Lifting of Temporary Suspension of ISO 9001^{*1} and IATF 16949^{*2} Certifications at Obihiro Plant

Tokyo, Japan – Panasonic Industry Co., Ltd. (“PID”) announced that the company received a notification from LRQA Limited, a certification body, that the temporary suspension of ISO 9001 and IATF 16949 certification of Panasonic Switching Technologies Co., Ltd., Obihiro Plant (Obihiro-shi, Hokkaido) on March 21, 2025 was lifted on June 23, 2025. The temporary suspension was related to the findings of the external investigation committee concerning quality irregularities in electromagnetic relay products, which were announced in the report titled "Investigation Results on Quality Irregularities by the External Investigation Committee and Endeavors Taken at PID," dated November 1, 2024.

PID will continue its effort for the further maintenance and enhancement of the quality management system at Panasonic Switching Technologies Co., Ltd., Obihiro Plant.

^{*1} International standard for quality management systems

^{*2} International standard for quality management systems for the automotive industry
