selection | Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT terminal (Auto / PCM)  
- Auto: Dolby Digital is output as Dolby Digital Bitstream, MPEG is output as PCM.  
- PCM: Dolby Digital is output as PCM. MPEG is output as PCM.  
- DVB mode only |
| MPEG Optical Level | Normally, MPEG sound is larger than Dolby Digital one  
- You can adjust the audio level of MPEG output from DIGITAL AUDIO OUT terminal as the initial setting  
- 0dB to -12dB in -2dB reductions  
- DVB mode only |
| Audio Selection | Selects the preferred language for DVB multi audio (depending on the broadcaster)  
- Auto: Automatic detection of digital or analogue sound source |
| HDMI1 / 4 Input | ![Menu list](image) |
| Reset Sound Defaults | Press the OK button to reset the present Sound Mode to the default settings. |

*A different menu will be displayed while PC, DVI to HDMI adapter cable or SD Card is used. (p. 30-31 and p. 33)*

*Only available items can be selected.*
DVB Settings (DVB mode)

DVB Settings provide access to various advanced features.

1. If in Analogue mode
   Select DVB

2. Display the menu

3. Select “Setup”

4. Select “DVB Favourites Edit”, “System Update”, “Region Select” or “Daylight Saving Time”

5. Set

To return to TV
EXIT
Download new software to TV.

- For details (p. 41)

**If System Update is performed, the software will be updated (it may change TV functions). If you do not wish to do so, set “Auto Update Search in Standby” to Off.**

**Select “Auto Update Search in Standby” and then set “On” or “Off”**

- **On:** Automatically performs a search in standby and downloads an update, if any software updates are available.

**Note**

- When the TV is switched to standby, there will be a clicking sound after a short delay. Similar clicking sounds will also occur at 3:00 AM and 5:00 AM (p. 41) when “Auto update Search in Standby” is set to “On”. These sounds are normal.

**To update immediately**

Select “System Update Search Now”

- Searches for an update (for several min.) and displays a corresponding message if any

- **Download**
  - Download may take for about 20 min.

**Note**

- During downloading, the TV will display a blank screen for 40 to 50 seconds. Do not interrupt the TV during this procedure.

Select the region where you live to adjust the standard time.

- The time contained in the broadcast signal is UTC (Universal Time coordinated) formally known as GMT (Greenwich Mean Time).

<table>
<thead>
<tr>
<th>Region</th>
<th>Standard time</th>
<th>Daylight Saving Time: Auto (During Summer Time)</th>
</tr>
</thead>
<tbody>
<tr>
<td>NSW / ACT</td>
<td>+10:00</td>
<td>+11:00</td>
</tr>
<tr>
<td>Victoria</td>
<td></td>
<td>+11:00</td>
</tr>
<tr>
<td>Queensland</td>
<td>+9:30</td>
<td>+10:30</td>
</tr>
<tr>
<td>South Australia</td>
<td>+8:00</td>
<td>+9:00</td>
</tr>
<tr>
<td>Western Australia</td>
<td>+7:00</td>
<td></td>
</tr>
<tr>
<td>Northern Territory</td>
<td>+6:30</td>
<td>+7:00</td>
</tr>
<tr>
<td>Tasmania</td>
<td>+10:00</td>
<td>+11:00</td>
</tr>
</tbody>
</table>

Select time offset from the standard time for Summer Time.

- Normally select “Auto”.
- If there is a gap between displayed time and actual time, set this function.

**(Based on GMT)**
Editing Programmes
You can make your favourite programme lists and skip unwanted programmes, etc.

1. Select DVB or Analogue

  - “DVB Favourites Edit” and “DVB Service List” are available in DVB mode only.
  - “Analogue Service List” is available in Analogue mode only.

2. Display the menu

3. Select “Setup”

4. Select “DVB Favourites Edit”, “DVB Service List” or “Analogue Service List”

5. Set

To return to TV
EXIT
Create your favourite programme list from various broadcasters (up to 4: Fav List1 / Fav List2 / Fav List3 / Fav List4).
The list is added to “Favourites” list in TV Guide (p. 12) and information banner (p. 11) and then easily accessed.

**Select a programme and add it to the list**

- To display another List
  - B
- To add all programmes to the list
  - Y
- A programme is added

**To edit List**

- Select the field of List to edit and:
  - To name the List
    - R
    - Select the character
    - RETURN
  - To move the programme
    - G
    - Select the new position
    - Confirm
    - G
  - To delete the programme
    - Y
  - To delete all programmes
    - B

**Note**
- Programme numbers (known as logical channel numbers) are defined by the broadcaster and cannot be changed.
- Hidden services (see below) can be selected but not viewed.

You can hide unwanted services. The deleted services cannot be displayed except in this function. Use this function to skip unwanted programmes.

- “DVB Service List” is listed all tuned DVB programmes in DVB mode.
- “Analogue Service List” is listed all tuned Analogue programmes in Analogue mode.

**Select a service and add / delete**

- Add / delete
  - ③ add / delete
  - ① select
  - :add
  - :delete (skip)
- To retune each programme
  - Manual Tuning
  - (p. 27)

You can change the programme name and programme position for Analogue programmes.

- This function is available in Analogue mode.
- If a VCR is connected only with the RF cable, edit “VCR”.

1. **Select the programme to edit**

2. **Edit**

   - To change the name displayed when selecting programmes
     - Select “Rename”
     - Set characters
     - (maximum: five characters)

   - To move the programme position
     - Select new position
     - Store
Tuning Programmes

You can retune all the TV programmes when moving house or search for new services which may have recently started broadcasting.

1. **Select DVB or Analogue**
   - “DVB Manual Tuning”, “Add New DVB Services”, “New Service Message” and “DVB Signal Display” are available in DVB mode only.
   - “Analogue Manual Tuning” is available in Analogue mode only.

2. **Display the menu**

3. **Select “Setup”**

4. **Select “Tuning Menu”**

5. **Select a function**

6. **Set**

---

**For Auto Tuning, using the buttons on the side of the TV (p. 8)**

1. Press repeatedly until “Auto Tuning” appears

2. Access “Auto Tuning”

3. Start “Auto Tuning”

To return to TV ➔
Automatically retune all DVB or Analogue programmes received in the area.
• Only DVB programmes are retuned in DVB mode.
• Only Analogue programmes are retuned in Analogue mode.

**Start Auto Tuning**

- All digital tuning data will be erased.

**Settings are made automatically**

- All the previous tuning settings are erased.
- When the operation is completed, the programme at programme position “1” will be displayed.
- If tuning has not been done completely ⇒ “DVB Manual Tuning”, “Analogue Manual Tuning”

Normally use “Auto Tuning” or “Add New DVB Services” to add DVB programmes to your service list.
If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

**Set DVB programme manually**

**DVB Manual Tuning**

**Set Analogue programme manually**

**Analogue Manual Tuning**

**Add DVB programme automatically**

**Add New DVB Services**

**Display a notification message**

**New Service Message**

**Check DVB signal**

**DVB Signal Display**

Any new services found will be added to the DVB Service List.
• The new service is added with the current settings saved as they are.

Selects whether to give a notification message when a new DVB service is found. (Off / On)

Selects a programme and checks the DVB signal condition.
• To change the programme

A good Signal Strength is not an indication of suitable signal for DVB reception. Please use the Signal Quality indicator as follows:

**Signal Quality:**
• Green bar ⇒ Good
• Yellow bar ⇒ Poor
• Red bar ⇒ Bad (Check the aerial)
Restore Settings

 Resets the TV to its original condition, i.e. no programmes tuned in. All settings (programmes, picture, sound quality, etc.) are reset.

1. Display the menu

2. Select “Setup”

3. Select “Shipping Condition”

4. Set

1. Check the message and initialise

   Set

   Shipping Condition
   Analogue & DVB tuning data will be erased
   Are you sure?
   Are you sure?

   Confirm
   EXIT
   RETURN

2. Follow the on-screen instructions

   “Auto Tuning” will automatically start when Mains power On / Off switch is next turned On.

   To re-tune TV programmes only, e.g. after moving house
   ⇒ “Auto Tuning” (p. 27)

EXIT
RETURN
Input Labels

For easier identification and selection of the input mode, you can label each input terminals or skip terminal that is not connected to any equipment.
(To select the input mode ⇒ p. 14)

1. **Display the menu**
   - Press the MENU button on the remote.

2. **Select “Setup”**
   - Use the arrow buttons to select “Setup”, then press the OK button.

3. **Select “Input Labels”**
   - Use the arrow buttons to select “Input Labels”, then press the OK button.

4. **Select a input terminal and set**
   - Use the arrow buttons to select the input terminal you want to label, then press the OK button.
   - The labels you set will be displayed in “Input Selection” menu (p. 14) or banner.
   - If “Skip” is selected, you cannot select the mode.

**User Input**
You can name each input terminals freely.

- **Select “User Input”**
  - Use the arrow buttons to select “User Input”, then press the OK button.

- **Set characters**
  - Use the arrow buttons to select the characters you want to set, then press the OK button.

- **Store**
  - Press the RETURN button to store the set characters.

(maximum: ten characters)
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected. To connect PC (p. 36)

1. **Select the external input**

2. **Select “PC”**

   - Input Selection
     - AV1
     - AV2
     - AV3
     - AV4
     - PC
     - HDMI1
     - HDMI2
     - HDMI3
     - HDMI4
     - TV

   - Press the OK button to reset to the default settings

   - Corresponding signals (p. 41)
   - If “H-freq.” or “V-freq.” is shown in red, the signals may not be supported.
   - PC Audio input is via AV2 Audio connection. (p. 39)

**PC menu setting** (changed as desired)

- To make settings ➔ “How to Use Menu Functions” ① to ④ (p. 18)

- Other items ➔ p. 20 and p. 21
HDMI Functions

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment. HDMI-compatible equipment (1) with an HDMI or DVI output terminal, such as a set top box or a DVD player, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable. About connections, see “External Equipment” (p. 36).

**Note**
- HDMI is the world’s first complete digital consumer AV interface complying with a non-compression standard.
- Audio settings can be made on the “HDMI1 / 4 Input” menu screen. (p. 20)
- Applicable audio signal sampling frequencies (2ch L.PCM): 48 kHz, 44.1 kHz, 32 kHz
- HDMI2 / 3 terminal is for digital audio signal only.
- Use with a PC is not assumed.
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- An equipment having no digital output terminal may be connected to the input terminal of either “Component”, “S-VIDEO”, or “Video” to receive analogue signals.
- The HDMI input terminal can be used with only the following image signals: 480i, 480p, 576i, 576p, 720p, 1080i and 1080p. Match the output setting of the digital equipment.
- For details of the applicable HDMI signals, see p. 43.

**DVI connection**
- If the external equipment has only a DVI output, connect to the HDMI1 / 4 terminal via a DVI to HDMI adapter cable (2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal (HDMI1: use AV2 IN terminals, HDMI4: use AV4 IN terminals).

**DVI Position Settings**
- If the picture position is not fit to the screen during the DVI connection, adjust the position on “DVI Position Settings” in Setup Menu. The settings are memorized for each HDMI terminals and input signals.
- To make settings ⇒ “How to Use Menu Functions” 1 to 4 (p. 18)

**Cautions in handling SD Card**

- Do not remove the card while the TV is accessing data (this can damage card or TV).
- Do not touch the pins on the back of the card.
- Do not subject the card to a high pressure or impact.
- Insert the card in the correct direction (otherwise, card may be damaged).
- Electrical interference, static electricity, or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. (Panasonic is not liable for any deterioration or damage of recorded data.)

**VIERA Link “HDAVI Control™”**

Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function. This TV supports “HDAVI Control 3” function. Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI cable allow you to interface them automatically. These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

Some functions are not available depending on the equipment’s version of HDAVI Control. Please confirm the connected equipment’s version of HDAVI Control.

VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed. Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function. About applicable Panasonic equipment, consult your local Panasonic dealer.

### Summary of VIERA Link functions

- **Easy playback**
  - Power on link
  - Power off link
  - Speaker control
  - Control the menu of the connected equipment by VIERA remote control (Available with the equipment which has “HDAVI Control 2” or “HDAVI Control 3” function.)
  - Pause Live TV programme (Available with the equipment which has “HDAVI Control 3” function.)

### Connections

Read the manual of the equipment, too.

Connect the equipment supporting VIERA Link to the TV’s HDMI1, HDMI2, HDMI3 or HDMI4 terminals via fully wired HDMI cables.

**For Speaker control (Home Cinema)**
- **To use Amplifier**
  - HDMI cable
  - Optical digital audio cable or RCA cable
  - HD Video Camera with VIERA Link function
- **To use Player theatre**
  - HDMI cable
  - Optical digital audio cable or RCA cable
  - DIGA Recorder with VIERA Link function

### Preparations

- Connect the equipment supporting VIERA Link.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder might be required. For details, read the manual of the recorder.
- Set VIERA Link On in Setup Menu “VIERA Link” (p. 21)
- Set up the TV After connection, turn the equipment on and then switch the TV on. Select the input mode to HDMI1, HDMI2, HDMI3 or HDMI4 (p. 20), and make sure that an image is displayed correctly. This setup should be done each time when the following conditions occur:
  - for the first time / • when adding or reconnecting equipment / • when changing setup

### Features available

<table>
<thead>
<tr>
<th>Easy playback</th>
<th>Automatic Input switching - When the connected equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is not returned.</th>
</tr>
</thead>
</table>
| Power on link | Set Power on Link “Set” in Setup Menu to use this function ➤ “Power on Link” (p. 18 - 19, 21)
  - When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when TV is in Standby mode.) |
| Power off link | Set Power off Link “Set” in Setup Menu to use this function ➤ “Power off Link” (p. 18 - 19, 21)
  - When TV is set to Standby mode, the connected equipment is also automatically set to Standby.
  - This function will work even if the TV enters standby mode automatically by Off Timer function or auto power standby function. |

The TV remains on even if the “VIERA Link” compatible equipment is turned off.
Features available (Using VIERA Link Menu)

You can pause the live TV programme and resume later.
- This function is available with DIGA Recorder which has HDD and “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ⇒ “Preparations” (p. 34)
- Available conditions:
  - when watching TV programme
  - when watching the input from DIGA Recorder

Access and pause the live TV programme

1. Display “VIERA Link Menu”
2. Select “Pause Live TV” and pause
   - Live TV programme is recorded on HDD from where it was paused.

To resume (stop pause)
Select “Pause Live TV” and access
- About the operations after resuming, read the manual of the equipment.

To return to Live TV
(cancel pause or resumed playback)
⇒ (change the input mode)
- If you cancel pause or resumed playback, the recorded programme will be deleted from HDD.

Recording the current programme in DIGA Recorder immediately.
- This function is available with DIGA Recorder which has “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ⇒ “Preparations” (p. 34)
- Available conditions:
  - when watching TV programme
- The recording is performed by using the tuner of DIGA Recorder.
  Changing programme, input mode or turning off the TV is available during the recording.

1. Display “VIERA Link Menu”
2. Select “Direct TV Rec” and start recording

To stop recording
Select “Stop” in “Direct TV Rec” and access
You can control some functions of the connected equipment with this TV remote control (point the remote control at the TV’s signal receiver).

- This function is available with the equipment which has “HDAVI Control 2” or “HDAVI Control 3” function.
- If you cannot operate, check the settings and the equipment ➔ “Preparations” (p. 34)

Access and operate the menu of the equipment

① Display “VIERA Link Menu”

② Select “VIERA Link Control”

③ Select the equipment you want to access

- “Home Cinema” means Player theatre, Recorder theatre and Amplifier.

Recorder / Player / Home Cinema / Video Camera

The type of the connected equipment is displayed. Select the type of the equipment and access.

The menu of the accessed equipment (Input mode will be changed automatically)

④ Operate the menu of the equipment

- Available VIERA remote control buttons (depending on the connected equipment):

<table>
<thead>
<tr>
<th>Button</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move the cursor</td>
<td>Move the cursor / select the menu</td>

<td>Display the operation guide for the equipment / The same functions with the OPTION button of the equipment</td>
</tr>
<tr>
<td>Access when the key words are displayed on colour bar</td>
<td>Access when the key words are displayed on colour bar</td>
</tr>
</tbody>
</table>

About the operations for the equipment, read the manual of the equipment.
You can control the theatre speaker with this TV remote control (point the remote control at the TV’s signal receiver).

- This function is available with the Amplifier or Player theatre which has “HDAVI Control” function.
- If you cannot operate, check the settings and the equipment ⇒ “Preparations” (p. 34)

**Access and control the speaker volume**

1. Display “VIERA Link Menu”
2. Select “Speaker Selection”
3. Set to “Home Cinema” or “TV”

### Home Cinema
Amplifier or Player theatre will be automatically turned on if it is in Standby mode and the sound is from theatre speakers connected to the equipment.

- Volume up / down ⇒ + VOL
- Mute ⇒ MUTE
- The sound of TV speakers is mute.
- When the equipment is turned off, TV speakers will be active.

### TV
TV speakers are active.

**Note**
- This function may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when the playback starts.
- Image or sound may not be available for the first few seconds when Input mode is switched.
- Volume function will be displayed when adjusting the volume of the equipment.
- Easy playback is also available by using the remote control for Amplifier or Player theatre. Read the manual of the equipment.
- About HDMI cable for connecting Panasonic HD Video Camera, read the manual of the equipment.
- If more than one equipment of the same type are connected to the TV by HDMI cables, for example two DIGA Recorders to HDMI1 and HDMI2, VIERA Link will only be available for the lower terminal number, in this case HDMI1.
- “HDAVI Control 3” is the newest standard (current as of December, 2007) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ⇒ “System Information” (p. 21)
External Equipment

These diagrams show our recommendations for how to connect the TV to your various equipment. For other connections, consult the instructions for each piece of equipment, the table below, and the specifications (p. 47).

To record / playback videocassettes / DVDs (VCR / DVD recorder)
To watch DVDs (DVD player)
To watch camcorder images (Video camera)
To watch satellite broadcasts (Set top box)
To play games (Game equipment)
To use amplifier with speaker system
VIERA Link

Headphones
- To adjust volume
  “Headphone Volume” in the Sound Menu (p. 20)

Types of connectable equipment to each connector

<table>

PC input

O – – O – – – – – –

**Note**

- The ratio varies depending on the programme, etc. If the ratio is greater than the standard "16:9", black bands may appear at the top and bottom of the screen.
- If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. (See the VCR manual.)
- To select the ratio manually: (PC mode: "16:9" or "4:3" only, DVB mode: "16:9" or "4:3 Full" only)
## Updating the software system

Update system software regularly to ensure that you have latest version software.
If there is an update available, a notification banner is displayed when the channel has the update information.
- To download new software, press “OK” ➔ Downloading (approx. 20 min.)
  - If you choose not to download, press “EXIT”.

### To update automatically
Set “Auto Update Search in Standby” to “On” (p. 23)
- If there is a new version software being broadcast, the TV will download this automatically.
  - The automatic updating sequence is carried out at 3:00 AM and 5:00 AM every morning under the following conditions.
    - Standby (TV turned Off with the remote control)
    - Recording is not in progress.

### To update manually
Perform “System Update Search Now” (p. 23)
- If there is an update available, a notification banner is displayed.
  - To download new software, press “OK” ➔ Downloading (approx. 20 min.)
    - If you choose not to download, press “EXIT”.

### Note
- During downloading, do not turn Off the TV or touch any button.
  - (The TV is automatically activated after downloading is completed.)
- When the TV is switched to standby, there will be a clicking sound after a short delay. Similar clicking sounds will also occur at 3:00 AM and 5:00 AM when “Auto update Search in Standby” (p. 23) is set to “On”. These sounds are normal.

## Stereo / Bilingual Sound Selection (Analogue mode)

When you receive the stereo / bilingual sound system, sound output modes can be selected by pressing the STereo / Bilingual Sound Selection button.

<table>
<thead>
<tr>
<th>Audio Signal</th>
<th>STEREO</th>
<th>MAIN I</th>
<th>SUB II</th>
<th>MONO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mode Indicator</td>
<td>○</td>
<td>I</td>
<td>II</td>
<td>▽</td>
</tr>
</tbody>
</table>

### NICAM

- Used in New Zealand, Singapore, Hong Kong etc.

<table>
<thead>
<tr>
<th>Type of broadcast</th>
<th>Regular broadcast (Standard Audio)</th>
<th>Regular + NICAM MONO I (MAIN I)</th>
<th>NICAM STEREO</th>
<th>NICAM DUAL MONO (MAIN I / SUB II)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mode Indicator</td>
<td>No Indicator ➔ ▽</td>
<td>I ➔ ▽</td>
<td>○ ➔ ▽</td>
<td>![Icon] ➔ ▽ ➔ II</td>
</tr>
</tbody>
</table>

### A2(German)

- Used in Australia, Malaysia etc.

<table>
<thead>
<tr>
<th>Type of broadcast</th>
<th>Regular broadcast (Standard Audio)</th>
<th>BILINGUAL or DUAL MONO: MAIN I / SUB II</th>
<th>STEREO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mode Indicator</td>
<td>No Indicator ➔ ▽</td>
<td>I ➔ II</td>
<td>○ ➔ ▽</td>
</tr>
</tbody>
</table>

### Note
- If the stereo signal is poor or the receiving conditions are not optimum or if STEREO:MONO automatic switching occurs, it is recommended you switch from STEREO to MONO.
- Even when the contents of the receiving signal undergo changes, selection mode is kept intact.
- When the receiving conditions deteriorate, listening will be easier if the mode is set to the MONO position, using the stereo / bilingual sound selection button.
- DUAL, also known as DUAL MONO or as BILINGUAL is not currently transmitted in some countries.
Technical Information

Multi Window

You can watch two images at once. (p. 12)
- The same input mode cannot be displayed at once.
- The sound is active for main screen only in multi window.
- You cannot change the aspect ratio in multi window.
- During Multi Windows you cannot view analogue and digital signals at the same time.
- Multi window cannot be used with PC, SD card or HDMI (available for main screen only).
- During Multi Windows subtitle is not displayed. When the \[\text{STTL}\] is pressed, “Subtitle not available” will be displayed.
- Some signals are reformatted for suitable viewing on your display.
- The display timeout for the input mode or programme position can be adjusted by “Banner Display Timeout” in Setup Menu (p. 21).

Data format for Card browsing

<table>
<thead>
<tr>
<th>Photo</th>
<th>Still images recorded with digital still cameras compatible with JPEG files of DCF* and EXIF standards</th>

</tr>
</tbody>
</table>

- Compliant card type (maximum capacity): SDHC Card (16 GB), SD Card (2 GB), Multi Media Card (128 MB), miniSD Card (1 GB) (requiring miniSD adapter)
- If miniSD Card is used, insert / remove it together with the adapter.
- Check the latest information on the card type at the following website. (English only)

*DCF (Design rule for camera file system): Unified standard established by Japan Electronics and Information Technology Industries Association (JEITA).

Note

- A JPEG image modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF (Exchangeable Image File) 2.0, 2.1, and 2.2.
- Partly degraded files might be displayed at a reduced resolution.
- Only “.JPG” extension can be read by this TV.
- The folder and file names may be different depending on the digital camera used.
- Do not use two-byte characters or other special codes.
- The card may become unusable with this TV if file or folder names are changed.
PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.

- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals, see below.
- Max. display resolution

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- Applicable input signal for PC is basically compatible to VESA standard timing.
- PC signal is magnified or compressed for display, so that it may not be possible to show fine detail with sufficient clarity.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If problem still persists, please contact your local Panasonic dealer for assistance.

White spots or shadow images (noise)

- Check the position, direction, and connection of the aerial.

Neither image nor sound is produced

- Is the TV in “AV mode”?
- Is the mains lead plugged into the socket outlet?
- Is the TV turned On?
- Check Picture Menu (p. 20) and volume.

An error message appears

- Follow the message’s instructions.
- If the problem persists, contact the authorized Service Centre.

The LCD panel moves slightly when it is pushed with a finger

Clattered sound might be heard

- There are some looseness around the panel to prevent the damage to the panel.
- The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.

Pixel Statement

- An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture.
- Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/sub-pixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.

<td>- Check that the aerial and antenna cable are designed for DVB. For your safety, the aerial and cable should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1. Note: If you live within 5-10 Km of DVB transmission towers, a combined VHF / UHF aerial should be adequate. Outside this area, separate VHF and UHF aerials provide superior reception performance.</td>
</tr>
<tr>
<td></td>
<td>- If you live in a unit or apartment, check to ensure the Master Antenna TV (MATV) system is designed for analogue and DVB-T reception. Please consult your body corporate.</td>
</tr>
<tr>
<td><strong>Picture regularly breaks up on some programmes, or “No Signal” message</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Picture very infrequently breaks up on some or all programme</strong></td>
<td></td>
</tr>
<tr>
<td><strong>TV takes so long to turn on</strong></td>
<td>- Check &quot;Signal Display&quot;. (p. 27)</td>
</tr>
<tr>
<td></td>
<td>- If &quot;Signal Quality&quot; or &quot;Signal Strength&quot; are displayed in red or constantly changing, check aerial.</td>
</tr>
<tr>
<td></td>
<td>- Check that the aerial and antenna cable are designed for DVB. For your safety, the aerial and cable should be inspected / installed by a licenced installer that should comply with Australian Standard AS1417.1.</td>
</tr>
<tr>
<td></td>
<td>- Interference (known as impulse noise) from household appliances such as light switches, fridges etc may cause picture break up and / or audio distortion. Use high quality quad shielded coaxial cable fly lead between TV and antenna wall socket to minimise impulse noise pickup. If problem persists consult your local TV aerial installer.</td>
</tr>
<tr>
<td></td>
<td>- When &quot;No Signal&quot; message is displayed check TV aerial connection.</td>
</tr>
<tr>
<td></td>
<td>- The received signal may be too weak to allow the TV to reliably lock to the desired &quot;No Signal&quot; channel to generate a stable picture. Repeat the tuning procedure (p. 27). If problem persists consult your local TV aerial installer.</td>
</tr>
<tr>
<td><strong>The programme cannot be selected</strong></td>
<td></td>
</tr>
<tr>
<td><strong>The programme cannot be changed</strong></td>
<td></td>
</tr>
<tr>
<td><strong>TV goes into “Standby mode”</strong></td>
<td></td>
</tr>
<tr>
<td><strong>The remote control does not work</strong></td>
<td></td>
</tr>

**Note**

- Design and Specifications are subject to change without notice. Weight and Dimensions shown are approximate.
WARRANTY - Australia only

1. The product is warranted for 12 months from the date of purchase. Subject to the conditions of this warranty Panasonic or its Authorised Service Centre will perform necessary service on the product without charge for parts or labour if, in the opinion of Panasonic, the product is found to be faulty within the warranty period.

2. This warranty only applies to Panasonic products purchased in Australia and sold by Panasonic Australia or its Authorised Distributors or Dealers and only where the products are used and serviced within Australia or its territories. Warranty cover only applies to service carried out by a Panasonic Authorised Service Centre and only if valid proof of purchase is presented when warranty service is requested.

3. This warranty only applies if the product has been installed and used in accordance with the manufacturer’s recommendations (as noted in the operating instructions) under normal use and reasonable care (in the opinion of Panasonic). The warranty covers normal domestic use only and does not cover damage, malfunction or failure resulting from use of incorrect voltages, incorrect installation, accident, misuse, neglect, build-up of dirt or dust, abuse, maladjustment of customer controls, mains supply problems, thunderstorm activity, infestation by insects or vermin, tampering or repair by unauthorised persons (including unauthorised alterations), exposure to abnormally corrosive conditions or any foreign object or matter having entered the product.

4. This warranty does not cover the following items unless the fault or defect existed at the time of purchase:

- Video or Audio Tapes
- Video or Audio Heads and Stylii resulting from wear and tear in normal use
- Shaver Heads or Cutters
- Cabinet Parts
- User replaceable Batteries
- Thermal Paper, Toner/Ink Cartridges, Drums, Developer, Film (ink/Ribbon), Film Cartridge, Printer Heads

5. If warranty service is required you should:

- Telephone Panasonic’s Customer Care Centre on 132600 or visit our website and use the Service Centre Locator for the name/address of the nearest Authorised Service Centre.
- Send or bring the product to a Panasonic Authorised Service Centre together with your proof of purchase receipt as a proof of purchase date. Please note that freight and insurance to and/or from your nearest Authorised Service Centre must be arranged by you.
- Note that home or pick-up/delivery service is available for the following products in the major metropolitan areas of Australia or the normal operating areas of the nearest Authorised Service Centres:

- Picture tube (CRT) based Television Receivers (screen sizes greater than 66cm); Rear Projection TV’s; Plasma/LCD televisions / displays (screen size greater than 103 cm)
- Convection/Combination Microwave Ovens
- Whiteboard (except portable type)

6. The warranties hereby conferred do not extend to, and exclude, any costs associated with the installation, de-installation or re-installation of a product, including costs related to the mounting, de-mounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

Panasonic Authorised Service Centres are located in major metropolitan areas and most regional centres of Australia, however, coverage will vary dependant on product. For advice on exact Authorised Service Centre locations for your product, please telephone our Customer Care Centre on 132600 or visit our website and use the Service Centre Locator.

THIS WARRANTY CARD AND THE PURCHASE DOCKET (OR SIMILAR PROOF OF PURCHASE) SHOULD BE RETAINED BY THE CUSTOMER AT ALL TIMES

If you require assistance regarding warranty conditions or any other enquiries, please visit the Panasonic Australia website www.panasonic.com.au or by phone on 132 600

If phoning in, please ensure you have your operating instructions available.
