

Panasonic®

**Building Passion,
Building Solutions.**
Panasonic Air Conditioning Systems

We face a time in which "quality air" differentiates business. It's a time for Panasonic to fully display its strengths. Our ability to assemble and build superior systems isn't just due to the rich resources we have as a comprehensive electronics manufacturer, but also to Panasonic's 100 years of tradition, where each person thinks and acts on their own initiative while working in a team to reach further heights. We do not compromise. Each of our independent selves is a one stop solution. We face our customers' challenges together with our customers and do all that we can to build effective systems. As a true partner for our customers, we strive to always be at the forefront of business.

- Please read the Installation Instructions carefully before installing the unit, and the Operating Instructions before using it.
- Specifications are subject to change without prior notice.
- The contents of this catalogue are accurate as of November 2021.
- Due to printing considerations, the actual colours may vary slightly from those shown.
- All graphics are provided merely for the purpose of illustrating a point.

Do not add or replace refrigerant other than the specified type.
Manufacturer is not responsible for the damage and deterioration
in safety due to usage of other refrigerant.

NEW nanoe™ X: The ‘Sensitive Choice’ for Healthy Living

The well-benefits of nature are well known but do you know the power of hydroxyl radicals?

nanoe™ X is a technology that collects invisible moisture in the air and applies a high voltage to it to produce “hydroxyl radicals contained in water”. Hydroxyl radicals inhibit the growth of pollutants such as bacteria and viruses.

7 Effects of nanoe™ X : Creating Cleaner Environments

nanoe™ inhibits 5 types of pollutants, deodorises and moisturises thanks to the action of hydroxyl radicals contained in water.

Deodorises

Odours

Inhibits 5 types of pollutants

Bacteria & viruses

Mould

Allergens

Pollen

Hazardous substances

Moisturises

Skin & Hair

nanoe™ X Effectiveness Proven in Large Space

Access to the evidence page of nanoe™ X effect

NX Series Indoor Units Provides Better Air Quality

NEW 4-way Cassette

- Industry leading Powerful Airflow
- 360°Comfortable Airflow
- nanoe™ X Mark2 Standardly equipped.

NEW Adaptive Ducted

- Vertically mountable ducted
- Compact body with 150Pa ESP
- nanoe™ X Mark2 Standardly equipped.

NOTE: The specification in the movie is based on European market model

Other features

NEW

Simple and Sophisticated Design New RC

User friendly interface with stylish design measuring just 86 x 86 mm, Extremely compact remote controller which looks great in any room.

High Durability Outdoor Unit

All Panasonic heat exchangers feature our Blue Fin technology, which offers enhanced corrosion resistance compared to non-Blue Fin models.

NEW

Operation Temperature

New NX series are capable of working even in the most difficult ambient conditions. Operating range expanded up to outdoor air temperature of 46°C.

In-house manufactured compressor

Panasonic all in-house manufactured compressors are supplied to the world. The cumulative total of high-quality compressors in use has reached 580 million units*.

* As of September 2019. (In-house research)

3 Wire Method

This NX series has been developed with 3 wire method and communication.

Next Generation R32 Refrigerant

Compared to R22 and R410A, R32 has a very low potential impact on the depletion of the ozone layer and global warming.

NEW Flexible Installation Adaptive Ducted

New NX Series Adaptive Ducted units can be mounted not only horizontally but also vertically without the need for alterations. Our groundbreaking drain pan design delivers a new level of flexibility in an industry-leading vertical installation.

Compact Body with Powerful 150 Pa ESP

The indoor units have also been completely renewed, offering a 40 mm height reduction to only 250 mm* and a weight reduction of up to 10%, all while maintaining the same powerful 150 Pa.

* Compared to conventional model.

Space saving 250 mm height

Selectable Air Inlet Position

The air inlet position is adjustable via a removable panel to allow rear or bottom entry, depending on the duct installation.

Quiet Comfort

Low noise operation (29-30db*) using on improved fan casing * When operating with low fan mode

nanoe™ X mark2 Employed

nanoe™	nanoe™ X	
	Generator: Mark1	Generator: Mark2
480 Billion OH radicals/sec	4,800 Billion OH radicals/sec	9,600 Billion OH radicals/sec
	10x times	20x times

Because generator mark2 is employed on new adaptive duct, nanoe™X effectiveness does not change even after traveling through 10m long duct.

ADAPTIVE DUCTED

- Air intake from rear as standard. Industry-leading horizontal and vertical design.
- Powerful 150Pa ESP and space saving 250 mm height, filter included.
- Built-in Drain pump and selectable air inlet position (Bottom and Rear).

(Optional Wired Remote Controller)

NEW

Advantages of New 4-way Cassette

Incorporating nanoe™ X as a standard feature, and integrated with a new IoT remote controller, NX Series 4-Way Cassette Units deliver a new level of air quality, great accessibility and convenience.

Compact, Modern & Flat Panel Design

Featuring uniform cooling, easy installation, and with a sleek exterior, this unit is the perfect match for all commercial applications.

Wide Flap

A wider main flap and sub flap reduce turbulence and increase air flow.

Powerful Airflow

A wider angle jetting port allows airflow to reach as far as 5 meters. Also thanks to its compact design the Twisted 3D Blade Fan increase airflow.

360° Comfortable Airflow

Air coming out of the centre of the discharge outlets travels farther. Air is discharged across a wide area from the four sides of the unit.

Internal Cleaning Function

In addition to the 7 effects of nanoe™ X, the indoor unit can also be cleaned with a short operation of nanoe™ X + fan mode.

Operates the fan to discharge internal humidity.

Operate the fan to circulate nanoe™ X internally.

After cooling/drying operation, the inside of the indoor unit is automatically dried with fan operation. nanoe™ X is activated to suppress mould growth and to reduce odour.

* If you wish to set the internal cleaning off function to OFF using wireless RC.
Please consult an authorized dealer for setting.

4-WAY CASSETTE

- Industry-leading Powerful, 360° Wide & Comfortable Airflow.
- The drain pump can pump water up to a height of 850 mm, making drain pipe layout easy.
