For your safety

To prevent severe injury and loss of life/property, read this section carefully before using the product to ensure proper and safe operation of your product.

**WARNING**

**Power connection**
- Use only the power source marked on the product.
- Do not overload power outlets and extension cords. This can result in the risk of fire or electric shock.
- Completely insert the AC adaptor/power plug into the power outlet. Failure to do so may cause electric shock and/or excessive heat resulting in a fire.
- Regularly remove any dust, etc. from the AC adaptor/power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.
- Unplug the product from power outlets if it emits smoke, an abnormal smell, or makes an unusual noise. These conditions can cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall socket, and do not use.

**Installation and location**
- To prevent the risk of fire or electrical shock, do not expose the product to rain or any type of moisture.
- Do not place or use this product near automatically controlled devices such as automatic doors and fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.

**CAUTION**

**Installation and location**
- Do not allow the AC adaptor or telephone line cord to be excessively pulled, bent or placed under heavy objects.

**Operating safeguards**
- Unplug the product from power outlets before cleaning. Do not use liquid or aerosol cleaners.
- Do not disassemble the product.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall socket, and do not use.

**Medical**
- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 1.88 GHz to 1.90 GHz, and the RF transmission power is 250 mW (max.).)
- Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

**For your safety**

**Operating safeguards**
- Unplug the product from power outlets before cleaning. Do not use liquid or aerosol cleaners.
- Do not disassemble the product.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall socket, and do not use.

**Medical**
- Consult the manufacturer of any personal medical devices, such as pacemakers or hearing aids, to determine if they are adequately shielded from external RF (radio frequency) energy. (The product operates in the frequency range of 1.88 GHz to 1.90 GHz, and the RF transmission power is 250 mW (max.).)
- Do not use the product in health care facilities if any regulations posted in the area instruct you not to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.
**Important Information**

- This product is unable to make calls when:
  - the handset batteries need recharging or have failed.
  - there is a power failure.

**Battery**

- We recommend using the batteries noted on page 4. USE ONLY rechargeable Ni-MH batteries AAA (R03) size.
- Do not mix old and new batteries.
- Do not open or mutilate the batteries. Released electrolyte from the batteries is corrosive and may cause burns or injury to the eyes or skin. The electrolyte is toxic and may be harmful if swallowed.
- Exercise care when handling the batteries. Do not allow conductive materials such as rings, bracelets, or keys to touch the batteries, otherwise a short circuit may cause the batteries and/or the conductive material to overheat and cause burns.
- Charge the batteries provided with or identified for use with this product only, in accordance with the instructions and limitations specified in this manual.
- Only use a compatible base unit (or charger) to charge the batteries. Do not tamper with the base unit (or charger). Failure to follow these instructions may cause the batteries to swell or explode.

**General notices**

- This equipment will be inoperable when mains power fails.
- When a failure occurs which results in the internal parts becoming accessible, disconnect the power supply cord immediately and return this unit to an authorised service centre.
- Disconnect the telecom connection before disconnecting the power connection prior to relocating the equipment, and reconnect the power first.
- No “111” or other calls can be made from this device during a mains power failure.
- This equipment shall not be set to make automatic calls to the Telecom “111” Emergency Service.
- To minimise the possibility of lightning damage, when you know that a thunderstorm is coming, we recommend that you:
  - Unplug the telephone line cord from the phone socket.
  - Unplug the AC adaptor from the AC power outlet.
- The earpiece on the handset is magnetised and may retain small metallic objects.
- Not all telephones will respond to incoming ringing when connected to the extension socket.
- This equipment may not provide for the effective hand-over of a call to another device connected to the same line.
- The grant of a Telepermit for any item of terminal equipment indicates only that Telecom has accepted that the item complies with minimum conditions for connection to its network. It indicates no endorsement of the product by Telecom, nor does it provide any sort of warranty. Above all, it provides no assurance that any item will work correctly in all respects with another item of Telepermitted equipment of a different make or model, nor does it imply that any product is compatible with all of Telecom’s network services.

**Important notice:**

- Under power failure conditions, this telephone may not operate. Please ensure that a separate telephone, not dependent on local power, is available for emergency use.

**Important safety instructions**

When using your product, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Do not use this product near water for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement or near a swimming pool.
2. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use the telephone to report a gas leak in the vicinity of the leak.
4. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

SAVE THESE INSTRUCTIONS

For best performance

Base unit location/avoiding noise
The base unit and other compatible Panasonic units use radio waves to communicate with each other.
- For maximum coverage and noise-free communications, place your base unit:
  - at a convenient, high, and central location with no obstructions between the handset and base unit in an indoor environment.
  - away from electronic appliances such as TVs, radios, personal computers, wireless devices, or other phones.
  - facing away from radio frequency transmitters, such as external antennas of mobile phone cell stations. (Avoid putting the base unit on a bay window or near a window.)
- Coverage and voice quality depends on the local environmental conditions.
- If the reception for a base unit location is not satisfactory, move the base unit to another location for better reception.

Environment
- Keep the product away from electrical noise generating devices, such as fluorescent lamps and motors.
- The product should be kept free from excessive smoke, dust, high temperature, and vibration.

Important Information
- The product should not be exposed to direct sunlight.
- Do not place heavy objects on top of the product.
- When you leave the product unused for a long period of time, unplug the product from the power outlet.
- The product should be kept away from heat sources such as radiators, cookers, etc. It should not be placed in rooms where the temperature is less than 0 °C or greater than 40 °C. Damp basements should also be avoided.
- The maximum calling distance may be shortened when the product is used in the following places: Near obstacles such as hills, tunnels, underground, near metal objects such as wire fences, etc.
- Operating the product near electrical appliances may cause interference. Move away from the electrical appliances.

Routine care
- Wipe the outer surface of the product with a soft moist cloth.
- Do not use benzine, thinner, or any abrasive powder.

Other information
Notice for product disposal, transfer, or return
- This product can store your private/confidential information. To protect your privacy/confidentiality, we recommend that you erase information such as phonebook or caller list entries from the memory before you dispose of, transfer, or return the product.

These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Specifications

- **Frequency range:**
  1.88 GHz to 1.90 GHz

- **RF transmission power:**
  Approx. 10 mW (average power per channel)

- **Power source:**
  220–240 V AC, 50/60 Hz

- **Power consumption:**
  **Base unit:**
  Standby: Approx. 0.6 W
  Maximum: Approx. 3.3 W

  **Charger:**
  Standby: Approx. 0.1 W
  Maximum: Approx. 2.2 W

- **Operating conditions:**
  0 °C – 40 °C, 20 % – 80 % relative air humidity (dry)

**Note:**
- Design and specifications are subject to change without notice.
- The illustrations in these instructions may vary slightly from the actual product.
Getting Started

Setting up

Connections
- Use only the supplied Panasonic AC adaptor PNLV226AL.
- When mounting the unit on a wall, see page 31.

Base unit
Important:
- First plug in the supplied telephone line cord and then plug in the AC adaptor cord.

Press plug firmly.

Correct
Wrong

DSL/ADSL filter (not supplied) is required if you have DSL/ADSL service.

Charger

Battery installation
- USE ONLY Ni-MH batteries AAA (R03) size.
- Do NOT use Alkaline/Manganese/Ni-Cd batteries.
- Confirm correct polarities (, ).

Rechargeable Ni-MH ONLY
Getting Started

Battery charging
Charge for about 7 hours.

Note when setting up

Note for connections
• The AC adaptor must remain connected at all times. (It is normal for the adaptor to feel warm during use.)
• The AC adaptor should be connected to a vertically oriented or floor-mounted AC outlet. Do not connect the AC adaptor to a ceiling-mounted AC outlet, as the weight of the adaptor may cause it to become disconnected.
• The unit is not designed to be used with rotary/pulse dialling services.

During a power failure
The unit will not work during a power failure. We recommend connecting a corded-type telephone (without AC adaptor) to the same telephone line or to the same telephone line socket using a BT double adaptor.

Note for connection
• Use the supplied rechargeable batteries. For replacement, we recommend using the Panasonic rechargeable batteries noted on page 4, 6.
• Wipe the battery ends (шей) or the unit contacts.

Note for battery charging
• Avoid touching the battery ends (шей, 8) or the unit contacts.

Note for battery charging
• It is normal for the handset to feel warm during charging.
• Clean the charge contacts of the handset, base unit, and charger with a soft and dry cloth once a month. Before cleaning the unit, disconnect from power outlets and any telephone line cords. Clean more often if the unit is exposed to grease, dust, or high humidity.

Note for battery installation
• Use the supplied rechargeable batteries. For replacement, we recommend using the Panasonic rechargeable batteries noted on page 4, 6.
• Wipe the battery ends (шей, 8) with a dry cloth.

Battery level

</thead>
<tbody>
<tr>
<td>In continuous use</td>
<td>15 hours max.</td>
</tr>
<tr>
<td>Not in use (standby)</td>
<td>170 hours max.</td>
</tr>
</tbody>
</table>

Note:
• It is normal for batteries not to reach full capacity at the initial charge. Maximum battery performance is reached after a few complete cycles of charge/discharge (use).
• Actual battery performance depends on usage and ambient environment.
• Even after the batteries are fully charged, the handset can be left on the base unit or charger without any ill effect on the batteries.
• The battery level may not be displayed correctly after you replace the batteries. In this case, place the handset on the base unit or charger and let it charge for at least 7 hours.

Getting Started

Turning the power on/off

Power on
Press [i c].

Power off
Press [i c] for about 2 seconds.

Initial settings

Display language
1 [i OK]
2 [:] “Setup” → [i OK]
3 [:] “Language” → [i OK]
4 [:] Select your desired language. → [i OK] → [:]

Note:
• If you select a language you cannot read:
  [:] → [i OK] → [:] 4 times → [i OK] 2 times → [:] Select your desired language. → [i OK] → [:]

Date and time
1 [i OK]
2 [:] “Set Time” → [i OK]
3 [:] “Date & Time” → [i OK]

Symbol meaning:
Example: [:] “off”
Press [y] or [x] to select the words in quotations.

<table>
<thead>
<tr>
<th>Item</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑</td>
<td>Phonebook is opened.</td>
</tr>
<tr>
<td>☑ ☑</td>
<td>New voice mail message received.*2 (page 22)</td>
</tr>
</tbody>
</table>

*1 Caller ID subscribers only
*2 Voice mail subscribers only

Example: 15 July, 2011
15 7 11
Example: 15:30
15 3
• If you enter the wrong date and/or time, press [C] and perform again from step 3.

6 [:]
Note:
• The date and time may be incorrect after a power failure. In this case, set the date and time again.
Making/Answering Calls

Making calls
1 Lift the handset and dial the phone number.
   • To correct a digit, press [C].
2 [ ~ ]
3 When you finish talking, press [Handset] or place the handset on the base unit or charger.

Adjusting the receiver volume
Press [A] or [B] repeatedly while talking.

Making a call using the redial list
The last 10 phone numbers dialed are stored in the redial list (each 24 digits max.).
1 [*] ( )
2 [{]: Select the desired phone number.
   • When the number matches a phone number stored in the phonebook, the stored name in the phonebook is displayed.
3 [ ~ ]

Editing/erasing/storing numbers in the redial list
1 [*] ( )
2 [{]: Select the desired phone number.
   → [ ]
3 Proceed with the desired operation.
   • Editing a number before calling:
     [{]: "Edit & Call" → [ ] → Press [A] or [B] to move the cursor: → Edit the number. → [ ~ ]
   • Erasing a number:
     [{]: Select "Erase" or "Erase All".
     → [ ] 2 times → [ ~ ]
   • Storing a number to the phonebook:
     [{]: "Save TEL No." → [ ] → To store the name, continue from step 3, "Adding entries", page 15.

Pause (for PBX/long distance service users)
A pause is sometimes required when making calls using a PBX or long distance service. When storing a calling card access number and/or PIN in the phonebook, a pause is also needed (page 16).
Example: If you need to dial the line access number "0" when making outside calls with a PBX:
1 0 → [P] → [ ~ ]
2 Dial the phone number. → [ ~ ]
Note:
• A 3 second pause is inserted each time [P] is pressed. Repeat as needed to create longer pauses.

Answering calls
1 Lift the handset and press [ ~ ] when the unit rings.
   • You can also answer the call by pressing any dial key from 0 to 9, *, or [ ]. (Any key answer feature)
2 When you finish talking, press [Handset] or place the handset on the base unit or charger.

Auto talk
You can answer calls simply by lifting the handset off the base unit or charger. You do not need to press [ ~ ]. To turn this feature on, see page 18.

Note:
• When editing:
  – To erase a number, place the cursor to the right of where you want to erase the number, then press [C].
  – To insert a number, place the cursor to the right of where you want to insert the number, then press the appropriate dial key.

Answering calls
1 Lift the handset and press [ ~ ] when the unit rings.
   • You can also answer the call by pressing any dial key from 0 to 9, *, or [ ]. (Any key answer feature)
2 When you finish talking, press [Handset] or place the handset on the base unit or charger.

Auto talk
You can answer calls simply by lifting the handset off the base unit or charger. You do not need to press [ ~ ]. To turn this feature on, see page 18.
Making/Answering Calls

Adjusting the handset ringer volume
■ While the handset is ringing for an incoming call:
  Press [▲] or [▼] repeatedly to select the desired volume.
■ Programming the volume beforehand:
  1  [menu/OK]
  2  [:] “Ringer Setup” → [menu/OK]
  3  [:] “Volume” → [menu/OK]
  4  [:] Select the desired volume.
  5  [menu/OK] → [menu/OK]

Useful features during a call

Mute
While mute is turned on, you can hear the other party, but the other party cannot hear you.
  1  Press [menu/OK] during conversation → [:] “Mute” → [menu/OK]
  •  # is displayed.
  2  To return to the conversation, press [menu/OK] → [:] “Mute” → [menu/OK]

Recall/flash
[R] allows you to use the special features of your host PBX such as transferring an extension call, or accessing optional telephone services.
Note:
• To change the recall/flash time, see page 18.

For Call Waiting or Call Waiting Caller ID service users
To use call waiting or Call Waiting Caller ID, you must first subscribe with your service provider/telephone company. This feature allows you to receive calls while you are already talking on the phone. If you receive a call while on the phone, you will hear a call waiting tone.

If you subscribe to both Caller ID and Call Waiting with Caller ID services, the 2nd caller’s information is displayed after you hear the call waiting tone on the handset.
  1  Press [R] to answer the 2nd call.
  2  To switch between calls, press [R].

Note:
• Please contact your service provider/telephone company for details and availability of this service in your area.

Call share

Available for:
KX-TG1612/KX-TG1613

You can join an existing outside call.
To join the conversation, press [•] when the other handset is on an outside call.
Note:
• To prevent other users from joining your conversations with outside callers, turn the privacy mode on (page 18).
Handset phonebook
The phonebook allows you to make calls without having to dial manually. You can add 50 names and phone numbers, and confirm the number of entries (page 15).

Adding entries
1 {k}
2 {r}:
3 Enter the party's name (12 characters max.). → [F]OK
   * You can change the character entry mode by pressing {k} (page 24).
4 Enter the party's phone number (24 digits max.). → [F]OK] 2 times
   * To add other entries, press [F]OK] and repeat from step 3.
5 {i c}

Note:
* Your service provider/telephone company may charge you for a local call if the number dialled has the area code prefix included. If this is unacceptable, dial only the 7-digit local number. Do not dial the "0" prefix or the area code.

Confirming the number of entries
1 [s]
2 {r}:
3 [s]

Finding and calling from a phonebook entry

Scrolling through all entries
1 [s]
2 {r}:
3 {i}

Phonebook

Editing entries
1 Find the desired entry (page 15). → [F]OK]
2 {r}:
3 Edit the name if necessary (12 characters max.; page 24). → [F]OK]
4 Edit the phone number if necessary (24 digits max.; page 13). → [F]OK] 2 times
5 {i c}

Editing an entry and making a call
1 Find the desired entry (page 15). → [F]OK]
2 {r}:
   * "Edit & Call" → [F]OK]
   * Press [•] or [•] to move the cursor. →
   * Edit the number (page 13). → [\]

Erasing entries

Erasing an entry
1 Find the desired entry (page 15). → [F]OK]
2 {r}:
   * "Erase" → [F]OK] 2 times
3 [i c]

Erasing all entries
1 [s]
2 {r}:
   * "Erase All" → [F]OK] 2 times
3 [i c]

Chain dial
This feature allows you to dial phone numbers in the phonebook while you are on a call. This feature can be used, for example, to dial a calling card access number or bank account PIN that you have stored in the phonebook, without having to dial manually.
1 During an outside call, press [s].
2 {r}:
3 Select the desired entry.
4 Press [\] to dial the number.
Phonebook

Note:
- When storing a calling card access number and your PIN in the phonebook as one phonebook entry, press [P] to add pauses after the number and PIN as necessary (page 13).
**Programming**

**Programmable settings**

You can customise the unit by programming the following features using the handset.

**Programming by scrolling through the display menus**

1. Press [OK] to select the desired main menu. → [OK]
2. Press [•] or [▲] to select the desired item in sub-menu 1. → [OK]
   - In some cases, you may need to select from sub-menu 2. → [OK]
3. Press [•] or [▲] to select the desired setting. → [OK]
   - This step may vary depending on the feature being programmed.
   - To exit the operation, press [•].

**Note:**
- In the following table, < > indicates the default settings.

1 Ringer volume cannot be turned off for paging.
2 If you select one of the melody ringer tones, the ringer tone continues to play for several seconds even if the caller has already hung up. You may either hear a dial tone or no one on the line when you answer the call.
3 If you program these settings using one of the handsets, you do not need to program the same item using another handset. (KX-TG1612/KX-TG1613)
4 This feature allows the unit to automatically adjust the date and time each time caller information including date and time is received.
   To turn this feature on, select "Caller ID". To turn this feature off, select "Manual". (Caller ID subscribers only)
   To use this feature, set the date and time first (page 12).
5 When this feature is set to off, the handset number is displayed.
6 If you subscribe to a Caller ID service and want to view the caller’s information after lifting up the handset to answer a call, turn off this feature.
7 Turn this feature off if you prefer not to hear key tones while you are dialing or pressing any keys.
8 The recall/flash time depends on your telephone exchange or host PBX. Contact your PBX supplier if necessary.
9 KX-TG1611: Although the handset displays these items, these features are not available for this model.
10 To prevent other users from joining your conversations with outside callers, turn this feature on.
Special programming

Alarm

An alarm sounds at the set time (once or daily) for 2 minutes. You can also customise the repeat times and the repeat cycle (snooze function). Alarm can be set for each handset.

Example: If you want the alarm to sound 3 times, repeating at 5 minute intervals from 7:00, you need to set the alarm as follows:

- Time: "07:00"
- "Repeat Times": "3 Times"
- "Repeat Cycle": "5 Minutes"

Important:
- Set the date and time beforehand (page 12).

1. [OK]
2. [:] "Set Time" → [OK]
3. [:] "Alarm" → [OK]
4. [:] "Alarm Mode" → [OK]
5. [:] Select the desired alarm option. → [OK]

**Note:**
- Press [IC] to stop the alarm completely.
- Press any dial key from 0 to 9, *, or # to stop the sound but keep the set time and/or the snooze function activated.
- When the handset is in use, the alarm will not sound until the handset is in standby mode.

Table:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>Turns alarm off. Go to step 15.</td>
</tr>
<tr>
<td>Once</td>
<td>An alarm sounds once at the set time.</td>
</tr>
<tr>
<td>Daily</td>
<td>An alarm sounds daily at the set time.</td>
</tr>
</tbody>
</table>

6. Set the desired time. → [OK]
7. [:] "Repeat Times" → [OK]
8. [:] Select the desired setting. → [OK]
   - If you only want the alarm to sound 1 time, select "Off" and go to step 11.
9. [:] "Repeat Cycle" → [OK]
10. [:] Select the desired setting. → [OK]
11. [:] "Ringtone" → [OK]
12. [:] Select the desired alarm tone. → [OK]

Programming

- We recommend selecting a different ringer tone from the one used for outside calls.
13. [:] "Volume" → [OK]
14. [:] Select the desired volume. → [OK]
15. [:] [IC]

Note:
- Press [IC] to stop the alarm completely.
- Press any dial key from 0 to 9, *, or # to stop the sound but keep the set time and/or the snooze function activated.
- When the handset is in use, the alarm will not sound until the handset is in standby mode.
**Caller ID Service**

**Using Caller ID service**

**Important:**
- This unit is Caller ID compatible. To use Caller ID features, you must subscribe to a Caller ID service. Contact your service provider/telephone company for details.
- For all local and national incoming calls, your display will show the area code (e.g. 09 for Auckland) or the cellular prefix (e.g. 0274 for Telecom Cellular) followed by the caller’s telephone number. An Auckland caller’s number will be displayed as 09XXXXXXX. The seven X’s represent the seven digits of the caller’s telephone number. A caller from a 6-digit Telecom Cellular number will be displayed as 0274XXXXXX. For incoming international calls, your display may only show “0000”. For business users on a Centrex line, your display will show Centrex extension numbers in the shorter extension number format used within your company.
- The Caller ID information will not be presented on incoming fax calls if Telecom FaxAbility is used.

**Using toll services from Telecom or another company**

Your telephone company may charge you for a local call if the number dialled has the area code prefix included. If this is unacceptable, dial only the 7-digit local number. Do not dial the (0) prefix or the area code.

**Caller ID features**

When an outside call is being received, the caller’s phone number is displayed. Caller information for the last 50 callers is logged in the caller list from the most recent call to the oldest.
- If the unit cannot receive caller information, the following is displayed:
  - “Out of Area”: The caller dials from an area which does not provide a Caller ID service.
  - “Private”: The caller requests not to send caller information.
- If the unit is connected to a PBX system, caller information may not be properly received. Contact your PBX supplier.

**Missed calls**

If a call is not answered, the unit treats it as a missed call and → is displayed. This lets you know if you should view the caller list to see who called while you were away. Even if only one missed call in the caller list is viewed (page 20), → disappears from the display. When you receive another new call, → is displayed again.

**Phonebook name display**

When caller information is received and it matches a phone number stored in the phonebook, the stored name in the phonebook is displayed and logged in the caller list.

**Caller list**

**Important:**
- Only 1 person can access the caller list at a time. (KX-TG1612/KX-TG1613)
- Make sure the unit’s date and time setting is correct (page 12).

**Viewing the caller list and calling back**

1. {−} (→) → The most recent call is displayed.
2. Press [↑] to search from the next recent call, or press [↓] to search from the oldest call.
   - To switch the display from name to phone number, press [3/OK] → [↑]: “Phone No.,” → [3/OK] → To return, press [C].
   - If the whole phone number is not shown, press [→] to see the remaining phone numbers.
   - To switch the display from name or phone number to date and time, press [→]. To return, press [←] → To call back, press [←].
Editing a caller's phone number before calling back

The caller's telephone number, which is sent to your telephone from your local telephone exchange, includes "0" and an area code prefix. For local calls, "0" and the area code prefix can be omitted.

1 [••] (©)
2 [••]: Select the desired entry. \[••/OK\]
3 [••]: "Edit & Call" \[••/OK\]
4 Edit the number.
   - Press dial key (© to ©) to add, [©] to delete (page 13).
5 [••]

Erasing caller information

1 [••] (©)
2 [••]: Select the desired entry. \[••/OK\]
3 [••]: "Erase" or "Erase All" \[••/OK\]
4 \[••/OK\] \[••©\]

Storing caller information to the phonebook

1 [••] (©)
2 [••]: Select the desired entry. \[••/OK\]
3 [••]: "Save TEL No." \[••/OK\]
4 To store the name, continue from step 3, "Adding entries", page 15.
**Voice Mail Service**

**Voice mail service**

To receive Call Minder or Message Mailbox messages, please note the following:

"Call Minder" and "Message Mailbox" are automatic answering services offered by your service provider/telephone company. After you subscribe to this service, your service provider/telephone company's voice mail system answers calls for you when you are unavailable to answer the phone or when your line is busy. Messages are recorded by your service provider/telephone company, not your telephone. When you have new messages, \( \text{C} \) is displayed on the handset if message indication service is available. Please contact your service provider/telephone company for details of this service.

**Important:**

- If \( \text{C} \) still remains on the display even after you have listened to new messages, turn it off by pressing and holding [C] for 2 seconds.
Intercom

Intercom calls can be made between handsets.

Note:
- If you receive an outside call while talking on the intercom, you hear interrupt tones. To answer the call, press {IC}, then press {C}.
- When paging the handset, the paged handset beeps for 1 minute.

Making an intercom call
1 {IC/OK}  
2 {C}: “Intercom” ➔ {IC/OK}
3 To page a specific handset, enter the handset number.
   - To page all handsets, press {R} or {IC/OK} again. (KX-TG1613)
4 To stop paging, press {IC/OK}.
5 When you finish talking, press {IC/OK}.

Answering an intercom call
1 Press {IC} to answer the page.
2 When you finish talking, press {IC/OK}.

Handset locator
You can locate a misplaced handset by paging it.
1 Base unit: Press {IC}.
   - All registered handsets beep for 1 minute.
2 To stop paging:
   - Base unit: Press {IC}.
   - Handset: Press {IC/OK}.

Transferring calls, conference calls

Outside calls can be transferred or a conference call with an outside party can be made between 2 handsets.

1 During an outside call, press {IC/OK}.
2 {C}: “Intercom” ➔ {IC/OK}
   - LC flashes to indicate the outside call is on hold.
3 Enter the desired handset number you want to transfer to.
4 Wait for the paged party to answer.
   - If the paged party does not answer, press {C} to return to the outside call.
5 To complete the transfer:
   Press {IC/OK}.
   - The outside call is being routed to the destination unit.

To establish a conference call:
Press {C}.
   - To leave the conference, press {IC/OK}.
   The other 2 parties can continue the conversation.

Transferring a call without speaking to the other handset user
1 Perform step 1 to 3, “Transferring calls, conference calls”, page 23.
2 {IC/OK}
   - The outside call rings at the other handset.

Note:
- If the other handset user does not answer the call within 30 seconds, the call rings at your handset again.

Answering a transferred call
Press {IC} to answer the page.
Useful Information

Character entry

The dial keys are used to enter characters and numbers. Each dial key has multiple characters assigned to it. The characters that can be entered depend on the character entry mode (page 24).

- Press [▲] or [▼] to move the cursor left or right.
- Press dial keys to enter characters and numbers.
- To erase a character or number, place the cursor to the right of where you want to erase the character or number, then press [C].
- Press (A→a) to switch between uppercase and lowercase.
- To enter another character located on the same dial key, press [▲] to move the cursor to the next space, then press the appropriate dial key.
- If you do not press any dial key within 5 seconds after entering a character, the character is fixed and the cursor moves to the next space.

Character entry modes

The available character entry modes are Alphabet (ABC), Numeric (0-9), Greek (ΑΓ), Extended 1 (ΑΑΑ), Extended 2 (ΣΣΣ), and Cyrillic (ΑБ). When in these entry modes except Numeric, you can select which character is entered by pressing a dial key repeatedly.

When the unit displays the character entry screen:

[■] → [1]: Select a character entry mode. → [■/OK]

Note:

* in the following tables represents a single space.

Troubleshooting

If you still have difficulties after following the instructions in this section, disconnect the base unit’s AC adaptor and turn off the handset, then reconnect the base unit’s AC adaptor and turn on the handset.

General use

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause/solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The handset does not turn on even after installing charged batteries.</td>
<td>- Place the handset on the base unit or charger to turn on the handset.</td>
</tr>
<tr>
<td>The unit does not work.</td>
<td>- Make sure the batteries are installed correctly (page 9).</td>
</tr>
<tr>
<td></td>
<td>- Fully charge the batteries (page 10).</td>
</tr>
<tr>
<td></td>
<td>- Check the connections (page 9).</td>
</tr>
<tr>
<td></td>
<td>- Unplug the base unit’s AC adaptor to reset the unit and turn off the handset. Reconnect the adaptor, turn on the handset and try again.</td>
</tr>
<tr>
<td></td>
<td>- Remove the batteries from the handset and install again.</td>
</tr>
<tr>
<td></td>
<td>- The handset has not been registered to the base unit. Register the handset (page 30).</td>
</tr>
<tr>
<td>The handset display is blank.</td>
<td>- The handset is not turned on. Turn the power on (page 12).</td>
</tr>
<tr>
<td>I cannot hear a dial tone.</td>
<td>- Make sure that you are using the supplied telephone line cord. Your old telephone line cord may have a different wiring configuration.</td>
</tr>
<tr>
<td></td>
<td>- The base unit’s AC adaptor or telephone line cord is not connected. Check the connections.</td>
</tr>
<tr>
<td></td>
<td>- Disconnect the base unit from the telephone line and connect the line to a known working telephone. If the working telephone operates properly, contact our service personnel to have the unit repaired. If the working telephone does not operate properly, contact your service provider/telephone company.</td>
</tr>
<tr>
<td>I cannot use the intercom feature.*1</td>
<td>- This feature is shared between the handsets. Although the handset displays “Intercom”, this feature is not available for this model.</td>
</tr>
</tbody>

</tr>
<tr>
<td></td>
<td>- Move closer to the base unit.</td>
</tr>
<tr>
<td>Time on the unit has shifted.</td>
<td>- Incorrect time information from incoming Caller ID changes the time. Set the time adjustment to &quot;Manual&quot; (off) (page 17).</td>
</tr>
</tbody>
</table>
## Useful Information

### Liquid damage

<table>
<thead>
<tr>
<th>Problem</th>
<th>Cause/solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liquid or other form of moisture has entered the handset/base unit.</td>
<td>● Disconnect the AC adaptor and telephone line cord from the base unit. Remove the batteries from the handset and leave to dry for at least 3 days. After the handset/base unit are completely dry, reconnect the AC adaptor and telephone line cord. Insert the batteries and charge fully before use. If the unit does not work properly, contact an authorised service centre.</td>
</tr>
</tbody>
</table>

**Caution:**

● To avoid permanent damage, do not use a microwave oven to speed up the drying process.
Useful Information

Registering a handset to the base unit

1 Handset:
   [OK]

2 [ ]: “Setup” → [OK]

3 [ ]: “Register HS” → [OK]

4 Base unit:
   Press and hold [4] for about 5 seconds. (No registration tone)
   • If all registered handsets start ringing, press [4] again to stop, then repeat this step.
     (KX-TG1612/KX-TG1613)

5 Handset:
   Wait until “PIN:____” is displayed. → Enter the base unit PIN (default: “0000”). → [OK]
   • If you forget your PIN, contact an authorised service centre.
   • The next step must be completed within 90 seconds.

6 Wait until a long beep is heard and then enter the desired handset number you want to
   register.
   • When the handset has been registered successfully, [1] stops flashing.
   • If [1] is still flashing, start again from step 1.

Deregistering a handset

A handset can cancel its own registration to the base unit, or other handsets registered to the same base unit. This allows the handset to end its wireless connection with the system.

1 [OK] [2] [3] [4] → Enter the base unit PIN (default: “0000”).
   • All handsets registered to the base unit are displayed.

2 Enter the desired handset number you want to cancel. → [OK]
   • A confirmation tone sounds.

3 [ ]

Changing the base unit PIN (Personal Identification Number)

Important:
• If you change the PIN, please make note of your new PIN. The unit will not reveal the PIN to you. If you forget your PIN, contact an authorised service centre.

1 [OK]

2 [ ]: “Setup” → [OK]

3 [ ]: “Change PIN” → [OK]

4 Enter the current 4-digit base unit PIN (default: “0000”).

5 Enter the new 4-digit base unit PIN.

6 Enter the new 4-digit base unit PIN again. → [ ]
Useful Information

Wall mounting

Note:
- Make sure that the wall and the fixing method are strong enough to support the weight of the unit.

- **Base unit**
  - 30 mm Screws (Not supplied)
  - Hook

- **Charger**
  - 25 mm Screws (Not supplied)
  - Hooks
Useful Information

Warranty

Panasonic New Zealand undertakes to:
Repair or at its option, replace without cost to the owner, either for material or labour, any part which is found to be defective within two years of the date of purchase.

THIS EXPRESS WARRANTY DOES NOT COVER:
1) Pick up and delivery.
2) Batteries.
3) Repairs when the product has not been used in accordance with the Operating Instructions Manual or has been modified.
4) Normal maintenance and cleaning as required in the product’s Operating Instructions Manual.
5) Service calls to:
   a) Correct the set up of the product
   b) Instruct you how to use the product
   c) Replace fuses or correct your building’s wiring
6) Damage to the product caused by accident, misuse or Act of God.
7) Repairs when the product has been dismantled, repaired, modified or serviced by other than a Panasonic Authorised Dealer authorised to service that type of product.

IF YOUR PANASONIC PRODUCT FAILS WITHIN THE WARRANTY PERIOD:
Take it to the Authorised Panasonic Dealer from whom you purchased the product who will repair it (or arrange to have it repaired) during their normal business hours. All enquiries regarding warranty or otherwise, please call – Customer Support Centre Tel. No.: (09) 272 0178

NOTE: THIS EXPRESS WARRANTY IS OFFERED AS AN EXTRA BENEFIT AND DOES NOT AFFECT YOUR LEGAL RIGHTS.
