### Lifting of Temporary Suspension of IATF16949\* Certification at Ise Plant

**Tokyo, Japan** – Panasonic Industry Co., Ltd. (“PID”) announced that the company received a notification from LRQA Limited, a certification body, that the temporary suspension of IATF16949 certification of Ise Plant (Tamaki-cho, Watarai-gun, Mie-ken) on April 3, 2025 was lifted on June 30, 2025. The temporary suspension was related to the findings of the external investigation committee concerning quality irregularities in electromagnetic relay products, which were announced in the report titled “Investigation Results on Quality Irregularities by the External Investigation Committee and Endeavors Taken at PID,” dated November 1, 2024.

PID will continue to make every effort to maintain and improve its quality management system.

\* IATF16949 is the international standard for quality management systems for the automotive industry.
