Reacquisition for ISO9001^{*1} Certification in Koriyama Factory and Koriyama West Factory

Tokyo, Japan – Panasonic Industry Co., Ltd. (“PID”) announced today that it received a notification of reacquisition of the ISO 9001 certification for the Koriyama Factory and Koriyama West Factory^{*2}, as of December 4, 2025, from LRQA Limited, a certification body for the ISO 9001, as a result of the certification audit conducted on the ISO 9001 certification in response to the discovery of identified instances of irregularities in the process of UL Solutions certification for electronic materials, which was initially announced to the public on January 12, 2024.

PID will continue to maintain and improve its quality management system and will make every effort to achieve reacquisition of ISO 9001 certification for Yokkaichi Factory and Yokkaichi South Factory, both of which had ISO 9001 certification withdrawn.

Detail of reacquired ISO9001 certification

[Scope of reacquired certification]

- Registration number: ISO 9001 – 00051436
- Applicable Factory Koriyama Factory, Koriyama West Factory^{*2}
- Applicable scope^{*3} Design and manufacture of copper-clad laminates, prepregs for printed wiring boards and electrical insulating laminated sheets for general electrical purposes.

[Reacquired certification standard]

ISO 9001:2015 / JIS Q 9001:2015

[Effective Date]

December 4, 2025

^{*1} ISO 9001 is the international standard for quality management systems.

^{*2} Koriyama West Factory is subject to the withdrawal of ISO 9001 certification because it shares the same registration number as Koriyama Factory. Koriyama West Factory is not

subject to the irregularities of the third-party certification announced on January 12, 2024.

*3 The description of the scope is based on ISO 9001 certifications and does not match the designation of electric material products in the irregularities of the third-party certification announced on January 12, 2024 or the scope of ISO 9001 certifications that were withdrawn on March 22, 2024. The products that have been discontinued are excluded from the scope of this application.
