4MP PTZ IP Camera 25x Optical zoom

Panasonic PTZ camera is equipped with high quality Back-side illumination (BSI) and Near-field Infrared (NIR) sensors, capable of generating high quality images. Supporting up to 25x optical zoom lens, could deliver top-notch 2560x1440@30fps image details over a large area. The H.265 video compression reduces bit rate down to 50% of H.264 without loss. With its built-in Advanced Intelligence, the PTZ camera could detect and classify up to 15 objects per scene. When any of them intrude restricted area, the PTZ camera will trace, zoom fit in centre of screen, snap and record and more.
