Thank you for purchasing this Panasonic product. Please read these instructions carefully before operating this product and retain them for future reference. The images shown in this manual are for illustrative purposes only.
Important Notice

Do not display any still part of the image for a long period

In such cases the still part of the image remains dimly on the plasma screen (“image retention”). This is not considered a malfunction and is not covered by the warranty.

Typical still image parts:
- Channel number, channel logo and other logos
- Still or moving pictures viewed in 4:3 or 14:9 aspect ratio
- Video games

To avoid image retention, the screen saver may be activated (VIERA logo moves) or the on-screen message may move after a few minutes if no signals are sent or no operations are performed.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard (“AVC Video”) and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use.

Additional information may be obtained from MPEG LA, LLC.

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker’s peripheral devices.

Safety Precautions

To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings and cautions below:

Mains plug and lead

Warning

If you detect anything unusual, immediately remove the mains plug.

- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.
- Insert the mains plug fully into the socket outlet.
- Ensure that the mains plug is easily accessible.
- Disconnect the mains plug when cleaning the TV.
- Do not touch the mains plug with wet hands.
Important information
If the TV is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the TV.
- Only using furniture that can safely support the TV.
- Ensuring the TV is not overhanging the edge of the supporting furniture.
- Not placing the TV on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the TV to a suitable support.
- Not standing the TV on cloth or other materials placed between the TV and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the TV or its controls.

Do not expose the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Dangerous part / Small object

- This product contains possibly dangerous parts such as plastic bags, that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Pedestal

- Do not disassemble or modify the pedestal.

Caution

- Do not use any pedestal other than the one provided with this TV.
- Do not use the pedestal if it becomes warped or physically damaged. If this occurs, contact your nearest Panasonic dealer immediately.
- During setup, make sure that all screws are securely tightened.
- Ensure that the TV does not suffer any impact during installation of the pedestal.
- Ensure that children do not climb onto the pedestal.
- Install or remove the TV from the pedestal with at least two people.
- Install or remove the TV by the specified procedure.

Take care

- Do not remove covers and never modify the TV yourself as live parts are accessible when they are removed. There are no user serviceable parts inside.
- Do not expose the TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.
- Do not insert foreign objects into the TV through the air vents.
- Do not use an unapproved pedestal / mounting equipment. Be sure to ask your local Panasonic dealer to perform the setup or installation of approved wall-hanging brackets.
- Do not apply strong force or impact to the display panel.
- Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base.

Do not damage the mains lead.
- Do not place a heavy object on the lead.

Do not place the lead near a high temperature object.

Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.

Do not move the TV with the lead plugged into a socket outlet.
- Do not twist the lead, bend it excessively or stretch it.
- Do not use a damaged mains plug or socket outlet.
- Ensure the TV does not crush the mains lead.

Do not use any mains lead other than that provided with this TV.

Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.

An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earth connection.

Do not damage the mains lead.
- Do not place a heavy object on the lead.

Do not place the lead near a high temperature object.

Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.

Do not move the TV with the lead plugged into a socket outlet.
- Do not twist the lead, bend it excessively or stretch it.
- Do not use a damaged mains plug or socket outlet.
- Ensure the TV does not crush the mains lead.

Do not use any mains lead other than that provided with this TV.

Ensure the earth pin on the mains plug is securely connected to prevent electrical shock.

An apparatus with CLASS I construction shall be connected to a mains socket outlet with a protective earth connection.

Do not expose the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Dangerous part / Small object

- This product contains possibly dangerous parts such as plastic bags, that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Pedestal

- Do not disassemble or modify the pedestal.

Caution

- Do not use any pedestal other than the one provided with this TV.
- Do not use the pedestal if it becomes warped or physically damaged. If this occurs, contact your nearest Panasonic dealer immediately.
- During setup, make sure that all screws are securely tightened.
- Ensure that the TV does not suffer any impact during installation of the pedestal.
- Ensure that children do not climb onto the pedestal.
- Install or remove the TV from the pedestal with at least two people.
- Install or remove the TV by the specified procedure.
■ Ventilation

( 注意 )
为了帮助防止过热而可能导致某些电子元件的早期失效，请确保电视机周围有足够的空间。
最小距离：

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>

<tbody>
<tr>
<td>10</td>
<td>10</td>
<td>7</td>
</tr>
</tbody>
</table>
(cm)

- 通风口不应被报纸、桌布或窗帘等物品覆盖。
- 即使在关机模式下，该电视仍会消耗一些电能。

■ Moving the TV

( 注意 )
在移动电视机之前，请断开所有电缆。
- 电视机很重。至少需要两个人来移动它。
- 请按照图示来支撑，以避免电视机倾倒。
- 运输时必须保持直立状态。

■ When not in use for a long time

( 注意 )
当长期不使用时，该电视仍会消耗一些电能。

- 将电源线从插座上拔下。

■ Battery for the Remote Control

( 注意 )
- 不正确的安装可能导致电池泄漏、腐蚀和爆炸。
- 只能使用相同或等效类型的电池。
- 不要混合使用旧电池和新电池。
- 不要将不同类型的电池（如碱性电池和锰电池）混合使用。
- 不要使用可充电电池（如镍镉电池等）。
- 不要将电池暴露在阳光、火或其他高温环境下。
- 确保正确地处理电池。

</tbody>
</table>
Assembling the pedestal

Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.
1. Remove the assembly screws from the TV.
2. Pull out the pedestal from the TV.
3. Remove the assembly screws from the poles.

Preventing the TV from falling over
It is recommended to secure the pedestal to a furniture as shown to prevent the TV from falling over.
* This information is designed to reduce the risk of injuries caused by the TV falling over. However, no measure can guarantee protection in all cases.
Connections

- External equipment and cables shown are not supplied with this TV.
- Ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.
- Check the type of terminals and cable plugs are correct when connecting.
- Always use a fully wired HDMI cable.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- Also read the manual of the equipment being connected.

Basic connections

Mains lead and aerial

- Digital TV, Analogue TV
- Mains lead
- Aerial

AC 220-240 V
50 / 60 Hz

- Keep RF (aerial) cable away from the mains lead to avoid and minimise mains interference pickup.
- Do not place the RF cable under the TV.
- An aerial, correct cable (75 Ω coaxial) and correct terminating plug are required to obtain optimum quality picture and sound.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your local Television Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the customer.

■ Amplifier (to listen with speakers)

TV
Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function. As for an amplifier without ARC function, use DIGITAL AUDIO OUT.

To enjoy the sound from the external equipment in multi-channel sound (e.g. Dolby Digital 5.1ch), connect the equipment to the amplifier. For the connections, read the manuals of the equipment and amplifier.

○: Recommended Connection

* Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.

**Identifying Controls**

**Indicator / Control panel**

* When pressing 4, 5, 6 buttons, the control panel guide appears on the side of the screen for 3 seconds to highlight the pressed button.

1. **Remote control signal receiver**
   * Do not place any objects between the TV remote control signal receiver and remote control.

2. **Ambient sensor**
   * Senses brightness to adjust picture quality when [Ambient Sensor] in the Picture Menu is set to [On].

3. **Power LED**
   - Red: Standby
   - Green: On
   * The LED blinks when the TV receives a command from the remote control.

4. **Input mode selection**
   * Press repeatedly until you reach the desired mode.
   [Main Menu]
   * Press and hold for about 3 seconds to display main menu.
   [OK] (when in the menu system)

5. **Channel Up / Down**
   - Cursor Up / Down (when in the menu system)

6. **Volume Up / Down**
   - Cursor Left / Right (when in the menu system)

7. **Mains power On / Off switch**
   * Use to switch the mains power.
Remote Control

Operation guide

■ How to use remote control

- MENU: Open the main menu
- Move the cursor / select from a range of options / select the menu item (up and down only) / adjust levels (left and right only)
- Access the menu / store settings after adjustments have been made or options have been set
- RETURN: Return to the previous menu
- EXIT: Exit the menu system and return to the normal viewing screen

First time Auto Tuning

Automatically sets up the TV and searches for available TV channels when the TV is turned on for the first time.

- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 6 - 8) and settings (if necessary) of the connected equipment before starting Auto Tuning. For details of settings for the connected equipment, read the manual of the equipment.

1. Plug the TV into mains socket and turn power on

   Takes a few seconds to be displayed.

2. Select the following items

   Set up each item by following the on-screen instructions.
   Select [Home]
   Select [Home] viewing environment to use in your home environment.
   - [Shop] is for shop display.
   - To change viewing environment later on, you will need to initialise all settings by accessing Shipping Condition.
   Tick the TV signal mode to tune, and then select [Start Auto Tuning]

   - : tune (search for the available channels)
   - : skip tuning

Auto Tuning is now complete and your TV is ready for viewing.

If tuning has failed, check the connection of the RF cable, and then follow the on-screen instructions.

- To retune all channels ⇒ [Auto Tuning] (p. 19)
- To add the available TV signal mode later ⇒ [Add TV Signal] (p. 19)
- To initialise all settings ⇒ [Shipping Condition] (p. 20)
Watching TV

1 Turn power on

- Mains power On / Off switch should be on.

(Remote Control) (p. 8)

2 Select Digital TV or Analogue TV

3 Select a channel

- To select 2 or more-digit channel position number, e.g. 399

To select from the Channel List

Note

- The TV will automatically go into Standby mode when no operation is performed for 4 hours if [Auto Standby] in the Timer Menu is set to [On].
- The TV will automatically go into Standby mode when no signal is received and no operation is performed for 10 minutes if [No signal Power off] in the Timer Menu is set to [On].

Aspect

Change the aspect ratio (image size)

[16:9]: Directly displays the image at 16:9 without distortion (anamorphic).

[14:9]: Displays the image at the standard 14:9 without distortion.

[Just]: Displays a 4:3 image full-screen. Stretching is only noticeable at the left and right edges.

[4:3]: Displays the image at the standard 4:3 without distortion.

[Zoom]: Displays a 16:9 letterbox or 4:3 image without distortion.

[4:3 Full]: Displays a 4:3 image enlarged horizontally to fit the screen.

- For HD (High definition) signals

[Sidecut Just]: Displays a 16:9 letterbox (anamorphic) image full-screen. Stretching is only noticeable at the left and right edges.

- For HD (High definition) signals

[Sidecut Zoom]: Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

- For HD (High definition) signals

Note

- Aspect mode can be memorised separately for SD (Standard definition) and HD (High definition) signals.
- Aspect cannot be changed in teletext service.

Information banner

Display Information banner

Also appears when changing a channel.

* You can set characters by using numeric buttons.
### Viewing Mode

Selects your favourite picture mode for each input.

- **[Dynamic]**: Improves contrast and sharpness for viewing in a bright room.
- **[Normal]**: Normal use for viewing in a normal lighting condition.
- **[Cinema]**: Improves the performance of contrast, black and colour reproduction for watching movies in a darkened room.
- **[True Cinema]**: Reproduces the original image quality precisely without any revision.
- **[Custom]**: Adjusts each menu item manually to suit your favourite picture quality.

In each Viewing Mode, **[Contrast]**, **[Brightness]**, **[Colour]**, **[Tint]**, **[Sharpness]**, **[Colour Temperature]**, **[Vivid Colour]**, **[Ambient Sensor]**, **[Noise Reduction]** and **[MPEG Noise Reduction]** can be adjusted and stored. When in **[True Cinema]** or **[Custom]** mode, **[Advanced Settings]** can be adjusted additionally. The settings in **[True Cinema]** or **[Custom]** mode can be stored for each input.

### Contrast / Brightness / Colour / Tint / Sharpness

Adjusts the levels of these options according to your personal preference.

### Colour Temperature

Sets the overall colour tone of the picture (bluer - redder).

### Vivid Colour

Automatically adjusts colours to vivid ones.

### Ambient Sensor

Automatic Brightness Control function

Adjusts picture settings automatically depending on ambient lighting conditions.

### Noise Reduction

Reduces unwanted picture noise.

### MPEG Noise Reduction

Reduces flicker noise in contoured parts of a picture and block noise.

### Advanced Settings

- **Panel Luminance Setting**
  Changes the luminance level of the panel to adjust the overall brightness.

### Adaptive Gamma Control

Adjusts the gamma curve to make the image brighter.

### Black Expander

Gradually adjusts the shades of black.

### Colour Gamut

Reproduces image colour precisely according to the colour gamut.

- **[Normal]**: Displays colours according to the colour gamut.
- **[Native]**: Displays deep colours by expanding the colour gamut to its maximum.

### White Balance

- **[R-Gain]** / **[G-Gain]** / **[B-Gain]**
  Adjusts the white balance of bright red / green / blue areas.
- **[R-Cutoff]** / **[G-Cutoff]** / **[B-Cutoff]**
  Adjusts the white balance of dark red / green / blue areas.
- **[Reset White Balance]**
  Resets to the default White Balance.

### Colour Management

- **[R-Hue]** / **[R-Saturation]** / **[R-Luminance]**
  Adjusts the picture hue / saturation / luminance of red areas.
- **[G-Hue]** / **[G-Saturation]** / **[G-Luminance]**
  Adjusts the picture hue / saturation / luminance of green areas.
- **[B-Hue]** / **[B-Saturation]** / **[B-Luminance]**
  Adjusts the picture hue / saturation / luminance of blue areas.
- **[Reset Colour Management]**
  Resets to the default Colour Management.

### Gamma

- **[Gamma]**
  Switches the gamma curve.
  * Please note the numerical values are reference for the adjustment.
- **[Reset Gamma]**
  Resets to the default Gamma.

### Reset Advanced Settings

Resets **[Advanced Settings]** to the default settings.

### Option Settings

- **Film Cadence Mode**
  Improves vertical resolution for movie images.
  * This function is available for interlaced signals.

- **HDMI Content Type**
  Adjusts the picture settings of each HDMI input according to the selected content type.
  * For HDMI input
  - **[Auto]**: Automatically adjusts the picture settings according to the received HDMI content if the connected equipment supports HDMI Content Type.
  - To set the availability of each content type for **[Auto]** mode ➔ **[Auto Detail Setting]**
HDMI RGB Range
Adjusts the black level of the image for each HDMI input.
- When the black level is not suitable, select [Full].
- For HDMI input

3D-COMB
Makes still or slow moving pictures more vivid.
Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours.
- For PAL / NTSC signal reception in TV mode or from composite

Refresh Rate
Changes the image processing of the panel (depending on the input signal).
- Set to [100Hz] normally.

Screen Settings
16:9 Overscan
Selects the screen area displaying the image for 16:9 aspect.
[On]: Enlarges the image to hide the edge of the image.
[Off]: Displays the image in the original size.
- Set to [On] if noise occurs on the edge of the screen.
- This function can be memorised for SD (Standard definition) and HD (High definition) signals respectively.

H-Size
Switches the horizontal display range to reduce noise on the side edge of the image.
- For TV mode, AV and HDMI input

Zoom Adjustments
Adjusts the vertical position and size when aspect is set to [Just], [Sidecut Just], [Zoom] or [Sidecut Zoom].

Screen Display
Turns the screen off when you select [Off].
This function is effective in reducing power consumption when listening to the sound without watching the TV screen.
- Press any buttons (except Standby) to turn the screen on.

Side Panel
Adjusts the brightness of the side panel.
- The recommended setting is [High] to prevent panel "image retention".

Pixel Orbiter
Selects the mode for wobbling of the image to prevent panel "image retention".
[Auto]: Automatically works only for the appropriate images and you rarely recognise the wobbling.

Scrolling Bar
Displays scrolling bar pattern to assist elimination of panel "image retention".
- Press the OK button to start scrolling and press any buttons (except Standby) to exit this mode.
- For positive effect to eliminate "image retention", it may be necessary to display for a long time.

Copy Adjustment
Copies the selected [True Cinema] or [Custom] settings to those of the other input.

Reset Picture Defaults
Resets the current Picture Viewing Mode to the default settings.

Sound
Mode
Selects your favourite sound mode for each input.
[Standard]: Provides the suitable sound quality for all types of scenes.
[Music]: Improves sound quality for watching music videos, etc.
[Speech]: Improves sound quality for watching news, drama, etc.
[User]: Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.
- In each mode, [Bass], [Treble] and [Surround] can be adjusted and stored.
- For the User mode, [Equaliser] will be available in the Sound Menu instead of [Bass] and [Treble]. Select [Equaliser] and adjust the frequency.

Bass
Adjusts level to enhance or minimise lower, deeper sound output.

Treble
Adjusts level to enhance or minimise sharper, higher sound output.

Equaliser
Adjusts the frequency level to suit your favourite sound quality.
- This function is available when [Mode] is set to [User].
- Select the frequency and change the frequency level by using the cursor button.
- To enhance the bass sound, raise the level of the lower frequency. To enhance the treble sound, raise the level of the higher frequency.
- To reset the levels of each frequency to the default settings, select [Reset Equaliser Settings] by using the cursor button.

Balance
Adjusts volume level of right and left speakers.
Surround
Provides a dynamic enhancer of width to simulate improved spatial effects.

Auto Gain Control
Automatically regulates large sound level differences between channels and inputs.

Volume Correction
Adjusts the volume of each individual channel or input mode.

Speaker Distance to Wall
Compensates for the low frequency sound due to the distance between the speakers and the wall.
- If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended.
- If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended.

MPX
Selects multiplex sound mode. (if available)
[Stereo]: Use this normally.
[Mono]: When stereo signal cannot be received.
[M1] / [M2]: Available while mono signal is transmitted.
* For Analogue TV

Digital Audio Preference
Selects the initial setting for audio tracks.
[Dolby D]: The priority is given to Dolby Digital.
[HE-AAC]: The priority is given to HE-AAC.
* Dolby Digital is the method of coding digital signals developed by the Dolby Laboratories. Apart from stereo (2ch) audio, these signals can be multi-channel audio.
* HE-AAC is a perceptual coding method used to compress digital audio for efficient storage and transmission.
* For Digital TV

SPDIF Selection
SPDIF: A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals.
[Auto]: Dolby Digital is output as Dolby Digital Bitstream. HE-AAC and MPEG are output as PCM. DTS is output as DTS for video contents of Media Player.
[PCM]: Digital output signal is fixed to PCM.
* ARC (Audio Return Channel): A function of digital audio output using HDMI cable
* For Digital TV or video contents of Media Player (p. 23)

Audio Description
Narration settings for visually impaired users.
Set to [Auto] to activate the narration sound track when available on the broadcast.
* The availability of audio description sound track is indicated by [AD] in the information banner (p. 12).
* For Digital TV

HDMI Input
- HDMI1 / 2
Selects to fit the input signal. (p. 30)
[Digital]: When sound is carried via the HDMI cable connection
[Analogue]: When sound is not carried via the HDMI-DVI adaptor cable connection
* For HDMI input

Reset Sound Defaults
Resets the current Sound Mode to the default settings.
Timer

Off Timer
Sets the duration of time until the TV automatically goes into Standby mode.

Auto Standby
Automatically turns the TV to Standby mode for energy saving when no operation is performed for 4 hours.
- Automatic input switching with the connected equipment affects this function and time-count will be reset.
- The notification message will appear 3 minutes before going into Standby mode.

No signal Power off
Automatically turns the TV to Standby mode to prevent unnecessary power consumption when no signal is received and no operation is performed for 10 minutes.
- The notification message will appear 3 minutes before going into Standby mode.

Setup

Eco Navigation
Automatically sets the TV to the most suitable energy-saving mode.
The concerned items and their current settings are displayed. Select [Set to Eco] to set them to the energy-saving settings at once.

Child Lock
Applies access control for channels or inputs to prevent unwanted access. (p. 22)

Tuning Menu*
- Favourites Edit
Creates a list of favourite channels. (p. 21)
- Channel List
Skips unwanted channels or edits channels. (p. 21)
- Auto Tuning
Automatically searches for receivable channels. (p. 21)
- Manual Tuning
Searches for channels manually. (p. 21)
- Update Channel List
Updates the channel list while keeping your settings. (p. 22)
- Signal Condition
Checks the signal condition.
- Add TV Signal
Adds the TV mode.
- This function is available if you skip any modes to tune in [Auto Tuning] for first using the TV (p. 10).

Language
- Preferred Audio Language
Selects the preferred language for Digital TV multi audio. (depending on the broadcaster)
- Preferred Subtitles
Selects the default language for Digital TV subtitles. (depending on the broadcaster)

Display Settings
- Teletext
Teletext display mode. (p. 13)
- Input Labels
Accesses the input labels list to select the label of each input mode or set to skip unconnected one for easier identification and selection in [Input Selection] (p. 12) or banner.
- To name each input mode freely, select [User input] and set characters (maximum 10 characters).
- To skip the input mode, select [Skip].
- Banner Display Timeout
Sets how long the Information banner stays on screen.
**VIERA Link Settings**

- **VIERA Link**
  Sets to use VIERA Link functions. (p. 28)
- **Power on Link**
  Sets to use Power on Link functions. (p. 28)
- **Power off Link**
  Sets to use Power off Link functions. (p. 28)
- **Standby Power Save**
  Controls the connected equipment to reduce power consumption in Standby. (p. 28)
  - This function is available when [VIERA Link] is set to [On] and [Power off Link] is set to [On].
- **Intelligent Auto Standby**
  Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption (p. 28)
  - This function is available when [VIERA Link] is set to [On].

**System Menu**

- **Shipping Condition**
  Resets all settings to the original condition.
- **System Update**
  Downloads new software to this TV. (p. 23)
- **Licence Menu**
  [Software Licence]
  Displays the software licence information.

**Other Settings**

- **Power Save**
  Reduces brightness of the picture to economise on power consumption.

**Help**

**TV Self Test**
Makes a diagnosis of picture or sound problems. Follow the on-screen instructions.

**System Information**
Displays the system information of this TV.

**Note**
*The menu name varies depending on the TV mode.
*A different menu will be displayed in the mode of Media Player. (p. 23)
*Only available items can be selected.
Tuning and Editing Channels

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

MENU ➔ [Setup] ➔ [Tuning Menu]*

*The menu name varies depending on the TV mode.

((Digital TV Tuning Menu) / [Analogue TV Tuning Menu])

* The settings in [Tuning Menu] are applicable only for the selected TV mode.

Favourites Edit

Create your favourite channel lists from various broadcasters (up to 4: [Favourites]1 to 4). The Digital TV Favourites lists are available from "Favourites" in the Information banner.

1 Select a channel to list (Encrypted channel)

Example: Digital TV

<table>
<thead>
<tr>
<th>Digital TV Favourites Editor</th>
<th>Favourites1</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Digital Channels</td>
<td></td>
</tr>
<tr>
<td>1 ABC One Wales</td>
<td></td>
</tr>
<tr>
<td>7 ABC THREE</td>
<td></td>
</tr>
<tr>
<td>14 E4</td>
<td></td>
</tr>
<tr>
<td>70 CABC Channel</td>
<td></td>
</tr>
<tr>
<td>72 Cartoon Nick</td>
<td></td>
</tr>
<tr>
<td>105 ABC</td>
<td></td>
</tr>
<tr>
<td>719 ABC Radio Wales</td>
<td></td>
</tr>
<tr>
<td>720 ABC Radio Cymru</td>
<td></td>
</tr>
</tbody>
</table>

2 Add it to the Favourites list

Example: Digital TV

<table>
<thead>
<tr>
<th>Digital TV Favourites Editor</th>
<th>Favourites1</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Digital Channels</td>
<td></td>
</tr>
<tr>
<td>1 ABC One Wales</td>
<td></td>
</tr>
<tr>
<td>7 ABC THREE</td>
<td></td>
</tr>
<tr>
<td>14 E4</td>
<td></td>
</tr>
<tr>
<td>70 CABC Channel</td>
<td></td>
</tr>
<tr>
<td>72 Cartoon Nick</td>
<td></td>
</tr>
<tr>
<td>105 ABC</td>
<td></td>
</tr>
<tr>
<td>719 ABC Radio Wales</td>
<td></td>
</tr>
<tr>
<td>720 ABC Radio Cymru</td>
<td></td>
</tr>
</tbody>
</table>

3 Store

RETURN

To edit the list by using the coloured buttons

While the cursor is in the left field

- Select favourites: Displays other Favourites.

While the cursor is in the right field

- Edit list name: Names the Favourites.
- Move: Moves the channel.
- Delete all: Deletes all channels.

Note

- Channel numbers are defined by the broadcaster and cannot be changed.
- Hidden channels can be selected but not viewed.

Channel List

You can hide (skip) unwanted channels. The hidden channels cannot be displayed except in this function.

Select a channel and reveal / hide

Example: Digital TV

<table>
<thead>
<tr>
<th>All Digital Channels</th>
</tr>
</thead>
<tbody>
<tr>
<td>70 CABC Channel</td>
</tr>
<tr>
<td>72 Cartoon Nick</td>
</tr>
<tr>
<td>105 ABC</td>
</tr>
<tr>
<td>719 ABC Radio Wales</td>
</tr>
<tr>
<td>720 ABC Radio Cymru</td>
</tr>
<tr>
<td>1 ABC ONE Wales</td>
</tr>
<tr>
<td>7 ABC THREE</td>
</tr>
</tbody>
</table>

To edit the list by using the coloured buttons

- Swap / Move: Swaps / moves the channel position. (if available)
- Reveal all: Reveals all channels.
- Tune: Retunes each channel ([Manual Tuning]).
- Rename: Renames the channel name. (Analogue)

Note

If a VCR is connected only with the RF cable in Analogue TV, edit [VCR].

Auto Tuning

Automatically retune the channels received in the area.

- All the previous tuning settings are erased.
- When the operation is completed, the channel at the lowest position will be displayed.
- Search begins in the order from the lower channels to the higher channels.
- If tuning has not been done completely ➔ [Manual Tuning] (see below)

Manual Tuning

Normally use [Auto Tuning] or [Update Channel List] to retune Digital TV channels.

If tuning has not been done completely or for adjusting the direction of the aerial or dish, use this function.

- All channels found will be added to the Channel List.
**Child Lock**

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

1. **Enter the PIN number (4 digits)**
   - Enter the PIN number twice at first setting.
   - Make a note of the PIN number in case you forget it.
   - “0000” has been stored as the default PIN number.

2. **Select [Child Lock List] and set the channel / input to be locked**

To edit the list by using the coloured buttons:
- **Lock all**: Locks all channels and input.
- **Unlock all**: Cancels all locks.
- **Next input**: Jumps to the top of the next input.

**To change the PIN number**
Select [Change PIN] and enter a new PIN number twice.

**To set Parental Rating**
To watch the Digital TV programme that has the rating information over the selected age, enter the PIN number to watch (depending on the broadcaster).
Select [Parental Rating] and set an age for the restriction of programmes.
- **Rating** (p. 30)

**Note**
- Setting [Shipping Condition] (p. 20) erases the PIN number and all settings.
- If you have forgotten your changed PIN, input “6969” as the PIN number.
Updating the TV Software

A new version of software may be released for download to enhance the performance or operations of the TV. If there is an update available, a notification message is displayed when the channel has the update information.

- To download

(Press the EXIT button not to download)

You can update new software automatically or update manually.

MENU ➔ [Setup] ➔ [System Menu] ➔ [System Update]

■ To update automatically

Select [Auto Update Search in Standby] and set

<table>
<thead>
<tr>
<th>System Update</th>
<th>Auto Update Search in Standby</th>
<th>Off</th>
</tr>
</thead>
<tbody>
<tr>
<td>System Update</td>
<td>System Update Search Now</td>
<td></td>
</tr>
</tbody>
</table>

If System Update is performed, the software will be updated (it may change TV functions).
If you do not want to do so, set [Auto Update Search in Standby] to [Off].

- Every time you set, the TV automatically performs a search in Standby and downloads an update, if any software updates are available.
- The automatic updating is performed in Standby mode (TV turned off with the remote control).

■ To update immediately

1 Select [System Update Search Now]
2 Searches for an update (for several minutes) and displays a corresponding message if any
3 Download

Note

- Download may take for a few hours.
- During software download and update, DO NOT switch off the TV.
- The notification message might be a reminder. In this case, the schedule information (the date that the new version can be used) will appear. You can set the reservation for update. The update will not start when the TV is off.

Using Media Player

Media Player allows you to enjoy photo, video or music recorded on a USB Flash Memory.

Photo mode: Digital photo data will be displayed.
Video mode: Digital video data will be played back.
Music mode: Digital music data will be played back.

- Supported file format ⇒ “Supported file format in Media Player” (p. 31)
- During the operation, audio signal is output from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. To use HDMI2 with ARC function, connect an amplifier that has ARC function and set to use theatre speakers (p. 27, 29).
- [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown “**/**/****”.
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- Partly degraded files might be displayed at a reduced resolution.
- Picture setting may not work depending on the conditions.
- The folder and file names may be different depending on the conditions.
- The folder and file names may be different depending on the digital camera or digital video camera used.

■ To insert or remove the USB Flash Memory

- Ensure alignment is straight and complete when inserting or removing.
- Connect the USB Flash Memory to the USB port.
- Check the type of terminals and devices are correct when connecting.

1 Insert the USB Flash Memory to the TV
2 Display [VIERA TOOLS] and select the content (Photo / Video / Music)

- Select the appropriate device and content for playing back each file.

■ To change the device

While the thumbnail is displayed, display the device selection

Y (yellow)

■ To change the contents

While the thumbnail is displayed, display the contents selection

B (blue)
Photo mode

Example: Thumbnail - [All photos]

To change the size of photos on a thumbnail screen

[Single view] - Photos are displayed one at a time. Select the file from the thumbnail of photos to be viewed

[Slideshow] - Slideshow completes when all photos are viewed within the current thumbnail.

1. Select the file from the thumbnail of photos for the first view
2. Start Slideshow

To display / hide the operation guide

To sort by folder, recorded date or recorded month

1. Display the view selection in the thumbnail view
2. Select the sort type

[Folder view]: Displays the thumbnail grouped by folder.
  - The files which are not into a folder will be collected to the folder named “/”.

[Sort by Date] / [Sort by Month]: Displays the thumbnail grouped by the same date or month.
  - The group of the photos without a recorded date is shown as [Unknown].

Photo Settings

- Frame
  Selects the frame type of the slideshow.

- Colour Effect
  Selects the colour effect of photos on Single view and Slideshow.
  - This function is not available when [Frame] is set to [Drift], [Gallery] or [Cinema].

- Transition Effect
  Selects the transition effect for switching the photo during the slideshow.
  - This function is available when [Frame] is set to [Off].

- Auto Makeup
  Automatically detects the face in the photo and improves luminance and contrast.

- Screen Mode
  Selects enlarged or normal viewing on Single view and Slideshow.
  - This function is not available when [Frame] is set to [Collage], [Drift], [Gallery] or [Cinema] / when [Transition Effect] is set to [Motion].
  - Depending on the photo size, it may not be fully enlarged to fill the screen, e.g. portrait style picture.

- Burst Playback
  Selects whether to display burst photos in a fast-paced slideshow mode.
  - This function is not available when [Frame] is set to [Drift], [Gallery] or [Cinema] / when [Transition Effect] is set to [Motion].

- Interval
  Selects slideshow interval.
  - This function is not available when [Frame] is set to [Drift], [Gallery] or [Cinema] / when [Transition Effect] is set to [Motion].

- Repeat
  Slideshow repeat

- Back Ground Music
  Selects the background music during Photo mode.
  - [Type1 - 5] is fixed installed on this TV.
  - [User]: Music data in the device registered by yourself will be played back.

To register the music
1. Select the music file
2. Select [File] or [Folder]
   [File]: The selected music file will be registered.
   [Folder]: All the music in the folder which contains the selected music file will be registered.
   - If no music has been registered or the device which has the registered music is removed, no sound will be produced.

- Auto
  Music data stored in the root folder of the current device will be played back randomly.
  - If there is no available music data, no sound will be produced.

Note
- Picture quality may become lower depending on the slideshow settings.
- Picture setting may not work depending on the slideshow settings.
Video mode

Example: Thumbnail - [Title view]

The preview will start when the title / scene is highlighted if it supports a preview.

* To turn off the preview ⇒ [Video Preview]

1 Select the title / scene
2 Start playback

R (red)

* If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.

* To display / hide the operation guide and information banner INFO

* To change aspect ASPECT

* To jump to the specified time point

While the time seek bar is displayed, use left and right cursor button.
Press: Search about 10 seconds
Press and hold: Search rapidly

Video Setup

- Video Preview
Sets to start the preview of the title or scene in the thumbnail view.
- Image may not be displayed for an instant in the thumbnail view. Set the preview [Off] to resolve this.
- Only available in the thumbnail view

- Audio Selection, Dual Mono Audio
Selects between selectable sound tracks (if available).
- It may take several seconds to change the sound.
- Only available during playback

- Subtitle
Subtitles On / Off (if available).
- Only available during playback

- Subtitle Text
Selects the font type to display subtitles correctly (if available).
- Only available during playback

- Repeat
Playback repeat within the selected file (depending on the content).
Music mode

Example: Thumbnail - [Folder view]

1 Select the folder / file

2 Start playback

   ● (red)
   ▶ To display / hide the operation guide

Music Setup

OPTION ➤ [Music Setup]

■ Repeat

[Folder]: Playback repeat within the selected folder
[One]: Playback repeat of the selected one file

VIERA Link

**VIERA Link “HDAVI Control™”**

Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control™” function.

VIERA Link (HDAVI Control) connects the TV and the equipment with VIERA Link function, and enables easy control, playback, energy saving, creating home theatre, etc., without complicated settings. Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with an HDMI cable allow you to interface them automatically (p. 27). These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

● This TV supports “HDAVI Control 5” function. “HDAVI Control 5” is the newest standard for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.

● Some functions are not available depending on the equipment’s version of HDAVI Control. Confirm the connected equipment’s version of HDAVI Control.

● Some functions may not work properly depending on the connected equipment.

● VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

● VIERA Link “HDAVI Control” is a unique function that we have developed and added based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control). As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.

● Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.

● About applicable Panasonic equipment, consult your local Panasonic dealer.

● To confirm this TV’s version of HDAVI Control ➤ [System Information] (p. 20)
### Summary of VIERA Link features

![VIERA Link (HDMI connection)](image)

**Connection**

- Use a fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI terminal via an HDMI cable.
- Use the optical digital audio cable for audio output from the TV.

*1: Available with the equipment which has “HDAVI Control 2 or later” function.
*2: Available with the equipment which has “HDAVI Control 4 or later” function.
*3: While playing a disc.
*4: Except for watching a disc.
*5: If the connected equipment has “HDAVI Control 5” function, you do not have to use Optical digital audio cable. In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

**VIERA Link Control of compatible equipment**

Table below displays maximum number of compatible equipment that can be controlled by [VIERA Link Control]. This includes connections to equipment already connected to the TV.

For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>

</table>

**Operations**

**Preparations**

- VIERA Link connection ⇒ (p. 27)
- Set up the connected equipment. Read the manual of the equipment.
- Set [VIERA Link] to [On] in the Setup Menu. ⇒(p. 20)
- Set up the TV.

After connection, turn the equipment on and then switch the TV on.
Select the input mode from HDMI1 or HDMI2 (p. 12), and make sure that an image is displayed correctly.
This setup should be done each time when the following conditions occur:
  - for the first time
  - when adding or reconnecting equipment
  - when changing setup

**Easy playback**

Automatic input switching - When the connected equipment is operated, input mode is switched automatically.
- Image or sound may not be available for the first few seconds when input mode is switched.

**Power on Link**

Set [Power on Link] to [On] in the Setup Menu to use this function ⇒(p. 20)
When the connected equipment starts playback or direct navigator / function menu for the equipment are activated, the TV is automatically turned on. (Only when the TV is in Standby mode.)

**Power off Link**

Set [Power off Link] to [On] in the Setup Menu to use this function ⇒(p. 20)
When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
- This function will work even if the TV enters Standby mode automatically by auto power standby function.

**Standby Power Save**

Set [Standby Power Save] to [On] in the Setup Menu to use this function ⇒(p. 20)
The power consumption of the connected equipment in Standby mode is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.
- This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.
- This function works when [Power off Link] is set to [On].

**Intelligent Auto Standby**

Set [Intelligent Auto Standby] to [On] in the Setup Menu to use this function ⇒(p. 20)
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI or when [Speaker Selection] is changed to [TV] (except for watching a disc).
- This function may not work properly depending on the connected equipment. If required, set to [Off].
VIERA Link Control

You can control some functions of the connected equipment with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.

1 Display [VIERA TOOLS] and select [VIERA Link]

**VIERA Link Control**

PHOTO VIDEO MUSIC ECO NAVIGATION

VIERA Link

2 Select [VIERA Link Control]

3 Select the type of the connected equipment to access

- The displayed item may vary depending on the connected equipment.
- [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
- [Other] means Tuner set top box.

4 Follow the operation guide to operate the menu of the equipment

- To display the operation guide

**Speaker Selection**

You can control the theatre speaker with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Speaker Selection]

3 Set to [Home Cinema] or [TV]

- [Home Cinema]: The sound is from theatre speakers. Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode.

   - Volume up / down

   - Mute

   - The sound of TV speakers is mute. When the equipment is turned off, TV speakers will be active.

- [TV]: TV speakers are active.

4 Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with an HDMI cable and Optical digital audio cable (p. 27), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you only need to connect it with an HDMI cable to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 27).

HDMI connection

This TV incorporates HDMI™ technology. HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment. HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

- **Applicable HDMI features**
  - Input audio signal: 2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
  - Input video signal - "Input signal that can be displayed" (p. 31)
  - Match the output setting of the digital equipment.
  - VIERA Link (HDAVI Control 5) - "VIERA Link" (p. 26)
  - Content Type
  - x.v.Colour™
  - Audio Return Channel*2 (HDMI2 terminal only)

- **DVI connection**

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable. When the DVI to HDMI adaptor cable is used, connect the audio cable to AV audio terminals.

- **Note**
  - Audio settings can be made on [HDMI Input] in the Sound Menu. (p. 18)
  - If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
  - These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
  - Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.

*1: The HDMI logo is displayed on HDMI-compliant equipment.

*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
### Input signal that can be displayed

○ : Applicable input signal

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.

### Supported file format in Media Player

- Some files may not be played back even if they fulfill these conditions.
- Do not use two-byte characters or other special codes for file names.
- Connected devices may become unusable with this TV if the file or folder names are changed.

#### Photo

- **JPEG** (.jpg / .jpeg)
  - Image resolution (pixel): 8 × 8 to 30,719 × 17,279
  - Sub-sampling: 4:4:4, 4:2:2, 4:2:0
  - DCF and EXIF standards
  - Progressive JPEG is not supported.

#### Video

- **AVI** (.avi)
  - Video codec: H.264 BP/MP/HP, MPEG1, MPEG2, MPEG4 SP/ASP, VC-1, Windows Media Video Ver. 9
  - Audio codec: AAC, ADPCM, Dolby Digital, DTS core, HE-AAC, LPCM, MPEG Audio, MP3
  - Some subtitles or chapter functions may not be available.
  - WMA Pro and WMA Lossless are not supported.
- **MKV** (.mkv)
  - Video codec: H.264 BP/MP/HP, MPEG1, MPEG2, MPEG4 SP/ASP
  - Audio codec: AAC, Dolby Digital, DTS core, HE-AAC, MPEG Audio, MP3
  - Some subtitles or chapter functions may not be available.
  - WMA Pro and WMA Lossless are not supported.
- **ASF** (.asf / .wmv)
  - Video codec: MPEG4 SP/ASP, VC-1, Windows Media Video Ver. 9
  - Audio codec: AAC, Dolby Digital, HE-AAC, LPCM, MP3, WMA
  - Copy-protected files cannot be played back.
  - WMA Pro and WMA Lossless are not supported.
- **MP4** (.mp4 / .m4v / .mp4)
  - Video codec: H.264 BP/MP/HP, MPEG1, MPEG2, MPEG4 SP/ASP
  - Audio codec: AAC, Dolby Digital, HE-AAC, MPEG Audio, MP3
  - This TV supports this container recorded with Panasonic products. For details, read the manual of the products.
- **FLV** (.flv)
  - Video codec: H.264 BP/MP/HP
  - Audio codec: AAC, MP3
- **3GPP** (.3gp / .3g2)
  - Video codec: H.264 BP/MP/HP, MPEG4 SP/ASP
  - Audio codec: AAC, HE-AAC
- **PS** (.mod / .mpg / .mpeg / .vob / .vro)
  - Video codec: H.264 BP/MP/HP, MPEG1, MPEG2, VC-1
  - Audio codec: AAC, Dolby Digital, HE-AAC, LPCM, MPEG Audio, MP3
- **TS** (.mts / .m2ts / .tp / .trp / .ts / .ts)
  - Video codec: H.264 BP/MP/HP, MPEG1, MPEG2, VC-1
  - Audio codec: AAC, Dolby Digital, DTS core, HE-AAC, MPEG Audio, MP3

#### Subtitles

- **MicroDVD, SubRip, TMPlayer** (.srt / .sub / .txt)
  - The video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
  - If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: "srt", "sub", "txt".

#### Music

- **MP3** (.mp3)
  - Copy-protected files cannot be played back.
- **AAC** (.m4a)
  - Copy-protected files cannot be played back.
  - WMA Pro and WMA Lossless are not supported.
- **LPCM** (.wav)
- **FLAC** (.flac)
Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

Regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution
● Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
● Take care not to subject the TV’s surfaces to water or detergent. Liquid inside the TV could lead to product failure.
● Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
● The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
● Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

USB devices

● It is recommended to connect the USB device to the TV’s USB port directly.
● Some USB devices or USB HUB may not be used with this TV.
● You cannot connect any devices by using USB card reader.
● You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.
● Additional information for the devices may be on the following website. http://panasonic.net/viera/support

■ USB Flash Memory (for playing back in Media Player)
● USB Flash Memory format: FAT16, FAT32 or exFAT
● A USB HDD formatted on a PC is not guaranteed to work in Media Player.
● Data modified with a PC may not be displayed.
● Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
● Do not touch the pins on the device.
● Do not subject the device to a high pressure or impact.
● Insert the device in the correct direction. Otherwise this can damage device or TV.
● Electrical interference, static electricity, or erroneous operation may damage the data or device.
● Back up the recorded data at regular intervals to prevent data deterioration, data damage or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may cause fire or electrical shock.
**FAQs**

Before requesting service or assistance, please follow these simple guides to solve the problem. When an error message appears, follow the message’s instructions. If the problem still persists, contact your local Panasonic dealer or the authorised service centre.

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>White spots or shadow images (noise)</td>
<td>Check the position, direction and connection of the aerial.</td>
</tr>
<tr>
<td>Picture quality problem</td>
<td>Check the settings of the Picture Menu. Set [Noise Reduction] and [MPEG Noise Reduction] to remove noise. Check nearby electrical products (car, motorcycle, fluorescent lamp). Reset channels. Check that the output of the external equipment matches the input of the TV.</td>
</tr>
<tr>
<td>Unable to receive signals with a high-performance aerial</td>
<td>Install an aerial individually for the TV and VCR (or use a splitter).</td>
</tr>
<tr>
<td>Interference or frozen / disappearing image in Digital TV</td>
<td>Check [Signal Condition] (p. 19). If [Signal Quality] is displayed in red, check aerial. Turn the TV off with Mains power On / Off switch, then turn it on again. Due to the digital reception technologies involved, quality of the Digital TV signals may be relatively low in some cases, despite good reception of Analogue TV channels.</td>
</tr>
<tr>
<td>Sound quality problem</td>
<td>Check the volume level or sound mute. Check connections and setting of external equipment. Ensure that [Speaker Selection] is set to [TV] (p. 29). Sound signal reception may be deteriorated. Set [MPX] to [Mono] (p. 18).</td>
</tr>
<tr>
<td>Picture or sound problems with HDMI connection</td>
<td>Check the HDMI cable is connected properly. Turn the TV and equipment off, then turn them on again. Check an input signal from the equipment. Use equipment compliant with EIA/CEA-861/861D. Set the sound setting of the connected equipment to &quot;2ch LPCM&quot;. Check the [HDMI Input] setting (p. 18). If digital sound connection has a problem, select analogue sound connection.</td>
</tr>
<tr>
<td>The TV does not switch on</td>
<td>Check the mains lead is plugged into the TV and the socket outlet.</td>
</tr>
<tr>
<td>The TV goes into Standby mode</td>
<td>Auto power standby function is activated.</td>
</tr>
<tr>
<td>The remote control does not work or is intermittent</td>
<td>Are the batteries installed correctly? <strong>(p. 9)</strong> Has the TV been switched on? The batteries may be running low. Replace them with new ones. Point the remote control directly at the TV’s remote control signal receiver (within about 7 m and a 30 degree angle of the signal receiver). Situate the TV away from sunshine or other sources of bright light not to shine on the TV’s remote control signal receiver.</td>
</tr>
<tr>
<td>No image can be displayed</td>
<td>Check the TV is turned on. Check the mains lead is plugged into the TV and the socket outlet. Check the correct input mode is selected. Check the setting of [AV] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. Check the settings of the Picture Menu. Check all required cables and connections are firmly in place.</td>
</tr>
<tr>
<td>Unusual image is displayed</td>
<td>Turn the TV off with Mains power On / Off switch, then turn it on again. If the problem persists, initialise all settings. <strong>[Shipping Condition] (p. 20)</strong></td>
</tr>
<tr>
<td>[Shop] appears on screen at switch on</td>
<td>[Shop] was selected in [Auto Tuning] when the TV is turned on for the first time. Reset settings in [Shipping Condition], then select [Home] in [Auto Tuning].</td>
</tr>
<tr>
<td>Unusual sound from the TV</td>
<td>When the power is on, drive noise may be heard from inside the TV (not a sign of faulty operation).</td>
</tr>
<tr>
<td>Parts of the TV become hot</td>
<td>Even if the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality.</td>
</tr>
<tr>
<td>Permanently lit spots on screen</td>
<td>Due to production process involved in this technology this may result in some pixels which are permanently lit or unlit. This is not a malfunction.</td>
</tr>
<tr>
<td>Overcurrent error message appears</td>
<td>The connected USB device might cause this error. Remove the device and turn the TV to standby mode with Standby On / Off switch, then turn it on again. Check foreign objects are not inside the USB port.</td>
</tr>
<tr>
<td>Pixel Statement</td>
<td>An image on a LCD or Plasma TV screen is created by many small groups of dots known as pixels (which is similar to the image in a newspaper). It also naturally follows that higher panel resolutions contain more pixels. To create a colour image, each pixel consists of three tiny coloured dots (known as sub-pixels), one each of red, green and blue. Each one of these dots is precisely controlled by the electronics of the TV to produce the picture. Whilst Panasonic maintains the highest standards in manufacturing technology and processes in the construction of these panels, there are a number of allowable pixel/subpixel failures that still allow the panel to be defined as a good panel. It is not possible to guarantee absolutely no pixel loss.</td>
</tr>

Optional Accessories

Please contact your local Panasonic dealer to purchase the recommended optional accessories. For additional details, please read the manual of the optional accessories.

### Wall-hanging bracket

**TY-WK4P1RW**  
Tilting angle for this TV: 0 (vertical) to 15 degrees

- Holes for wall-hanging bracket installation

![Wall-hanging bracket diagram](image)

**Warning**

- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself have the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

WARRANTY - New Zealand only

WE WARRANT that the Panasonic Television that you have purchased is free from defects in material and workmanship under normal home use and service. Accordingly, we undertake to repair, or at our option, replace without cost to the owner, either for material or labour, any part which within 12 months from the date of delivery is found to be defective, provided that the appliance has been used for domestic purposes only and in accordance with the instructions given in the Instruction Book and not been subjected to misuse, neglect or installed, dismantled, repaired or serviced by any other than an authorised Panasonic New Zealand Dealer or Panasonic New Zealand Authorised Service Centre.

NOTE

- Before reporting a fault, please ensure that you read the item “Troubleshooting” in the information section of your Panasonic Instruction Book.
- It is important to retain your proof of purchase as this will be required by the serviceman or retailer as proof of purchase date, should service be required.
- In the event of service being required, contact your Panasonic New Zealand retailer or Panasonic New Zealand Authorised Service Centre.

IMPORTANT

Any request for warranty service must be through an Authorised Panasonic New Zealand Service Centre who during the period of the warranty, undertakes to make any necessary adjustment and fit any replacement part supplied by the manufacturer, during normal working hours, or alternatively will arrange for such service to be provided by some other Panasonic New Zealand Authorised Service Centre.
