

# What's nanoe™ X

## Effects

### Eliminates frequently encountered odours

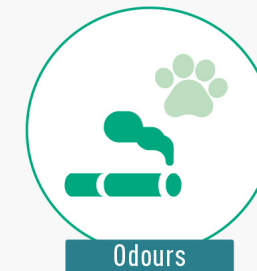

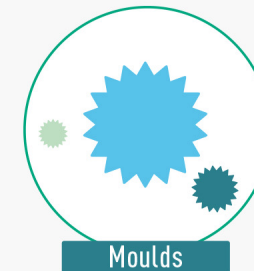

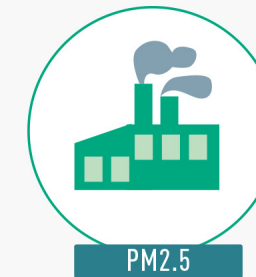

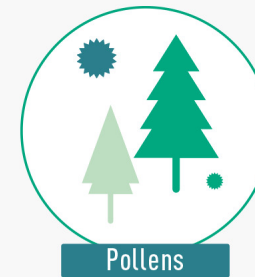

Especially effective against food, tobacco, pet and sweat odours.

### Inhibits activity of airborne, adhered bacteria & viruses

### Moisturised skin & straighter, sleeker hair

The abundant moisture of nanoe™ X helps keep skin moist and hair straighter.

### Seven benefits of nanoe™ X

Results of verification with nanoe™/nanoe™ X generators.  
Not a result of experiments in actual use environments.  
Effects differ depending on installation environment and usage.

# What's nanoe™ X

## Technical Advantages

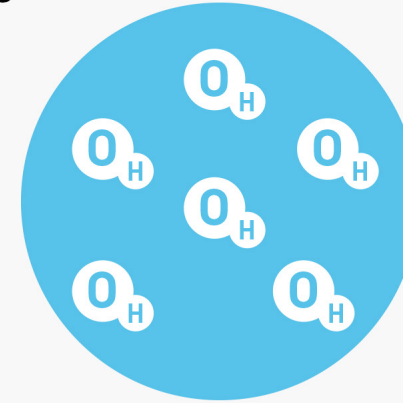

Hydroxyl radicals in the nanoe™ X particles are highly reactive and cause beneficial effects

4.8 trillion hydroxyl radicals are generated per second.

nanoe™ X particles last about 600 seconds and disperse in the car

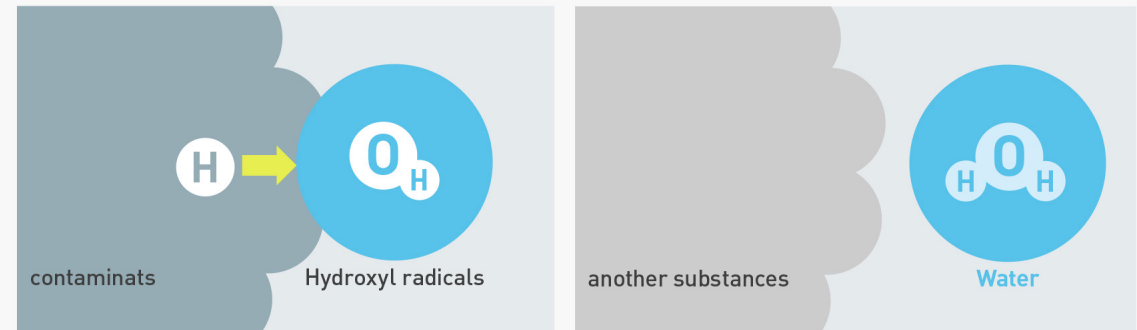

The hydroxyl radicals in nanoe™ X are wrapped in water and survive 6 times longer than typical air ions.

nanoe™ X particles

nanoe™ X particles are nano-sized electrostatic atomized water particles that contain hydroxyl radicals.

How nanoe™ X works

Hydroxyl radicals extract hydrogen from contaminants when they come into contact with them.

Contaminants are denatured into another substances.

# Ceiling-embedded nanoe™ X generator

Hygienic and comfortable cabin space with nanoe™ X

## Features

nanoe™ X spreads throughout the cabin,  
penetrate into fibers to inhibit contaminants

More comfortable cabin by installing  
nanoe™ X generator in the ceiling

- Stylish with seamless design to the ceiling.
- Cool with high quality exterior decoration.
